MINING, BUSINESS AND STOCKS

UNITED STATES IN GOOD SHAPE.

Company is Earning Close to \$100,000 Per Month and is Out of Debt.

STATEMENT FROM A DIRECTOR.

The June Balance Sheet Shows Assets of \$1,186,000 - Dividends Are to Continue.

An eastern authority has released some information concerning United states mining which will be read with considerable interest locally.

The company, the authority says, is now entirely free from debt, the mansgement having paid off \$430,000 of such indebtedness from the proceeds of 1300,000 six per cent debenture notes thich were sold about a month ago to the directors and their friends at par,

At the time of the issue of these bonds it was stated that the proceeds bonds it was stated that the proceeds would be used for the building of the lead smelter, but later it was considered better policy to pay off the floating debt and use the earnings for the lead smelter. As this smelter will not be completed until about December, it is figured that its cost can easily be set aside out of the earnings, which are now running between \$90,000 and \$100,000 per month. To date over \$100,000 600 per month 'To date over \$100,000 has been expended upon the lead smeltt of the earnings.

At last week's meeting of the direc-tors, when an initial dividend of 50 cents per share was declared, a balance as presented.

thet was presented.

This statement showed assets on June 30 of \$1,186,000, which included about 14,000 shares of the company's stock taken at \$20 per share, materials and supplies, copper builton and cash on hand of nearly \$200,000. Against these assets are Habilities of \$595,000, which includes the \$500,000 debenture notes and \$95,500 of the old 7 per cent bonds, holders of which refused to turn them in to the company when the ballance of the \$320,000 7 per cent issue was retired. A director is quoted as saying:

pian is to continue to pay small divi-dends and lay up a comfortable surplus for working capital which will not take hope to improve on these earnings an increase in our furnace capacity, a arranged to run last month about ir and a half furnaces, but manng Director Holden was present at meeting and reported affairs at the elter were running much smoother, i he expected to run the furnaces an average of five and a half fur-ces per day for July and thereafter. e have been operating on an aver-of \$4,50 and \$5 ore from our Bing-mines and have been obliged to do was necessary to get these f the way before reaching our we have over 1,000,000 tons re Elupham mines which will erage of \$8 per ton in values, three or four months we the to operate entirely on this ore, which will add to our from \$200,000 to \$400,000 per anmm. On \$5 Singham ore we have been smply getting the full value from our feel Centennial-Eureka product and asking nothing from our Bingham ores by this will soon be changed.

WEEK ON 'CHANGE. le Marked Advance in Prices of Stocks Has Been Noted.

The forencen calls of the Mining Exange today brought the totals for the up to 47,675 shares, for which was

is was a short week and the maris displayed a tendency to recover, but has been no marked advances in any of the stocks. A few are quoted lower than at the beginning of Today's quotations and sales were:

THE PARIETTE MINES.

About Thirty-five Men Now Furnished Employment There.

About 35 men are said to be employed at the Pariette asphaltum mines off from Price. Levi N. Harmon of the Carbon county town recently made a trip to the mines and reports physical trip to the mines and reports physical conditions there as being first class. The new machinery ordered some time ago has been installed and is in operation, but the company is experiencing some difficulty in getting enough teams to transport its product to the railway The Pariette mines are owned by Chicago capitalists.

UNCLE SAM RETURNS.

Secretary Thompson Received a Check Yesterday for Ore Shipped.

Secy. William M. Thompson of the Uncle Sam Consolidated Mining company yesterday afternoon drew down a check from the American Smelting and Refining company for \$5.006.47, the proceeds for 143 tons of crude ore and concentration. centrates. The crude consisted of 111,-755 pounds, for which was received \$1,156.87. There were 325,440 pounds of concentrates, which brought \$4,848.60.

KIMBERLY AND MARYSVALE. Events of the Week in the Southern Utah Gold Districts.

Max Krotki and A. Soyka came down Max Brotki and A. Soyka came down from the Perjue-Surprise mines last week and went to Salt Lake to attend a meeting of the company, says the Richfield Reaper. They report that satisfactory progress and development have been made since resuming work this spring. The vein has been crosscut in two places in the Perjue-Surprise ground, showing splendid results. As soon as they return they expect to

prise ground, showing splendid results, As soon as they return they expect to prosecute some work on the Mammoth group, which is a very promising addition to the company's holdings.

