BANISH "PADDY THE PRIEST"

Dresser Debates With Socialist Chief—Interesting Discussion.

Special Correspondence. Park City, Sept. 18.—A rather peculiar individual who goes by the euphonious title of "Paddy the Priest," although when signing deeds he uses the name of Wm. Thompson, was escorted out of town by Police Officer Greenough yesterday afternoon on orders of Judge Lockhart.

This object of so much official solicitude has caused no end of trouble recently as he has been charged with using a catapult bottle as a weapon of assault. Paddy entered the senate restaurant yesterday and for the third time in the last few days began a promiscuous and unprovoked assault on the patrons of the establishment.

EDITOR VS ITINERANT SOCIALIST.

Last night an interesting debate was had between Editor N. B. Dresser of the Miner and Joseph Gilbert, a traveling representative of the Socialist party of Utah. It created much interest and the hall and hallways were packed with eager listeners. The speakers handled the question with considerable ability. Mr. Gilbert left today for Murray.

SCHOOL ATTENDANCE.

The attendance at the opening of the public school was over 500. The High school has 53 scholars nearly double what it was last year. A back exit has been made to the main building

SKIN DISEASES THE OUTCROPPING OF BAD BLOOD

And while not always painful are aggravating beyond expression. With few exceptions they are worse in spring and summer when the system begins to thaw out and the skin is reacting and making extra efforts to throw off the poisons that have accumulated during the winter. Then boils and pimples, rashes and eruptions of every conceivable kind make their appearance, and Eczema and Tetter, the twin terrors of skin diseases—Nettle-rash, Poison Oak and Ivy, and such other skin troubles as usually remain quiet during cold weather, break out afresh to torment and distract by their fearful burning, itching and stinging. A course of S. S. S. now will purify the blood, and enrich the system and stimulate the sluggish circulation, thus warding off the diseases common to spring and summer. The skin, with good blood to nourish it, remains smooth and soft and free of all disfiguring eruptions.

Send for our free book on diseases of the skin and write us if you desire medical advice or any special information. This will cost you nothing.

VERNAL.

INDIANS ON THE RAMPAGE.

They Do Not Like the Survey and Opening of the Reservation.

Special Correspondence.

Vernal, Utah Co., Sept. 16.—This little town is like a beautiful oasis in the desert, a place of comfort and often beautiful homes, shade trees and a very large and handsome court house, with a fine brick stake tabernacle in course of construction.

The population of the town is about 700, while that of the farming district surrounding it is between 6,000 and 7,000. Here are quite a number of substantial brick business blocks, and to the surprise of many it is found that the streets and sidewalks in the business parts are paved with asphaltum. This mineral is found five or six miles away, so mixed with small gravel that it is already so prepared for use that it is only requires laying down and rolling. It then becomes solid and smooth as stone.

INDIANS MAY CAUSE TROUBLE.

Some 50 Indians under old Chief Sawicki, of the White River Utes, including men, women and children, became disgruntled because of the survey and opening of the Uintah reservation now under contemplation, so they, gathered up their belongings and left the reservation for Pine Ridge agency to live with the Sioux Indians. It is understood that Agent Mercer gave them permission to make the trip, providing they would leave their children in school, but the Indians were surly and have been for some time past, and took their children and went.

ONE-THIRD CLOSED.

The first change in the Short Line franchise was that only the west one-third of Third West street from North Temple to First South street, will be closed instead of the west one-half as intended by the company. The closing of First North street between Third and Fourth West streets met with strong opposition from E. H. Davis and Fernstrom. They contended that, inasmuch as the viaduct would be placed on North Temple street instead of First North, as intended, there would be no necessity for closing the latter street. They argued that the closing of the street would create a feeling among the west side residents and would result in litigation which might tie up the whole proposition. It was argued by the railroad people present with a view to the closing of the street there would be no necessity for the public using First North at all, for they would certainly choose to use the viaduct instead of crossing their lives by attempting to cross over a network of tracks as will be constructed across First North street. It was also argued that the company requires that street to be closed in order to properly control its yards. The committees were divided on the matter, so it will be sent to the council to decide.

TO LIMIT TRACKS.

Eardley entered a strong protest against permitting the company to lay tracks across First South street between Third and Fourth West streets at its pleasure. He contended that the company should apply to the council for a track separately before laying it. Supt. Read, of the Consolidated Railway and Power company, also objected to that clause in the franchise unless the council would insure his company a right of way north over North West street as far as the viaduct on North Temple street. It was finally agreed that the company would be granted such a right of way and the clause was then adopted.

VIADUCT ON NORTH TEMPLE.

The railroad company agreed that the franchise should be amended so that the viaduct will be constructed on North Temple street, between Third and Fourth West streets. It was also understood that it will build a foot viaduct for pedestrians across its yard on South Temple street. These two changes were asked for by the west side residents at the council meeting on Wednesday evening. It was also agreed that the company shall ballast its tracks with gravel and also Third West street for 10 feet each side of its tracks from North Temple to Eighth South streets. Further, the company agreed to sign a petition for the paving of that street between Third Temple and Second South streets, whenever the city desires to make such improvement.

SIXTY DAYS TO ACCEPT.

An additional clause was added to the

THE OUTCROPPING OF BAD BLOOD

franchise which gives the company 60 days to accept the franchise and six months from its acceptance to commence work on the proposed improvements.

FRANCHISE.

The section of the Rio Grande franchise asking that Third West street be closed between Third and Fourth West streets was strongly opposed by Councilman Kerdley and Atty. A. B. Irvine, representing the citizens west of Fourth West street. It was argued that Third South street is one of the oldest in town and should not be closed. The people would be greatly inconvenienced and closed there in view to Salt Lake City, where the water is to be used from January 1st to December 31st of each year to supply the inhabitants of said city with water for general domestic purposes. The said city having heretofore developed the underground flow of said creek to the extent of about three (3) second-feet, now proposes to further develop said underground flow to the extent of fifteen (15) second-feet by doing suitable work in and around the channel of said creek and to develop the same in such a manner that the water so developed in the manner, at the place and for the purpose aforesaid.

All protests against the granting of said application, stating the reasons therefor, must be made in writing and filed in this office after thirty (30) days and before sixty (60) days from the date hereof.
