

FOREIGN NOTES.

Earl Russell was eighty recently, and is the only survivor of the House of Commons of 1813, when he first took his seat.

The Empress Elizabeth of Austria offers a prize of 100 florins to anybody who saves a human life in Austria or Hungary.

Jerusalem has been lighted with gas and it is proposed to run street-cars up the slopes of Mount Zion.

Whalley, a "No Popery" member of Parliament, is one of the Tichborne claimant's friends, and announces that if it is necessary he will come to America and stump the States in his behalf.

Investigations near the Sandwich Islands have proved that coral aggregates at the rate of seventeen feet in a century instead of a few inches in that time, according to accepted scientific estimates.

The operation of the Compulsory Education Act in England is creating some uneasiness. A class has arisen that refuses to recognize the right of the board to take away the father's control over his child's education.

The Emperor of Germany is considered the most abstemious of European monarchs. Soon after rising he takes a simple cup of coffee; at noon, roast beef, potatoes and Bordeaux wine; and at night his supper consists of bread, sausage and a cup of tea.

Some of the glass tanks of the new aquarium at Brighton, England, are one hundred feet in length. Of smaller sizes there are a great many.

Chinese papers report that the tea crop does not come up to first expectations. It has been thought that it would be largely in excess of last year; instead of which, the shipments have thus far fallen considerably below. Well, they can make up with willow leaf.

The parish clerk of Redgrave, Suffolk, had a cow. This cow calved before her time, on the 10th of March, 1863, owing to being frightened by the church bells ringing all day for the Prince of Wales' wedding. She never had another calf after that day, but she gave milk regularly from that date until the man sold her, October 4th, 1870, i.e., for seven years and six months. When he sold her she was still making 1½ lbs of butter per week.—*Cor. London Milk Journal.*

A schoolmaster, at Huddersfield, England, was charged before a magistrate with having committed an assault upon one of the pupils. The defendant did not deny having caned the lad who brought the charge, but begged to state a few facts in extenuation of the deed. He said there were several charges of misconduct against the boy: First, general insubordination, inattention and boisterous conduct in school; second, profane swearing in school; third, hitting a girl in the pit of the stomach and causing her great pain; fourth, kicking a boy's shins; fifth, pulling boys' hair; and, sixth, he had pushed three children down the staircase. The magistrate agreed with the schoolmaster in thinking the boy richly deserved the punishment he had received, and dismissed the case.

SUDDEN DEATH.—Mr. W. W. Selye, who had been stopping at the Railroad House in this city for the past few days, was found dead in his bed yesterday morning. Dr. Russell summoned a coroner's jury in the forenoon, and had an inquest. The jury, after listening to the evidence produced, rendered a verdict that the late W. W. Selye came to his death by an overdose of hydrate of chloral, administered by himself.

Mr. Selye was a man about thirty years of age, stopping here on his way to Salt Lake City to find employment as a clerk. He had been for some time in the habit of taking some opiate to produce sleep. We understand that he is very respectably connected. His father, the Hon. W. J. Selye, formerly represented the Rochester, N. Y., district in Congress. He had letters of recommendation to several prominent parties in Utah, one of which was addressed to Warren Hussey, banker, Salt Lake City.—*Cheyenne Leader*, Oct. 2.

"Howard Glyndon" announces in a letter from Appledore, that she wouldn't have crimping-pins torturing her head of nights if any one offered her five dollars a night for wearing them. Would she do it for six dollars? Nobody wants to be mean about it.

THE CELEBRATED

HOME
STOMACH BITTERS.

Are endorsed and prescribed by more leading Physicians than any other tonic or stimulant now in use. They are A SURE PREVENTIVE for Fever and Ague, Intermittents, Biliousness, and all disorders arising from miasmatic causes. They are highly recommended as an anti-dyspeptic, and in cases of indigestion are invaluable as an Appetizer and Recuperant, and in cases of General Debility they have never in a single instance failed in producing the most happy results. They are particularly BENEFICIAL TO FEMALES, strengthening the body, invigorating the mind and giving tone and elasticity to the whole system. The HOME BITTERS are compounded with the greatest care, and no Tonic Stimulant has ever been offered to the public SO PLEASANT TO THE TASTE, and at the same time combining so many remedial agents, endorsed by the medical fraternity as the best known to the Pharmacopoeia. It costs little to give them a fair trial, and

Every Family should have a Bottle.

We ask every one to read the following Certificates from many of the most eminent physicians in the country: ST. LOUIS, July, 1870.—JAMES A. JACKSON & CO.: Gentlemen—As you have communicated to the medical profession the recipe of the "Home Bitters," it cannot therefore be considered as a secret or patent medicine, no patent having been taken for it. We have examined the formula for making the "Home Bitters," and unhesitatingly say the combination is one of rare excellence; all the articles used in its composition are the best of the class to which they belong, being highly Tonic, Stimulant, Stomachic, Carminative and slightly Laxative. The mode of preparing them is strictly in accordance with the rules of pharmacy. Having used them, seen its effect in our private practice, we take pleasure in recommending them to all persons desirous of taking Bitters, as being the best Tonic and Stimulant now offered to the public.

U. S. MARINE HOSPITAL, ST. LOUIS, MO., Oct. 8, 1870.—JAS. A. JACKSON & Co.: I have examined the formula for making the "Home Stomach Bitters," and used them in the Hospital for the last four months. I consider them the most valuable tonic and stimulant now in use. L. MELCHER.
ST. LOUIS, July 6, 1870.—JAS. A. JACKSON & Co.: Having examined the formula from which your celebrated "Stomach Bitters" are prepared, and having witnessed the method of combining the different ingredients, we can safely recommend them as the best tonic with which we are acquainted. From the great care with which they are compounded, and from the choice materials which enter into them, we have no doubt that they will prove, as they deserve to be, the most popular tonic and stimulant in use. Respectfully yours,
T. J. VASTINE, M. D. T. G. COMSTOCK, M. D.

We cheerfully concur with every word contained in the above testimonial.

CINCINNATI, Oct. 19th, 1870.—Messrs. W. B. KENNEDY & Co. Agents "Home Bitters": Gentlemen—Agreeable to your request, I have examined the formula of the "Home Stomach Bitters," and find the remedies it contains such as are in general use by the Medical profession. They are very scientifically and pleasantly combined, and as stimulating tonics will be found especially adapted as corroborants to the treatment of low or debilitated stages of the system, whether arising from impaired digestion, or from malarious diseases.