W. E. Moore arrived from the east last Saturday. He is out west looking into the possibilities of entering into a sawmill proposition with parties, He is an experienced timberman, having been engaged in the business in Veris an experienced timberman, having been engaged in the business in Vermont for a number of years. An effort is being made to have a mill belonging to R. M. Keen in Millard county taken to the Boston & Gold Mountain property for the purpose of getting out lumber and timber for the The splendid outlook for crops makes the business condition all that could be desired, and as a result brokers report a ready demand for good securities. Utah Sugar still holds its own locally, preferred being quoted at \$9.35 and common at \$3. Reports from the beet fields indicate a heavy yield of good quality, so that past records bid fair to take a back seat. Bank stocks continue in good shape, while Z. C. M. I. and Home Fire remain firm. During

J. H. Wells was in town from Joseph Saturday. He was showing those in-terested in the B. W. & H. property some fine looking ore. Two forces of men are now being employed in the development of the property, one it tunnel No. 2 and one in tunnel No. 3 Mr. Weils has charge of the work it the upper tunnel, from which a ship the upper tunnel, from which a ship-ment of ore was recently extracted, He is continuing to take out some good ore, and very often, in the vein, strikes some pockets of very high grade. The force in the lower tunnel is continuing to sink in the shaft near the face of the tunnel. The depth of the shaft has been increased from 70 to 80 feet, and when another ten feet is gained some drifting will be done. In the meantime shipping ore is being sorted out.

sorted out. The mine is in better shape than it has yet been, and the outlook is most

encouraging.

L. H. Outzen visited the property of the Live Oak company near Monroe last week and brings back a very flattering report of the property. "I went over expecting to find nothing there that would be attractive to me," says encouraging. that would be attractive to me," says Mr. Outzen, "but I was agreeably surprised. The company has a true fissure which I traced for over 2,000 feet by surface croppings. The ledge is in perphyry and there should be a good body of ore there." Mr. Outzen looks upon it as a very promising proposi-

Henry Outzen was down from the Holland mine for a few days the past week, returning to the property Tues-day. He confirms the report of the strike of lots of water in the main tunnel now being driven and it is expected to strike the big vein any time

B. T. Ashby was down from Marys-vale this week. He says that he has temporarily discontinued work on the Aldebaran property and is now giving his attention to the Mountain Star group, which he has just bonded. He will put a force of men to wo velop the ground right away. to work to de

May Build Aerial Tramway.

The directors of the Bingham & New Haven Mining company, operating in Bingham, are considering the matter of building an aerial tramway to connect their mines with a loading station on the line of the Copper Belt railway. President Stoddard is in camp today with an engineer, going over the pro-posed route. The length of the tram, if built, will be about 300 feet.

Tintic Ore Shipments.

Special Correspondence. Eureka, July 8.—The ore shipments from Tintic district are considerably less this week owing to the closing of the mines for several days to allow the workers to enjoy the glorious Fourth. Six cars of concentrates were shipped during the week from the Uncle Sam mill. The following properties shipped 60 carloads of ore: Ajax, 1; Mammoth, 5: Grand Central, 5; Victor, 1; Carissa, 2: Bullion-Beck, 2; Gemini, 6; Centennial-Eureka, 30; Yankee Consolidated, 6; Uncle Sam, 2; total, 60.

Prominent Leaders Opened Unchanged With the General List Higher.

COOD DEMAND FOR READING.

Considerable Amounts of This and Penn. and U. S. Steel Taken At Rising Prices.

New York, July 9 .- Prices of the prominent leaders opened unchanged from last night in the stock market today, but the general list was a fraction higher. Pacific Mail rose 2, Lend 1 and Norfolk & Western and Delaware & Hudson %. There was a fall of % in Hocking Coal. Considerable amounts of Reading, Pennsylvania and United States Steel preferred were taken at rising prices. The demand for these laders contributed largely to the firmness of the entire market. The local tractions were irregular and did not respond to the advance of a point in Manhattan. Lead and the Southern Railway stocks were brought heavily. Southern Railway preferred rose 1%, Pacific Coast . Iowa Central preferred 11/2, Continental Tobacco preferred 1% and Hocking Val-

Reading was bought in large blocks up to % over last night, but the general list did not follow it. The bank statement failed to show the expected large increase in reserves and stock prices drifted back to last night's level, and for some of the western railroad stocks slightly below, Later it stiffened again and the close was

Western Union WILL BE A DEFICIT.

World's Fair Utah Commission Will Go Into Hole For \$5,000.

A meeting of the Louisiana Purchase A meeting of the Louisiana Purchase commission for Utah was held today in the rooms of the commission at which the financial condition of the commission was discussed. It is evident that there will be a deficit of about \$5,000 by the time the fair closes as the fund appropriated by the Legislature is practically exhausted now. Ways and means of meeting the deficit were considered but nothing definite was done.

was done.

