## "UNCLE SOL" HAS TROUBLE.

Prisoner Becomes Abusive and is Thrown Into the "Solitary" Cell.

While the prisoners were being taken to jail, Kimball gave Farrell some instructions relative to some work he was to do after breakfast. Farrell became very abusive and told "Uncle Sol" to get a palm leaf fan and join the free exercise to Salt Lake Ward Dramatic club.

"Don't get talking like that," warned Sol.

"You go to— I don't give a— for you," retorted Patrick.

"Do you see those rules?" asked Sol, pointing to the rules that hung upon the wall. But Farrell didn't care for the rules or anything else.

"No— with the rules," he yelled.

There was all the genial jailor could stand.

Farrell is now reflecting over his folly in the room for solitary confinement. He was convicted of vagrancy about a month ago and given sixty days by Judge Timmony.

## MR. STEPHENS RETURNS.

City Attorney Back from the East—Attended His Father's Funeral.

City Attorney F. B. Stephens returned yesterday from a brief visit to the East. About three weeks ago he received a message from Crete, Nebraska, informing him that his aged father was on his deathbed. The old gentleman passed away before his son arrived. He was buried at Erieville, Ill., the former home of the Stephens family.

There is no better medicine for the troubles than Chamberlain's Cough Remedy. Its pleasant taste and prompt and effectual cures make it a favorite with mothers and small children. It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn. It not only cures cough, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it drives the mucus, making it easier to expectorate, and lessens the severity and frequency of the paroxysms of coughing thus depriving that disease of all dangerous consequences.

## MEETING OF BUSINESS MEN.

Organize Utah Credit Men's Association Last Night.

## RETAIL DEALERS NOT IN IT.

A Social Organization to Promote the Interests of Utah Merchants and Protect Them Against Fraud.

Thirty Salt Lake's representative business men met at the Knutsford last evening and organized the Utah Credit Men's association, electing the following officers and directors:

E. W. Duncan, of the National Bank of the Republic, president; F. W. Gunnell, Cosgriff-Enright Grocery company, vice president; Emanuel Kahn, treasurer; George D. Anson, Hanson Produce Company, secretary, and George T. Odell, Arthur Parsons, P. L. Doran, J. W. Delano and J. G. McDonald, directors.

The subject of organization was opened with a general discussion which closed with the conclusion on the part of those present, to confine the local credit men's association to those houses which made a specialty of wholesale trade and banks that employed credit men, therefore retail houses cannot join the merchants' mutual protective association.

It was decided that the association would not consist of an incorporated body, but would be a partnership of the nature of a social organization, where members could meet together and interchange ideas on anything relating to their business. It was also decided that the Utah association be self sustaining, having on its own base, so far as affiliation with the National Credit Men's association is concerned.

The new association has in view the establishing of better business methods among Utah merchants, and a mutual effort to protect themselves against the fraud of dishonest dealers and bankrupts. The association will be instrumental in securing legislative enactments that will redound to the good of Utah merchants. It will also fortify itself on the commercial side of the law, by inviting commercial attorneys to give lectures upon legal questions, at the meetings of the association. The lectures will be followed by open discussions and debates.

A committee of three, consisting of J. G. McDonald, Charles R. Kem and J. A. Graham, was appointed to draw up a constitution of the association. All present favored the idea of inviting the wholesalers and wholesale men of Ogden and Provo to co-operate with the Salt Lake organization and make it a state association. The meeting adjourned until next Wednesday night, when the members will meet again at the Knutsford at 8 o'clock.

## An Editor's Life Saved by Chamberlain's Cough Remedy.

During the early part of October, 1898, I contracted a bad cold which settled on my lungs and was neglected until I feared that consumption had appeared in an incipient stage. I was constantly coughing and trying to expel something which I could not. I became alarmed, and after giving the local doctors a trial bought a bottle of Chamberlain's Cough Remedy and the result was immediate improvement, and after I had used three bottles my lungs were restored to their healthy state.—B. ## RULERS OF THE WORLD.

Meat-Eating Nations Are the Leaders in Every Branch of Human Achievement.

The ruling nations of the world are meat eaters and history records that they always have been. Vegetarians and food cranks may explain this in any way they choose, but the facts remain that the Americans, English, French, Russians and Germans are meat eating nations, and they are also the most energetic and most progressive.

The principal food of the heroic Boer soldier known as Billong, is a sort of dried beef, affording a great deal of nourishment in a highly concentrated form.

The weak races of people are the rice eating Chinese, Hindus, and Siamese, regarded since the dawn of history as non-progressive, superstitious and inferior physically and mentally to the meat eating nations who dominate them.

The structure of their plain indicates that human beings should subsist upon a variety of food, meat, fruit, and grains, and it is unhygienic to confine one's diet to any one of those classes to the exclusion of another.

Meat is the most concentrated and most easily digested of foods, but our manner of living is often so unnatural that the digestive organs refuse to properly digest meat, eggs, and similar nutritious food, and so it is not because such food is unwholesome, but the real reason is that the stomach lacks, from disease or weakness, some necessary digestive element; hence arising indigestion and later on, chronic dyspepsia.

Nervous dyspepsia, catarrh of stomach, constipation, should eat meat the principal food, hard working people have to do so and brain workers and office men should eat, not so much meat but at least once a day and to insure its perfect digestion one or two of Stuart's Dyspepsia Tablets should be taken after each meal, because they supply the pepsines, diastase and fruit acids, lacking in every case of stomach trouble.

Nervous dyspepsia, catarrh of stomach, gastritis, sour stomach, gas and acidity are only different names for indigestion, the failure to digest wholesome food, and the use of Stuart's Tablets cures them all because by affording perfect digestion the stomach has a chance to rest and recover its natural tone and vigor.

Stuart's Dyspepsia Tablets is the real household medicine; it is as safe and pleasant for the stomach ache of the invalid as it is for the imperfect digestion of his grand sir.

They are not a cathartic, but a digestive and no pill habit can ever follow their use; the only habit Stuart's Tablets induce is the habit of good digestion and consequently good health.

A little book on stomach diseases mailed free by addressing F. A. Stuart Co., Marshall, Mich. All drug stores sell the tablets at 50 cts. for complete treatment.
