LAST NIGHT'S DISPATCHES.

CONGRESSIONAL.

SENATE.

WASHINGTON, 10.—Morton, after preliminary remarks, alluded to the general denial of Caldwell, that he had bribed any member of the Kansas Legislature to vote for him, and then proceeded to argue that the charge that Caldwell was elected by the use of money was sustained by the testimony. He quoted parliamentary law to show that bribery is not only an infringement of parliamentary privilege, but when a single elector is prevented from exercising his right by external violence, an election is void without reference to the number of votes. This indispensable to the freedom of elections. The man who would purchase one vote would purchase all, and his corrupt influence would be limited only by his means of corruption. The Senate had the right to protect itself against criminals, although the legislature electing them might be indifferent on the subject. The power to expel a member was necessary to enable the House to perform its high functions, and was incidental to the protection of the State. Morton also said that this was the most flagrant case of bribery in English or American politics, and then examined testimony in the case to show that such was the fact, and that just before Caldwell's election talk of corruption was as common and free in Topeka as the market and the weather.

Caldwell said he had prepared a statement, which, as his voice was affected by cold, he desired should be read at the Secretary's desk.

The Secretary then read the statement, which was in the nature of a legal argument. There was no pretense that his credentials did not speak the truth, it was an absolute fact that the majority of the Kansas Legislature did vote for him, while there was no proof that there was any restraint in the premises. The election of a Senator is the act of a State in its sovereign capacity, with which the Senate cannot interfere. Numerous precedents are quoted in support of this proposition. The Constitution makes the Senate the sole judge of the qualifications and return of its own members, but it must be governed by written law. Caldwell insists that the Senate must be governed by the law as it existed at the time of the election.

Before the reading was completed, a motion of Cameron, the Senate went into executive session and afterwards adjourned.

EASTERN.

WASHINGTON, 10.—The Senate to-day, confirmed the following Southern claims commissioners: A. G. Odes, of Vermont, Jas. R. Howell, of Iowa, and Organe Ferris, of New York.

The diplomatic corps, to-day, waited upon the President and congratulated him upon the beginning of his second term.

The Democratic Senators, in caucus to-day, refused to acquiesce in the action of the Republican Senators in allowing them only one representative on a committee.

The President nominated George F. Lammon for United States marshal of Nevada, and the following postmasters: Jno. A. Post, Boise City, Idaho; C. H. Crouse, Helena, Montana; H. P. Lennett, Denver.

The Senate confirmed Phillip Emerson as associate justice of Utah, and the postmasters above mentioned.

In accordance with the usual custom, the members of the diplomatic corps in Washington called in a body on the President at noon to-day, to pay their respects and to congratulate him on the beginning of his second term of office. Many of the members of the corps were accompanied by their wives. The President with Mrs. Grant on his arm, and followed by the members of his Cabinet with their wives, led the way to the east room, where they were joined by the diplomatic corps, headed by their Dean, the Turkish minister, who shook hands with the President. Blacque Bey read the following address:

"Mr. President:—I have the honor to offer the congratulations of the diplomatic corps on this occasion of your inauguration. I feel both pleased and flattered that the duty has devolved upon me, to express to you the sincere wish of my colleagues and myself for the preservation of your life and the consequent success of your administration."

The President replied as follows:

"Mr. Dean:—I receive with sensibility the congratulations which you offer in behalf of yourself and colleagues accredited to this government. My intercourse with you all has heretofore been agreeable, and I trust that it may so continue. It is my wish, and shall be my purpose in the future as it has been in the past, to keep up with the countries which you represent, those cordial and friendly relations which are essential to our general prosperity and happiness."

The Democratic Senators held a caucus to-day and voted to notify the Republican caucus that the action of the latter, in allowing a minority representation of only one on the most important committees, is not satisfactory, and the Democrats will not acquiesce in it by designating any one to fill the vacancies so left for them by the Republican caucus. The Democrats claim that as they number nineteen and the liberals number five in the Senate, the minority should be allowed a representation of two members on each committee. In consequence of this disagreement the list will be revised, and the committees cannot be presented to the Senate before to-morrow.

BALTIMORE.—This morning in the annual conference of the Methodist Episcopal Church of the South, the committee in the case of the Rev. J. F. Clark, of White Sulphur Springs, West Virginia, reported that the charge of immorality was sustained, and Clark was expelled from the church.

The committee in the case of Dr. Huston are taking testimony.

PORTSMOUTH, N. H.—A shirt stained with blood has been taken from the vault of the house of Mr. Johnson, of this city, and identified as belonging to Wagner, who boarded there.

CHICAGO.—The *Post's* Washington special gives a report of an interview with the Assistant Secretary of the Treasury, Richardson, who it is said will certainly be appointed Secretary of the Treasury if Boutwell is elected Senator. It appears from the expression of views by Richardson that while he will not introduce any violent change in the financial policy to produce that result, he, is strongly in favor of a speedy return to specie payment.

The *Journal's* special says that ex-Senator Yates, who was an applicant for the Mexican mission, has been appointed Government Director of the U. P. R. R.

Dr. Newman, chaplain of the Senate, starts to-day on a journey round the world.

Foster, chairman of the Indiana Republican State committee, it is said, is certain of being appointed minister to Mexico.

Mrs. General Logan left last night for Utah, to accompany to Illinois the remains of her father, who died at Provo city on Saturday.

