

CHICAGO is making an effort municipally to have Sunday kept decently, so far as the shutting up of beer and liquor stores is concerned. The opposition yesterday to the measure was small—only three instances, and those of small beer-grazing shops. This action of the Chicago municipal authorities is commendable and worthy of support from all the citizens who wish their enterprising city to enjoy a reputation for good order and order, decent observance of the Sabbath day of rest.

It is a very good thing that the great city of the Lakes is not blessed with a perverse federal judiciary, who delight in issuing injunctions for the special purpose of hampering the municipal authorities in their commendable endeavors to maintain a creditable degree of law and order.

THE dispatches state that the New York papers are anything but sweet upon the lectures of Froude, the historian, and his endeavors to present to the New York public his views of the relations of England and Ireland with each other. That is what might have been expected. The Irish vote and influence in New York are evidently too powerful for any person to expect with approval in expressing equitable, candid, and unimpassioned views relating to the political condition of Old Ireland. It is a very rare thing in that city or in many other of our large cities to find a public man who has the moral courage and the confidence to run counter to the Irish vote. If Froude wishes for triumphant success, he should take a view of things favorable to the Irish, other considerations ignored, and present his views in demagogic style. Then his lectures might be a brilliant success.

THE Dutch are perfectly at home in the matters of drainage, embankments, dykes and canals. Their country was won and is preserved from the domination of the ocean by these means. Our settlers have done much in the way of canalizing and ditching, but in that business they cannot "beat the Dutch" yet. They are now building a canal to give Amsterdam a quicker passage to the Atlantic than she now possesses. The canal runs nearly east from the Zuyder Zee at Schellingswoude across the narrowest part of the Peninsula to the North Sea at Gelsen, to cost \$16,000,000, and to be large enough in the narrow parts for two ships of the first class to pass each other. An immense lock at each end of the canal has just been completed, and the canal is to be finished in two years. The canal is expected to bring Amsterdam within two hours of the ocean and be greatly instrumental in perpetuating her commercial prosperity.

## BY TELEGRAPH.

## WESTERN DISPATCHES.

VISALIA, CAL., Oct. 20.—The race for \$2,000 between John Smith and John Chinaman, running half a mile, was won easily by the former, time 43 seconds, said to be the fastest half mile on record, with 125 pounds. Another \$2,000 match was made for the 300 yards between Bull and Stockton horse.

Several light earthquake shocks were felt during the night.

PROCTOR, N. Y., Oct. 20.—Lyman E. Fuller was today sentenced to 15 years imprisonment in the State prison for killing Fanny Peterson at Ballston two months ago.

Bullion shipments through W. F. & Co. from Oct. 1st to 16th inclusive, amounted to \$228,477.32.

On Nov. 1st, Traders Express will establish a daily line of stages between Pioche and Hamilton.

One mile of grading of the Pioche and Hamilton railroad has been completed. The entire road will be finished before July 1st.

In the district court today fourteen persons were admitted to citizenship.

BROCKTON, MASS., Oct. 20.—A fire this morning, Oliver's barn was destroyed by fire. Loss estimated at \$3,000. The proprietor had some 2,000 in coin in the building, which he found to-day without being hurt.

Mr. T. A. Lewis was in a fearful, fatally stabbed in the side at Comanche this morning, while attending a ball.

A Chinese man was found lying in a dying condition and a hospital ambulance was sent to his assistance. She was evidently placed there to die and was buried at the morgue.

Los Angeles, Oct. 20.—The Arizona Miner, Prescott, October 12, has the following:

"On Sunday last John Cook, living near Prescott, was shot and instantly killed by a Mexican named Nevins. It is a singular fact that the wife of the murdered man has, for several years, had three children, all of whom have been murdered."

A letter from Camp Grant says Col. George Wolcott, of the Texas Pacific railroad, arrived here yesterday in command of Major General Sherman's army, left Grant last week for Camp Bowie, via Arvin, Edwards and Valley. His two parties are expected to arrive here in a few days from Tucson. They will examine Arvin Valley for railroad purposes."

MOCK, N. Y., Oct. 20.—A serious cutting affair occurred at Comanche, about 10 miles from here yesterday, resulting in the killing of one and seriously injuring another.

ST. FRANCISCO, Oct. 20.—During the week 230,336 cents of wheat have been received in this port from the interior and 54,630 cents shipped.

