

bad men are finding employment in fomenting the disturbance, and it will continue so until the people learn to follow a conservative course, and to sink their passions for the public good. There is a bad state of feeling existing, and it only takes two or three drunken men at a gathering to cause the bad feeling to vent itself in blood and violence, as at Clinton. The Senator was very severe on Governor Ames, who he states is vindictive, and is not actuated by any kind feeling towards the people over whom he is enthroned. The Senator charges the democrats of Mississippi with the responsibility of Ames' election, as in a recent election they urged that it would be better to elect Ames, and make the state a hell first and democratic afterwards. He thinks the bloody chasm business does not fill felicitously, and that the people of the north are no more prepared to receive complacently, lectures from Lamar, Gordon, and Jeff Davis than those of the South would be to hear Phil. Sheridan.

The republicans of the Third Mississippi District, yesterday, nominated Fennis H. Little for Congress.

CINCINNATI, O., 9.—D. McLaren, late president of the Cincinnati, Hamilton and Dayton R. R., died at his residence at Glendale, this a. m.

MILWAUKEE, 9.—The Union Lumbering Company of Chippeway Falls has suspended; the liabilities are \$650,000, and their assets, according to the statement of the president, over twice that amount.

There was a severe rain storm in the south part of this State last night, and great damage resulted. Several trains of the Chicago and North Western, and Western Union R. R. were drenched, and it is reported that six men were killed.

WASHINGTON, 9.—Secretary Delano has telegraphed Mr. B. Allison, chairman of the sub-committee at the Red Cloud agency, granting authority to give the horses and accoutrements promised to the Ogallalas should they arrive to attend the council for the sale of the Black Hills. The Indians have arrived and Mr. Allison has notified the Secretary that the Ogallalas will require speedy compliance with this promise before entering the council.

Half a million in government gold was awarded to day, at 115 40.

President Grant has telegraphed to Adjutant General Townsend, directing him to instruct the officer commanding in Mississippi to give Governor Ames such aid as may be necessary to maintain order and protect life in that State.

CONCORD, N. H., 9.—Edward Lee and Lewis Massey, children, were killed to-day while playing, by the caving of a sand bank.

BALTIMORE, 9.—W. A. Cumming & Co., flour and grain dealers, suspended yesterday; their liabilities are believed not to exceed \$50,000.

BOSTON, 9.—Daniel Webster's home, at Marshfield, was burned last night.

SALAMANCA, N. Y., 9.—This a. m., Charles L. Blackney, a prominent lawyer of Cattaraugus Co., went to serve certain papers on Louis Derby, and when he was returning Derby followed and shot Blackwell four times through the body and head, and afterwards mangled his body with an iron bar. Derby returned home and cut his throat. Both were found dead.

SARATOGA, N. Y., 9.—General Spinner has accepted the Republican nomination for State Comptroller.

LEXINGTON, Ky., 9.—At the races, to-day, Tenbroeck won the first race, a mile and five furlongs, in 2.49 1/2, being the best time on record for the distance; Bob Woolley was second in this race.

WASHINGTON, 9.—The P. O. Department has perfected the arrangement for a fast mail train between New York, Pittsburg, and other cities in the west and southwest, which will be put in operation on the 13th inst. It will leave N. Y. at 4.30 a. m. and arrive at Pittsburg at 6 p. m., Chicago at 6.39, Cincinnati at 4.50 a. m., Indianapolis at 6.50 a. m., and at St. Louis at 2 p. m.

ERIE, Pa., 9.—In the convention Pershing was nominated for governor and Piolet for State treasurer.

NASHVILLE, Tenn., 9.—A Decatur, Ala., special, says that an organized band of counterfeiters, with headquarters at St. Louis, has been detected, among whom are several wealthy and prominent citizens of the State. Paxton & Canton Na-

tional Bank \$20 and \$50 legal tenders and 50 cents currency are the bills counterfeited. St. Louis seems to be the supplying point. Edwards, Gordon, Bowers, Dunn and the mills are the wholesale dealers. The end is not yet. Squads, under the direction of the chief officer of the secret service division, are to be heard. It is a gigantic combination of counterfeiters.

SAN FRANCISCO, 9.—Admission Day was celebrated by the pioneers and other societies, civic and military, by picnics, parades and literary exercises.

