

Lava bed. This undoubtedly means treachery. We are still willing to meet them in conference, but not upon their terms. They have an accession of 24 warriors not Modocs, and without doubt will send a message of protection to all who come out. The Commission is a failure. Instruction coming in time is of vast importance. The courier awaits.

Signed A. B. Meacham, Chairman of Commission.

SAN FRANCISCO.—The Victoria Colonist has the following: The steamer *George S. Wright* lies close ashore, near a village of Kuergrath Indians, a fierce tribe of savages. The Indians who brought the news to Victoria remained five days encamped on the beach, but saw no signs of boats or people from the wreck. The Indians from the villages, who are usually very curious about such matters, did not come near the spot, and it is now thought that part or all of the crew may be prisoners in the hands of those savages, who are the worst in British Columbia.

TOANO, Nev.—Robert A. Lee, defendant in the Ogden rape case, has been held by officers here since Sunday last, awaiting a requisition from the Governor of Utah. Lee has been quite restless and uneasy here, and at one time was about attempting an escape, but not liking the looks of a six shooter, changed his mind. He will probably be dealt with summarily.

SAN FRANCISCO, 7.—This morning the dead body of a young woman was found on the threshold of a house on 4th street, opposite the office of the C. P. R. R. There were no marks of violence on her person. Her name has not yet been ascertained.

Later.—The young woman whose body was found this morning has been identified as Mrs. Emma Hopper. She is married and lived with her husband on the Potrero. It is stated that she had been drinking liquor to excess recently, and it is thought that her death may have been caused or hastened by dissipation.

YREKA, 7.—From parties who left the front last evening, we learn that the commissioners had sent by a squaw a message to Captain Jack telling him that he or his leading men must come to Fairchild by this evening, or they would refer the matter to the military. Opinion is divided as to how the Indians will receive this message. Should they refuse it is thought that active movements will commence at once.

LOS ANGELES, 7.—There is a rumor that the epizootic has appeared in this county, but there are no cases in our immediate vicinity. The agent of the Telegraph and Stage Co. received a telegram this afternoon, ordering him to take no passengers, for the river horses were all sick.

VIRGINIA, Nev., 7.—A quarrel occurred at Gold Hill, last night, between two employees of the Virginia and Truckee railroad, named McMartin and Boy. The latter struck McMartin on the head with a car hook, causing concussion of the brain. Boy was arrested and held to await the result of McMartin's injuries.

The epizootic has unmistakably made its appearance here at last, and all the horses in Mundell's livery stable, Gold Hill, about twenty in number, are affected, and a number of horses used in the heavy teams. The disease made its first appearance here this morning.

SUTTER CREEK, Cal., 8.—A fatal accident occurred here this a.m., about five o'clock, in which two men named Patrick Collier and George Garodella lost their lives. One Patrick Grady was hurt, though not dangerously. The engineer in hoisting the run of the bucket in the Shelves, broke the chain and let both buckets down the shaft; each bucket killed a man. Collier was mangled horribly, breaking nearly every bone in his body and tearing all the flesh off the bone from the breast bone to the legs.

After the accident Patrick Grady, with another man, descended the shaft in search of Collier's missing arm, and when within fifteen feet of the bottom they tied the bucket with a rotten rope and went to the bottom. Soon after they arrived there the rope holding the bucket broke, letting it down and striking Grady a glancing blow on the forehead, cutting a very ugly gash. Collier leaves a wife and three children.

Head-quarters Peace Commission, March 7, via Yreka, 8.—Mary, the sister of Captain Jack, came in last night and reported that Jack

had accepted the terms of surrender offered by the Commissioners. General Canby sent word back by her this a.m., that Captain Jack or some of the chief men of the tribe must come in before to-morrow evening, or the troops under his command would move immediately against them. It is expected that they will come in to-morrow, if not war is inevitable.

SAN FRANCISCO, 8.—Sixty-nine persons have died in this city during the week.