It is thought that enough can be realized from the sale of the model concentrating plant in the Utah exhibit and also from the sale of the furnishings of the Utah building and some of the exhibits to meet the deficit. The plant cost about \$6,000, and as several eastern colleges are anxious to get it it is not believed that much trouble will be experienced in making a sale. It is the intention of the commission to give the University of Utah the preference over all other purchasers of the plant. The expenses of the commission are about \$1,000 per month the plant. The expenses of the com-mission are about \$1,000 per month and the 'air will run about five months longer, so the deficit will reach the amount stated above but after all the money possible can be realized from the sales mentioned there will not be much of a deficit.

VIA MORPHINE ROUTE. Nelson Hallett of Pleasant View Tries To Take His Own Life.

(Special to the "News.") Provo, July 2.—Nelson Hallett of Pleasant View attempted suicide this morning by taking morphine. He was brought to the sheriff's office where brought to the sheriff's office where Dr. Westwood used the stomach pump to good effect. Family troubles, including divorce proceedings by his wife, are attributed as the cause of his rash act. He is now being held by the sheriff as he threatens he will take his own life unless his wife withdraws her suit for divorce.

TO COUNT SCHOOL PUPILS. Board of Education Appeints Census Enumerators to Make Canvass.

The members of the board of education from the various precincts have appointed enumerators to take the school census of the city for this year. The work will be commenced on Friday, July 15 and will be completed by the last of the month. Following are the enumerators appointed:

FIRST MUNICIPAL WARD. Mrs. Whiteley, Annex and Thirty-Rose O'Brien, part of First ward.

VITAL STATISTICS.

Report of Board of Health Shows Sat isfactory Conditions in City.

Report of the board of health for the week ending July 9, 1904, shows 18 births; 12 females and 6 males. The deaths for the same period number 21 of which 10 were males and 10 females No cases of scarlet fever were reported during the week. Three were dis-charged, leaving none in quarantine No cases of diphtheria were reported during the week, while five were discharged, leaving one in quarantine at this time. One case of smallpox, with seven in quarantine, one case of whooping cough and one case of measles were reported during the week.

NEW BARRACKS.

Structures to Cost \$70,000 to Go Up At Ft. Douglas.

Orders will be received at the office of the constructing quartermaster in this city within the next two weeks for the construction of another set of barracks, new guardhouse and other buildings at Fort Douglas, the amount of oney being required for all this being estimated at \$70,000.

JAPANESE HAVE TAKEN KAI CHOU.

They Are Advancing in Force Along Railroad Against Russian Position.

WAR OFFICE ANXIOUS FOR NEWS

Evacuation of Newchwang by the Russians May Soon be Announced.

St. Petersburg, July 9 (2:10 p. m.) .-The capture of Kai Chou by the Japanese, announced from Tokio today, is not officially confirmed at the war office, but there is no disposition to question the probable correctness of the report as the latest advices received here make it plain that the Japanese were advancing in force along the railroad against the Russian position. The emperor and his military suite,

who left St. Petersburg last night for

the Volga region to fild farewell to the Fifth and Sixth army corps, may already have received Gen. Kuropatkin's report, but the general staff has not yet received Gen. Sakharoff's report, which usually follows Kuropatkin's at a short interval. The occupation of Kai Chou, while it is not believed that it will exercise material influence on Kuropatkin's strategy, is of importance to the Japanese, as it brings them within reach of Newchwang, facilitating Gen. Oku's juncture with Gen. Kuroki, who may already be in touch. How far the Russian commander-in-chief attempted to contest the possession of Kai Chou with the Japanese the war office says will be revealed when the official report arrives. The Japanese reports of the severity of the fighting might indicate Kuropatkin's desire to hold Kai Chou so long as possible for the purpose of preventing a juncture of the Japanese armies, but the threatening position of the Japanese columns eastward may have renedred Kuropatkin's wints withdrawal the Volga region to bid farewell to the armies, but the threatening position of the Japanese columns eastward may have renedred Kuropatkin's withdrawal further north imperative. It would not be surprising after the juncture of the Japanese armies, if Kuropatkin decided to retire even from Ta Tohe Kiao and Hai Cheng and concentrate his forces about his main position at Liao Yang. This would render easy the Japanese plan, repeatedly predicted in these dispatches to get possession of these places, flank the Russians out of Newchwang, fortify a line from Newchwang chwang, fortify a line from Newchwang across the head of the peninsula to Taku Shan and Feng wang Cheng, secure control of the railrad, establish a hew base at Newchwang, and prepare to advance or retreat or to resist Kurstatking advance as the case might. patkin's advance, as the case night be, at the close of the rainy season. News of the evacuation of New-chwang by the Russians would seem to be the logical sequence of the an-nouncement of the occupation of Kai Chou by the Japanese. Chou by the Japanese.