The total take-off of corn of corn and bullock and calves during the week was \$838,000.

The Hale and Norcross Mining Company levied an assessment of one dollar per share, delinquent to Oct. 1st.

The Nevada Mining Company has declared a dividend of one dollar share. As the ship Edmund Kimball was going to sea this p.m. the crew mutinied because they were one man short. A force of 100 men were sent to the ship to quell the mutiny.

San Francisco, Oct. 20.—A terrible case of suffering has come to light on N. 10th street. A man confined to his bed for several weeks, unable to move, who with his wife and three children, and a fourth, born only three days ago, when visited by neighbors, had not a mouthful of bread in the house and were actually starving for want of food. Neither the husband nor the wife would help each other, both being confined to bed. The children were on the floor, crying for something to eat.

Last night John Hagerty was arrested on a charge of arson for having on three occasions set fire to the premises of Mrs. Eliza A. Forman.

SAFETY, 20.—A lively affair occurred in a saloon at the corner of Sacramento and Kearney Streets, at half past 2 in the morning, between Peter Roach and a man who gave the name of James Buckler. The latter fired a pistol and missed his mark. Roach advanced upon the assailant with a sharp pointed fruit knife, wounding him several times, and severed the artery over the left temple, cutting the left ear and inflicting two stabs in the back. The knife went back on Roach and cut him in the hand. Both parties were arrested.

To-day three boys, Henry and Alfred Stephens and Francis were hunting on Lombard street, when, as Francis was leading one of the barrels of his gun, the other was discharged, the entire charge hitting Henry Stephens in the neck, just under the jaw, inflicting a severe and fatal wound.

The dead body of a man that was unknown was found floating in the Bay this p.m. It was picked up by the Captain of the Vallejo and taken to the morgue.

Late this p.m., Wm. Clark, a barbery coast runner, attempted to go through a drunken man. He was caught in the act and arrested for attempting highway robbery.

## WESTERN NOTES.

A farmer in Tulare Co., Cal., raised a half acre of rice this year. The yield per acre was large.

Baker county, Oregon, does on a team squashes, the smallest of which weighed 70 pounds and one of the largest 112.

A correspondent at Baker City, Oregon, says that the principal amusements of that place are horse racing, monte and litigation.

"Wappato Dave," an Indian, has been held to answer before the grand jury of Marion, Oregon, on the charge of murdering his first degree, for killing his sister-in-law.

An old man who had never seen a railroad nor a locomotive went to Albany, Oregon, the other day, and as he saw them for the first time, he thought of him, and he actually fainted away.

There are from five to six thousand acres of vegetable gardens laid out and planted around San Francisco, at Mission Bay View, the Lagoon, near Black Point, and other localities. From three hundred to a thousand men—according to the season—are employed in these gardens.

A turtle, weighing 600 or 700 pounds, was caught in the kelp in San Diego harbor, October 12. It was to be sent to Woodward's Gardens, in San Francisco.

A large number of persons have been indicted at the term of Court held in session at Walla Walla, Washington Territory, for playing the game of faro and kindred games of chance.

The report of the Oregonian, Volante is in receipt of a monstrous, Medusa-shaped potato, of the class of Medusa. It consists of eight potatoes of much more than ordinary size, connected a la Siam (twins), and weighs about nine pounds.

A new bank, with a capital of \$200,000, to be known as the Commercial Bank of San Diego, is to be run on the principle of a savings bank in addition to the regular banking business, is to be immediately commenced in San Diego.

An immense horse, nineteen hands high, and weighing 1,700 pounds, was on exhibition in front of the Merchants' Exchange in San Francisco the other day. The animal was raised in Yuba county, Cal.

There are at present a large number of Mexican exiles in San Francisco, principally from the State of Sinaloa. They comprise merchants, capitalists, lawyers, politicians and others of various grades.

A fair was recently in progress at Olympia under the auspices of the Western Washington Industrial Association. It was to last four days and wind up with a grand ball in which all the dancers west of the Cascade Mountains and east of the Columbia River and the 49th parallel were to take part.

A man in Sausalito, Cal., lately having for some time back noticed that his pigeons were mysteriously disappearing, made a search into his pigeon house and found that four or five large owls with six young ones, had taken up their residence in the house, and the disappearance of the pigeons was accounted for.

