Last Night's Dispatches

EASTERN.

One of the Victims — Condition of the Winter Wheat.

WASHINGTON, D. C., 10.—Miss Caroline M. Crane, of this city, one of those lost by the *Schiller* disaster, was niece of the wife of Senator Edmunds, of Vt., with whom she passed the winter in this city. She was a highly accomplished young lady, and was on the way to Europe to spend two years with the family of Minister Marsh, and to study art in Italy.

During the past week the condition of the winter wheat in 330 counties has been reported to the Department of Agriculture. About 300 counties of the valleys of Ohio and Missouri are represented, which last year produced seventy millions of bushels, or sixty per cent. of the product of seven States from Ohio to Kansas; the average condition of these States is 63 per cent., indicating only five-eighths of a full crop, or, if no improvement occurs, in Kentucky 75 per cent., Ohio 57, Michigan 68, Indiana 66, Illinois 68, Missouri 59, Kansas 87, though only thirty-two counties in the latter State are represented. The condition is better in Pennsylvania, Maryland and Virginia, though below an average. A few wheat counties in New York make extremely unfavorable returns, and portions of them will have to be replanted. In other crops the averages are 14 per cent. on the west, or 1,260,000 acres in breadth of nine million acres seeded.

Postal Service Increased—Contract Awarded.

At the instance of Senator Mitchell the postal service has been increased on routes in Oregon as follows: From Dalles to Canyon City, from weekly to a semi-weekly; Corvallis to Newport, from a weekly to a tri-weekly; Ashland to Hinkville, weekly to tri-weekly.

The contract for furnishing the new post office and court house at Portland has been awarded to Isaac Lineheimer.

More Fraud.

Investigations recently made under the direction of the Secretary of the Treasury and commissioner of Internal Revenue have resulted in the discovery of a well organized and formidable ring, which has been successfully operating for some time in the perpetration of frauds on the revenue in connection with distilleries in the West; the ring had its principal headquarters in St. Louis, Chicago and Milwaukee, and, it appears, had bought up a number of internal revenue gaugers and store keepers in these districts, who have been now dismissed. It is intimated at the department that a number of officers of much higher rank will be relieved soon, if not for participation in these frauds, for neglect of duty in not preventing or discovering them. It is intimated that several internal revenue collectors, and at least two supervisors in the western districts will be speedily superseded.

Father Gordeman on Trial.

PHILADELPHIA, 10.—During the trial, to-day, of Gordeman, the Catholic priest, alleged to have absconded with money of the church, it was shown that the church was indebted to the defendant $467.

Shot and Killed.

LITTLE ROCK, Ark., 10. — At Hope, Arkansas, on Saturday, Col. R. H. Gaines, agent for a New Orleans firm, shot and killed Dr. Wian, a hotel keeper, in a personal quarrel.

A Monster Procession.

HAZELTON, Pa., 10.—The M. and L. B. A. had their annual parade here to-day. The demonstration was a success, the entire Lehigh regions being represented. There were 3,647 persons in the procession. Everything passed off quietly, and there has been no disturbance. The men insist that they can hold out for several months.

Distilleries Seized.

MILWAUKEE, 10.—A party of officers under the charge of supervisor Hedricks and Captain Brooks, of the secret service division of the Treasury Department, arrived here to-day, and entered upon the work of seizing distilleries, in connection with the collector of the district. The rectifying establishments of A. Schoenfeld and Rindskopf Bros., and the distilleries of Thos. O'Neill, the Kinnickinnick distilling company, L. Rindskopf, Charles Gran, and F. Bergenthal were placed in charge of keepers. It is understood that all the distilleries in the district will be seized, with two exceptions. The character of the evidence upon which the seizures are made is not disclosed.

Appropriated $50,000.

BOSTON, 10.—The House, to-day, appropriated $50,000 to represent Massachusetts at the Philadelphia Centennial.

A Kleptomaniac.

John Best, of Stonehaven, member of the Massachusetts House of Representatives, and commander of the post in '75, G. A. R. collector of taxes and assessor, was arrested to-day for stealing $1,500 from the safe of Aaron Hill, a prominent merchant; Best was detected in the act. He is a man of some wealth, and heretofore stood high in the community.

Half a Million Fire.

NEW YORK, 10.—The Planet Carpet Mills, Brooklyn, owned by Buchanan & Hyatt, and employing 400 hundred hands, were burned to night; loss over half a million. Fire caught in No. 4, stationed in front of the building, and is supposed to have been set on account of the intense heat, which totally ruined the machinery. The fire is still burning at a late hour, and threatens to reach the public school and Methodist church. The insurance on the mills is $180,000.

Indian Warriors Moving.

OMAHA, 10.—The operator at Bigbee Springs says that a large body of Indians, all warriors, the estimated number being 300 or 400, crossed the railroad track eight miles from that point to-day, going north.

