by this means work out enough make a share when he could not reach it in any other way.

The coal famine, as we have previously shown, is not confined to this region. It extends all the way east as far as Chicago, where much uneasiness is felt in consequence of the very short supply of fuel on hand, mand the closing of navigation from the severe and early frost. Recent gold pieces, Congress to be asked to news from that city says: gold pieces, congress to induce banks to

"Over fifty thousand tons are now alloat for Chicago, but is unable to reach here, and the movement of general freight westward is so great move the coal this way, while the stock of hard and soft coal is unusu-cortificates proceed to dollar issued by the government, the treasury to issue gold and silver ally light. The dealers report that the demand has never before been so great, All the manufacturers in the city are at work, and the activ-ity on the rallroads is beyond all precedent, and the laboring menhave been receiving such good wages. that they want to burn two fires where formerly one sufficed Many of the furnaces are running day and night, thus largely increasing the consumption of coal. Eastern coal is now selling at from \$6 to \$7 a ton." ing adjourned.

The Omaha Herald remarks on this subject:

"The coal famine seems to extend everywhere. It is said that the cit-izens of Kearney recently took pos-session of a car loaded with coal and emptied it. Some of the best citizens of the town micht have been seen of the town might have been seen gers he represented himself as Lord lugging home bags filled with coal belonging to the railroad. It was a Courtney, nephew of Lord Durham, case of freeze or steal, and they pre- and succeeded in imposing on many. case of freeze or steal, and they preferred stealing."

He made the acquaintance of Mrs. Col Floyd, of Philadelphia, who was a passenger, and gained her confi-If the Utah Eastern can be completed to the Summit, much relief can be easily afforded to this market It will take two days to make the journey to Kimball's and back, and when the road between the two to the Clarendon Hotel, but too late. points named is broken up by a Scotland Yard detectives sent on his thaw, to haul a heavy load over it will be very difficult. But good teams could make the trip to Summit and back in a day and bring paying loads. With a fittle more rolling stock, which is confidently expected scene the marcow grage expected soon, the narrow guage & Co. Hereceived the draft for the could dump a hundred tons a day at its terminus, for the Salt Lake market, over and above its contracted mount for the Ontario the maxi market, over and above its contracted amount for the Ontario, the maxi-mum of which is sixty tons per diem. Even if but half of this quantity was brought daily into this city it would materially improve the situa-tion, and relieve the horror of the prospect of the consequences of pos-sible anow blockades on the Union Bediffer which is at means the Union Pacific which is at present our sole source of fuel supply. The new road is a necessity, and those who help to mittee on organization bring it within easy access will. prove themselves to be public benemany Hall den

Bullion Club Recommendations. NEW YORK, 1.-At the Ballion Club last evening resolutions were adopted favoring the withdrawal of small notes, the coinage of smaller south and southwest and part of the eastern coast. keep their legal reserves in coin, in stead of greenbacks, reserves of gold and silver in the treasury to be in-

No amount of legislation, however concillatory, can wipe out the nation-alist feeling in Ireland, and the Mar-quis of Salisbury expressed as much when he declared that a Govern creased until there is a dollar in gold and silver for every greenback ment policy could never be wholly successful in Ireland until all the successful in Ireland until all the disorder had first been crushed out and the supremacy of law restored by the operation of superior force. His lordship emphatically charged that the present Irish troubles were directly traceable to the temporizing legislation of the Gladstone Govern-ment of 1870 and he predicted that certificates upon deposit of ballion, and a new mint to be crected in the city of New York for the accommodation of importers of foreign bul-tion who are now without proper facilities to convert the same into American coin, Professor W. Frank ment of 1870, and he predicted that Stewart made a few remarks on the evil results would follow every new attempt to bring about harmony and prosperity in Ireland by similar methods. If Lord Salisbury's ut-terances are to be accepted as the inspiration of Lord Beaconsfield, mines of Maine, and after passing a resolution in memory of Mr. H. C.
