THE WRECKERS

Out, out, ye gnashing, hungry pack,
And scour the desert salt and wide;
But what ye take bring straightway back,
And toss it hither up the tide.

From main to main ye coursing go,
Ye bring the deep-hulled ships to bay;
And then returned with sure reflow,
Your captures on the beach ye lay.

Is it Iberian grapes ye bring,
Or slender length of Indian cane?
Or is it some old sovereign's ring
That long in secret gulfs hath lain?

Ye will not bring me these to day?
Then cast me here upon the shore
A mast the storm hath shorn away,
A rudder, or a broken oar.

I build my boat—a fisher's smack,
I build it well, ye seamen gone!
With what the waves have yielded back—
The timbers from your vessels drawn.

I build my house on seaboard ground,
I build it well with far brought trees,
With blanched drift made smooth and round
By the Swift lathe of circling seas.

To whom shall I a salvage pay?
To you who drank the mortal deep,
Whose craving hands reach thro' the spray,
Whose voices sound within my sleep!

—*Edith M. Thomas, in Brooklyn Magazine.*

GENERAL NEWS.

Secretary Manning Will Go to Europe.

PRESIDENT'S APPOINTMENTS.

An Infernal Machine for the Prince of Wales.

ENTIRE APPROPRIATIONS, ETC.

By Telegraph to the NEWS.]

WASHINGTON.

Interesting Notes From Headquarters.

WASHINGTON, March 8.—Secretary Manning has arranged to make a trip to Europe. He will leave Washington Thursday for New York and takes a steamer sailing from there on Tuesday next. He will be accompanied by his wife and family and Treasurer Jordan. The latter is now in New York, and will return to Washington prior to his departure for Europe.

Henry E. Hall, U. S. Minister to Central America, informs the Secretary of State that on February 8th direct telegraph communication was formally inaugurated and opened between Guatemala and Mexico.

APPOINTMENTS.

Mattew A. Manning, of West Virginia, has been appointed chief of division in the pension office.

Walter Jordan, of Fort Buford, Dakota, has been appointed appraiser of the right of way of the St. Paul, Minneapolis & Manitoba Railroad Company through the Fort Berthold and Blackfoot Indian reservations.

The President to-day appointed Hy. A. Ehringer, of New York, to be United States consul at Cienfugas, vice W. A. Pierce, suspended, and Lewis Gebhard Reed, of New York, to be United States consul at Barbadoes, vice Robert Y. Holley, suspended. These appointments were made during the session of Congress, but failed of confirmation.

A PACKAGE

has been delivered at the dead letter office which was mailed in Boston, and addressed to the Prince of Wales, London, England. It was held for postage. When it was opened it was found to contain a brass figure of Christ and a glass tube containing a white liquid and having two wires running through the tube and projecting from both ends. The paper enclosed contained an incoherent sentence. The dead letter officials were apprehensive that the glass tube might be an infernal machine, as it was carefully packed in cotton, and they are trying to find some one who will test the qualities of the liquid.

The remains of the late Lieutenant-Colonel R. N. Scott were buried at Oak Hill Cemetery this afternoon with military honors.

The Secretary of the Interior has directed that all important decisions of his office in

PENSION CASES

made during the present calendar year, be printed from time to time, and that at the end of the year they be bound into a volume. Orders for this volume received by the public printer before the work goes to press, will be filled at a price ten per cent. above the cost of printing and binding.

Several designs have been received at the navy department in answer to a circular sent out last August to naval constructors of the United States and Europe through the department and consular officers, offering a good price for two sea-going, double-bottomed, armored vessels of about 6000 tons displacement, of 16 knots speed, with torpedo outfits and effective armament.

Up to last Saturday night there have been filed in the pension office 7716 applications for pensions under the

MEXICAN PENSION

law passed late in the last session of Congress.

Arrangements are being made at the treasury department to supply the demand for small notes, silver certificates and United States notes, which is very large and is increasing daily.

In the old interference case between J. W. McDonough, Elisha Gray, T. A. Edison and Alexander Graham Bell, McDonough has filed with the commissioner of patents a petition asking for an order reopening the interference and for leave to furnish further proof in regard to the operativeness of his telephone. Upon receiving this petition an order was made by the commissioner directing that all the parties to the proceedings should be served with notice of the pendency of this petition, and that the

FINAL HEARING

would be made on the 17th inst. In this case McDonough was awarded a priority of invention (by the examiner-in-chief of interferences) to the telephone receiver, but this decision was subsequently reversed by the commissioner.