WASHINGTON.—The Republican Senatorial caucus met after the adjournment of the Senate this afternoon to consider the demands of the Democrats for increased minority representation on the committees, and after some discussion the matter was referred to a sub-committee of five, to report at the adjourned meeting to-morrow. The sub-committee consists of Stewart, Conkling, Scott, Wright and West. The caucus considered Saturday's vote regarding the case of Patterson, and decided not to take it up for consideration in the Senate, no action being possible for the reason that Patterson is no longer a member of that body.

SALISBURY, Md.—The body of the man who threw himself under a freight train on Saturday evening has been identified as that of Geo. W. Hall, the murderer of Miss Shockley.

ALBANY.—The *Argus* will publish a table to-morrow, showing that of 37 counties holding town meetings the Democrats and Liberals carried 20 against 5 last year, making a net gain on their side of 33 towns.

COLUMBUS, O.—James M. Hawkins, a bigamist, was confronted by two wives at the police court; he confessed and was held to answer in $1,000 bail.

ST. LOUIS.—The jail library, gathered by Linda Gilbert, was dedicated this evening. Speeches were made by leading clergymen and officials.

PHILADELPHIA.—The counterfeiters arrested on Saturday were before the U. S. Commissioners today. Reinhardt was committed in default of $18,000, and Abrahams and Weisner each in $7,000 bail, Andrew Moulton waived hearing and was required to give bail.

The extensive ship house, of Wood, Diatogue & Co's ship yard, Kaighus Point, New Jersey, was blown down this morning during a heavy gale. Twenty-five men were employed on a vessel in the lower part of the house, but the wind was so strong that it carried the wreck away from them and the vessel. None of the men were injured. Loss $15,000.

NEW YORK.—The *Post* denies that George William Curtis is dangerously ill. He is confined to his room, the result of over work, but he will be out in a few days when he will probably take a respite from all labor for some months.

Rumor says that Commodore Vanderbilt intends to convert the Harlem road into a freight adjunct to the Hudson River road instead of double tracking the latter.

WESTERN.

SAN FRANCISCO, 10.—The mining share market continues depressed and generally demoralized, and all predictions of a better condition of affairs seem to fail. There was a decline in most of the leading stocks to-day from the quotations of Saturday.

Prof. Lay and Wm. Bunker of the *Bulletin* traveled over 180 miles in a balloon yesterday and had an eventful trip. When at the greatest altitude, Lay discovered signs of a collapse, but twenty minutes at the valve cord prevented accident, and the aeronauts went on. Mr. Bunker, after landing, rode twenty miles to San Jose, and returned to the city, leaving Lay to bring the balloon home.

Edmund Dodge was found dead to-day on Oregon street. He was an express man. Cause of death unknown.

Prof. Davidson will undertake to find by sounding what the *Patrician* struck when she was wrecked.

The Lumberman's Protective Union has been incorporated; its purpose is stated to be benevolent.

LOS ANGELES, 10.—From the Arizona *Miner*, Prescott, March 1.—This week brought the hardest storm since 1868 in this section of the territory; ten inches snow fell in Prescott, and the mountains south show two to five feet deep. A prosperous mining season is anticipated at this time. Every mountain stream is well supplied with water, and the snow will give three months supply of water for placer claims. There is already a considerable movement among owners of placers which have scarcely been disturbed since the spring of 1868.

SACRAMENTO, 10.—The bond of Samuel Soule, harbor commissioner, was filed in the office of the Secretary of State to-day, also articles of incorporation of the Santa Rosa Savings Bank. Capital $100,000.

The R. R. shops are decorated with flags in honor of the visit of Stanford and Hopkins this morning to address the employes on political issues.

Appearances are in favor of the election of McCleer, but the R. R. people are working for every possible vote.

The members of the late republican city central committee have brought a suit against the *Union* for $10,000, damages aggregating $70,000, because of that paper's strictures upon the recent recount of votes at the last Republican primary.

OPHIR CITY, 10.—A. Hugan, attorney at law, on a visit from Salt Lake, died here this morning.

OLD Texans declare that they never knew by actual experience what cold weather was before this winter.

ALEXANDRIA, Minn., has one church with half a congregation, and five whisky shops, and the people there are still unhappy.

UNION

SAFETY LAMP

IS conceded by all who have seen it to be possessed of great merit, and to be altogether the best thing of the kind ever put in the market.

The lamp is constructed with two tubes, the outside one intended only for the attachment of the burner, and the inside one to contain oil and receive the wick. As there is no connection between these tubes it will be evident that there is no possibility of communicating any heat to the oil, and as long as the oil in a lamp can be kept perfectly cool there is, of course, no chance for an explosion.

The Lamp is strongly and well made, attractive in appearance, and something entirely new and novel. It will burn kerosene adapted to any burner. With all of these advantages it combines cheapness, and from present indications it is destined to become very popular.

In case of accident, the Lamp falling or thrown over, by which many explosions occur, is the cause of the oil rushing to the flame. In this Lamp it is not so, it can be thrown over and cannot send the oil to the flame; it will run from it, so there is no danger of exploding one.

The public may rest assured that the Lamp is all that we claim for it, and we cordially invite the most critical to examine the same, and we feel confident the verdict will be the same as that of the most scientific men of the Eastern States—that it is superior to all LAMPS that have yet come to public notice.

The Lamp can be filled from the fount, on the top of which is a screw.

The Lamp can be attached to any Chandelier Bracket made.

ALSO A LARGE STOCK OF

GLASS AND METAL LAMPS

LATEST IMPROVED BURNERS, CHANDELIERS, BRACKETS, KEROSENE OILS AND PETROLEUM FLUIDS,

By the Case, Barrel or Car Load, lower than can be had elsewhere, at