RUSSIA'S OBJECT IN WAR.

M. Souvrin, manager of the Novos Vremya, in a leading article in that paper which is attracting much atten-tion, declares that it is not Manchuria nor Korea for which Russia is fighting but it is her future position in the far but it is her future position in the far east where covetous hands are stretched out, not only by Japan but by the United States and Great Britain, which is the cause of the American and English sympathy for Japan. Russia, he continues, has been spoiled by easy, bloodless victories in the far east, consequently was not prepared for the struggle which was only avoid.

east, consequently was not prepared for the struggle which was only avoid-able by following Tolstoi's teachings and let the Japanese take what they wanted with the result that Russia would again be placed under the Mongol, destroying the national spirit and

the unity of the empire. The contest, therefore, was accepted under unfavorable conditions. The Russians as plainsmen, are out of their element in the mountains. The Japanese were able at the outset to put in the field twice as many men as was Russia and they have displayed marvelous skill, but these advantages are being

Still, the event of the Russian victory on land will be barren so long as the Japanese hold the sea. This is why the Baltic squadron acquires such enormous importance in the destinies of Russia and why the ardent wish of a majority of the people are to see the last division start at once to reinforce the Pacific fleet.

The Novoe Vremya article tends to

strengthen the belief that the division of the Baltic squadron which is to sail from Cronstadt July 28, under sealed orders, is to proceed at once to the

LATE LOCALS.

Z. C. M. I. will not close again this eason Wednesday afternoons. Chief Deputy Marshal Bailey of Wyming is spending a few days in the city.

laborers, have filed a bankruptcy peti-tion, with liabilities of \$2.405 and assets of \$255.

Mrs. Cora S. Dixon, cashier in the office of County Cierk James, will leave for Denver on Monday, to be gone two Mayor Morris has gone to Brighton

to spend a few days preparatory to moving his family to that resort for the summer. The Lumbermen kept their business

places open this afternoon, instead of closing, on account of the time lost on the Fourth of July. Isadore Jacobs of Salt Lake, is very sick with typhoid fever in the German hospital at New York, and his brother

Adolph, left yesterday for his brother's bedside. The subscription committee of the Catholic cathedral has secured over

\$50,000 for the building fund, and hopes in a few days to have the total raised to \$75,000. The construction of the great edifice is being more actively pushed than ever. County Attorney J. J. Whitaker issued a complaint today against E. F. Obiad, charging him with embezzlement. It is alleged in the complaint that Obiad was working for E. H. Pierce between Sept. 23, 1901, and Sept. 1, 1902, and that during that time he came into the possession of \$179.52, belonging to Mr. Pierce, which he appropriated to his own use.

priated to his own use. William McKenzle filed suit in the district court today against the National Bank of the Republic to recover \$2,160, alleged to be due on an order \$2,160, alleged to be due on an order signed by C. L. Dignowity. The latter ordered defendant to pay to plain the above sum out of the money to be paid in the bank to his credit by A. J. Orem on March 15, 1904. On that date the defendant refused to pay over the money, although plaintiff alleges that it had been left there to the credit

Mrs. Joseph L. Rawlins is now suffernurging her husband, Senator Rawlins,

of Mr. Dignowity.

RepairsHair

Nature always tries to repair damaged hair. Sometimes she succeeds, very often she doesn't. She needs a little help-Ayer's Hair Vigor. It repairs the hair, touches it up, gives it new life, brings back the old dark color, and makes it soft and glossy. Cures dandruff, too. "I used only one bottle of Ayer's Hair Vigor and it completely stopped my hair from falling out."—Mrs. C. Leasenfeld, New York City. \$1.00. All druggists. J. C. AYER CO., Lowell, Mass

who is rapidly improving. Friends of the family will be pained to learn of Mrs. Rawlins' illness.

J. C. Brown, the painter who fell from the D. F. Walker building a day or two ago, is at the Holy Cross hospital in a sort of semi-conscious condition. The man is suffering from a broken leg, a budly shattered wrist, a bruised eye and, it is feared, internal complications. In this condition his recovery is still a matter of grave doubt.

GUNDANANANANANANANANANA CHURCH NOTICES.

grammannamannamannaman again Home missionaries will visit the wards of the Salt Lake stake Sunday evening, July 19, 1904.
