

# UNION MINERS ARE CALLED OUT

## Strike Ordered Because Demands Not Complied With.

### STOPS WORK ON BIG TUNNEL

At Cripple Creek - Managers Characterize the Action as Arbitrary and Wholly Unjustifiable.

Cripple Creek, Colo., Aug. 13.—Union miners working in the drainage tunnel were called out today by their executive officers. The tunnel, which will drain most of the big mines of the district, would be completed in another week at the rate of progress heretofore maintained. The strike was ordered in consequence of the refusal of Supt. Balch to employ only union men.

"We will complete that tunnel if it takes the United States army to protect the work, and if it is necessary for us to put on our working clothes and go to work ourselves," said President Samuel Bernard of the I. M. M. company which has the contract for building the tunnel.

It is not unlikely that within 24 hours the mine owners and high salaried mine managers will go into the big bore to take the places of the men called out today.

There are now 4,000 miners idle in the district. The mine owners and managers today announced their determination to reopen the mines as quickly as possible. In their published announcement they say:

"The Western Federation have seen fit to compel a cessation of all labor in the district, not because of any grievance of their own against the Cripple Creek operators, but for reasons entirely beyond our control. No more arbitrary and unjustifiable action mars the annals of organized labor, and we denounce it as an outrage against both employers and employees.

"As fast as men can be secured our mining operations will be resumed under former conditions, preference being given to former employees, and all men applying for work will be protected to the last degree."

Following the announcement that the mills of the United States Reduction & Refining company at Colorado City and Florence will be closed within ten days, comes the announcement today that the Telluride and Portland mills at Colorado City will close down as soon as their present supply of ore is treated.

"Judge" Showies of Milwaukee Dead  
Milwaukee, Wis., Aug. 13.—John Showies, a saloon-keeper known to almost every one in Milwaukee as "Judge" Showies, is dead of heart failure. He had conducted a saloon here for more than 20 years.

He never sold a mixed drink, declined to sell more than three drinks to a man, and if he knew a man's family suffered because he frequented Showies' place, no price could buy a drink.

"No beer for you, my friend," he would say. "Take your money home to your family. I do not want it; they need it." And he adhered to this rule. Six weeks in the evening was his closing hour, and his best customer was told that business was over for the day.

Another pronounced peculiarity of the "Judge" was his dress, which was of the years before the war. When he walked the streets it was in the dress of the days of Clay and Webster; flowing coat, wide in the leg and generous of girth and collar, of the big flowing kind seen in the pictures of early day statesmen.

He was well educated and a Mason of high degree. Nothing is known of his family.

His death was due to a heart attack.

Smuggled Chinamen Captured.  
Seattle, Wash., Aug. 13.—Immigration and customs officers tonight swooped down on a house at 216 Elliott street, North Seattle, and captured three men and five alien Chinamen who had just a few hours before been landed by a smuggler's sloop which brought them from Victoria. In the capture of Moy Sun the officers found a large quantity of contraband smuggler they have been after for the last eight years. Several times he has been arrested, but has always managed to get off without punishment. The five aliens were taken to the county jail, and tomorrow morning they will go before the United States commissioner.

Threw Cleaver at Him.  
Seattle, Aug. 13.—Robert Howard, first assistant engineer of the steamer Arrow, which recently came to Seattle from Portland, was almost murdered this morning by Ed Dodge, the head cook of the boat. Dodge threw a large cleaver at Howard. The cleaver struck Howard in the side and cut a deep hole, penetrating the intestines. Dodge was arrested.

One of the others on the boat wanted his breakfast later than usual. Dodge refused to give it to him. The matter was reported to Engineer Howard, who told Dodge to get the breakfast at once. A short time afterward Howard visited the galley door, when Dodge threw the cleaver at him.

W. E. COREY RESIGNS.  
Schwab's Successor Surrenders His New Position.  
Pittsburg, Aug. 13.—At a meeting of the board of directors of the Carnegie Steel company held today the resignation of W. E. Corey as president was accepted and A. C. Dickey elected to fill the vacancy. The office of chairman of the board of directors was created and James H. Reed elected. The new president appointed A. H. Hunt general superintendent of the domestic steel works and H. D. Williams general superintendent of the Duquesne plant.

Refused to Extradite Burton.  
Denver, Aug. 13.—Gov. Peabody today refused to extradite the outlawed miner who has been convicted in the Massachusetts courts of having obtained \$25,000 under false pretenses from the Boston & Albany Railroad company. The money was paid to Burton for injuries alleged to have been received in a wreck, but it is claimed he was not injured in such a manner. A writ of habeas corpus was secured in the district court to prevent Burton from being turned out of the state. This will have to be disposed of by the state. He may be taken back. After a hearing is held upon his application will be made to the governor of Massachusetts for a pardon for him.

Arrested for Smuggling.  
Chicago, Aug. 13.—A dispatch to the Tribune from Atlanta, Ga., says: The state department has ordered the United States attorney to institute legal steps against the persons suspected of having smuggled Joseph Terrell Rucker, nephew of Georgia's governor, into the country.