The comptroller of currency to-day received a certified copy of act of Congress providing for the establishment of reserve cities, and at once prepared regulations for its execution. Under the regulations applications may be made to the comptroller for his approval, in each case in which it is desired to take advantage of the new law. The principal requirements are that these applications shall come directly from the banks interested. Notice has already been given that application will be made for the designation of Chicago as a central reserve city and of Kansas City as a reserve city, under the provisions of the new law.

THE APPROPRIATIONS.

The statement of the footing of the appropriation bills passed at the last session of Congress has been completed by the clerks of the Senate and House committee on appropriations to-day. It is as follows:

Agriculture	$ 1,088,720
Army	28,724,718
Diplomatic and Consular	1,429,942
District of Columbia	4,305,890
Indian	5,226,807
Legislative	20,701,228
Military Academy	419,936
Navy	5,788,169
Pension	26,382,500
Postoffice	55,084,656
Sundry civil	22,282,400
Mexican Pension Deficiency	6,900,000
Public Printing Deficiency	107,000
Miscellaneous appropriations (estimated)	3,500,000
Total actual appropriations	$227,307,144

The river and harbor bill, which was not signed, appropriating $9,913,800, and the

DEFICIENCY BILL,

which did not pass, though it was agreed upon in conference, carried an appropriation of $4,275,052.

The treasury department has received an appeal from the action of the collector of customs at San Francisco in assessing the duty at the rate of $10 per pound on certain imported opium which appellants claim to be crude opium, containing less than nine per cent of morphia. Samples of the importation were submitted to the chemical experts of the department of agriculture. Acting Secretary Fairchild says that the representations of the appellants appear to be correct; that the opium is crude, that it contains less than nine per cent of morphia, and also that it is not entitled to entry.

Settled.

LONDON, March 8.—It is rumored that an agreement has been arrived at between Russia and Austria for a settlement of differences relative to the Balkan states.

The National League.

NEW YORK, March 8.—Delegates to the league ball meeting met in secret session at noon Monday to take up the question of the eight club matter. After discussion it was referred back to a committee who have the matter in charge with instructions to listen to the various propositions, and report the conclusions to the full league at a subsequent meeting. The league then adjourned and the committee of three (Day, Young and Spalding) began their work. The committee was in session until 7 o'clock and adjourned without reaching a conclusion. The Indianapolis delegate offered $12,000 for the franchise of the St. Louis club. The St. Louis delegate thought the amount

TOO SMALL,

but said he would consider it and give an an answer to-morrow at ten o'clock. The schedule was not taken up for the disposal of Denny and Glascock. The Kansas City club has withdrawn its offer of $20,000 for the St. Louis franchise which improves the chances of the Indianapolis. Six of the seven members it is understood favor the Hoosiers and Spalding, who supported the Kansas City, said that he was reasonably sure that the Indianapolis would be the eight club. Reach, Day, Rowe, Soden, Hawitt Stearns and Conart were confident that the Indianapolis would be a winning card.

Opposed to Pocket Vetoes.

PORTLAND, Ogn., March 8.—Governor Pennoyer, of this State, a democrat, in an interview to-day said: "I regret exceedingly the pocket veto which President Cleveland has seen fit to give to the river and harbor bill. With so large a surplus in the treasury he can be justified in no possible way in thus withholding aid for the improvements which the commerce of the country imperatively demands. It is an unexpected blow to Oregon. We were in hopes of a fair appropriation for the improvement of the upper portage of the Columbia." The governor referred to the fact that New York and New England had drawn heavily on the public treasury for the improvement of rivers and harbors ever since the formation of the government and now object to expenditures elsewhere. He concluded: "They object specially to work on the Mississippi or on the Pacific Coast, and the President heeds their objections. He will find out some day that he has made a very great mistake. The country west of the eightieth meridian has some rights which the general government ought to respect and which the people will compel it to respect."

Nicaragua Canal.

LONDON, March 8.—The Nicaraguan representative here has sent a letter to the *Times* which says: "The President of Nicaragua has ordered me to deny the existence of a treaty with the United States stipulating that that country should control the Nicaraguan Canal recently mentioned in connection with the formation of a company to build the canal. The treaty alluded to is doubtless that of 1882, which lapsed because of the failure of the United States Senate to ratify it. My government, in granting any concession, will not omit any means to secure the strictest neutrality for the canal."