The press, this morning, make but few comments on the meeting of last night, confining themselves mainly to full reports of proceedings, speeches and resolutions. Some comment is made privately on the fact that the directors of the Bank of California took no prominent part in the affair; also that the meeting, which was called ostensibly for the purpose of passing resolutions of respect and regret for the deceased banker, should have been, by the action of those manipulating it, converted into an indignation meeting, many present considering it a palpable departure from the purposes of the meeting as announced.

The affairs of the National Gold Bank and Trust Company are proceeding favorably. Since the panic the bank has liquidated the claims of depositors to the amount of over one million dollars, and a statement of its condition shows a surplus, as regards depositors, of over one million four hundred thousand dollars.

MONTREAL, 9.—Guibord's remains were guarded at the Protestant cemetery last night, but nothing unusual occurred. Bishop Bourget, of this diocese, has written a letter to the daily papers, in which he says that had Guibord's body been buried in the cemetery in defiance of the laws of the church, the place where it lay should be immediately interdicted, and should be looked upon henceforth as a cursed spot, to be held in execration. If fresh efforts shall be made to introduce the body into consecrated precincts, he requests all Catholics to remain quiet, like true Catholic children and loyal subjects of the Queen. He invites every one to sign petitions to the Queen, begging her Majesty to enjoin that the rights possessed by the Catholics of this city shall not be molested, and that they are not to be molested in the exercise of their holy faith; but respected by all those whom Providence has called to share royal authority.

NEW YORK, 10.—The following named new securities were placed upon the Stock Exchange lists yesterday: fifteen million dollars of the Lehigh and Wilkesbarre consolidated guarantee mortgage bonds; they are guaranteed by and are placed under the heading of the Central Railroad of New Jersey; one million dollars of the Chicago, Rock Island and Pacific sinking fund income sixes of 1895; \$35,000,000 of the Milwaukee and St. Paul consolidated sinking fund bonds, to take the place of the company's first mortgage consolidated bonds, dated February 14th, '74, of same amount now on the list, these latter bonds having been declared defective; seven million, five hundred thousand dollars of the Cleveland, Columbus, Cincinnati and Indianapolis consolidated mortgage bonds, to be issued by the Cleveland, Columbus, Cincinnati and Indianapolis Railroad Co., with a view to consolidating all the indebtedness of the road and establishing a fund to meet the future requirements of the company.

The following call has been issued in New York: A special meeting of the associated pioneers of the territorial days of California will be held at the Sturtevant House, on Monday evening, to give expression to their feelings of sympathy for the misfortunes which overtook the late Wm. C. Ralston, of San Francisco, to whose energy and industry California is indebted for much of her present prosperity.

The new Pacific Mail steamship City of San Francisco, arrived to-day, from her trial trip out to sea.

The Evening Express, referring to the Wednesday Ralston meeting at San Francisco, recalls the prime facts stated on the evidently reluctant evidence of Blinn and says that if these charges were based upon any responsible authority believed to be true, the journals complained of, the Bulletin and Call, are entitled to public respect instead of receiving its denunciation. The press has a duty to perform

regardless of anyone else, and that neither fear nor favor can govern it in the consideration of this nor any other case. It is bound to speak the whole truth without malice upon fair information, and doing this it will discharge its duty; and if ten or fifty thousand meet to denounce this conduct, in the end it will be much worse for the people at large than for those selected for attack. Justice and fair play must rule.

A dispatch from London states that consols have fallen back one per cent. since the close of business yesterday.

There has been a sudden rise in Erie, and under strong purchases shares have advanced 1 per cent., and are quoted at 17. The explanation of the rise is in the fact of the election of new directors of the company, supposed to be pledged to support the interests of European shareholders. The general markets are quiet.

The feature of the day in Wall street is the rise in gold and the decline in foreign exchange, both resulting from the same cause—scarcity of gold and the high rates established for its use by those who control the stock in the market. Bankers have been looking for this squeeze for several days. Sterling bills are very close to the point at which gold can be imported, the demand for sterling being about 4.83 and 4.82, admitting of imports. The effects of such a squeeze are to check the export trade. The stock market, excepting Erie, which was up 3/4, was lower at the opening, but there was an immediate change, Erie falling 3/4 and advancing 1/4, and then, with the general market, it began to decline, and by 1 o'clock prices had fallen 1/4 @ 1/2 per cent. In the next hour there was a recovery of 1/4 @ 1/2, which has been partly lost. Since noon the market has been free from excitement, and, except Erie, W. U. Tel., Northwest and Lake Shore, has been dull.