Lizzie Gannon, who shot at O. F. McDermott, was brought before Judge Morrison this p.m., on *habeas corpus*. The police court fixed her bail at \$10,000, but the district Judge reduced it to \$5,000. She procured the requisite bonds and was released from prison. Ex-Mayor McCoppin and S. Bybee are of her sureties.

The Lynn County farmers held their first meeting at the court house to-day. A club was organized and resolutions passed, etc., that they would build warehouses at Albany and Astoria, to handle and ship their own grain, and pay no more tribute to middlemen or any other man. Subscription books were opened and small amounts subscribed. In point of numbers the meeting was a success.

Last night a crowd of hoodlums demolished a saloon in Mission street, making use of clubs, stones and brickbats. One man in the saloon was badly hurt. A policeman finally came, but not till the rioters had dispersed. Only a few unimportant arrests were made by the police to-day.

PORTLAND, Oregon, 9.—Young Fennimore, who was run over by a freight train last week, died at the Railroad Hospital on Friday evening. He had been a newsboy on the Central Pacific for five years.

WINNEMUCCA, Nev., 9.—The epizootic has made its appearance at this place, but seems to be less severe than at points east. Only two horses have died so far.

### EUROPEAN.

LONDON, 6.—At a banquet to P. J. L. King, last evening, Gladstone made a speech which occasioned much comment. Referring to the Irish educational bill recently introduced into Parliament, the Premier intimated that the government would gladly accept all valuable amendments, and would even consent to modifications which would not better the bill, in order to avoid the adoption of any worse measure. In concluding his remarks upon the subject, Gladstone said, "When the hour for the dissolution of the ministry shall arrive, we will be ready to retire, but we will not needlessly abandon our posts."

At the meeting of the Royal Institution of Great Britain, on Tuesday night, a resolution was unanimously adopted congratulating Professor Tyndall on the success of his visit to the United States.

A special to the *Daily Telegraph*, from Brussels, reports that Captain Curry, of the American vessel *Agloma*, which sailed recently from Antwerp for New York, forcibly carried away seven sailors belonging to the French schooner *L'Africaine*. An investigation of the affair would be instituted. Dispatches had been sent to the Consul-General of France at New York, advising him of the circumstances, and instructing him to watch the arrival of the *Agloma*.

BERLIN.—The naturalization treaty between Germany and the United States will probably be amended so as to provide that Germans who have returned from America and remained two years at home shall be considered as having renounced the rights of naturalization as American citizens.

Through the orders of the police authorities the strike of the cabmen has been brought to an end, greatly to the relief of the public.

MADRID, 6.—Olazaga, Spanish minister to France, has notified Castelar that the representatives in Paris of the different powers of Europe have decided to send a collective note to the government of Spain, declaring their belief that their respective governments will cease to hold diplomatic relations with it in the event of the proclamation of a federal republic.

LONDON.—The police, this a.m., arrested a woman giving the name of Ellen Burnham, who is known to be the accomplice and paramour of Warren, the principal in the heavy forgeries on the Bank of England; \$13,570 were found in her apartments, which she said was not hers. She was committed for

examination on Friday next. Noyes, the clerk, one of the forgers, was up for examination, but was remanded for a week.

The story comes from Gibraltar that on the 13th of December last, the *Deigratia* came upon the *Mary Celestie*, an American brigantine, first seen by the *Deigratia* in latitude 38 north, longitude 17 west. She had been abandoned by the crew about three weeks previously, as shown by her log, and since that time had drifted about without a living being on board. The cause of abandonment is a complete mystery as the brigantine was found in every particular, and effects were found on her of considerable value, which, had she been boarded by pirates would undoubtedly have been taken away. Some articles remaining seem to show the presence of a lady and child on the ship. One thing found may furnish a clue to the mystery. It is a sheathed sword, the blade of which looks as if it had been stained with blood and then wiped. There were marks of blood on the top gallant sail, and it had been cut off as if intentionally with some sharp instrument. Conjectures in regard to the true cause of her abandonment are of course likely to be futile; but a probable hypothesis is that for some reason the crew revolted, murdered the Captain and his passengers, and then took to flight, carrying away with them nothing which might lead to their arrest and conviction.