THE DEAD DIVINE.

Particulars of Beecher's Lastest Hours.

NO CRAPE IS UPON THE DOOR.

Sympathetic Message From the President.

OPINIONS FROM ENGLISH PAPERS.

By Telegraph to the NEWS.]

NEW YORK, March 8.—Reverend Henry Ward Beecher died at 9:30 o'clock this morning in the presence of most of the members of his family. Those present were Col. H. B. Beecher, his wife, his daughters, Hattie and Daisy and son Henry Ward Beecher, Miss Edith Beecher, W. C. Beecher and wife, Rev. Samuel Scoville, Mrs. S. Scoville, the eldest daughter of Rev. Henry Ward Beecher, Miss Scoville, who has just come from the Pacific Slope, Miss Bullard, Rev. S. B. Halliday and wife, Belle, a Scotch nurse who has been with the family many years and who was a special favorite of the deceased preacher, the male nurse Riordan, S. V. White and E. A. Seacomb, one of the trustees.

Seacomb came out at 10:30 a. m. and said that no arrangements had as yet been made for

THE FUNERAL

farther than providing that they should be carried out by Hopper, of Brooklyn. Dr. Searle, he said, had noticed a change in the patient's condition at 6:30 a. m. and summoned all in the house to the bedside, momentarily expecting his death, but he lingered much longer than had been anticipated. He passed away gradually and almost imperceptibly drawing his last breath without apparent suffering or return of consciousness in any degree. "Mrs. Beecher," says Seacomb, "bears up wonderfully and with marvelous courage."

The news of Beecher's death spread very quickly to all parts of this city and Brooklyn may now be said to be a

CITY OF MOURNING.

Even those who did not always concur with Beecher in his views had no hesitation in expressing their deep regret at his death. As a mark of respect to his memory, flags on all public buildings there were placed at half-mast, and Mayor Whitney had the city hall bell tolled.

The committee appointed by the officers of Plymouth Church last Sunday to take charge of the funeral, made the necessary arrangements this morning.

No crape was hung on the door, Beecher having always objected to the use of this and the gloom associated with it in the presence of death. Instead, a magnificent wreath of flowers hung from the left side of the doorway at the top of the stoop, composed of white and

RED ROSES

and lillies of the valley and tied with white satin.

At 10:30 it was given out that the funeral would take place in Greenwood Thursday next.

Sometime ago H. W. Sage, a member of Plymouth Church, appropriated by will a sum of money to place a statue of Beecher in Prospect Park after his decease. Quincy Wood, the well-known sculptor, who is to do the work, will call at the house in the course of the day for the purpose of making a plaster cast of his features. It is not intended that any examination shall be made of Beecher's brain organism.

FROM THE PRESIDENT.

The following was among the telegrams received:

EXECUTIVE MANSION,
WASHINGTON, D. C.

Mrs. Henry Ward Beecher:

Accept my heartfelt sympathy in this your bereavement, with the hope that that comfort may be vouchsafed from a heavenly source, which you know so well.

(Signed) GROVER CLEVELAND.

Dr. Searle makes the following verbal statement in regard to the distinguished man during the last hours: "Beecher began to fall decidedly at 3 o'clock this morning, his respiration rapidly failing. At 4 o'clock the family was summoned. Death came slowly and steadily. His respiration gradually became faster and faster until they reached sixty a minute, one each second. The pulse was variable often reaching 130. He still remained in the same condition, except breathing. His eyes were closed and he was

ENTIRELY UNCONSCIOUS.

The motions of the right arm became less frequent and were finally stopped almost entirely. About 9 o'clock in the morning we could detect the first symptoms of immediate death. His pulse ran up a little higher, the red and duetuated until 9:28, two minutes before his death, his pulse ceased almost entirely. At the wrist it was so faint that it could hardly be detected, and then it stopped altogether. There was a rattling in his throat painful to those around him but unfelt by him owing to the failure of the nerve centres of the respiratory organs, together with a failure of the heart's action. His death, which came at 9:30, was very easy, as death from suffocation or drowning is supposed to be."

In the sitting room in the back of the house where the

GREAT PREACHER

spent many of the hours of his life, Major Pond, this evening, was busily engaged answering the many telegrams that were received by Mrs. Beecher. A large number of people called at the house during the evening and left their cards, with kind words of condolence. A crowd of people still hovered around the house and gazed in silence at the windows of the room where the body of Beecher lay.

