FIFTY-FIRST YEAR

BRICHAM CITY AND SUGAR COMPANY.

Inducements Offered for the Construction of the East Branch of the Bear River Canal.

(Special to the "News.")

Brigham City, Utah, July 12 .- The offeers of the Utah Sugar company were met by a good crowd, at the Operahouse last night, representing every precinct in the county lying on the east side of Bear river. The Brigham City military band had been playing and when the meeting was called to order at 8 o'clock, the pit of the house was just about all taken up. Tom D. Pitt stepped onto the stage and said that it would be necessary to have an organization, in order to conduct the usiness of the evening, and according-

business of the evening, and according-ly nominated as chairman President Chas. Kelly, who was elected. Mr. Kelly briefly outlined the object of the meeting and also called attention to the fact that it was highly import-ant that some decided action be taken by the superstructure optimizer on this ride by the property owners on this side of the river to have the water brought out on this side, as there were canals being built farther up the stream and the water will be appropriated before very long, in which case it will be forever lost to us. Mr. Kelly thought that the country on this side had about reached the extent of its possible development until more water could be

In order to facilitate the business In order to facilitate the outsidess of the meeting, Mr. Hyrum Standing was elected secretary for the evening. Hon. T. R. Cutler was introduced to the meeting and proceeded at once to explain the object the company had be meeting with the citizens. He said n meeting with the citizens. He said that he had been informed that there that he had been informed all access of was a tract of perhaps 18,000 access of land which could be brought unde, cultivation on this side of the Bear river if the canal could be built, but without the co-operation of the land owners to be benefitted, the canal could not be completed. He thought that it would be necessary for the citizens to subscribe for at least 10,000 acres at a figure not to exceed \$40 per acre, as the matter involved a great many ques-tions back of the mere building of the This was a preliminary meetcanal. and when an expression was had from the land owners and the company ad made an estimate of the cost of construction, etc., they could present to the people a decisive proposition which might be better than that already made; how much better or whether it could be a great deal better, or he could not now say, but he wished to hear from the people as to whether or not they would be willing to give the company the guarantee of as much of a subscription as that mentioned above, that is, whether or not they wanted that much water. He did not want anyone to do this to help the company, as they needed no help if they should undertake to build, but he wished to know if the people wanted the water sufficiently to enter into this guarantee.

have a certain amount of guarantee in order to justify it in making the pre-liminary surveys, etc., but if 15,000 acres were subscribed for at once it

Q.-Must the land be specified upon which water is to be used, and will it be possible to transfer such water rights to others to be used upon other land, and, in case water is subscribed for to irrigate land which should prove to be valueless because of alkali, for instance, could it then be transferred to other land?

Ans.-Water rights would be non-transferable and must specify just what land the water is to be used upon, otherwise it would cause endless con-fusion. But, in the latter case, where land should prove to be worthless, the company would be willing and even anxious to have same transferred to

good land. Q .- Water rights were spoken of as being sold by the acre; who shall judge as to the amount necessary for an acre? Answered by Mr. Evans, the local manager, who thought the company should be the judge of that. One cubic foot per second flow would be furnished for each 80 acres and at that proportionate rate for any number of acres, but arrangements could be made with the water-masters or with the company as to time water is used. It could be used for a shorter length of time and

have a larger stream. The question was asked, How shall a man who has done work on the canal and received, in payment, water rights for a certain number of acres, be able to dispose of water rights if the same be not transferable? To which Mr. Cutler answered that all work done for the Utah Sugar company would be paid for in cash, every dollar of it. (Applause.) It was decided to make a preliminary

