DESERET EVENING NEWS.

TRUTH AND LIBERTY.

VOL. VI. SALT LAKE CITY, UTAH TERRITORY, WEDNESDAY EVENING, SEPTEMBER 3, 1873. NO. 240.

BY TELEGRAPH.

SPECIAL TO THE "DESERET NEWS," PER DESERET AND ATLANTIC AND PACIFIC TELEGRAPH LINES.

Last Night's Dispatches.

EASTERN.

Public Expenses.

WASHINGTON, 2.—Payments from the treasury by warrants during the month, exclusive of those made on account of the interest and principal of the public debt, were as follows: civil and miscellaneous, $5,888,842,90; war, $,007,902,81; navy, $2,330,246,28; interior, Indian and pensions, $3,976,510,83.

PITTSBURGH, Pa, 2.—A destructive fire occurred at Newcastle last night, resulting in the total destruction of the Knox House, Geo. Henderson's dry goods, John Ewin's grocery, and Cubby & Son's jewelry store; loss about $15,000.

Tar and Feathers.

NEW YORK, 2.—Work on the new Bergen tunnel, Jersey City, commenced yesterday.

Erie directors met to-day to consider the subject of dividends!

Royal Sammis, one of the participators in the Kelsy tar and feathering case at Huntington, Long Island, yesterday, said that deacon Wood was witness of the affair as well as himself. Both saw Kelsy tarred and feathered, but they don't know what became of him afterward. He says he does not believe he was thrown into the bay; he thinks he is still alive. Sammis was engaged to marry Miss Smith about a year before the tarring and feathering of Kelsy. Kelay knew of the engagement, but notwithstanding that, continued to write letters to Miss Smith during that time, of a most obscene and disgusting character.

Shot Dead.

COLUMBUS, O., 2.—While the wife of C. V. Deeroway was playfully pointing a pistol at him yesterday, he requested her not to do so, and stepping so as to take it from her, it went off, the ball entering her side, and passing through her lungs, killed her almost instantly.

More Official Rascality.

NEWARK, N. J.—A number of accusations have lately been made by prominent citizens against a number of leading officials of the City Hall, of alleged irregularities. The charges have now become positive, and a commission is to be soon appointed by the Common Council to investigate the matter. It is rumored round that startling frauds will be brought to light if the city books are examined.

WESTERN.

Insane.

SAN FRANCISCO, 2.—Ann Cogan, a seamstress, was sent to the insane asylum to-day. She has lately worked at the San Francisco laundry, and fancies that her trunk has been taken from her and its contents distributed among the girls at work there, by order of the foreman.

Dora Marks, who has spent most of her time for the last nine years in the county jail, was sent to the insane asylum to-day, intemperance having induced dementia.

Mysterious Robbery.

A dispatch from Eureka, Nevada, says that W. B. Bourne, a well known mining operator and President of the Hidden Treasure mine, White Pine, arrived in Eureka yesterday morning. On examination of his baggage he ascertained that he was minus $2,000 in gold notes, which he had placed in a small hand satchel when leaving Bay City. Where the robbery was committed or who got away with the plunder is a profound mystery. Mr. Bourne says that he kept a close watch over the satchel, and he does not think it was out of his sight. There were several Chinamen in the stage on the way from Palisades and it is barely possible that one of the "Johns" may have gone for the gold notes, though the most diligent search failed to reveal any thing which would even cast a suspicion upon the heathens.

Manslaughter.

The case of George Eudas, charged with the murder of Janus H. Ohlfield, of Palisade, June 14th, was on trial yesterday. In less than an hour after the case was given to the jury, they rendered a verdict of manslaughter, accompanied by a recommendation to the mercy of the court.

Mining Items.

The last weekly clean up at the Eureka mine, yielded 1560 ounces of gold amalgam.

The Golden Chariot mine has sent $8,100 direct to New York, making the August receipts over $47,000.

A monthly dividend of one per cent. will be paid on Friday, by the Pioneer Land and Loan Association.

The South Eureka Mining Company have levied a 20 per cent. assessment.

At a meeting of the directors of the National Gold Bank and Trust Company, it was determined to increase the monthly dividend from one to one and a quarter per cent., the sum formerly paid by the California Trust Company.

Election Matters.

It is estimated that upwards of 2,500,000 tickets have already been ordered printed for the election to-morrow, and as high as 80,000 have been printed for a single candidate, embracing the candidates of each party, and like the genuine tickets, with the exception of his own name.