The pall bearers have not yet been selected, and will not be made public until the funeral.

Members of the family were gathered in the front parlor to-night and received their friends until 7 o'clock, when the house was closed for the night. Mrs. Beecher braced up wonderfully under the heavy affliction. She is calm and composed.

FUNERAL ARRANGEMENTS.

NEW YORK, March 8.—The following details of the arrangements for the funeral were given to the press to-night: The services from the beginning will be under the directions of Rev. Chas. H. Hall, of the Holy Trinity Church, who will officiate at the house when the first services take place on Thursday morning at 9:30 o'clock. At 10:30 o'clock the remains will be escorted to the church by the Thirteenth Regiment, of which Beecher was chaplain, and Company C will act as a guard of honor until the remains are finally transferred to Greenwood Cemetery, where they will be placed in the receiving vault to await final disposition.

There will be no black drapery in the church or house, nor will the family

WEAR MOURNING.

Many times Beecher has said in his sermons: "Strew flowers on my grave, but let no heathenish pratice prevail of drapery in black as a token of sorrow when man has passed through death to eternal life."

The Sunday school children of Home Bethel and the Mayflower schools, all connected with Plymouth Church, will attend in a body at the church at four o'clock Friday afternoon. The body will lie in state at the church. The leading clergymen from all parts of the country will be present. It is the wish of the committee to have the remains lie in the church until all the citizens of Brooklyn shall have viewed the remains.

The Logan memorial committee in a letter of sympathy expressed their desire to assist in the ceremonies, and have suggested holding contemporary service at the Academy of Music while services are in progress at Plymouth Church. It was decided to adopt the suggestion.

TOKENS OF RESPECT.

At the meeting of the board of officers of the Thirteenth Regiment of Brooklyn, of which Beecher was chaplain, it was determined to offer a military escort at Beecher's funeral.

The aldermen of Brooklyn had a special meeting to-night and passed resolutions providing for the draping of the city buildings and the closing of public offices on the day of the funeral.

The municipal council of the Irish National League met to-night and unanimously adopted resolutions expressing regret at Beecher's death.

ALBANY, March 8.—The Assembly to-day appointed a committee to attend the funeral of Beecher, and as a mark of respect adjourned till to-morrow.

In the Senate the grief was pronounced. Appropriate resolutions were adopted and an adjournment taken.

ENGLISH JOURNALS.

LONDON, March 8.—The *Daily News*, commenting upon the death of Beecher, says: "He leaves no system either of theology or of church government. His influence, except as a personal recollection, ends with his life. He was for America as the great expositor of his time. He was a great preacher, and did nothing but preach."

The *Telegraph* says: "No preacher, no platform orator in America, put more intensity of heart into his discourses than the man whose clarion voice rang every Sunday in Plymouth Church. With all his faults, and they were many, it is doubtful if America will ever produce another Beecher."

The *Standard*: "Beecher was one of the comparatively few Americans enjoying a world-wide reputation. Having peculiar and exceptional gifts for the ministry, his capacity for work was amazing."

SUNDAY SCHOOL MEETING.

AN INTERESTING SESSION—REPORTS WANTED.

The regular monthly meeting of the officers and teachers of the Sabbath Schools in the Salt Lake Stake was held Monday evening, March 7th. A good representation from the city and several of the country Wards was present.

The Nineteenth Ward choir, under the leadership of Prof. E. Beesley, furnished the singing for the opening and closing. This part of the exercise was one of the pleasing features of the meeting, as was also the congregational singing conducted by Brother Thomas McIntyre.

Following the preliminary exercises was a short address on the "The Power of Kindness," by Brother Alfred Ridges, of the Nineteenth Ward Sabbath School. He remarked that examples of the evil effects of ruling by harshness were abundant; he considered that the proper way of governing mankind was by kind treatment, by winning their love and affection. The Savior's mission was fraught with a kind spirit throughout. He taught His disciples to love their neighbors as they loved themselves, to do unto others as they would be done by, etc. The speaker read a few extracts bearing upon the subject, and cited, as an instance where the effects of kind treatment resulted in good, the dealings of Wm. Penn with the Indians, in the early colonization of America. Harsh treatment would never call forth respect, as it was a natural disposition of mankind to retaliate when dealt with harshly.

