Bordentown, N.J.—The freshet is tremendous here. The railroad tracks between Trenton and Burlington are under water. A canal boat is lying across the track on the Trenton road. All the small buildings near the Delaware and Raritan locks are partly under water. The old Camden and Amboy shops are inundated. The fires of the steam forge of McPherson, Willard & Co. were put out by the flood. As far as the eye can reach the Sylvania shore is covered with water. This exceeds the freshet in water but not in ice of 1867.

A London dispatch says: An anti-coercion meeting was held in Hyde Park yesterday. An attempt to start an independent anti coercion demonstration in the Park a little distance from the spot designated for the regular meeting, led to the beating of an unpopular and somewhat intoxicated orator said to be an Irishman, who was pursued out of the gates by a rough mob. An immense crowd assembled to witness the arrival of the procession, but no opposition or hostility was manifested. The procession comprised about six bands each with a considerable following. One prominent figure was a soldier with a green rosette on his uniform. There were many banners bearing the inscriptions: "Release Davitt," "We want the land that bore us" and "union and victory." The procession was swelled by contingents from the Magna Charta associations and democratic workmen's clubs. At the place where the procession halted, there was a dense throng numbering some thousands, and composed mainly of Irish, who were very enthusiastic. Among the speakers were S. P. Connor, Isaac Nelson and John Redmonds, home rule members. The meeting was divided into three sections, which were at such distance apart as not to interfere with each other. The speakers declared Gladstone was raised into power by radical workingmen, and by them would be deposed. Allusions of this kind, as well as remarks disparaging the House of Lords was enthusiastically received. The resolutions were carried without dissent. At the close of the meeting, the crowd marched eastward by way of Piccadilly and St. James St. At the foot of St. James St., conveyances containing the leaders halted so as to give the followers an opportunity to close up and make an imposing demonstration through Pall Mall. There was a vigorous groaning opposite the Guards Club, and wherever anyone else was visible at the windows, particularly at the Carlton, opposite the Reform Club, the mob halted and the leaders called for cheers for Davitt and Cowan, and groans for the tory member for Bradford, meaning Forster, and for the liberal renegades, all of which were heartily given. No display of force was made by the authorities.

New York, 14.—Wm. T. Williams has begun suit against the Western Union Telegraph Company and Union Trust, based on the late consolidation. The plaintiff owns 100 shares of Western Union. The Western Union proposes to take the stock of the A. P. and American Union Telegraph Company's issuing stock instead of this, making it Western Union stock, that it pays for American Union \$15,000,000 when it is only worth \$5,000,000, and for the A. and P. \$8,000,000, when it is only worth \$3,000,000, which policy he avers depreciates the Western Union. The complaint states the amount above the real value to be paid these companies is \$15,526,590. The other grounds are also stated for the injunction which is asked. The *Times* says, of Williams suit against consolidation: He declares he is not acting with or for Hatch, but solely on his own responsibility and regards the consolidation as a fraud on the stockholders and an illegal and unprincipled act. Williams is a wealthy, retired banker. He hopes the injunction will be made permanent next Thursday.

TURNING THE TABLES.

THE blindness of many would-be reformers of their neighbors lives to the flagrant faults of their own, was well shown forth and fittingly rebuked by a counter prayer offered in an Atchison, Kansas, saloon, after a petition put up by some female crusaders. The ladies sailed into the saloon after the fashion in vogue a short time ago, and prayed for the wicked saloon keeper and the wicked frequenters of the house of public entertainment. They were allowed to pray in peace, whereupon a man present dropped on his knees and offered a prayer for the crusaders, in which he quoted much scripture on the subject of wine drinking, and closed with the following:

"O Lord! have mercy upon these ladies; look upon them; they wear not even the color of the face which thou hast given them, but they are sinning against thee, and not content with nature, paint their faces. O Lord! thou canst also perceive that their figure is not as thou hast made it; but they wear humps upon their backs like camels. Thou seest, O Lord! that their head-dress consists of false hair, and when they open their mouths thou seest their false teeth. O Lord! these women want men who will patiently accept all this without using the power thou hast given to man that all women shall be subject to man. They will not bear the burdens of married life and obey thy commands to multiply and replenish the earth, but they are too lazy to raise their children; and, O Lord! thou knowest the crimes they commit. O Lord! have mercy upon them and take them back into thy bosom, take folly out of their hearts, give them common sense, that they may see their own foolishness, and grant that they may become good and worthy citizens of our beloved city of Atchison. O Lord! we thank thee for all the blessings bestowed upon us, and ask thee to deliver us from all evils, especially hypocritical women, and thine shall be the praise for ever and ever, Amen."

This was turning the tables with a vengeance. If people who take it upon themselves to declaim against the supposed wickedness of the "Mormons," would only turn their attention to their own shortcomings and the sins and horrors of their own society, they would be much more likely to accomplish good than by undertaking a crusade against imaginary or at least exaggerated failings in others.

DON'T WAIT.

The citizens of New York and vicinity have, no doubt, noticed our frequent advice, not to wait until a cough or cold had become thoroughly seated on their lungs, and they were in almost the last stages of consumption, but take care of themselves in time. "An ounce of prevention is as good as a pound of cure." All Coughs, Colds, Hoarseness, Difficult Breathing, and all affections of the Throat, Bronchial Tube and Lungs, leading to Consumption, can certainly be cured by using "Hale's Honey of Horehound and Tar," an article which is now prepared according to the original receipt of the late Dr. Hale, a celebrated physician of Europe. Sold by all druggists 50 cents per bottle, or six bottles for \$2.50 and at Crittenton's Central Medicine Warehouse, 7, Sixth Avenue, New York City. The large or dollar size sell six bottles for \$5, which is the most economical.

L. B. MATTISON'S RETURN.

Having just returned from a two month's trip in the East, visiting the different manufactories, whose goods I represent, I would say that for the coming season, we have added some fine improvements to the "Mitchell Farm Wagon" which will add to its already well established record. The "Burr" patent Body is used on no other Four Springs, but the Mitchell. Another fine improvement is a "New patent Brake," on this wagon, unlike any other in the market. I shall carry a full line of "Express Tops" for my Four Spring Wagons, of the latest style. To parties who intend purchasing the New Massillon, or Russell Thresher: Send in your orders early in the season. This new Massillon has a wonderful cleaning capacity, and outrivals all other machines where it competes. I challenge and defy competition on our "New Massillon." While East, I secured the general agency of the celebrated "Peerless Combined Reaper and Mower," and during the coming Conference I shall exhibit these machines, and cordially invite all farmers to inspect them at my wagon yard. No farmer, after examination, will purchase any other. I have "Walter A. Wood's Two Horse Enclosed Gear Mowers," that are the best in the world, also a large stock of "Gale Chilled Plows," to arrive in a few days. Farmers are requested to forward their names, and descriptive catalogues of my wagons, Peerless Reapers and Mowers and other farm machinery will be mailed to their address. Remember that I keep the best line of goods in the city, and will make you bottom figures if you will give me a call.

HEALTH AND HAPPINESS.

It seems strange that anyone will suffer from the many derangements brought on by an impure condition of the blood, when SCOVILL'S BLOOD AND LIVER SYRUP will restore perfect health to the physical organization. It is indeed a strengthening syrup, pleasant to take, and has proven itself to be the best blood purifier ever discovered, effectually curing Scrofula, Weakness of the Kidneys, all Nervous disorders and Debility. It corrects indigestion. It makes the old feel young, and the young feel gay; and will invariably drive out of the system the many ills that human flesh is heir to. A single bottle will prove to you its merits as a health renewer, for it acts like a charm, especially when the complaint is of an exhaustive nature, having a tendency to lessen the natural vigor of the brain and nervous system.
