

"None of us." The result is that the drift is now back to the barracks. "We have more men applying to enlist every day now," declared Capt. O. B. Meyer, "fourteenth cavalry, when asked today as to enlistment conditions, "than applied every month in the two years preceding November, 1907. For the month ending Dec. 31, 86 men applied for admission to the army. A part of these, we sent to Ft. Douglas, and a part we rejected as unfit for service. The normal for the previous year was not over 15 applicants per month."

CIVIL SERVICE CROWDED.
An inquiry at the civil service department having to do with railway mail clerks develops the fact that while all year it has been a problem to keep the service together, with so many good jobs obtainable outside, now applications come in so fast that it isn't worth while to waste paper in answering applications for examinations. In this case of the army, old soldiers who left the service for civilian life are prominent among applicants to enlist, and some of those who have left the railway mail service are among the turning applicants for re-employment, now that the balance of advantage is in favor of the men in the service and not outside of it.

THISTLE CLUB ELECTS OFFICERS

At a well attended meeting of the Thistle club, held in Columbus hall last evening, the following officers to serve for the ensuing year were installed: Nicholas Hood, president; Robert Stevenson, vice-president; David Henderson, secretary; Simon Greve, treasurer; W. A. Gray, conductor; J. C. Williams, inspector; William Nibbel, sergeant-at-arms; William Nibbel, sergeant-at-arms. During the evening ladies of the society served dainty Scotch refreshments. A committee was appointed to make arrangements for a fitting celebration of the birthday of John Burns, Scotland's greatest poet. The birthday occurred on January 3, but as that day is Saturday, it was decided to hold the function on the evening of the 24th.

DRY FARM DESIGN.

Fisher Harris Makes One for Badge of Coming Convention.

Manager Fisher Harris of the Commercial club received this morning, a sample badge of the coming Dry Farming Congress to be held in this city. The badge is Mr. Harris' own design. It consists of a circular medallion of specially prepared gilt, representing a farmer plowing and sowing, with the rising sun and mountains in the background. The medallion is pendant from a horizontal bar by a green sash ribbon, the decoration of the bar being a large plow. The general appearance of the badge is unique and striking.

WARRANT FOR MORGAN.

This morning Justice of the Peace Dana T. Smith issued a warrant for the arrest of one H. W. Morgan, charging the latter with failure to provide for his minor children. The charge under the laws of Utah, is a very serious one as it is a felony. Morgan was taken into custody as soon as the officers locate him.

PROTESTANTS WIN CASE.

That portion of sections 21 and 22, Salt Lake county are mineral territory, not agricultural, is the decision rendered by Register E. D. R. Thompson and Receiver M. E. Kaighn. The decision is the outcome of a protest by J. C. Clive and others in a combined protest against the state's selection of the land for school purposes. The protestants filed upon the land for placer claims and did assessment work and went through all legal formalities and performances demanded by the government of persons taking up mineral land. They claimed petroleum, lime cement stone and other products and resources represented the value of the land, and a complete investigation they are upheld by the local land office.

PEERY EXECUTRIX APPOINTED

Three Estate Matters Come Up Before Courts for Their Attention.

The will of the late D. H. Peery was admitted to probate this afternoon by Judge Armstrong. Elizabeth L. Peery, Horace E. Peery, and Harold T. Peery are named as executrix and executors of the estate, to serve without bonds. In the estate of Charles A. Molson, Percy Vaughn Molson was appointed administrator to serve under a bond of \$40,000. The estimated value of the estate is \$100,000.

Luther G. Retallick has filed a petition for letters of administration in the estate of Job Retallick who died in East Rand, Transvaal, South Africa, leaving three heirs in this state. The value of the estate is \$780.

SUES TRIBUNE FOR \$10,000.

Former Employee Wants Damages for Injuries Sustained in a Fall.