The result of years of experiment

and two other young men from this point on the British bark Kambria. Warrants were issued for the arrest of the captain of the bark and her shipping master. Others said to be implicated are being sought by the United States authorities. The bark left this port one month ago for Santos and will make the trip in fifty days without touching other ports. The British authorities have been notified and other arrests probably will follow. The other boys said to have been taken on the bark are Willie Corbidge of Rome, Ga., and John Seage of Savannah. All three of the young men are minors. Their relatives are among the most prominent people in the state.

MURDERED RUSSIAN CONSUL.  
Pour Parlers Concerning It Still Continue.  
Constantinople, Aug. 13.—All Riza Pasha has been dismissed from his post as wali of Monastir and has been exiled to Tripoli.

The pour parlers at Yildiz Kiosk, with M. Zinovief, the Russian ambassador, relates to the murder of the Russian consul at Monastir continue. The Turks apparently desire to avoid execution.

POPE PIUS X, FORMERLY CARDINAL GIUSEPPE SARTEO.

Cardinal Giuseppe Sarto, now Pope Pius X, is sixty-eight years of age. At the time of his elevation to the papacy he was the patriarch of Venice and one of the most distinguished prelates in the Catholic church, in which most of his work was done as a lowly parish priest. He is strongly liberal in his views as to the proper relations of church and state. Pope Pius X. was born in the little town of Riese, in northern Italy, and was created a cardinal ten years ago. In April, 1902, Pope Leo predicted that Cardinal Sarto would be his successor.

A SENSATIONAL ESCAPE.  
Boone Potter Makes One from Sheridan, Wyo., Jail.  
Sheridan, Wyo., Aug. 13.—Eugene Potter, the notorious desperado, was in North Carolina for the murder of two deputy sheriffs, who were captured 18 days ago by Marshall Cinnelli, made a sensational escape from the Sheridan county jail last night. The combination of the jail door had not been turned and Potter, securing a broom handle and a chair, tied them together with a handkerchief so that the two formed a right angle. With this instrument he succeeded in throwing back the bolt to the door.

Best Sheppard Released.  
Calhoun, N. T., Aug. 13.—Best Sheppard, under arrest for alleged complicity in the murder of Arthur Meade, who was shot by a bandit in a hold-up at West Liberty three months ago, was released today, the evidence against him being insufficient. Sheppard is a business man of this city.

attention to arrange an exhibit showing the evolution of police methods—efficient and modern means for detection and identification of criminals.

TRIOBLE ON LAKE ERIE.  
Dunkirk Fishermen Will Protect Themselves.  
New York, Aug. 13.—Dunkirk fishermen are aroused over the action of the captain of the Canadian revenue cutter Petrol, who turned the vessel's guns on the American tug Silver Spray, says a Herald dispatch from Dunkirk, N. Y.

Drastic measures are to be used by the captain of the fishing tug of this port to protect themselves from the captain of the Petrol, who several weeks ago captured and towed to Port Colborne, Ont., the tug Kitty D., which at the time was in American waters.

Although secrecy is being maintained, it has become known that several of the captains are preparing to meet the captain of the Petrol at his own game. When the Canadian cutter next tries any tactics like those performed with the Silver Spray, it is said to be not at all unlikely that shot will be returned for shot and that Lake Erie will be the scene of a naval battle.

RAISE SPECIMENS.  
Secured by California Academy of Science Expedition.  
San Francisco, Aug. 13.—The first of a series of expeditions organized by the California Academy of Science in this city, which left here in April last to explore the islands of the Pacific coast, has just returned after a voyage covering over 4,000 miles in the schooner Mary Sachs. This party of scientists on board, under R. H. Beck, an ornithologist of note, included A. S. Bunnell, ornithologist, F. E. Barkenl, biologist, R. W. Gifford, conchologist, and J. H. Marks, anthropologist, both calling at one or two places on the coast of Lower California they proceeded to the islands of San Benito and Socorro.

The Decatur Nearly Wrecked.

New York, Aug. 13.—An examination at the New York navy yard of the torpedo boat Decatur, which recently ran aground on Grinstead Neck, off Bar Harbor, Me., has revealed the fact that the boat, instead of merely sustaining damage to its propeller blades, had narrowly escaped being wrecked. The underbody had been scoured by the rock for almost its entire length. The paint had been taken off, and in some places small indentations had been made in the bottom plates. Grinstead Neck is composed of many sharp pointed rocks and the boat's escape from serious damage was miraculous. It was found that the propeller shaft was also bent.

To Remove Chelsea Naval Magazine.  
Chelsea, Mass., Aug. 13.—Arrangements are being completed for the removal of the naval magazine here, which is in danger of being destroyed by a fire in the neighborhood. The magazine is situated in a thickly populated district, and shipping it to a point within easy reach of the Charlestown navy yard, which has not yet been announced. It will supply the Charlestown and the Port of Boston with explosives. At least a quarter mile of coast land in a sparsely settled district having a mile of water front will be needed for the purpose, under condemnation proceedings. A site had previously been selected on Cape Cod, but the owner demanded \$3,000,000, worth less than \$50,000, when he learned the purpose for which it was wanted.

