

SILVER SERVICE ADMITTED FREE.

One Presented to Gen. Wood by
The Jai Alai Paid No Customs Duty

THE GENERAL SO ORDERED IT.

Gen. Bliss Opposed it but the Governor's Instructions Were Mandatory.

Washington, Dec. 9.—When the Wood investigation case was resumed today more than an hour was consumed in discussing some of the evidence submitted yesterday and also the question of summoning witnesses asked for by opponents of Gen. Wood.

Col. Edgar S. Dudley, professor of law and history at West Point military academy, who was judge advocate general at Havana during Gen. Wood's administration as governor general, today submitted a copy of his opinion, rendered in Havana at the request of Gen. Wood, concerning the application of the Jai Alai company, for a concession to operate an amusement amphitheater. This opinion declared that the concession should not be granted on the ground that it would be a violation of the Foraker amendment.

The committee decided that Col. Dudley would not be needed again, and Gen. Tasker H. Bliss was recalled.

Gen. Bliss said in reply to questions, that he strongly opposed the admission without payment of duty of the silver service purchased in New York by the Jai Alai. He received mandatory instructions from Gen. Wood to admit the silver service, however, and obeyed them.

WOOD'S CONTRACTS.

Havana, Dec. 9.—The house of representatives today continued the discussion of the bill for the annulment of the contracts made by Gen. Wood with the church authorities in 1902, under which \$150,000 is to be paid annually for five years as the rent of a number of buildings occupied by the government at Havana and in other towns. The opponents of the measure contend that the contracts cannot be annulled.

Child Kidnapped in Chicago.

Chicago, Dec. 9.—While the children were flocking to the zoo to see the new exhibit today two men driving a fashionable carriage pulled up in front of the building and seized seven-year-old Georgia Andrews, one of the most popular children over the city's mouth and lifted her into the carriage, which then was driven away rapidly. The father of the girl, Lewis Andrews, of Los Angeles, Cal., was divorced from his wife some time ago, and according to the latter, he has been trying for over a year to gain possession of the child.

U. of M. Student Suicides.

Ann Arbor, Mich., Dec. 9.—Russell McWilliams, a junior literary student at the University of Michigan, and a son of Harry McWilliams, of Kansas City, Mo., committed suicide today, the result of overwork. He entered the university at the age of 15.

REPUBLICAN CONVENTION.

National Committeemen Arriving in Washington to Discuss It.

Washington, Dec. 9.—Republican national committeemen are arriving in Washington for the purpose of discussing the platform for the coming year, which opens Friday at the Arlington. With this vanguard of the men who decide the date and location of the next national convention come the convention boosters. Some of them are already on the ground.

The ground of representation in the next convention, as expressed in circular letters sent out by Gen. Brainerd of Rhode Island, is a topic of no little interest to the committeemen. Most of the committeemen who have arrived agree that they have no authority to say what the basis of representation shall be in the call to be issued for the convention. The most the committee can do, they say, is to pass a resolution recommending that a basis which will reduce the number of delegates from the south be adopted.

This view of the situation, in part, is shared by Postmaster-General Payne, a member of the committee from Wisconsin and vice chairman both of the national committee and of the executive committee. Mr. Payne is in the favor of the idea for reduced representation and urged it stoutly at the Philadelphia convention.

"I still favor my plan and believe it ought to be adopted," said Mr. Payne, tonight, "but I am aware that it is a matter which the convention must pass upon. The committee may discuss it at the approaching meeting if Mr. Hanna chooses to rule it in order, but the committee, as I understand it, cannot take any decisive action."

The talk about the date for the convention seems to favor the Tuesday nearest the middle of June. The gentleman in favor of Chicago as the convention city is Mr. Payne, and among the delegates now here it is regarded as a foregone conclusion that that city will be selected.

TROUBLE AT TRINIDAD.

Party of Deputies Fired Upon From Ambush.