William Morlarity filed suit in the Third district court this afternoon against the Tribune Publishing company of Salt Lake City, in which he seeks to recover judgment for \$10,000 for injuries alleged to have been sustained by him while in their employ, in falling from a beam during the construction of their new building. The accident is alleged to have occurred May 26, 1907.

JUMPED HIS HOTEL BILL.

The county attorney's office issued a complaint today against M. B. Bain, charging him with absconding from a hotel with intent to defraud the keeper thereof. It is alleged that Bain rented rooms in the Orpheum hotel and left the city without paying the rent due, amounting to \$20. Bain has been arrested and is held for the Salt Lake officers.

"A Good Name at Home"

"Is a tower of strength abroad"—and the excellent reputation of C. I. Hood Co., and their remedies in the world, where they are best known, inspire confidence in the world over, not only in the medicine but in anything their proprietors say about them. "It Made by Hood It's Good."

"I believe Hood's Sarsaparilla the best all round family medicine known today." Mrs. G. D. FARLEY, 652 Wilder St., Lowell, Mass.

"I recommend Hood's Sarsaparilla to any one." JOHN B. DUFFY, 14 Auburn Street, Lowell, Mass.

"I am a strong and healthy woman today, from taking Hood's Sarsaparilla, which I keep in the house for all the family." Mrs. FANNIE BALEY, 108 Leverett St., Lowell, Mass.

"I consider Hood's Sarsaparilla the best blood-purifier in the world." Mrs. JESSIE E. CARLTON, 113 Liberty St., Lowell, Mass.

Hood's Sarsaparilla is sold everywhere. In the usual liquid, or in tablet form called Sarsatabs. 100 Doses One Dollar. Prepared only by C. I. Hood Co., Lowell, Mass.

WEATHER TALK.

Dr. R. J. Hyatt is off on a short vacation, but Salt Lake continues to have weather. An area of high barometric pressure prevails over the eastern slope this morning. Areas of low pressure are central over the upper Lake region and British Columbia. Precipitation was general during the past 24 hours over the middle and lower Mississippi valley, Ohio valley, Lake region, Oregon, western Washington and portions of California and Nevada. Rainfalls of 1.20 and 1.10 inches were reported from Oklahoma and Little Rock, respectively. During the past 24 hours temperatures have fallen over the upper Missouri valley and have risen from the Lake region eastward to the coast. Fair weather is indicated for this vicinity tonight and Sunday. V. H. Church, Observer, temporarily in charge.

DEATH OF JAMES BISHOP.

James Bishop, an aged resident of Salt Lake, died at his home Jan. 4, of general debility. He was in his 76th year, having been born in Shrewsbury, Shropshire, England, July 24, 1831. He was baptized in the Church of Jesus Christ of Latter-day Saints, and was ordained an Elder in the Church in 1858. He was married to Mrs. Mary Bishop on April 18, 1858, and they had four children. He was a member of the Salt Lake Stake of the Church, and was a faithful worker for the cause of the Church. He is survived by his wife, Mrs. Mary Bishop, and four children. A funeral will be held at the residence of his daughter, Mrs. Mary Bishop, on Sunday, Jan. 5, at 2 p. m.

LATE LOCALS.

Secy. Tingey Returns—Secretary of State Charles S. Tingey has returned from a week's visit in Los Angeles.

Business About the Same—The express companies are cleaning up the last of the holiday business which is about the same as that of the last holiday season.

M. S. Darrow Recovering—M. S. Darrow, the civil engineer who was operated upon for appendicitis Thursday night, at the Holy Cross hospital, is rapidly recovering, which will be good news to his many friends.

Spontaneous Combustion—The fire department was called out shortly after 2 o'clock this afternoon by an alarm from the Bransford apartments, where a pile of slack coal in the rear caught fire from spontaneous combustion. No particular damage was done.

Roller Skating Party—The High school roller skating club held another successful party at the Auditorium this morning. About 300 were present and enjoyed a couple of hours on the little wheels. Last evening the club composed of the state university students, held forth. These parties are becoming most popular, and a number of them are being arranged for next week.