A special to the Evening Post says that after the 15th of this month, the rates of charges on cable messages from N. Y. city and other points east of N. Y. city, to the United Kingdom and France will be reduced to one shilling per word. This reduction will be over all kinds of business.

Judge Louis B. Woodruff, of the U. S. circuit court, is dead.

MILWAUKEE, 10.—During a gale last night the bark Tanner attempted to make this port in charge of a tug, but the tow line parted and the vessel drifted to the southward of the pier and at an early hour this a. m. she sank; the crew climbed into the rigging and were rescued. Captain Howard attempted to swim ashore and was drowned.

CHICAGO, 10.—A Washington special says that the Red Cloud investigating commission have arrived, and are in session. Senator Howe, of Wis., who is a member of the commission, is delayed at Laramie at the wish of the Black Hills treaty commission, who telegraphed to the President a request that he might be allowed to join them, but the President thought it best for Howe to complete the Red Cloud agency investigation, and he has been telegraphed to be on hand. His delay will not impede the progress of the investigation, for the testimony is taken in writing, and the remainder of the commission will resume their work to-morrow by calling Prof. Marsh as a witness. So far the commission have obtained no evidence to implicate either Secretary Delano, Secretary Cowan or Commissioner Smith in the frauds, and they have not discovered that frauds of any great degree, as alleged by Professor Marsh, Welch and Walker, exist now as have existed in the Indian management at the Red Cloud agency. The commission have been empowered to examine into and report upon the present system of Indian management, and they will doubtless recommend radical changes, which can be brought about by the next Congress. Whatever evidence Mr. Marsh or Welch may have concerning the frauds will be heard, and the commission have extended an invitation to any one aware of anything wrong in the Indian Bureau to state their knowledge, as they are determined to avoid the customary criticism of neglecting or refusing to hear testimony, which generally follows such investigations. Marsh has represented that he would appear with a cloud of witnesses; and if Welch will not come to Washington to testify the commission will

either go to Philadelphia to hear what he has to say, or send some one to take his deposition.

WASHINGTON, 10.—The Attorney General, to-day, telegraphed Governor Ames, requesting information respecting the present condition of affairs in the reported disturbed portions of Mississippi; as soon as the necessary information is obtained the Attorney General will arrange for a conference with the Secretary of State, who is at present at his country seat, on the Hudson river.

A telegram has just been received by the Attorney-General from the sheriff of Hinds County, Miss., reporting that perfect peace prevails throughout that county, that the peace officers are not prevented from executing legal processes, and that good citizens will aid him in the discharge of his duties if needed. The Attorney-General expresses the opinion that the difficulties are at an end.

The British post office authorities, inquiring of the American postal department as to the latter's system of ocean postage, they state that the contracts with the Cunard, Inman, and North German Lloyd lines of steamers will close with the year 1876, and after that they do not propose to continue the payment of large annual subsidies to these lines for this service; they are desirous of paying compensation on the U. S. plan, of sea postage rates, according to the amount of the service performed.

Revenue Supervisor Hawley, of New York, is ordered to San Francisco to relieve Supervisor Foulke, who is ordered to Richmond, Va.

BALTIMORE, 10.—The steamship Scotian brought Foley's bronze statue of Gen. Thomas J. Jackson, the famous confederate leader, presented to Virginia by Beresford Hope, M. P., and other English gentlemen; the statue cost \$40,000, and will be erected in the Capitol Square at Richmond, near the Equestrian statue of Washington.

SANTA FE, 10.—Later returns reduce Elkins' majorities so much as to leave the result in doubt, and the official count may be required to decide it.

RHINEBECK, N. Y., 10.—The cattle disease has broken out among several herds of cattle near Aucram lead mines; nearly all have died.

SPRINGFIELD, Mass., 10.—The Republican, referring to the Ralston meeting, says the resolutions would not be unbefitting, were it not for the denunciation of the two papers mingled with nearly every paragraph, and the final appeal to the public to withdraw from them their subscriptions and advertising. It is a pity that the people who got up this performance cannot realize how bumptious and juvenile it will appear to the world, and that the world would probably have consented to the most extravagant eulogy of Ralston if they had not kicked up such a row over his vindication. The effort to punish his accusers was the first intimation the world had that there was an accused.

OCMULGEE CREEK, Indian Territory, 10.—The general council of the Indian territory, which has been in session since Sept. 3, has adjourned. The adoption of the new constitution for the government of the Indian territory, as contemplated by the treaties of 1866, was fully discussed, and a draft of the constitution prepared by a select committee in July last, was interpreted to all the nations and tribes referred to. The next general council meeting will be held in May, 1876, for final action.