Another legislative and municipal ticket is announced this evening. It is under the auspices of a secret society, who claim to address to support it. Irving Scott and A. Shalleche are its nominees for senators.

Murderer Captured.

A dispatch from San Diego, this evening, to the *Union* says the Indian who murdered Spock, at Milquatay, has been captured across the line of Lower California. There are others implicated in the murder, who are being pursued. The Lower California authorities are showing commendable activity in following up outlaws.

A Cloud Burst.

On Saturday night a cloud burst, and filled Milquatay river for a depth of four feet, so much that it ran for about an hour.

Under Sheriff Tyner, of Yuma, and John Burbhart pursued the two Mexicans who murdered Lumly, at Kenyon station, Arizona, and overtook them at New River. A skirmish ensued in which one of the Mexicans was shot and captured, the other escaped. The pursuers are still on his track.

A letter from Todas Santos Bay, Lower California, to the *Union*, says that William Morgan, salmon, twenty-four years of age, while engaged in lowering a steam launch, was accidentally caught between the falling cradle and the ship's side, and crushed; he died in an hour. His remains were buried at Todos Santos. His relations reside at Rubec, Maine.

EASTERN NOTES.

Olive Logan doesn't believe that one married couple out of twenty have any love for each other.

A coal bed is being opened forty miles above Bismarck, Dakota, with the expectation of sending coal down the river in barges.

We have had a man at work for the last fifteen days with a slate and pencil, and he estimates that if fifteen thousand American poets were to be stricken with apoplexy to-morrow, the newspapers wouldn't have more than one day's rest from red-eyed women and long-haired young men who want to see "themselves" in print.—*Detroit Free Press.*

Liquor consumers should be warned by the frequent sudden death occurrences in the city. Medical men agree that by the use of stimulants—particularly in warm weather—the system is reduced and the blood heated to such an extent that heart disease or apoplexy too often follow.—*Chicago Journal of Commerce.*

At a private party recently held in Detroit a boy thoughtlessly drew a chair away from a corpulent gentleman, who was about to seat himself, thereby letting him down on the floor in a very unpleasant manner. A merry laugh greeted the unfortunate victim when the "joke" was discovered, which, however was changed into a murmur of regret, for it was soon found that the gentleman was unable to rise. He was assisted into an adjoining room, where a physician, who was one of the guests, soon talned that the force of the fall had created a rupture, the effect of which will be felt through life.

Commander Thomas O. Selfridge, U. S. N., is now at Washington, on business connected with the Darien Ship Canal, for which he found so admirable a route last winter. He has with him several large and magnificently drawn maps, prepared under his direction and from the notes of his survey, which will be photo-lithographed for the forthcoming report of the expedition. The maps are three in number, the first showing the line of the river Atrato from near the point where the canal leaves that noble stream to Quibdo, 150 miles above, with soundings of the channel for the whole distance. The second is a profile of the proposed canal, showing the depth of cutting at all points, and the length and shape of the tunnel. The third is a general map of the route of the canal, showing the course of the Napipi, Dogado and Bojaya rivers, the features of the country through which the canal would pass, and the configuration of the coast at Chiri-Chiri Bay, where it would terminate on the Pacific side. The enterprise has attracted great attention, and the practicability of carrying it out within the estimates of Commander Selfridge is asserted by all the engineers who have inspected his plans.—*C. J. E.*

A SPECIAL DISPATCH to the Cincinnati *Gazette* states that the beloved Newman, who makes us remember the lines,

"And then, Dalhousie, the great god of war—
Lieutenant-colonel to the Earl of Mar,"

still draws pay as chaplain of the Senate, while receiving eight dollars per day and expenses as inspector of consulates. But it is worth an irregular nine hundred dollars per annum to have a man like Major General Dr. Newman, who can put a little God in the Constitution, even by mild inoculation. Let us not be critical of good. What is a paltry nine hundred dollars when compared with the influence of such man upon the heathen in Japan—and the Senate? Let us pray.—*Washington Capital.*

—A countryman in Savannah observed a gang of negroes at work in the streets, each wearing a ball and chain. He asked one why the ball was chained to his leg. "To keep people from stealing it" said the darkey. "Heap of thieves about here."

—A middle-aged lady met a bridish-looking lady in the post-office recently, and the following conversation followed: "Mary, is it true that your mother is dead?" asked the former. "It is," said Mary. "And were you married before she died?" "No," said Mary, "not until three days after." The middle-aged woman stared at the bride for a moment and then slowly and bewilderingly said: "Do you mean to say that your poor mother died without—without seeing what you were married in?"
