teen innings and No Run. Oakland, Cal., April 18.—A remarkably close game was played by the Oakland and San Francisco teams today, neither side being able to score, although the contest was prolonged to sixteen innings. The game was not concluded until darkness made it almost impossible to distinguish the ball.

the ball.

The contest developed a magnificen battle between Pitchers Schmidt and Whalen, who allowed no more than on hit to be made in any inning. The latter twirler did not pass a single batsmay during the long siege of play. The fielding throughout was clean and bordered on the sensational in many instances. Wilson, for San Francisco, had 25 putcuts, while Streeb, for the home team, had 25. Score:

Certain Relief.

The secret lay in a wonderful chemical I found in Germany. When I found this chemical, I knew that I could make a Rheumatic cure that would be practically certain. But even then, before I made an announcement-before I was willing to put my name on it—I made more than 2,000 tests! And my failures were but 2 per cent.

This German chemical is not the only ingredient I use in Dr. Shoop's Rheumatic Cure—but it made the remedy possible—made possible an achievement which. I doubt not, could have been made in no other, way.

I don't mean that Dr. Sheop's Rheumatic Cure can turn bony joints into flesh
again—that is impossible. But it will
drive from the blood the poison that
causes pain and swelling, and then that
is the end of the pain and swelling—
the end of the suffering—the end of Rheumatism. That is why I can afford to
make this liberal offer—that is why I can
afford to spend the FIRST dollar that
Rheumatic sufferers, the world over,
may learn of my remedy.

Simply Write Me

Plainly, the first thing to do is to remove the poison. But this is not enough, the FORMATION of the poison must be stopped, so that nature may have a chance to dissolve and eliminate the crystals which have already formed. Unless this is done there can be no cure—no permanent relief.

I searched the whole earth for a specific for Rheumatism—something that I or any physician could feel sufe in prescribing—something that we could count on not only occasionally, but ALWAYS. For the rawages of Rheumatism are everywhere and ground relief is rare.