It was decided to make a preliminary canvass among the people present at the meeting, as to how much they would subscribe for, beginning with Collingston precinct and coming on down in their order to Willard pre-cinct. The result was that amounts aggregating about 4,000 acres were promised in the meeting. Mr. Cutler expressed himself as being convinced that the meeting envinced

ward mark and both are tacking every two or three minutes. Columbia ap-pears to maintain her lead but cannot shake off Constitution. Independence is not more than a mile astern of the other boats. 1:27 p. m.—The Columbia apparently turned the mark at 1:25:30; Constitu-tion 1:26:40. Both roke No. 1 jib and headed for the finish. The Independence at the time was not far away, having gained through a long board in towards Sakonnet river. 1:30 p. m.—Columbia and Constitution are reaching along fairly smothered in canvas. They will probably sail the

next leg of ten miles in very fast time. 1:32 p. m.-Independence appeared to have turned the second mark at 1:31:45 1:51 p. m .- As taken from the Wanda the Columbia turned first mark at 11:59:30; Constitution at 12:01:35 and Independence at 12:67:35. The Independence was luffed into the

wind for five minutes and thirty sec-onds in order to get clear of the wreck-

1:55 p. m.-The yachts are within two miles of the finish, and Columbia is leading Constitution by about a quarter of a mile. 2:10 p. m .-- Columbia wins, crossing

the line at 2:09:37. 2:12 p. m.-The Constitution crossed the line 2:10:58. At that time the Independence was just ten minutes be-hind the other boats. The Columbia beat the Constitution at the finish by 1 minute and 21 seconds as estimated from shore.

2:21 p. m.-Independence crossed the line 2:10:02, 10 minutes and 25 seconds behind Columbia, and 9 minutes and 4 seconds behind Constitution.

The result of the race was even more encouraging to the followers of the Boston yacht than yesterday's contest. and the next race between the three boats, whenever it occurs, will be looked forward to with great interest. On the other hand the defeat of the new Herreshoff yacht Constitution a third time by the cld 1899 defender, has still further complicated the question of selecting an America's cup defender, and leaves the question of which is the faster yacht in ordinary breezes very much in doubt.

TO INSPECT THE FORESTS. Profs. Newell and Pinchot of Wash-

ington Are Coming West.

Washington, July 12 .- Professors F. H. Newell and Gifford Pinchot in charge respectively of the hydrographic work of the geological survey, and the forestry work of the department of agriculture, will leave here Sunday on a tour through the West. They will attend the state horticultural conven-tion at Kearney, Neb., July 16; the trans-Mississippi commercial congress

Trans-Mississippi Commercial Conress, to be held at Cripple Creek July 16th to 19th: Hon, George Romney General Charles S. Burton and W. F James and Thomas P. Page of Salt Lake county: Fred J. Klesel and Joseph Stanford, of Weber county: John R. Barnes, of Davis; T. R. Cutler, of Utah; B. F. Riter, of Cache, and Lewis An-derson of Sanate derson of Sanpete. The mayor has appointed the follow-

ing delegates to represent Salt Lake City at the congress: George A. Smith, C. W. Bennett, John

E. Dooly, Spencer Clawson, Don Carlos Young, Arthur Brown, W. W. Riter, John Nicholson, W. H. King, James Chipman,

ANOTHER RAILROAD VICTIM.

Miss Lottie Stills, Hurt in Chicago & Alton Wreck, is Dead.

Kansas City, Mo., July 12.—Another death was today added to the list of victims of the Chicago & Alton wreck near Norton. Mo., on Wednesday. Miss Lottle: L. Stills, aged 26 years of Hor-nélisville, N. Y., died at University hos-pital at 4:30 this morning. She was badly burned about the arms, face and cheuders and had here unconscious shoulders, and had been unconscious for nearly 48 hours.

At 11 o'clock this morning an inquest Leslie S. Colburn, of Pawpaw, Mich., who was not expected to survive the night, was alive at 10 o'clock this was held by Judge Dana T. Smith over the body of James L. Davis, who died morning. Miss Julia Hayslip, Chenoa, Ill.; Mrs, Anna Morrison, Valparaiso, Ind.; Miss Ora E. Tailman, Valparaiso, Ind., and Mrs. C. W. Snyder, Jasper, Ills. the other most seriously injured, at the Keogh-McKenna hospital last night as a result of a blow received on the back of the head from a stone thrown by Howard Young, a 14-year-old lad. The deed was committed by the boy in defense of his mother, who had been struck in the face by Davis. were all slightly improved today with better chances of recovery. The bodies of the three unknown dead

at the morgue, two tramps and a man supposed to be Sidney Jones of Chicago, remain unclaimed. No word has yet been received from

this issue. It was also developed that Davis was of a quarrelesome nature and that even after friends dragged him Miss Stills' parents as to the disposition of her body. away from Mrs. Young he wanted to go back and strike her again. A recess was taken at 12 o'crock and upon re-convening at 1 o'clock this afternoon, some further testimony was put in and