Two Chinamen got into a row at Sparks, Oregon, last week, when one of them committed a most fearful outrage on the other. "The details are too horrible to relate," says the writer. The perpetrator was thrown and taken to Union under guard.

At Truckee lately great excitement was caused by the report that Laura Fair was in town. A large crowd gathered in front of the hotel, hundreds of men in to look at the name of "Mrs. Fair" on the hotel register, and the Truckee band was preparing for a serenade, when the landlord told them his guest had never been there.

One day last week, says the San Luis Obispo (Cal.) Tribune of October 12, a small dog belonging to Mr. Logan, who lives on one of Steele Brothers' dairy ranches, was chased into the house and under the bed by a wildcat. Mr. Logan hurried to rescue his pet, but the wildcat came from the jaws of the destroyer, but before he could bring his finger to bear on the animal, it had already seized his dog's head and was about to swallow it.

One day last week, says the San Luis Obispo (Cal.) Tribune of October 12, a small dog belonging to Mr. Logan, who lives on one of Steele Brothers' dairy ranches, was chased into the house and under the bed by a wildcat. Mr. Logan hurried to rescue his pet, but the wildcat came from the jaws of the destroyer, but before he could bring his finger to bear on the animal, it had already seized his dog's head and was about to swallow it.

gin again. Refusal to "represent" forfeits the stake already up. There is only four blocks to go. The scheme looks encouraging, but of course, in reality only a swindle.

## EASTERN NOTES.

In Springfield, Mass., the street cars bear the inscription: "Will you ride?" A Missouri mother lately found her infant sleeping on the floor with a snake coiled up on his breast.

A leading clergyman of New York considers ritualism "merely a matter of candles and nightgowns."

A Danbury man has an interesting heirloom in the shape of a hat which was worn during 1822 drunks, and still retains traces of its former beauty.

It is said that there are several ministers of the Protestant Methodist Church in the city of New York who hold conventional services and hold mass every morning.

Chicago has a shooting gallery for the exclusive use of young ladies, among whom there is a growing restlessness to become proficient with rifle and pistol.

Another criminal's head came off recently while they were trying to hang him. The head fell off at the neck, and occurred in Dublin a year or two ago in trying Professor Houghton's plan of a 14-foot drop.

Presiding his "Triz" in the Unitarian denomination. His church in St. Louis is almost in despair for a pastor in place of Rev. Dr. Elliot. Its last offer of \$6,000 a year to a young man settled in New England came back with the demerit of nothing less than \$9,000 and three months' vacation.

The Arizona diamond humbug is thrown into the shade by a New York Herald sensation story about the manufacture of diamonds at a foundry in Brooklyn by the combustion of various chemicals. The author of the story says that 15,000 pounds of diamonds have been made, and half of them have been sold for \$24,000,000.

Judge Allison, in a Philadelphia Court, recently gave a decision which clearly remove the hat of a Quaker, who, according to the usage of the Society, kept his head covered in Court. This has never before happened in Pennsylvania. It is one of the incidents of William Penn's trial in the Mayor's Court in London. Now it has happened in the State that William Penn founded.

About Richard Paulsen, of Hackensack, New Jersey, gathered on October 12th of his children and children's children, who came to do honor to their progenitor upon the occasion of his 90th birthday. They came from East and West, North and South, each bearing an appropriate gift for the old gentleman. Mr. Paulsen has voted at every regular election since George Washington's second term.

James Gordon Bennett, late editor of the New York Herald, left a large bequest to his wife, upon the condition that she remained a widow. This condition will be a direct bar to the two cases of confluent small-pox, dusting it, in the powder, over the faces of the patients as soon as pustules became fully developed. This is a very dangerous, wholesome and, absorbing the infectious material, and sealing off during convalescence, leaving an underlying skin in its natural and normal state.

The painful itching which is the worst characteristic of the disease, was entirely abated. The search was fine pipe clay. — Washington Star.

The value of earth as a disinfectant and deodorizer is well known, and the virtues of this material in the treatment of wounds with it is becoming very general. A new application has lately been described by Dr. E. S. Barker, who states that he has recently used it as a dressing for the face of a patient who was a direct result of the two cases of confluent small-pox, dusting it, in the powder, over the faces of the patients as soon as pustules became fully developed. This is a very dangerous, wholesome and, absorbing the infectious material, and sealing off during convalescence, leaving an underlying skin in its natural and normal state.
