THOSE VAGRANCY CASES. Sentences in Six of Them Were Cor-

rected With the City System.

In Judge Timmony's court this morning, the cases of Victor Pinet, Victor Lagresie, Edmond Temoin and Julius Patron, four of the Frenchmen convicted of vagrancy, came up before the court for a reconsideration of the former sentence of \$100 fine and 90 days' imprisonment.

Attorney Truman, counsel for the de-fendants, objected to the court making any change in the sentences whatever, but his motion to allow the order of the court to remain as it was, was denied. Judge Timmony said that having passed inadvertent sentence in the four particular cases, the sentences would be corrected by striking out that part relating to a fine of \$100, so that now the sentence stands, 90 days in the city jail at labor. Attorney Truman noted an exception to the rui-ing of the court, and the cases are to

Late Saturday afternoon, in the cases Leon Servis and Daniel Picot, Judge Hall found that the sentence was in excess of the jurisdiction of Judge Timmony, and they were sent back to that court for resentence. They were then sentenced to 90 days at hard labor, Their cases are also to be appealed. The new trial granted to Adrain Pin-

APOSTLE SMITH ON MEXICO.

Tells of His Recent Visit With President Diaz.

A GREAT AND HEROIC MAN.

Mexican Officials Give "Mormons" Cordial Welcome - Elder Platt D. Lyman on European Mission.

The services in the Tabernacle yesterday afternoon were presided over by President Angus M. Cannon, and were opened by the choir and congregation singing the hymn, "Our God, we raise to Thee,'

Prayer was offered by Elder James L. McMurrin after which the choir sang the hymn, "Sweet is the work, my God, my King."

The first speaker was Elder Platt D.

Lyman, late president of the European

mission. He said he was thankful for the privilege of meeting with the Sainis in Zien. As a rule the people of the world are not vitally interested in reigion, but still the training the people f Europe have had under the mother hurch has left its impress on the copie even after they have allied emselves with other churches. The speaker stated that he had met good onest people everywhere he had gone and some of these people have a satisfied feeling that the "Mormon" church is not the church of God. They are hedged about by prejudices, and when the Elders are able to break through at times and explain the Gospel the pec ple are astonished. President Lyman said that the European mission was in a good condition and the Elders are laboring earnestly and accomplishing much good. The impression that is Idespread that Great Britain has been thoroughly warned is a mistaken one. There are, he said, many people in Liverpool and London and other parts f England who have never heard the Gospel and who do not even know that the Elders are in their midst. It is rue that in some sections it would be wise to withdraw the Elders as the field has been thoroughly worked, nore true in regard to England than any other country. The work is grow ing in Switzerland, Holland and Germany and the only reason that it is growing more rapidly is because there are not more Elders. In Germany, especially in Dresden, the Elders were restricted very much some time ago. They were not permitted to sing or pray, but those restrictions have been removed and the Elders there are en-

joying much more liberty than hereto-President Lyman paid a compliment to the lady missionaries, saying that the "experiment" had proved an un-qualified success. They have accomolished as much good as the Elders have, and they are earnest, humble, industrious workers and their efforts

Elder Lyman said that he had filled | day or so. three missions in Great Britain and there had not been one day or moment he regretted having been called o that mission. Of the many hundreds of Elders who have labored under hin the great majority of them were devoted and valiant servants of God. The Lord has been with the missionaries and the Saints, and every day the hand of God in the great work that the world calls "Mormonism."

Elder Lyman suggested that the Saints who gather to Zion should be treated with more courtesy and loving kindness. It is hard to make the Saints abroad understand that they will meet greater trials in Zion than they have met at home. 'I want to appeal to you brethren and sisters," said the speaker to receive the Saints from abroad with love and kindness. They here homeless, homesick and pondent and the help of the Saints should be thrown around them until their feet are firmly established here in the land of Zion. The speaker went on to ask the people to be thoughtful of the strangers who come from abroad, and before closing mentioned that there one Elder laboring alone in Iceland mong a dozen members of the Church.

here are four Elders in Turkey. al though separated from each other, but abors. In closing Elder Lyman bore a strong testimony that Joseph Smith was a Prophet of God; that he resived the Gospel and thousands have ceived a witness of the truth

The next speaker was Apostle John Henry Smith. He said he was interested in the report that Elder Lyman had the old world. The Saints had proven by their experience that the people of the world were very generous, and while they had not accepted the Gosel so readily yet they must be spoken

Elder Smith then turned to his recent trip to Mexico, where he had the privitegs of viriting a portion of the "Mormon" colomes there. They are reasonably presperous and happy and the circumstances surrounding them were fa-vorable. After visiting the colonies the speaker had the privilege of visiting the governor of Chinahua, whom he found to be an intelligent and kindly man. The governor was very much satisfied with the work that the colo-nies are doing in Mexico. He gave El-ders smith and companions a letter of introduction to one of the government officials in which he spoke of them in high terms. Elder Smith further stated that in his recent trip to the south his heart had been deeply touched for the Indian races in North and Scuth America. To them must be carried the Gospel because that is the triesion of the Latter-day Saints. In his brief study of the native races of Mexico he found a gentle and considernte people there, who had been crushed in the past and the years of serfdom cany yours has killed to a great exgion that they have existed under for

speaker reminded the Saints that the people of Mexico as well as all other people must see the light of cas not far distant when the natives signed by their Maker, and would be entaged in building temples to the vice by communicating with J.