The to seven thousand employes in this city. has practically been declared off, A morning session, it is said, was taken up entirely by the arguments of the manufacturers and the main issues of the conference remained. President Shafter said nothing defi-alte had been done and refused to talk further. secret mass meeting of strikers was held today at which a formal report was made that it had been found to be impossible to procure assistance in

Judge E. H. Gary, of the United Judge E. H. Gary, of the United States Steel corporation, was seen in Pitusburg early today, but could not be found at the hotels or the clabs. The report of his presence in the city caused a flutter of excitement among the conference and it was stated that if he was still in the city he would annear at the conference some time appear at the conference some time during the day.

Among other matters being consid-ered at the conference is what is called the "non-interruptive" clause in the new scale. The clause was accepted by the Republic Iron and Steel company and the American Tin Plate company when their concerns signed the Amalgamated association scale, but it was ontingent upon its acceptance by the

American Sheet Steel company and the American Steel Hoop company. The Chronicle Telegraph says: "At the meeting of the Amalgamated board preceding the general conference this morning it is reported that Presi-dent Shaffer made a vigorous speech in which he objected to the delay in com-ing to some kind of an agreement. He declared that decisive action should have been taken on July 1 and said that the association had temporized too long with the delinquent companies. From the tenor of Mr. Shaffer's remarks, it is believed that unless a settlement is made soon on the terms proposed at the first conference, a general strike will be ordered and several important industries will be tried up."

GARY GOES TO CHICAGO.

New York, July 12 .- At the office of the U. S. Steel corporation in this city it was said that Judge Gary started sterday for Chi

The audience then proceeded to ask a few questions as follows:

In case the perpetual water right is place at \$40 per acre, what would be the annual rental per acre thereafter? Answer was-Not more than \$2 per

acre and possibly less. Q.-In case part of the purchase price of water should be paid on time, what would be the rate of interest to be paid upon the remainder?

Ans.-In all probability it would not be more than 7 per cent, the same as they are paying on the other side of the rive

Mr. D. P. Tarpey announced that the Toltec Ranch company, which he represents, would subscribe for 1,000 acres. (Great applause.)

James Nelsen of Three Mile intimated that the price named was above his expectations and could not answer for his ward, as to how much would be subscribed for at that price. Q.-If an amount exceeding 10,000

acres were subscribed for, would that

Corinne, William House, The committee was urged to make all possible haste in completing the can-VASS

The question was asked: is it not true that there is a shortage of water at the present time on the west side of the river and, could the company furnish the necessary amount of water out of what was left in Bear river at the lowest season, to irrigate what land was proposed on this side? The answer was that the company had no knowledge of any shortage of water on the other side and if anyone was short no doubt it was among neigh-

bors who purloined each other's water. Mr. Cutler said that perhaps a shortage was experienced by people who had 100 acres of land and only 10 acres of water and tried to irrigate the whole with that amount. It was stated that at the lowest season last year there was twice as much water running over the dam in Bear Elver Canyon as was used in the canal on the west side, and

BATTLE OF THE BOYNE. Its Celebration in Belfast Brings About Usual Collisions.

Belfast, July 12 .- The celebration of the battle of the Boyne is being marked by the customary collisions, but no serious trouble has occurred, there being plenty of soldiers and police to control the factions.

Shoe Company Wants Receiver.

Buffalo, N. Y., July 12.—As a result, it is said, of the failure of the City National bank, the Schauroth Shoe company has applied for the appoint-ment of a receiver. Liabilities are not given but President Schauroth says the company is perfectly solvent and if the assets are not slaughtered, the creditors will be paid in full.

Shamrock Against Shamrock.

Rothsay, Firth of Clyde, July 12 .-The two Shamrocks started on a trial race at 11:15 a. m. today. Off Bogany Point, the yachts were under jib headed top sails and a good 13-knot breeze was blowing. Shamrock I then had the lead by six lengths. She was served with the better wind as the boats reached down the channel, but outside the wind steadied and Shamrock II began to overhaul the older boat.