Mayor Vetoes Report—Mayor Bransford has vetoed the report of the committee on public grounds of the council, recommending the purchase by the city of 160 acres of land in Parley's canyon adjoining the Youngsberg reservoir site at a cost of \$1,500. Mayor Bransford declares that the city is in a position to buy the land and that he is not advised as to the necessity for the purchase.

Work on Federal Heights—Work on Federal Heights will continue this winter and he completed this spring. Such is the statement made by A. M. Wrench, this morning. Mr. Wrench has just returned from Colorado and declares that he will put a force of men to work Monday on east First South street, and the southern portion of the property. In spite of the winter weather and the hard times he intends to have the property in shape by spring.

Officers Installed—The following officers were installed last evening, by the P. Edward Connor camp, No. 1, of Utah division of Colorado, Sons of Veterans, under the direction of Col. George B. Squires: Captain, P. E. Connor; first lieutenant, H. E. Dewey; second lieutenant, R. S. Slater; camp council, E. M. Quailtrough, M. H. Glen, S. W. Patterson; chaplain, W. R. Graham; first sergeant, H. E. Corser; quartermaster sergeant, Earl K. Kinsman; corporal of the guard, Porter Wilson; color sergeant, Alexander E. Wilson. After the installation, speeches were made by Col. Tallock, Col. Squires, W. P. Rowe and others. The camp now numbers 37 members, six months after organization. Before the close of the current year a membership of 100 is expected.

MINE INSPECTOR SUBMITS REPORT

Year Just Closed Has Been Most Prosperous in State's History.

GAINS ALL ALONG THE LINE.

Many New Mines Have Opened Up And Production of Coal Has Kept Pace With Demands.

The annual report of State Coal Mine Inspector J. E. Pettit was filed with Gov. Cutler today. Mr. Pettit introduces his report with the statement that the year just ended has been the most successful in the history of coal mining in Utah. Mr. Pettit was appointed to succeed Gomer Thomas as inspector May 1, 1907, and his report covers the entire year up to Nov. 30, 1907. Because of increased demands for coal and the by-products, it has been necessary for the mines to work to their limit of capacity in every direction. The average number of days worked for the year has been 311. There has been, because of the increased demand, an increase of approximately 20 per cent in the cost of coal on the market. This increase has been accompanied by an increase in wages to a time when from 10 to 20 per cent. In this connection, the inspector's report cites that the cost of living has kept pace with increases in other lines.

DOMESTIC RELIEF.

The closing of copper mines in Montana and elsewhere and the consequent reduction in smelter operations, being accompanied by a corresponding reduction in the demand for coal and coke, resulted in diverting to the commercial markets thousands of tons of coal and of relieving coal shortage at a time when the needs of the cities were most pressing, coming at a time when cold weather was being felt to a greater degree than during the previous period of comparatively warm weather.

During the year there has been only one occasion in which labor troubles threatened to close down a mine. That was in Sumner county, and an amicable agreement was reached after four days of negotiation. The trouble was settled with satisfaction both to employer and employed.

LANDS FILED ON.

During the year filing has been made upon approximately 8,000 acres of coal land, the greater portion being in Emery county.

Among the companies which have been organized during the year are the following: Independent Coal & Coke company, Kelso, Popple & Coal company, Hales; Rees-Grass Creek Coal company, and Utah Steel Creek mines company, Coalville. The Mud Creek mines have been sold to the Federal Coal company, and the Crystal Coal & Coke company, both of Carbon county, and the Consolidated Fuel company, both of Emery county, have filed articles of incorporation with the secretary of state during the year.

YEAR'S PRODUCTION.

A tabulated showing of production of hydro-carbons for the year is shown in the following:

Gillette (in tons)	21,462
Ellettsville	125
Tabular	100
Asphaltum	4,000
Ozocerite	1,565
Coal	1,967,651
Coke	324,692

In the year there have been 90 accidents to miners, eight have been fatal, 11 serious, and the other non-serious. Four wives have been widowed as the result of the fatalities and 16 children have been left fatherless.

