At Holden the record is Heralds, 4; Tribunes, 2; "News," 34.

The funeral ceremonies over the remains of Joseph Hogan, the missionary who was drowned in Holland some months ago, will be held in Bountiful tomorrow at two o'clock. The body was disinterred and sent to this count and arrived this morning. Elder los S. Wells, who was the president the European mission at the time of Elder Hogan's Ceath, and others from this city will attend the services. The quartette consisting of Messrs Pyper, Whitney, Patrick and Spencer has been

requested to furnish the music. E. M. Nokes of Riverton was in Salt Lake yesterday with a twig filled with Italian prunes. The bunch weighed only four pounds and contained over fifty prunes all perfectly formed and of large size, which clunk to the twig like a mammoth cluster of grapes. Mr. Nokes has fifteen acres under cultivations. tion and has 900 prune trees, which will average a bushel to the tree. His or-chard, he says, is under the finest cul-tivation of any in Utab and an object lesson to any fruit grower in the State.

STOLE HINES' OUTFIT. Superintendent of Waterworks Loses

Horse and Buggy, Which is Found.

Superintendent Hines, of the waterworks, drove to the City and County building yesterday to attend to some business and when he came out, to his surprise, his horse and buggy were non est. Naturally the superintendent thought his rig had been stolen and he notified the police officials. A complete description of the outfit was given to the pelice and they promised to look after it. Late in the afternoon word came from the estray pound that two boys had left a horse and buggy there, and later it proved to be Mr. Hines' rig. The youngsters whoever they are had a good ride and then drove to the

estray pound and left the outfit. Cured of Chronic Diarrhoea After Thirty

Years of Suffering. "I suffered for thirty years with diarrhoea and thought I was past being cured," says John S. Halloway, of French Camp. Miss. "I had spent so reach time and money and suffered so much that I had given up all hopes of recovery. I was so feeble from the effects of the diarrhoen that I could do no kind of labor, could not even travel, but by accident I was permitted to find a bottle of Chamberlain's Colic Cholera and Diarrhoes. Expends and after the and Diarrhoea Remedy, and after tak-ing several bottles I am entirely cured of that trouble. I am so pleased with the result that I am anxious that it be in reach of all who suffer as I have."

COUNCIL REJECTS ALL BOND BIDS.

New Ones To Be Solicited and Submitted Next Week

THE COMMITTEES' REPORT.

Members Claim that the Rate of Interest Should be 3% Per Cent Instead of 4.

The City Council met pursuant to adjournment last evening and heard the report of the mayor, city attorney, and committees on finance and laws with respect to the bids received for the \$250,000 municipal bonds. The report recommended the rejection of all bids and advised the soliciting of new ones. Following is the report in full:

"Believing that the bids made for the \$250,000 municipal bonds are not as good as the city is entitled to receive and that a better price can be secured by calling for bide again, we recommend that all bids be rejected and the recorder instructed to return the cer-tified checks to the bidders and that the joint committee and the Mayor be authorized to receive new bids which shall be submitted to the City Council at its next meeting."

It was learned that Mayor Thompson and Chairman Robertson have received much better offers than the ones sub-mitted Tuesday evening, and the sentiment among those comprising the com-mittees is that the rate of interest should be 31% per cent instead of 4 per

As the Republican State convention occurs on Tuesday next, the probabil-ities are there will be no meeting of the Council until Wednesday or Thursday evening.

CITY TO GET MORE WATER

City Engineer Kelsey Appropriates Water Now Going to Waste.

Files a Notice With County Recorder to Appropriate Big Cottonwood Creek Losses.

City Engineer F. C. Kelsey, on behalf of the municipality of Salt Lake, has filed for record notice of appropriation of all the unappropriated surplus, undeveloped and lost waters flowing in and of Big Cottonwood creek and collected and flowing from the watershed of the creek and canyon underground at and near the mouth of Big Cottonwood, and for ten miles up from the mouth of the canyon. The loss by seepage, about 25 per cent in ordinary years, will be saved, it being the intention of the city to lay a pipe or conduit, thirty inches in diameter, in the channel to carry all the water from where the welr of Salt Lake City is located to the Green ditch, a distance of about two and a half miles down the creek. The quantity of water thus saved will be delivered into another pipe at a point near where the tail race of the old Granite paper mill empties into Big Cottonwood creek, thence by a 48-inch pipe for a distance f ten miles into the city's system of

aterworks. The notice of appropriation says no interference with or diminishing of the quantity of water flowing in the creek is intended, but the full quantity of water they are entitled to will be delivered to all other persons owning water rights in the creek, and the city will respect the rights of Brown & Sanford, McGhie, Christensen, Harper, Taylor, Upper canal, Ellison, Newman, Gunderson, Tanner, Knudsen's mill power, Severson & Green and all other rightful appropriators. The maximum flow appropriated is seventeen cubic

The appropriation also says that it is the intention of the city to develop and collect from the watershed adjacent to Big Cottonwood creek and canyon such water as sinks into the ground and ha never been used or appropriated, and can never be otherwise used. To do this it is intended to run a tunnel, four feet wide and six and a half feet high, from the old Granite paper mill to the mouth of Big Cottonwood canyon to connec with the 48-inch pipe corrying the other water to the city. By the tunnel it is intended to develop thirty-eight cubic

feet of water per second.

State Engineer Gemmell sanctions the scheme of Engineer Kelsey and says the plan is quite feasible. He also says that the carrying out of the plan proposed by Mr. Kelsey will not interfere with the rights of others.
