SAVE YOUR HAIR

TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S

KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles, of which the following is

A FAIR SPECIMEN

I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.

COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequaled.

1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.

FORTY-SIXTH CONGRESS.

EXTRA SESSION.

HOUSE.

WASHINGTON, 24.—A motion to adjourn was made by Stevenson and was carried by a combination of republicans, greenbackers, and some democrats; yeas 89, nays 79.

The House thereupon at 9 a. m., adjourned to meet at noon to-day.

Ryan's amendment is in the nature of a substitute, upon which the republicans desire to vote. It provides for the coinage of a silver dollar of 412½ grains, which coins shall be legal tender for all dues and debts, public and private, except where otherwise expressly stipulated in the contract. The Secretary of the Treasury is authorized to purchase from time to time silver bullion at the market price thereof, sufficient to carry out the provisions of this act, but the amount of money at any one time invested in such bullion, exclusive of coin shall not exceed $10,000,000. The Secretary is also authorized to coin such silver bullion into dollars as fast as the same can be done—not, however, to interfere with the coinage of gold under the existing law, provided nothing in this act shall be so construed as to authorize silver certificate deposits issued under the provisions of section 254 Revised Statutes. This section provides that when the price of standard silver bullion shall equal the nominal value of the standard dollar, the owner of the bullion may deposit the same to be formed into bars or dollars without charge for his benefit. Section three provides that any holder of coin authorized by this act may deposit the same in sums of not less than $10, and receive therefor certificates of not less than $10 each. Coin deposited for or representing certificates, shall be retained in the Treasury for the payment of the same on demand. Said certificates shall be receivable for customs, taxes and all public dues, and when so received, they shall be re-issued.

The legislative bill as enrolled was presented, signed by the Speaker and sent to the Senate for the signature of the presiding officer of that body.

Bickner introduced a constitutional amendment as to the election of President and Vice-President.

The House then took up as business of the morning hour, the bill relating to the transfer of cases from State to Federal courts, the question being on seconding the main question. On that vote there was no quorum, and the call of the House was ordered. The call showed present 185 members. The abortive attempt to get a vote on seconding the previous question occupied the entire morning hour.

Then Chittenden obtained the floor and explained his recent use of the word "damned," which was in a strictly orthographical sense. [Laughter.]

McCook followed with an apology for the remarks made by him this morning, and asked that the whole colloquy be omitted from the Record.

The Speaker stated he would give instructions accordingly.

The post route bill was then passed and the silver bill was then taken up.

A vote was taken on Ryan's substitute and it was defeated, ayes 64, nays 137. A vote was then taken on the passage of the bill. The vote resulted ayes 114, nays 97, and Warner's silver bill passed. The House then adjourned till Tuesday.

EASTERN.

The Brooklyn Fire.

NEW YORK, 24.—From midnight to noon to-day, property being destroyed by the Brooklyn fire was floating over the wharves into the river until half or three-quarters of a million dollars have vanished.

The fire in Fowler, Crompton & Co.'s linseed mills, extending from 55 to 63 Furman St., burned all night, and the owners estimate their loss at from $250,000 to $300,000.

Storehouse "D." of Watson's stores, the lessees being Bartlett & Green, burned fiercely. It was filled from the ground floor to the roof with sugar, jute, hemp, cotton and other material. As the fire continued, the mixture of water and sugar came from the windows and doors in a large flow. At ten this evening, with all the streams upon it, it was feared the flames would communicate to other stores, but by the persistent work of the firemen, apprehensions were allayed. Bartlett & Green stated the loss would probably reach half a million dollars, but did not know who the owners of the property were, of whom there might be 50 or more. At noon, laborers were set to work removing the goods in storehouse "C" adjoining, as they were being damaged by the water. Danger was also anticipated from the walls bursting through. Engines still play upon the burning pile, and the firemen are nearly exhausted by continuous hard work.

The Silver Bill Summarized.