PARIS, 8.—By an explosion yesterday at Fort Mount Valerian, twenty-eight persons were injured, twelve of whom it is stated cannot possibly recover. It was subsequently reported that a hundred persons were injured.

LONDON.—Col. Egerton Leigh, LONDON.—A dispatch from Berlin says the government of France has officially given Germany financial guarantees for the payment of the war indemnity, and that negotiations for German evacuation have already commenced.

PARIS, 7.—The government, up to this date, has paid Germany three and a half billions of francs on account of the war indemnity.

The London *Times* of February 22 gives particulars of a frightful accident at Smyrna. A cafe, built upon piles over the sea, broke down suddenly during a performance given by a company of acrobats. There were 200 persons present. A loud crackling was heard, and within five minutes the entire cafe had disappeared under the water. A few persons near the entrance contrived to effect their escape. Some saved themselves by jumping through the windows into the sea. Boatmen rowed up in numbers but their efforts to save life were in vain. The search after the dead bodies was a sad spectacle. The acrobats were withdrawn from the water in their showy costumes of the previous night. The limbs of all the bodies were contracted with pain. Two hearses were engaged the whole day in conveying the remains discovered to the hospital. The number of bodies found up to the present is 80, and it is supposed there will be fifty more in the water. The company of acrobats consisted of seven persons, of whom three were women. One of these latter is the only survivor. The government will institute proceedings against the proprietor of the cafe, who did not pay heed to the warning of danger given in time.

LONDON, 7.—Contradiction is given to the report from Madrid that the Spanish government has received intimation that the European powers will jointly refuse to continue diplomatic relations with Spain, if a federal republic is proclaimed.

Little credit is attached to the rumor of a separation between the Marquis of Lorne and the Princess Louise.

The Edinburgh *Scotsman* has a report that a marriage is arranged between the Duke of Edinburgh and a foreign imperial princess.

ROME.—The Pope, in replying to an address presented to him to-day, said that reconciliation with the Italian Government was impossible. God would punish the invaders of his dominion. As the Catholics were ever unshakable in their faith he had the utmost confidence in the ultimate triumph of the church.

LONDON, 10.—A special dispatch from Berlin to the *Times* says that Germany refuses to evacuate Belfort until the payment of the war indemnity is completed by France.

PHILA., Pa.—John E. Houston, general freight agent of the Phila-

delphia and Erie railroad, died here this a.m.

### CANADA.

OTTAWA, Canada.—The Second Parliament of the Dominion assembled at three o'clock to-day, and after the usual ceremonies the Governor-General delivered a speech, in which he said the plans and specifications for the enlargement of the Welland and the construction of the Baievert canals had been completed and the work can now be put under contract. The surveys for the St. Lawrence canal will be finished in time to commence work at the opening of the next year. This will insure the completion of all these great undertakings at the same period.

HALIFAX.—General M. O'Grady Hally is to succeed Sir Hastings Doyle in the command of the forces in British North America.

### LOCAL AND OTHER MATTERS.

FROM SATURDAY'S DAILY, MARCH 8.

WEATHER.—A more delightful day than this has been could scarcely be desired. Clear, bright, warm, genial and balmy.

ANOTHER FATAL CASE.—The child of Mr. and Mrs. Burns, Twelfth Ward, whom we reported a few days ago as being affected with smallpox, died this morning.

ASSOCIATE JUSTICE.—Our dispatches state that President Grant has nominated P. H. Emerson for Associate Justice for Utah. That looks as if Hawley was bound to go.

ENTERTAINMENT.—"Excelsior" hands us an account of an old entertainment given last evening at Morgan's College, but we have not space to devote to giving details of the affair. The entertainments are given weekly at the above named institution.

