New OBLEANS, 22.—Capt. John-son, of the steamship Royal Stan-dard, from Liverpool, reports that on the 20th of Sept., in int. 36,49, longitude 31 west he fell in with the burning wreck of the iron ship Aurora; he boarded the wreck and found that she had been abaa-doned. The lower hold was a per-fect mass of fire, everything that could burn having been consumed. Finding it impossible to save the wreck and dangerous to allow it to float around, he scuttled it and proceeded on his way here. WASHINGTON, 21. — Postmaster General Jewell had a long confer-ence, to-day, with Col. Thomas A. Soctt, who came here at his request to arrange for giving the depart-ment all possible mellities on the railroads controlled by the latter in the south and southwest, with a view to still greater dispatch in the distribution and connection of the mails there; Col. Scott acquiesced in Governor Jewell's suggestion, and promised to extend all the facilities that may be desired.

It may seem a little presumpt in as humble an individual as self, to breach or agitate this ject, when there are abler per

But I hold it is the duty of every dimen, no matter what, or how low his financial condition may be (for ability and common sense, and wealth are not always companions), to call public atten-tion to a public want or necessity. Taxation without representation was denounced by our forefathers, and led to that immortal docu-ment, the Declaration of Indepen-dence, and the subsequent libera-tion of the country from British tyranny.