Off Cumbrae the yachts luffed up and started on a long thresh to windward across Kilbraman sound. Shamrock I still led by about two lengths and was well to windward. Under jib headers and jib top sails the boats sailed fast. The cup challenger pointed better and came up rapidly on the former challenger's weather quarter. There was not enough sea to trouble the boats, but the breeze sufficed to list them well over and test all their spars and sails

Big Fire at Mountain View, O. T.

Wichita, Kansas, July 12 .-- A fire at Mountain View, O. T., this morning destroyed an entire block, Loss \$65,000 About fifteen business houses were burned out. Mountain View is on the border of

the Klowa and Comanche country and Result of the Race Leaves Question of Selecting an America's is crowded with home seekers. The buildings destroyed include the First National bank, and two grocery stores, Many of the homeseekers bound for Lawton, the second place of registraland, purchased their supplies here and the loss will prove particularly hard on New York, July 12 .- The 90-foot | along very fast and has a lead of over them.

Cebu Insurgents Still Active.

Manila, July 12 .- Cebu, capital of the island of that name, is still frequently fired upon by the insurgents. Gen, Hughes, in command of the Visayas islands reports progress in the task of penetrating the island of Samar and scattering the insurgents.

Yacht Races Declared Off.

Athlete Shafter Going to Europe. The Constitution tacked to starboard

after the Columbia at 12:02. 12:15 p. m.-The boats are beating up Philadelphia, July 12 .- E. C. Shaffer, the University of Pennsylvania student who broke three American records at to the second mark and from this point the A. A. U. swimming championships just completed at Buffalo, will sail for it looks as if the Constitution was gaining a little on the Columbia, which, Europe August 1 and meet the best appears to be well in the European amateurs in various tour-Both neys. Herreshoff boats have rapidly left the Independence, which appears to be a mile and a half or more astern.

OIL IN OKLAHOMA.

People of Granite Go Wild Over its Discovery There.

Guthrie, O. T., July 12 .- The people of Granite, O. T., are wild with excite-ment over the discovery of oil near that town. The oil was found at the depth of 107 feet and spouted to the surface in great quantities. A company that sunk the well will go deeper in hopes of developing a gusher.

12:40 p. m.-Constitution seems to be unable to get by the Columbia to wind-ward. The Independence though still stern, has not been dropped to any great extent. The wind has fallen which will handleap her badly on the run in. The Columbia seems to be lead. 11:20 a. m.-The Columbia seems to ing Constitution something less than a Hitt's Affanced Immediately Came Bown from Idaho Falls and Married Wounded Man.

[Special to the "News."] Blackfoot, Ida., July 12 .-- Blackfoot had a serious shooting scrape at 10:30 last night. Walter Hilton shot Frank Hitt of Idaho Falls four times, all balls taking effect. Three balls pierced the right arm and one entered the right lung. Hilton returned from Pocatello on a train and found his wife out riding with Hitt. On their return Hilton approached Hitt at the buggy and opened fire. Hitt is seriously if not fatally wounded. The news was wired to Hitt's home at Idaho Falls. His fiancee, Miss Gibson, came down on the first train. procured a license and married Hitt and took him home on the 7 a. m. train. Hilton surrendered himself and is now in jail, but no complaint has been filed against him.

Blackfoot, Idaho, July 12 .- Frank H. Hitt, the well-known stockman who was shot by Walter Hilton last night as Hitt and Mrs. Hilton were returning from a buggy ride, was taken to his home at Idaho Falls this morning. The doctors cannot as yet predict the effect of the bullet, which entered the right lung. Gen. Ward has received a cable mes-sage from Maj. Scott, adjutant general

At an early hour this morning Hitt was united in marriage to Miss Minnie Gibson, cashier of the banking house of Anderson Brothers at Idaho Falls, Miss Gibson coming to Blackfoot for that purpose. Hitt had been engaged to the young lady for some time.

HOME FROM THE EAST.