NEW YORK, 10.—The Pennsylvania Railroad Company will, on Monday next, the 13th inst., begin running a regular daily fast mail train to Pittsburg, Cincinnati, Chicago, St. Louis, and other points in the west and southwest. Although the postmaster general notified the Pennsylvania Railroad Company that he will not allow them to commence before the New York Central can complete their arrangements for the Chicago fast mail, still Col. Scott has determined to start his fast train on Monday, and has notified the postoffice department that the postal cars will be at Jersey City, ready for use, on that day. These cars are large and commodious and handsomely finished and of an entirely new design, requiring almost as much work as a parlor car. The Pennsylvania company purpose to carry passengers on this train over part of their route.

The Direct United States cable will be opened for the transmission of messages between America and

Europe, September 15; the tariff rates will shortly be published. The name of the place from which the message originates will be transmitted free of charge.

OIL CITY, 10.—At 6 o'clock this morning lightning struck one of the tanks belonging to the Imperial Oil Refining Co., whose works are near this place; the tank contained about 8,000 barrels of crude petroleum, which immediately ignited, and owing to a strong northwest wind prevailing at the time, the fire spread nearly over their entire works. The loss in oil, both crude and refined, of which there was nearly 40,000 barrels, and the loss upon the buildings and machinery and the iron tankage, will not fall short of \$200,000, upon which there is no insurance. The oil works were one of the most extensive and most perfect in this country, and will almost be entirely destroyed.

WASHINGTON, D. C., 10.—The Red Cloud Investigating Commission, to-day, heard a statement from Bishop Hare, in relation to his knowledge of conducting business affairs. Commissioner of Indian Affairs, Smith, and Prof. Marsh were present. The Commission informed Commissioner Smith that they were ready to examine such witnesses as might be designated, but the Commissioner said that, so far as witnesses on his side were concerned, he preferred to wait until Prof. Marsh had concluded what he had to say. Secretary Delano, Assistant Secretary Cowan, Commissioner Smith and Samuel Walker will appear before the Commission.

LOUISVILLE, 10.—Louis Rehm, late teller of the Planters' National Bank, which he robbed of \$100,000 a week ago, was released on \$3,000 bond to-day, the money stolen having been restored.

Hon. Thomas D. Worrall, managing director of the Mississippi Valley Transportation Company, which proposes to trade, directly, the products of the southern States with England and Europe, has been looking about Louisville with a view to selecting the American headquarters of the association.

MEMPHIS, 10.—The following was received from Jackson, Miss., to-night, and explains the telegram sent from Edwards, to-day, to Attorney General Pierpont:

"JACKSON, Sept. 10th.  
"To Attorney General Pierpont, Washington, D. C.

"I did not send the dispatch this morning. There is no protection for life to colored people in my county. The telegram sent was presented to me by the captain of the military organization there, and for safety to self and property, I could not do otherwise. I am forced to confess that my knowledge and convictions are to the contrary.

(Signed) "W. H. HARVEY, Sheriff."

"JACKSON, Miss., 10th.  
"Attorney General Pierpont. For my personal safety I desire the telegram sent by me kept private.

"Respectfully,  
"W. H. HARVEY, Sheriff."

MONTREAL, 10.—Last night the guard on duty at the Protestant cemetery vault was assailed by a mob, which, sneaking round underneath the thicket, fired a volley of stones, evidently intended as a ruse to draw out the extent of the force in charge; the guard fired fourteen shots into the bush and a general scattering of the enemy ensued, and they could be heard going through the brush and up the mountain side. A careful search, this morning, failed to reveal any indications that any one had been wounded. The apathy of the authorities in reference to the arrest of the anti-vaccination rioters and those engaged in the commotion at the Cote des Nieves Cemetery is exciting much unfavorable comment.

RUTLAND, Vt., 11.—A fire at the Middlebury Paper Company's mill, at Middlebury, Vermont, last night, destroyed the paper mill buildings of the Middlebury Manufacturing Company, the establishment of the Middlebury Woolen Company, and twenty-nine business houses, two halls, six dwellings and part of a highway bridge; total loss about \$170,000.

CLEVELAND, 11.—The steamer Montagu, of Erie, from Marguette, with a load of iron ore and scrap iron, for Cleveland, had her steering gear disabled in the storm of Friday morning, and was dismantled and laid at anchor till this morning, when she was brought into this port in a leaky condition. None of the crew were hurt.