Four Men Crushed to Death.  
New York, Aug. 13.—Four miners engaged in placing timbers in a zinc mine at Franklin furnace, N. J., have been crushed to death by a rock weighing at least 15 tons. They were crushed beyond recognition. Two of the dead men were foreigners, whose names are not known, and two were Americans, named Willis and Stevens.

Kosko near Cleveland, showing that the insurgents are spreading eastward. According to the latest advices from Menemsa dated Aug. 10, the Bulgarians are elated at the death of the Russian consul.

Four thousand troops are bombarding Krushovo, which is in the hands of the insurgents, and the Bulgarians in the Krushovo and Rika districts are suffering severely.

Lord Salisbury Very Ill.  
London, Aug. 13.—Lord Salisbury is seriously indisposed, according to information received here direct from his family at Hatfield house.

The late premier is greatly exhausted and physicians are in attendance.

Cleveland Will Build a Camp.  
Eastport, Maine, Aug. 13.—Former President Cleveland, who is a guest at the camp of Joseph Jefferson, on Moss Island, Lake Umbagog, has decided to build a camp on one of the 33 little islands that dot this sheet of water.

CASTRO'S PLANS.  
Wants to Take Away Trade of Curacao and Trinidad.  
New York, Aug. 13.—President Castro of Venezuela, it is reported, in this city, is formulating plans to take away the trade of the islands of Curacao, Trinidad and the revenue of all given by the Venezuelan government. The British and Dutch islands live in great degree on their trade with Venezuela, being ports of re-shipment for American and European merchandise.

This trade, it is understood, President Castro will endeavor to divert to Venezuelan ports. The re-shipment of goods from there is done by means of small boats, to reach some of the small Venezuelan ports direct. This volume of trade requires the use of many warehouses, lighters and trucks, and makes Trinidad a busy port for American and European goods.

The despatch which is soon expected from President Castro, also will have the effect of placing a check on the wholesale smuggling that is now notorious carried on between the islands and the small ports of Venezuela.

In his administration President Guzman Blanco issued a decree placing an additional duty of 30 per cent on all goods re-shipped at Curacao or Trinidad. These West Indian islands always have been the headquarters of Venezuelan and Colombian exiles and rebels. While the recently suppressed insurrection was being waged against the Castro regime, filibustering expeditions of men and arms are said to have been permitted to depart without a word of protest.

John Conroy Heard From.  
New York, Aug. 13.—John Conroy, who mysteriously disappeared last April 25 from his home at Bloomfield, N. J., and who had been mourned as dead by his wife and two children has been heard from in St. Louis, Mo., where he is employed on a railroad.

Conroy dressed himself April 25 in his best clothes and, accompanied by his son, went out for a walk. When they had gone only a short distance he kissed the lad good-bye, and bade him return home. This the lad did. It was supposed the father had disposed of himself in the Morris canal and its waters were dragging several times in the hope of recovering his body.

Sheehan to Re-enter Tammany.  
New York, Aug. 13.—John G. Sheehan, leader of the Greater New York democracy, will, according to dispatches from Syracuse, have been held with Leader Murphy of Tammany Hall, re-enter that organization, over which he once ruled.

It is said the differences between the Tammany leaders and the seceders have been patched up by Democratic state leaders, with a view to securing cooperation in the next presidential campaign. The details of the alleged plan for cooperation have so far been closely guarded from the public.

Discuss Philippine Currency.  
Washington, Aug. 13.—Secy. Root left today for New York. He will be absent until Saturday. Before leaving he had a conference with Judge Henry C. G. I. financial officer of the Philippine commission, who is on his way to Manila. The currency question was discussed, and in view of the near approach of the date when the new Philippine currency law will be put into effect, the Philippine currency law will be put into effect, the Philippine currency law will be put into effect.

Gen. Miles' Son Arrested.  
New York, Aug. 13.—For riding on the sidewalks without a license tag displayed upon his bicycle, Sheridan, son of Lieut. Gen. Nelson A. Miles, retired, has been arrested near East Hampton, L. I. Upon learning that he had just arrived from Washington and was unfamiliar with the laws, the justice dismissed the case.

Will Erect New Packing Plants.  
Chicago Aug. 13.—The Inter-Ocean says:

Following the announcement that Nelson, Morris & Co. will erect a \$2,000,000 packing plant at Kansas City, Mo., comes the statement that the Chicago stock yards, to be erected at St. Joseph, Mo., to cost approximately \$1,000,000. Plans are now in course of preparation in the construction department of Armour & Co., at the Chicago stock yards. It is thought that the independent movements of the big Chicago packers in the Missouri cities are due to the anti trust policy of the Missouri authorities.

Statement from Architect Cobb.  
New York, Aug. 13.—Henry Ives Cobb, who was removed from the office of special architect of the Chicago federal building, made the following statement today:

"I was appointed as 'special architect' under a special act of Congress, and served under Secretaries Carlisle and Gage. As to the rupture between Secy. Shaw and myself, I have only to say that my methods do not conform with his ideas, and it is better that he should work with someone with less professional reputation at stake."