W. N. Williams Back From Grand Rapids, the Great Furniture Center.

W. N. Williams manager of the Co. op Furniture company, has returned from the East after an absence of sevral weeks: He was accompanied with his wife and but for the intense heat they would have had a most delightful time. Mr. Williams combined business with pleasure and visited some of the furniture centers including Chicago and Grand Rapids. He says the latter

the month of July. Mr. and Mrs. Williams visited the Buffalo exposition where they found the weather quite pleasant, but in Chicago they experienced the hottest day that had been known there for twentynine years

SPRY WAS THOUGHTFUL. Paid Important Bills and Left His His Wife S65 in Cash.

Every passing day shows that Sam Spry, the fugitive street sprinkler, proseeded with much deliberation before his departure. On the day he left home for parts unknown he paid two or three important bills in order that his family might not be harrassed by claims they could not meet after he had gone. Among his cancelled obligations was the payment to Frank Miller of \$100, to wipe out a mortgage given for that amount and secured by his household This transaction was brought goods. to light today by the filing of the re-lease in the county recorder's office late yesterday afternoon. As to whether this \$100 was the hard earned money of the sprinkling employes is a matter of conjecture concerning which each person must judge for himself. Spry yesterday's close; September wheat at 68%, 3% higher, and September also left \$65 with his wife,

for the depositors from the assets, including stockholders' assessment, at about 80 cents on the dollar.

The receiver states that his estimate of the value of the Marquand collat-eral is less than is claimed by the directors of the bank and it is possible on this account that the final collection may be somewhat better than the recelver's estimate.

Comptroller Dawes stated today that all transactions connected with the advance of cash to the bank just prior to its failure are being carefully investigated by competent counsel, and that all legal rights of the depositors will be protected in this connection. Comptroller Dawes ordered today an assessment of 100 per cent of the \$500,-

000 capital stock of the bank. The report of the receiver contains no reference to any of the investigations now bein made as to the existence of criminal infractions of law. All these matters are under the charge of the department of justice.

TROPICAL HEAT IN LON DON. Londoners Not Prepared for it Are Suffering Greatly.

London, July 12 .- The heat wave here is becoming more tropical. Londoners were not prepared for it and they are

suffering greatly, Official thermometers, at 10 o'clock this morning registered from 85 to 87 in the shade, but the ordinary thermometers showed several degrees higher. There were many sunstrokes, prostrations and faintings in the streets which kept the ambulances busy. The number of omnibusses running was considerably reduced in onsequence of the exhaustion of the horses and the iron works and ship building yards were seriously handi-

capped on account of the enforced ab-sence of the workmen who were suffering from the heat.

STEAMER'S ESCAPE.

A Warning Signal Saves it from Going on Little Fastnet Rock.

Queenstown, July 12 .- The Cork Examiner today prints a sensational story of the miraculous escape of a four masted passenger steamer, westward bound, from being wrecked off the Fastnet rock at 2 welock yesterday afternoon. The Examiner says the fog lifted in the nick of time to save the vessel from a fearful disaster. The light keeps at Fastnet were horrified to see a steamer from the east running full on the Little Fastnet, 400 yards east atheast. Fastnet immediately discharged an alarm gun, signalling urgent danger. Before the liner could he slowed up or her engines reversed, the had apparently touched the Little Fauthet rock as she was seen to list to starboard and then to port. The on-lookers noticed a momentary scene of great excitement on board the liner. but she was apparently uninjured, as she proceeded.

Mrs. Bonine Indicted for Murder.

Washington, July 12 .- The grand jury after seven weeks' investigation, has ust returned an indictment for mu-ter against Mrs. Ida Boaine for the aleged killing of James S. Ayers, the young consus clerk.

PENSION FOR T. M. NEWMAN.

(special to the "News.")

the next ten days, the corn crop situation will approach a calamity. A message from Topeka, Kansas, says the prospects are for a crop of but 50,000,000 bushels of corn, although last year's crop was 163,000,000, and that of the previous year 237,000,000 bushels. The loss of hay and potatoes is also great, second only to the loss of corn. It is estimated that the farmers of Kansas and Missouri have already lost

ments against granting ball to the Con-