Sister Ella Nebeker, also of the Nineteenth Ward, read an essay on primary teaching. The first thing necessary to success in this undertaking was to get the children to give attention and become interested. The teacher should learn to convey what he wishes to teach in the most simple and pleasing manner; to illustrate by giving examples, and relating anecdotes that convey a moral. If a teacher finds that the pupils do not comprehend what he endeavors to explain to them in one way, he should try another method. The asking of questions was a good plan to vary the exercises, as it tended to cultivate the reasoning faculty of the youth. As children were great imitators, a good example should always be set before them.

Brother Jas. F. Smith, of the same ward, showed in a clear manner the necessity of Sunday School teachers having the spirit of the Lord to lead and assist them in their important duties. It was the calling of the teacher to impart to the youth an understanding of the things of God; this he could not do unless he was in possession of the Holy Spirit, as no man could know the things of God except by the Spirit of God.

President A. M. Cannon expressed gratitude at what he had witnessed while present. He spoke of the improvement among the youth in these valleys; contrasted their condition with that of the young people here in the early days of the country's settlement, and showed the necessity of the Saints having the Spirit of the Lord to guide them that they may not go astray by inquiring after what they are not able to comprehend, or what has not been revealed, and contending about doctrine. He cautioned his hearers about the doctrines they advanced among the youth—it was better to not teach than to teach incorrect ideas. The people should live in purity and be attentive and obedient to counsel.

The meeting then adjourned for one month. Benediction by President H. S. Gowans.

The Twentieth Ward Sunday School is to furnish the music and part of the programme for the next meeting. The pieces to be sung by the congregation on the occasion are: "We'll Sing all Hail to Jesus' name," and "Providence is Over All."

All schools which have not already sent in their annual reports are requested to do so immediately.

E. F. PARRY, Asst. Sec'y.

The marriage of Lulu Hurst, the magnetic girl of Georgia, to her manager calls attention to the fact that almost any girl with a fortune of $200,000 in her own right is more or less of a magnet.

There is no excuse for coughing since the discovery of Red Star Cough Cure. 25 cents.

TENTH SCHOOL DISTRICT,

March 7th, 1887.

Plans and Specifications Ready.

THE PLANS AND SPECIFICATIONS of the Tenth District School Building are now ready and can be seen at Mr. Kletting's Office, over the Deseret National Bank.

Parties desiring to bid upon the same can do so by applying at the above place. Separate bids will be received.

First—Mason work, brick and stone.
Second—Carpenter work.
Third—Plastering.
Fourth—Painting; or all four combined. All bids must be sealed and be delivered at the residence of James T. Strong, No. 849 east, Fourth South Street, Tenth Ward, not later than Monday, March 14th, 1887.

The Trustees reserve the right to reject any and all bids.

WILLIAM TAYLOR,
JAMES T. STRONG,
JOHN KIRKMAN,
d2w Trustees.

JOSEPH WM. TAYLOR,

REPORTS OF GOVERNMENT CHEMISTS

As to Purity and Wholesomeness of the Royal Baking Powder.

"I have tested a package of Royal Baking Powder, which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates, or other injurious substances. E. G. LOVE, Ph.D."

"It is a scientific fact that the Royal Baking Powder is absolutely pure. "H. A. MOTT, Ph.D.'

"I have examined a package of Royal Baking Powder, purchased by myself in the market. I find it entirely free from alum, terra alba, or any other injurious substance. HENRY MORTON, Ph.D., President of Stevens Institute of Technology."

"I have analyzed a package of Royal Baking Powder. The materials of which it is composed are pure and wholesome. S. DANA HAYES, State Assayer, Mass."

The Royal Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1873; at the Centennial, Philadelphia, 1876; at the American Institute, New York, and at State Fairs throughout the country.

No other article of human food has ever received such high, emphatic, and universal endorsement from eminent chemists, physicians, scientists, and Boards of Health all over the world.

NOTE—The above DIAGRAM illustrates the comparative worth of various Baking Powders, as shown by Chemical Analysis and experiments made by Prof. Schedler. A pound can of each powder was taken, the total leavening power or volume in each can calculated, the result being as indicated. This practical test for worth by Prof. Schedler only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that, while it costs a few cents per pound more than ordinary kinds, it is far more economical, and, besides, affords the advantage of better work. A single trial of the Royal Baking Powder will convince any fair minded person of these facts.

* While the diagram shows some of the alum powders to be of a higher degree of strength than other powders ranked below them, it is not to be taken as indicating that they have any value. All alum powders, no matter how high their strength, are to be avoided as dangerous.
