Ten Thousand Letters Mailed Today to Business Men and Leading Citizens.

MEETING ON THIS AFTERNOON.

Petitions to the People to Take up Urgent Labor With Their Representatives in Legislature.

The controversy over whether or not there should be a railroad commission for the State of Utah, promises to become a problem as important as the consolidation matter before the next session of the legislature.

Despite the fact that the Real Estate association has taken a stand against the proposed commission on the grounds that it is not an opportune time to urge it just when so many railroads are heading this way, with an application for admission to the borders of the state, the Manufacturers and Merchants' association seems de-termined to press its cause to the limit of its power.

The propaganda of the Merchants and Manufacturers, it is claimed, seems to be acquiring support. Its offi-rers declared today that the board of governors of the Commercial club, the State Wool Growers' association, the Butchers and Grocers' association, and a large number of prominent business men, acting individually, are offering them aid, and urging them to continue

TEN THOUSAND LETTERS.

Today a series of 10,000 letters are being sent to business men and leading cilizens over the state, who are inter-ested in freight rates. In these letters the reasons for a commission are given, and it is urged that the receivers ex-mans by return null their endorsement press by return mail their endorsement objection to the movement. Presi dent Hewlett stated this morning that they looked for a hard fight ahead and had been organizing for it for many been organizing for it for many months.

WANT CHEAPER COAL.

"If necessary," he added, "we have funds back of us in plenty to buy up every inch of bill board space in Utah, and placard the state with our an-nouncements of the need for a commission. This matter of \$5 coal, where it is mined at our very doors, and th It is mined at our very doors, and the fact that Omaha brewerles can ship beer clear from Omaha to Sait Lake at a rate less than Mr. Fisher can ship it from Sait Lake out to Green River in his own territory, are all working out in bringing support to your case and the support is much more determined and encreasive than one is liable to and aggressive than one is liable to think who is not closely in touch with commercial bodies.

THE TEXAS COMMISSION.

Mr. Hewlett also stated that notwithstanding the claim is made that the Texas commission has been a failure he has received this morning a letter branding this as false. It is written by the chairman and states that the com-mission failed only in that it did no secure lower passenger rates and this was because it found them fair and just. The commissioner offers to come to Utah if he is needed to lecture over the state on the work his commission

has done. The association is now preparing an-

TRACKS ARE SOFT.

Frequent Derailments Are in Order on Streetcar Lines.

With the prevailing rainy weather the physical condition of the tracks of the Utah Light & Railway company are in a very bad condition. Loose joints, soft spots and spreading rails are the order of the day especially on the East Seventh south and Waterloo lines. In consequence "the little red wagon" is working over-time. Yester-day portions of double tracks were operated as single tracks owing to derailed cars and this morning two cars went off at Ninth East and Fourth South during the early rush hour. South during the early rush hour. All reports to the contrary notwith-standing the company has not yet got standing the company has not yet got down to the point where orders have been placed for ties, cars and addi-tional heavy steel. At present the officials of the company are making up a report covering the requirements. It is understood that among the recom-mendations will be one asking for a concrete roadbed for the tracks along some of the soft strategies on the Waome of the soft stretches on the Waterioo line. In any case there is so much work to be done that the public cannot anticipate modern rapid transit until next winter, if then.

ORDERS FOR CARS.

Will Take Until 1908 to Fill All That Are Placed.

Purchasing agents report great diffi-ulty in getting orders filled for steel and equipment in these piping times of prosperity. According to one gentleman this morning, who is in touch with the situation, orders for steel cars have come so thick and fast during the past few months that the big plants already have enough orders on hand to fill to occupy their attention until the latter part of 1908. Steel mills and equipment plants also are rushed with orders on hand for the next 12 months, if they do not book

AMUSEMENTS.

Theater-Maude Fealy's charming Theater-Maude Fealy's charming personality and the boom that always comes with Christmas day at amuse-ment places, proved the salvation of "The fluxion of Beatrice." The play was stale, flat, and unprofitable, and it is amazing how a manager of John Cort's experience, and an actress of Miss Fealy's general gifts should be cortened by both on the tablets and content with locking up her talents and those of so many clever people in a vehicle so unsatisfactory. Not only was Miss Fealy admirable, but her supporting company were all clever people, and it was specially pleasant to notice our old friends of the Frawley and Cum-mings companies, Harrington Reynolds and Blanche Douglas, who were both as

good as ever. The company drew a large house Christmas eve , a handsome matinee. and people were turned away from the Christmas night performance.

Buster Brown-Tonight the hilarious comedy entitied "Buster Brown" opens an engagement which will run till Friday, with matinees both Thurs-day and Friday afternoon. The only performances of "The Sultan of Sulu" take place Saturday afternoon and evening.