WASHINGTON, 24.—The following summary of the provisions of the silver bill fixes the weight of the standard silver dollar at 412½ grains. It authorizes the owner of silver bullion to deposit the same at any mint, to be formed into bars or standard dollars; makes charges for coining such bullion the difference between its market value in New York and legal tender value of coin; makes subsidiary silver coin exchangeable at the Treasury for legal tender money to the amount of $20; make the standard silver dollars legal tender in all payments at their nominal value; requires the Treasury to pay out coin without discrimination, the same as gold coin, in liquidation of all kinds of coin obligations against the government; authorizes the issue of certificates to depositors of gold or silver coin or bullion; also authorizing the issue of certificates representing coin in the Treasury in payment of interest on the public debt. Both classes of certificates are to be receivable in payment of duties on imports. The certificates for bullion deposited are to be for its average market value in coin of like metal during the preceding week in New York and San Francisco. Gold and silver bullion deposited is to be coined to the full capacity of the mints, in connection with other coinage, and if the bullion deposited for coinage does not amount to $2,000,000 per month, the Treasury is to purchase sufficient silver bullion to coin that amount. The act is not to be construed as authorizing the coinage of silver except into standard dollars.

WESTERN.

Prospects and Expectations of the California Workingmen, Republicans and Democrats.

SAN FRANCISCO, 24.—The workingmen will have a grand torchlight demonstration, this evening, in honor of the adoption of the new constitution. The parade was twice postponed on account of the weather.

The contest in the coming campaign seems now fairly made up, so far as it is possible until after the several conventions meet. The workingmen's convention will assemble June 3rd, and great precautions have been taken to ensure the nomination of a ticket free from any complications with other parties. It is expected that an effort will be made by the new constitution party to capture the convention, but the present outlook is not favorable to the success of the project. In this city the ward clubs have pronounced in the strongest manner against an affiliation with the new party, which they vigorously condemn as a movement on the part of scheming politicians to rob the workingmen of the fruits of their victory. In the interior some few workingmen's clubs have pronounced in favor of the new party, but the great majority thus far heard from, especially in important places, have come out squarely in favor of the straight workingmen's movement. The new party have called a convention for June 23rd. At present the movement seems to have but a meagre following, and in the city all efforts to organize clubs have resulted in a complete fizzle. A number of clubs have been formed in the interior, mostly in minor precincts.

The fight between Kearney and the *Chronicle*, as the exponent of the new party, has assumed the bitterest possible tone, and indicates an irreparable split in the vote by which the new Constitution was adopted.

The republican convention is called for June 17th. A proposition was made to postpone it in view of a possible combination, but the overwhelming sentiment of the party and the State central committee is in favor of no delay and straight republican nominations. The greatest confidence is expressed in the ability of the party to sweep the State by a handsome plurality.

The democrats, who are in a hopeless minority, have postponed their convention to July 1st. Many believe that in view of the depleted condition of the party a better portion of the rank and file will vote with the republicans, while others predict that an alliance will be formed with the new party. There seems no reason, however, to doubt that the party will make straight nominations to maintain an organization.

Progress of the Tunnel Drain.

Progress of the sub-drain of the Sutro tunnel for the week ending May 22nd, is 2,625 feet. There yet remains 8,000 feet, which will be almost certainly completed by the middle of June, and the boxes will be in place by the end of June, ready to receive water from the mines.

The Fire in Dallas, Oregon.

The total loss by the fire at Dallas, Oregon is estimated at $200,000. It started in the Pioneer Hotel and swept all the buildings on Front Street, from the bridge to Riverley's drug store, with the exception of Baldwin & Moody's stone building. The buildings on the river side of Second Street are also burned for some distance. The Oregon Steam Navigation Company's office and engine house, the Umatilla House, and a number of the principal business houses are destroyed. The amount of insurance and individual losses are not yet ascertained.

DON'T DESPAIR OF RELIEF, for this benign specific may cure you, even though professional aid fails.

READ THE FOLLOWING:

Dr. D. D. Wright, of Cincinnati, sends us the subjoined professional endorsement. "I have prescribed Hall's Balsam in a large number of cases and always with success." He adds that "in one case a patient with every appearance of confirmed consumption was restored to his usual health soon after commencing to take the Balsam."

John Kuhn, of Lafayette, Ind., writes: "One year ago I was to all appearance in the last stages of consumption and got so low our doctor said I could not live twenty-four hours." Mr. Kuhn further states that "after taking nine bottles of HALL'S BALSAM he is now in perfect health, having used no other medicine."

The above brief extracts are taken from a

MASS OF EVIDENCE

which has been accumulating during a period of TWENTY-SEVEN YEARS, proving at all times of HALL'S BALSAM alone the affections of the breathing organs are effected, and showing the estimation in which the remedy is held by the public and medical profession. Sold by all Druggists.

Price $1.00 per bottle.