A Centennial Celebration.

FORT TICONDEROGA, N. Y., 10.—The centennial celebration of the capture of Fort Ticonderoga, by Col. Ethan Allen, took place here to-day. Large delegations were present from the principal towns in northern New York and Vermont, at least six thousand strangers being present on the ground. The exercises consisted of a grand procession, civic and military, an oration by the Rev. F. J. Cook, reading a poem by Prof. Bradford, and a grand collation on the site of the old fort.

Threats of Violence.

POTTSVILLE, 10. — To-day three hundred men from Locust Gap went to the Hickory Ridge and Lancaster collieries, and compelled the miners to stop work, giving them to understand that if caught at work again, they would come down with reinforcements and kill the whole party at work and burn the breaker; this is the first open threat made to take life and burn coal property since the strike commenced. After the above threats had been made a private consultation was held, and the men declared that they would stick to the miners' union and fight it out, after which the mob scattered in various directions.

Supposed Incendiarism.

The Enterprise breaker, at Excelsior, was burned last night; supposed incendiarism.

Indian Chiefs en route—A Daily Line of Stages.

CHEYENNE, 10. — Red Cloud, Spotted Tail, and seventeen other chiefs or Sioux Indians arrived here at noon to-day; they will leave for Washington to-morrow, to treat with the government for the sale of the Black Hills.

Geo. W. Homan, formerly of the Omaha Transfer Co., has entered into a contract with the citizens of this city to put on a daily line of stages from Cheyenne to Harney's Peak in the Black Hills, as soon as the government will permit him to do so.

WESTERN.

Dead—Arrived.

SAN FRANCISCO, 10. — Captain Edgar Wakeman, many years commander in the service of the Pacific mail, died on Saturday night, at his residence in East Oakland.

J. W. Simonton and wife arrived last night, by the overland train.

Safe Robbed—Lost at Sea.

The county treasury safe, at Jackson, Amador Co., was robbed last night of about $15,000; the keys were stolen from the treasurer's residence.

A dispatch from Victoria says that the Indians report the loss of the steamer *Glenora*, from Victoria to Fort Wrangel, with a large freight and passenger list. The locality corresponds with that in which the bark *Union* was lost on Friday last, and it is hoped that the Indian reports refer, by mistake, to the latter vessel.

Correspondence.

Killing Lucern.

SALT LAKE CITY,
May 6, 1875.

Editor Deseret News:

Recently there have appeared in the NEWS several paragraphs upon the subject of killing lucern, which has induced several reflections in my mind, something like the following—

Is it possible that in this arid and naturally desert country there is a herb, a forage plant, so tenacious of life as to make the matter of killing it a very knotty problem, a solution of which is earnestly sought through the press?

What is lucern? It is a sort of clover, a more rapid grower than common clover, so rapid that in this latitude it may be cut for green fodder nearly every month through the summer. It also makes good hay, and the season's entire yield is very large.

Considering this, it is rather astonishing at first to find people anxious to kill so useful a plant, and a plant so well adapted to this climate and soil.

On second thought, it may be conceded that there are places, such as kitchen and flower gardens and orchards, where it may be desirable to exterminate the free growing lucern.

But on third thought, the suggestion presents itself that a plant so productive, so relishable to cattle, so useful, and possessing such vigorous vitality, is the very identical thing that is wanted to have its seeds scattered broadcast, wherever it will grow, over the prairies and hills, and mountains of this dry and in great part barren land, so that there shall be abundance of feed for the city and settlement cows and the stock on the ranges. A good, productive, forage plant that cannot be killed, except with hard study as to devices and persistent attention in their application, must be the great desideratum, the very thing wanted to utilize the millions of acres of wild range lands throughout the Territory.

The fourth thought is to scatter your spare lucern seed by the bushel on the range wherever it will grow, and harrow it in at the proper season, so that peradventure pasture may be plentiful, and milk and butter and beef more and more abundant.

S. O. W. I. T.

A religious gathering is to be held in Brighton, England, at the beginning of June, which will last ten days. It will be on the plan of the Evangelical Conference held at Oxford last year, "for the promotion of scriptural holiness," but on a much larger scale, and will be also under the auspices of Mr. and Mrs. Pearsall Smith. Some 8,000 persons are expected to attend, and $10,000 will be spent in defraying the expenses of English-speaking clergy from the continent.

James Russell Lowell, in a paper in the *North American Review* on Spenser, gives this definition of classic: "A classic is property in book which maintains itself by virtue of that happy coalescence of matter and style, that innate and exquisite sympathy between the thought that gives life and the form which consents to every mood of grace and dignity, which can be simple without being vulgar, elevated without being distant, and which is something neither ancient nor modern, always new, and is capable of growing old."