Willa Holt Wakefield does some song readings, and while she is the third performer who has featured this specialty during the season, her act is different enough from the others to be saved from triteness. Blake and Jones have an act of singing and dancing that is suitable for two colored people, and as the steps are as difficult as any ever seen here, the act is acceptable. There is more of the blood and thunder in it than has been seen in any show at the Grand in many a day, and at times the sudience is wrought up to a high pitch of enthusiasm. The scene where the Indian rescues the girl who has been thrown over the precision is of an thrown over the precipice, is of an exceedingly hair-raising nature, and people who witness it are inclined to either stand on the seats or to close their eyes until the daring feat has been accomplished. "At Cripple Creek" ends its engagement here Saturday evening.

MEETING THIS AFTERNOON.

The subject of a railroad commission will be the topic for discussion at a special meeting of the M. & M. board of directors to be held this afternoon. Monday evening another meeting will be held at which the plan will be fur-ther discussed. Mr. Hewlett says that the resources of the association have been collected for the express purpose of making this fight, and that they will be used to the limit as necessity com-pels, while the disposition of the ner-chants seems to be to contribute still further as demanded on the propaganda of \$3 coal for Salt Lake as one of the first practical results. The association claims to have direct evidence that a number of manufacturing concerns have refused to locate here on account of the coal prices and the freight rates, after finding all other conditions favorable.

WOULD-BE BURGLAR.

Aged Man Hit Him on Head With a Heavy Poker.

(Special to the "News.")

Bingham, Dec. 26 .- A would-be burglar came to grief here at an early hour this morning. About 6 o'clock a. m., a German named Lee Hetrick attempted to break into the tailor establishment of August Lund, when the latter suddenly appeared at the door and struck the intruder over the head with a poker. Lund slammed the door and turned out the lights. His action was none too quick, for Hetrick pulled a revolver and fired two shots in Lund's Hetrick was placed under arrest, and is being held pending an examination.

Glen Miller Says There is no Truth in Earthquake Stories.

Glen Miller, who is spending the holldays here from San Francisco, reports as without foundation the storles told in Salt Lake and elsewhere about the recurrence of earthquakes at San Francisco, and says he has not noticed such for a long time. Prospects For Rain-There is every prospect for rainy weather for the next two days, as there is an extended low barometric area covering the en-tire coast line and rapidly coming this way. But a lower temperature is ex-pected by tomorrow. Light showers began falling last evening, and this morning was also showery, so that the walking is anything but pleasant.

as with all the increased work of the office caused by the rapid growth of the city and the proportionate in-crease of postoffice work, the clerks and force generally have handled all the business with such celerity that the office is right up to date in its operation, and this morning's mails were taken in hand just as soon as they certived each the Christman trat they arrived, as all the Christmas traf-fic was out of the way. Postmaster Thomas plunged right into the work himself, and labored as hard as any of his help.

Doing Good Service-There is a pair of crutches in the county attorney's of ice that is doing good service now days and is going the rounds among those in the office. The first to use them was Asst. County Atty. Job P. Lyon who sprained his ankle about two weeks ago and was compelled to hobble around on crutches for two weeks. The crutches had hardly got cold again before Asst. County Atty. Hanson met with an accident at the Y. M. C. A. gymnasium in which he sprained his ankle and broke a small bone in his leg. The crutches were then handed over to him and he is now using them to good advantage. The only question in the minds of County Atty. Christensen and his stenographer, Miss Woodmansee, is who will be next to have to use the now famous sticks. They are doing how famous sticks. They are doing their very best to avoid accidents so as to break the hoodoo which appears to have attached itself to the office with-in the last few weeks. By the way, Parley might use stilts.

Family Reunion-Bishop Joseph Warburton of the First ward enjoyed a reunion of his family, consisting of a reunion of his family, consisting of 53 members, Christmas day. The First ward meetinghouse was beautifully decorated with evergreens, holly and bunting, where the family assem-bled at 2 o'clock to partake of a most sumptuous turkey dinner. The bishop made an appropriate little speech from the head of the table, reminding those present that 55 years ago he and his wife. "Just the pair," had come to this country and when the extent of the present family was conthat operations in this line are progressing with satisfactory speed. So far, however, the right of the United States government to regu-late the admission of currents of elecside of the river has not been chal-lenged, and to this question the sec-retary intends to first address himself.

SAMUEL REYMER **REUNITED WITH FAMILY.**

Pittsburg, Dec. 26.—Samuel Reymer and his young wife, formerly Nellie Paris, a dancing girl, were yesterday reunited with the family of the hus-band after an estrangement of two years, during which time the young husband was disinherited by his father, Jacob Reymer, the candy king of Pitts-burg. Young Reymer married Nellie Paris in March, 1905, after a stormy scene with his millionaire father, who demanded that he give the dancing girl up or lose his half of the Reymer millions. He was married within an millions. He was married within an hour and was disinherited. The father died soon after. Since that time the son has tried to make his

that time the son has tried to make his own living, refusing overtures of moth-er and slater until yesterday, when over a Christmas dinner, there was a family reunion. After marrying Miss Paris, Reymer took her to Denver, where he became very ill. He still re-fused, however, to have anything to do with his family, saying he could make his own way.