There has been 283,394 tons of coal sold in Salt Lake City against 264,333 tons for 1906.

PRODUCTION BY COUNTIES.

Summit (in tons)	1,516,133
Sanpete	73,918
San Juan	2,562
Emery	421
Other small mines	70,117
Total	1,967,621

Gain over 1906 production 128,432 |

There are nineteen large mines operating in the state and a large number of smaller mines.

NATIONALITY OF MINERS.

An interesting table in the report shows the nationalities and numbers of each working in the coal mines of the state. This information is as follows:

Americans, 1,292; Greeks, 14; Italians, 429; Austrians, 292; Finns, 14; Germans, 48; French, 20; Belgians, 11; Swedes, 23; Negroes, 8; Japanese, 56; Chinese, 1; making a total of 2,778.

The report concludes with the recommendations of the inspector. Mr. Pettit strongly approves of his predecessor's recommendation that the mining laws be amended to prohibit miners to be in the mines at the time blasting is going on, permitting only the men necessary to fire the shots to be underground. Mr. Pettit also refers to the fact that the appropriation for 1908 will not permit him to comply with the requirement of the law respecting his position.

WARD ENTERTAINMENTS

Twenty-Ninth Ward—Prof. Chas. Kent and some of his pupils will give a song service Sunday evening, Jan. 5, at the Twenty-ninth ward chapel, commencing at 6:30. Following is the program:

Anthem—Ward choir.
"The Lord is My Shepherd" (Koschat).
Prof. Kent's male chorus.
"Birthday of a King" (Neidlinger)—Drum and pipe.
Duet, "O Love Divine" (Nevin)—Van Savage and Alvin Keddington.
"Now the Day is Over" (Marks)—Chas. Christensen.
"Unanswered Yet" (Bischoff)—Angus Alston.
"A Dream of Heaven" (Abt)—Myrtle Brown.
"Beautiful Isle" (Farris)—Prof. Kent's male chorus.
"To You is Born a Savior" (Lambly)—Gladys Whitehead.
"I Heard the Voice" (Harris)—Lillian Branning.

NO WEATHER TOO SEVERE

For the person just recovering from a cold, if they wear one of our

CHAMOIS CHEST PROTECTORS

lined with the softest flannel. We have them to fit the smallest child or the largest man.

F. J. HILL DRUG CO.

"The Never Substitutors"

Duet, "Lead, Kindly Light" (Lanning)—Mrs. Beatrice Thomas and Melvin Petersen.
"The Plains of Peace" (Barnard)—Edna Morris.
"Content" (Parks)—Prof. Kent's male chorus.
The public is cordially invited.

PERSONAL.

Hyrum Bergstrom leaves for Los Angeles today to continue his course in dentistry.

Mr. and Mrs. Charles H. Lindley will leave tomorrow on an extended eastern trip, which will take in Havana and New Orleans.

State Treasurer Christensen is spending the holidays at Litchfield, Utah, intending to return Monday next.

TRANSMUTATION OF METALS.

Prof. McCoy of Chicago University Says it is Now Possible.

Chicago, Jan. 4.—That the changing of elemental metals into one another is now possible in the laboratory, Prof. McCoy of the University of Chicago, at the final meeting of the American Association for the Advancement of Science.

The ancient dream of the separation of the elements, which antedates the science of chemistry, is being fulfilled by the processes of nature and the effect of radium emanation, it is alleged by the chemist, who read a paper on "The inter-relations of the elements and the discovery of radium," at the annual meeting of the American Association for the Advancement of Science.

ANOTHER HOPE FOR THE MOUNT ROYAL SHATTERED

Portland, Me., Jan. 4.—Another hope that the missing Canadian Pacific steamer Mount Royal, with her 400 passengers and crew, might be towed into port was shattered on the arrival today of