Trinidad, Colo., Dec. 9.—While a number of deputies and clerks were driving from Berwind to Tobacco at 1 o'clock this afternoon they were fired upon by several men behind rock and brush. The deputies and clerks jumped from the wagon and returned the fire. The shooting continued at intervals for 30 minutes, though no one was injured. Sheriff Clark and posse were preparing to leave for the scene on a special train, when word was received that reinforcements of guards had arrived from Tobacco, half a mile away, and the ambush party had fled. The fire was made. The trouble is said to have originated this morning when a miner came into the mine office at Berwind and became very abusive. He was kicked out by a deputy and it is thought that he stirred up his friends to start the difficulty.

The double funeral of Velasco and Bandi, the miners killed by guards at Segundo on Monday night, will be held in Trinidad from the Catholic church tomorrow under the auspices of the miners' union. This being the first blood shed since the strike began, great preparations are being made for a demonstration. Over 1,000 union miners are expected to march in the funeral parade. The relations between the miners and guards at Segundo are still strained and trouble is expected there at any time.

Ornburg-Tashkent Ry. Submerged New York, Dec. 10.—The new Ornburg-Tashkent railway when completed will shorten the distance and lessen the difficulties in transporting troops to the Afghan frontier and the

It is asserted the new rainfall now traverses a distance of 300 miles subject to inundation.

KISCHINEFF MASSACRES.

First Trial of Persons Involved Will Be Concluded This Week.

St. Petersburg, Dec. 9.—The first trial of persons alleged to be involved in the massacre of Jews at Kischineff will be concluded this week, it is expected. The court has already taken the evidence of 566 witnesses. One of the leading counsel, M. Shmakoff, handed his brief to the court because he was compelled to go to Moscow on official business. This gave rise to a report that the counsel for the defense had thrown up their briefs, and that the prosecuting counsel were expected to do likewise because of the alleged refusal of the court to interrupt the trial and undertake a fresh preliminary investigation in order to discover the real culprits.

Reports from Kischineff say that the investigation is a very thorough one. The judges visiting the scenes of the outrages in the company of counsel for both sides. The other trials in connection with the massacre have been postponed until January.

THE APPLE TREE BORER.

Accompanying a letter of enquiry Messrs. C. W. Smith and E. M. Mohrwar of Midway, Wasatch county, send the "News" the trunk of a young apple tree about the size of a man's finger, which was infested with some destructive insect that has caused great loss by the almost total destruction of a valuable young apple orchard which the above parties set out last spring. Less than one hundred of the six hundred trees planted survived the depredations of this insect. The specimen and letter were handed to Secretary Joseph H. Parry of the State Board of Horticulture for a reply and advice as to remedies.

Mr. Parry cut open the small tree trunk and found it infested with live, fat-headed apple tree borer, which, like the peach tree borer, is one of the most destructive tree enemies the Utah orchardist has to combat. Trees that are injured by borers, or sunscald are mostly affected, though where the insects are very numerous as they appear to be in the district referred to, few trees escape their destructive work. The borer in question is about an inch long with a large, flat head and a slender body made up of short segments, and is of a light silvery color. Few trees are killed outright by them, unless very numerous, but are crippled for life. Like the peach tree borer, the apple tree borer is introduced to the base of the tree-trunk feeding on the sap wood.

It can be readily seen that this insect is entirely beyond the reach of insecticides and sprays. The larvae cannot be reached in their galleries by any means.

MEMORY MENDING

What Food Alone Can Do for the Memory. The influence of food upon the brain and memory is so little understood that people are inclined to marvel at it. Take a person who has been living on improperly selected food and put him upon a scientific diet in which the food Grape-Nuts is largely used and the increase of the mental power that follows is truly remarkable.

A Canadian who was sent to Colorado for his health illustrates this point in a most convincing manner. "One year ago I came from Canada a nervous wreck, so my physician said, and reduced in weight to almost a skeleton and my memory was so poor that conversations had to be repeated that I had taken place only a few hours before. I was unable to rest day or night for my nervous system was shattered. "The change of climate helped me a little but it was soon seen that this was not all that I needed. I required the proper selection of food although I did not realize it until a friend recommended Grape-Nuts to me and I gave this food a thorough trial. Then I realized what the right food could do and I began to change in my feelings and bodily condition. This kept up until now after 6 months' use of Grape-Nuts all my nervous trouble has entirely disappeared. I have gained in flesh all that I had lost and what is more wonderful to me than anything else my memory is as good as it ever was. Truly Grape-Nuts has remade me all over, mind and body, when I never expected to be well and happy again." Name given by Postum Co., Battle Creek, Mich.