MALAD.—Mr. W. H. Anderson writes from Portage, March 3d—

"Eighteen inches of snow on a level; clear and fine in daytime, but tremendous cold at night. Thermometer 25 below zero last night."

UTAH NORTHERN.—We are informed to-day, by Mr. Charles Nibley, freight and ticket agent of the Utah Northern railroad, that that line will be again open for traffic on Tuesday next, and it is probable that it will not be blocked again during the present season, as the usual time for heavy snows is nearly terminated.

THE OUTRAGE CASE.—An examination of Robert A. Lee, charged with committing an outrage on a lady at Ogden, Feb. 25th, was commenced before Judge Hawley, in chambers, to-day. The evidence for the prosecution was heard and further proceedings were postponed till Tuesday. Mr. Parley Williams appeared on the part of the people.

SENSELESS OR KNAVISH.—A man was upon the street and visiting the stores to-day whose face was covered with scabs, and who is said to be just recovering from the small-pox, with which, we are informed, he was attacked about four weeks ago, in one of the country settlements. If our information is correct this individual is either a fit subject for a lunatic asylum, or should be punished as an arrant knave.

QUITE FAST.—The other day an individual hired a team and carriage at Mark McKimmin's livery stable, but put on a little too much style, inasmuch that when he drove up to McKimmin's establishment to return the team, the animals, from the effects of furious driving, were in an overheated and exhausted condition. This so displeased Mr. M. that he gave the person who maltreated his horses a sound drubbing, which resulted in both parties being fined, the next morning, by Justice Clinton. Mr. M's. fine was \$10 and the other's \$5.

THOSE ANTI-TAXPAYERS.—A number of the liquor dealers of the city held another meeting last night, at which it was resolved that if the Mayor and City Council did not conclude to accept of their proposal to limit the liquor license to \$50 per month they would fight the city and carry the matter into the District Court. Should those parties net weaken on that resolution and federal officials not interfere with the administration of the city ordinances, it is probable that, ere long, some of those pronounced fighters of the city may have an opportunity of making James Turbett's term of imprisonment a trifle more endurable by bearing him company.

KANE COUNTY GRAPE GROWERS' AND GARDENERS' CLUB.—Brother Geo. Farnsworth writes from Virgin City, Kane Co., Feb. 22nd:

"The delegates of the various settlements of this county were notified to meet at Virgin City Hall, in convention, to transact business pertaining to the club, and, to make it interesting the Farmers' Club of Virgin City were invited to attend."

After business was closed it was resolved, that this being the anniversary of the birthday of George Washington, the Father of our country, we should re-assemble at 7 o'clock p. m., to spend the evening in a social party. The members and their families met according to appointment, and spent the evening in dancing, singing, &c. A good spirit prevailed and all expressed themselves well entertained."

HON. WILLIAM H. SEWARD'S BOOK.—It is probable that the second edition of "William H. Seward's Travels Around the World" is about ready for subscribers. We are informed that the first was a fifty thousand edition, and that the demand for it was so great that it was immediately swallowed up by subscribers. Mr. Risley, father to the adopted daughter of the author, who visited this city the other week, also stated that although the first

prospectus of the publishers, D. Appleton & Co., New York, stated that it would be a book of 600 pages, the amount of matter demanded that it should contain 800 pages. According to the specimen pages which we have seen, it will contain a large number of engravings, and as to the general character of the book the long established, known and often demonstrated ability of the late Mr. Seward as a statesman and an author is a sufficient guarantee that it will be most interesting and instructive. As a book of travels it has the advantage of freshness, being up to the times in every respect. In taking his notes of travel Mr. Seward did not neglect Utah, having paid a visit to this Territory on his celebrated trip.

It will be seen by an advertisement under the head of special notices, that Mr. John Nicholson is the authorized agent of the publishers for the sale of the book in this Territory.

