LOWER MAMMOTH IS FIRM.

Dexter Weakens Today - Sacramento in Good Form-Con. Mereur Weaker - May Day Active.

Business was very good on the Mining Exchange during the past week, though a slight shrinkage in the volume of business was seen today, when 18,870 shares of stock sold for \$10,991.25. The sales of the week amounted to 197,355 shares, which represented a selling value of \$124,262.71. The principal stocks of the week were Lower Mammoth, May Day and Star Con. All of these stocks were very active and in the case of May Day and Lower Mammoth important advances are recorded. The former has advanced 10 cents per share during the week owing to improved conditions at the mine. The same cause has produced a big jump in Lower Mammoth in the past two weeks, when it has advanced from 40 to \$1.45 per share. It has since reacted to \$1,20 around which figure 5,-000 shares changed hands today. Star Consolidated has improved its position during the week, standing today at 80, while Consolidated Mercur shows a slight falling off, being traded in to-day down to \$3.95 per share. Daisy has advanced to 14 per share, while Sacramento continues to steadily improve the sale of 1,500 shares being recorded today at 39. Silver Shield, which has recently entered the dividend list, continues to remain firm around 26 cents. Ajax is a little softer, as is Daly, but Daly-West continues to climb, sales being recorded this week at \$26.60 per Mammoth is not so strong with \$1.96 bld, while Dexter closes today with \$1.02 bld, a marked drop as compared with prices earlier in the week. The decline is owing to a low shipment

for November.

ARGUMENT BEGINS.

George Sutherland and Arthur Brown

Took Up the Time Yesterday. Two arguments were heard yesterday in the Grand Central-Mammoth case at Nephi. George Sutherland, representing the Mammoth, occupied two and a helf hours in the morning, while Arthur Brown spoke the same negth of time in the afternoon for the Grand Central. Mr. Sutherland discussed the surface conditions at the mines, and the character of the vein and before closing look up the apex question, upon which as made a lengthy argument.

Arthur Brown for the Grand Central said that the only questions in the mase related to the apex, and the dip and strike of the vein, and proceeded to show that the vein in dispute bore to the west from the south end of lot is. It was also stated that the ore was

8. It was also stated that the ore was

vertical and had no such dip as claimed by the Mammoth.

WINNAMUCK FIND.

A Large Chute of Very Rich Ore Found in the Congress Tunnel.

W. Heldel, who has lately had charge of the Winnamuck mine, made a find Wednesday that promises to be important, says the Bingham Bulletin.
After cleaning out the old Congress
tunnel, which had been closed for
twenty years and was considerably twenty years and was considerably caved, he began driving and directly went into what seems to be a large shoot of very rich ore. The tunnel face was, yesterday, showing six feet, broken but with indications of becoming solid. A ten-pound specimen examined yesterday by old miners who formerly worked n the tunnel was pronounced by them identical with the 300 to 500nce ore that came from it in former

### COPPER MINING IN UTAH

The financial papers of Boston are giving information in each issue of the steps that are being taken in Bingham to add to the world's production of copper, Those mines that are now building smelters and those that are preparing to build works and those that are pushing their development work all receive due notice. It is acknowledged that the copper ores of the West Mountain mining district, brown bear the copper and the copper ores. known here by the name of the town of Bingham, are in bodies so large as to attract the attention of the mining orld and those who are seeking an in-

That our lead-silver-gold ores at singham should lead to copper ores as proclaimed many years ago, but t that time little attention was paid to the claim as the copper was an injury to the selling of ores that were brought to the surface, and as a consequence, the copper leads were avoided. The orea overlaying the copper were the ones that would easily sell and were easily mined. All these conditions are found at the secondtions are found at the property of the Saint Joe Mining Co., which is now attracting the attention of many of the investors of the east. Such ores as were developed on the property in ears past were graded up and brought and returns, but much ore was thrown for the dump which now is shown by oncentration tests made by Mr. Ellis oncentration tests made by Mr. for concentration and reduction. The reports made by all the experts on the Saint Joe demonstrate that the copper showing in the surface ores will

Those who always want the best are the sort of people who use Three Crown Baking Powder. It is better than others and saves you money at the same time. ielp to swell the copper output of the camp when the work now being carried on is completed. The deep tunnel of the company is one that must be classed with the best of the kind now being driven in the mining west, and will be a great aid to mining in the district, for it will enable many properties to work with great depth that are now drowned out by water. Mr. W. W. Wait with others have been in the city for some time perfecting details of company's business, and to take part in the local work.

PROVO SOCIAL NEWS.

Provo, Dec. 14.-Mrs. R. E. Knowlden, assisted by Misses Maud and Allie Daniels, entertained a large number of little folks Monday afternoon in honor of little folks Monday afternoon in honor of her daughter Lucile's ninth birthday. Music, recitations and games were played. The principal game was a spelling game in which Miss Loua Worsley won the prize of a beautiful book. Refreshments were served and a folly time enjoyed. jolly time enjoyed.

Mr. and Mrs. Grant C. Bagley entertained the members of the "63" Card club Tuesday evening at their cottage on Main street. A delightful evening was spent. The prize winners were Mrs. Sam. A. King and Stephen Moore. Mrs. Bagley was assisted by her sis-ters, Mrs. R. R. Irvine and Miss Pearl by Mr. and Mrs. Leon Bachman in one

Mrs. Jessie Crosby and Mrs. Clara Henry gave a Kensington tea to a large number of their friends Wednesday af-ternoon. Wednesday was the birthday of each of the ladies and they entertained together in honor of the oc-casion. Miss Arvilla Clark, sister of Mrs. Henry, was present and rendered some beautiful music. A most de-licious lunch was served by the daughters of the hostesses.

Capt, and Mrs. E. A. Wedgewood are nicely located for the winter in the Hedquist cottage.

The Utah Sorosis met at the parlors of the Hotel Roberts, and were enter-tained by Mrs. Philip Speckart. Mrs. R. R. Irvine, Jr., read a very interest-ing paper on the House of York. Miss Florence Pond gave the History of Henry VIII and His Reign. Miss Alice Reynolds reviewed the Life and Works of Sir Thomas Moore Thealthand of Sir Thomas Moore. The club ad-journed to meet in one week at the home of Mrs. D. D. Houtz.

Miss Emma Davis visited the B. Y. Academy and the districts schools.

Mr. and Mrs. Brigham Smoot are visiting relatives in Eureka and Provo. The young folks have made their home in Denver where Mr. Smoot is engaged in the drug business.

Miss Mary Christensen, of Gunnison has been visiting in Provo for several days and has now gone to Salt Lake City where she will spend some time.

The many friends of Miss Inez Knight are all delighted to see her out again after her long imprisonment from smallpox.

#### LATE LOCALS.

Secretary of State Hammond has a large number of reports of State officers and public institutions, messages of State and Territorial governors for free distribution. The books are stacked outside the secretary's office and an invitation "help yourself" is extended to all tended to all.

The district judges fixed the bonds of the county commissioners today, plac-

ing the sum at \$5,000. Governor Wells today forwarded to the secretary of state at Washington, D. C., as provided for by an act of Congress, certificate of ascertainment of the electors of President and Vice President of the United States from the State of Utah. The certificates, as issued from the secretary of State's office, are artistically and handsomely gotten up.

The board of public works is sched-uled for a special meeting at 7:30 Wednesday evening.

his bed this morning, at Ogden. French Faulkes was arrested in Og-den today, for an attempt to carve Fred, Keller with whom he had quar-reled.