Look in each package for a copy of the famous little book, "The Road to Wellville."

Visit each tree in the early autumn months in search of the evidence of fresh sawdust-like casting is found, cut out the borer with a knife, or crush it in its burrow with a stiff copper wire or awl.

But better than the "worming" the beetle, which is a pretty day flying insect, may be prevented from laying its eggs on the trees. They attack by preference sickly trees, and inhabit both limbs and trunk, mostly the latter, and, besides apple, pear, peach and

poison applied to the trunk. The usual method of fighting these insects is to apply trees, they also attack a variety of forest trees. They are chiefly injurious to young trees.

The eggs are laid in crevices of the bark during May and June, and soon hatch out, the larvae worms bore into the tree and at once begin their destructive work. If numerous they soon kill a young tree.

Wrapping the tree trunk with stiff paper or common newspaper, which should extend an inch or two below the surface of the ground and a foot or more above and well tied, will keep out the insects. The simplest application is that of a poisoned whitewash, applied quite early in the season and kept intact until summer is over at least, and preferably during the whole season. The following is a good wash: Add to 5 gallons of whitewash 1 pint of liquid glue, ½ pint of carbolic acid, and 1½ ounce of Paris green. Apply to the tree trunk with a paint brush or broom about the first of May. An eastern entomologist recommends cement and milk treatment against the apple and peach borers. He treats all trees from the time they are set with two annual applications of Portland or hydraulic cement mixed with skimmed milk. Enough cement is added to the milk to make a thick wash, which is applied with a brush. The soil is removed from the crown, which is examined closely to see if any borers are in the trunk with a paint brush or broom to cover the trunk nearly up to the branches. After the cement has set thoroughly, the earth is turned back around the trunk so that about two inches of cement covering is below ground. This application has been effective in keeping out borers. A little judgment must be employed in getting the mixture to a proper thickness; but if one coating does not seem sufficient, it is easy to apply a second. The trunk should be wet when the application is made, because the cement sticks better. On small trees this protection costs but little. On large trees it is much more expensive than newspaper coverings and so effective.

If two ounces of Paris green is added to each five gallons of this cement wash it will be more certainly effective against the borers and also afford protection against the depredations of rabbits. Trees so badly infested with borers as those reported from Wasatch county should be cut out and burned at once, and sound trees replanted.

SECY. CORTELYOU'S FIRST REPORT.

Gives a Complete Account of the Organization of the Department of Commerce.

WORK OF VARIOUS BUREAUS.

He Takes Occasion to Dwell Upon the Great Importance of the Panama Canal.

Washington, Dec. 9.—The first annual report of the secretary of commerce and labor gives a full account of the progress made in the organization of the department; discusses at considerable length the work of the various bureaus; complies with the several provisions of law relating to statements of moneys received and disbursed, and makes such comments and recommendations in regard to commercial and industrial affairs as appear to be warranted by existing conditions.

On July 1, 1903, the personnel of the department comprised 1,239 employees in Washington, and \$336 in the country at large, making a total of 10,125. The appropriations to be expended under the direction of the department amounted to \$2,969,947. Concerning the bureau of corporations, Mr. Cortelyou says:

"It is the duty of the bureau of corporations to gather information on the subject of interstate commerce and to investigate the organization, conduct and management of corporations and joint stock companies engaged in such commerce (other than common carriers subject to the jurisdiction of the interstate commerce commission); to report the results of such investigations to the president through the secretary of commerce; and to compile and publish useful information concerning corporations engaged in interstate foreign commerce, including insurance companies, and to compile and publish useful information concerning corporations engaged in interstate commerce (other than common carriers subject to the jurisdiction of the interstate commerce commission);