FROM MONDAY'S DAILY, MARCH 10.

MEETINGS.—Wm. Marsden informs us, by letter, that two days meetings were held at Parowan, Iron Co., March 1st and 2nd, when a very profitable and enjoyable time was spent by those who attended.

SPRING CITY.—G. Brough writes from that place, in Sanpete, March 4th:

"Spotted fever" has somewhat abated. There is one case of small-pox here. Measures are being adopted to prevent the spread of the disease."

A HANDSOME PRESENT.—Brothers William Ashman and George Chandler have presented to the Tenth Ward a very handsome silver sacramental set, consisting of seven pieces, which was dedicated yesterday, by Brother Adam Spiers. They were used yesterday, for the first time, for sacramental purposes.

THE CHURCH IN THE STATES.—Elder Henry G. Bywater writes from Williamsburg, Feb. 28th, that he visited Providence, Rhode Island, recently, where he organized a branch of the Church, numbering twenty-five members. It is expected that the emigration of Saints from the States will be large this coming season.

FOR EMIGRANTS.—A new and substantial building is in course of erection in the Tithing Office yard, which is to be used for the accommodation of emigrants arriving here without any home to go to, until they are in a position to provide for themselves. The building will be 43 by 20 feet, two storeys high, and will have a porch on the south side.

FATAL ACCIDENT.—It will be seen by an obituary notice, in another part of the paper, that Thomas Fennimore, a young man who formerly resided here, and whose relatives are well known and respectable citizens of Salt Lake, met with an accident a week ago last Saturday, at Portland, Oregon, receiving injuries which terminated his life a few days afterwards. Immediately on the receipt by his brother, Mr. James Fennimore, of this city, the latter set out for Portland, but he would arrive there too late to see his brother alive. An arm and leg of the unfortunate youth were fearfully crushed by the accident. He has been cut off in the very spring time of life, being only about twenty years of age when he died.

D. A. & M. SOCIETY.—Here are the minutes of a meeting of the Board of Directors of this Society handed to us by the Secretary:

"Board of Directors, March 8th, 1873, President Woodruff in the chair."

"The chairman introduced the subject of procuring a race track, which was canvassed at length, and laid over, for further investigation, with instruction to the committee on track to continue their labors."

"The resignation of Director W. C. Staines was read and accepted."

"Christopher Layton, of Kaysville, was unanimously elected a Director."

"The Secretary was instructed to get up a circular addressed to the Female Relief Societies, asking them to contribute to the coming Fair."

"The Supervisory Committees were allowed until next meeting to complete their premium lists."

"Board adjourned for two weeks. ROBT. L. CAMPBELL, Secretary."

SIXTEENTH WARD.—There will be a children's party on Wednesday afternoon and one for the bigger folks in the evening, at the Sixteenth Ward School house, for the benefit of the Sunday School.

The painting of the new schoolhouse will probably be finished before Conference. The new seats and desks combined arrived on Friday, and are being put together and arranged. They are models of neatness as well as convenience. For every purpose of a public character, it is questionable whether a more commodious building of the same size could be found in the country. The different compartments are so constructed that the classes of a normal and common school could prosecute their studies without the least interruption from each other. The way the space is economized and the means of ingress and egress arranged shows that Bishop Kesler, who drafted the design and superintended the construction, is a thorough and experienced mechanic.

THIRD DISTRICT COURT.—The March term of the Third District Court opened this morning at the Court House. The United States Court was opened by the U. S. Marshal, and the Territorial Court by the Territorial Marshal. Among other matters of business attended to was the reading, by Judge McKean, of a lengthy opinion on the meat market question, which, it will be remembered he decided, at the previous term, adversely to the city.

Of the eighteen jurymen summoned fourteen answered to their names.

The Judge ruled that all papers in equity matters should be served by the U. S. Marshal and not by the Territorial Marshal. The court adjourned till to-morrow at 10 o'clock.
