ECHO CITY, July 13, 1868.

Beloved News.—We are here; and the railroad is coming. Already it is esti-mated, one half, if not more, of the track down Echo Cañon is ready for the ties and rails—most of which has been done by the shovels, spades, wheel-barrows and picks taken by the work-men from their valley homes. Consi-derable difficulty has been experienced for lack of tools, and all that are necessary have not yet been received.

A birds-eye view of the railroad camps in Echo cañon would disclose to the beholder a little world of concerted industry unparalleled. I feel safe to assert, in the history of railroad build-ing, all classes of profession, art and avocation, almost, are represented. Here are the ministers of the gospel and the dusky collier laboring side by side. Here may be seen the Bishop on the embarkment and his "diocese" filling their carts, scrapers and shovels from the neighboring cut. Here are the measurer of tapes and callies and the homoeopathic doctor in mud to their knees or knecks turning the course of the serpentine torrents. Here the driver of the quill finds grade in prop-elling a pick. The man of literature deciphers hieroglyphics in prying into the seams of sand rock. "Our Local," when last seen, was itemizing on a granite point with sledge and drill to beat 300 yards or less into "kingdom come," or a big fill hard by; and "Our Hired Man" had pitched into a dugway of loose rock high up on the mountain side, several fathoms above "eternity's gulfstream" to carve out a new chan-nel for the tide of travel, the track for the iron horse having absorbed the Pioneer road. Here the grey haired scissors-grinder and the editor return-ing to his wits, with a third party, supposed to be, had formed a co-part-nership to run a cart without a horse on a hill side cut. One there was of the homo genus who "plead" leave of absence to defend a contraband distil-ery. But such an illustrious corps of practical railroad makers must surely leave their mark. The above are real life pictures.

There are in Echo Cañon some forty-five camps, and, considering the diffi-culty experienced from various causes in keeping up communication with the "rest of mankind," I herewith compile a list of the camps, in their order, beginning at the mouth and ascending to the head of Echo.

Feramorz Little's; Wm. Tulley's; Salt Creek; Harvey Boys, Provo Valley; Houtz & Wadsworth, Springville; Bal-linger & Lissonbee's; Davis & Co's.; Noon & Co's.; William Cooper's; Danes from Big Cottonwood; S. Chipman's, American Fork; Mill Creek boys; J. Neff's; Milo Andrus'; Spanish Fork boys; Bishop Hickenlooper's, 6th Ward; Isaac Brockbank's; Bishop Sheets'; W. J. Lewis', Provo; Hartwell & Fowler's; Bishop McRae's, 11th Ward; Findlay's, Bountiful; Coalville boys'; Kimball, Houtz & Co's., at Hanging Rock Sta-tion, half a mile below which a coal bed has recently been discovered; P. P. Pratt and B. Driggs; Ezekiel Holman's; George Cook's; E. R. Young's; P. But-ler, blacksmith; A. Daniels', Wanship; Bishop Proctor's, 10th Ward; Abraham Day & Co's.; Mt. Pleasant; James Craig's, Sugar House Ward; Collstrup & Co's., Ft. Gunnison; Reed Bro's., West Jordan; Blythe & Laird's; Arza Hunkley's; Wild & Winter's; Coalville and Chalk Creek; Maxfield & Co's., Big Cottonwood; Farnsworth's, Battle Creek; John W. Young's; P. H. Young's. ANON.

FILLMORE CITY, July 12, 1868.

Editor Deseret News.—We are favored at present with delightful weather. Last week we were blessed with some fine refreshing showers, promoting vegetation and bringing forward our late crops which were planted to sup-ply in a measure the want created by the ravages of the "hoppers" while in our midst. Now they have gone we expect to raise a moderate supply of corn and vegetables, and to enjoy the luscious fruits of the orchard.

In some of the settlements in this county, the locusts have been very des-tructive to the crops, particularly the small grain, leaving very little behind them; (and in some localities they still continue their depredations); but in others, particularly at Meadow creek and Kanosh city, they have done but little damage, and there the people have the prospect of an abundant harvest, which I trust they will fully realize.

Breadstuff is very scarce in our midst. Still, through the liberality of the people, the needy have thus far been supplied. We have a Female Relief Society amongst us, and I have no doubt that its operations will be beneficially felt by those who require pecuniary assistance, and indeed they have already been felt. To relieve the distressed, to comfort and bless the honest poor, is a Godlike work, and one which cannot but have an ennobling effect on the minds of our sisters who engage in the laudable undertaking.

We have another elevating institution amongst us—a Sunday School—under the superintendence of F. M. Lyman, Edward Partridge and John Kelly, at-tended by about two hundred pupils, the bulk of the rising generation of our city. Besides engaging in reading, the school is catechised for a short time each evening, and many of the children are deeply interested in this exercise, and give correct answers to the questions put. Our energetic Bishop is an active worker for the promotion of Sunday Schools.

Very little building is going on in our city at present, but preparations are being made. Horace B. Owens is en-gaged in making brick, John L. Smith and A. P. Safford in running a lathe and shingle machine, and Jacob Croft has lately erected a saw mill in Meadow creek cañon, thereby multiplying the facilities for permanent improvements, of which no doubt we shall take advan-tage when we feel able.

B. H. and J. K. Robison are making preparations for the erection of a good tannery here, and R. Johnson, of Holden, is erecting a saw mill on Pioneer creek. Success to progressive men! The health of the people is, gen-erally, good.

Very respectfully,
JOHN KELLY.

FARMINGTON, July 13, 1868.

Editor Deseret News.—In a late issue of your paper I noticed an article con-cerning the wreck of the "Star of the West" on the 2nd instant. In company with four of the breth-eren I went with my boat, the "Pike" to assist in bringing the "Star of the West" to Kaysville. On our ar-rival in Storm Bay, we found her a total wreck, and her fragments strewn along the shore of the lake a distance of a quarter of a mile. Hardly one piece of timber was fastened to another when we found her. We gathered what we could of her remains that might be of value.

This wreck is a heavy loss to Bro. Meredith, her owner. Her cost, I un-derstand, was five thousand dollars. I
