WASHINGTON NOTES.

Congressional Committee Work.

WASHINGTON, March 22.—Favorable reports have been ordered by the House committee on public lands on the following resolutions:

Buchanan's, calling on the Secretary of the Interior for information in regard to alleged frauds perpetrated by the California Redwood Company.

White's, calling for information respecting the Rocky Mountain forest lands.

White's, calling for the report of special agent Bowman on the timber lands.

Peter's, calling for information in regard to certain delays in entries of public lands and one by Anderson (Kansas) calling for information in regard to the condition of land granted the aided Pacific railroad companies The last resolution was amended by striking out the last paragraph directing the committee to frame a bill declaring a forfeiture of the grants which was done because the matter is already under consideration by the committee in connection with the general subject of forfeitures.

The House committee on the revision of the laws has decided almost unanimously to report a joint resolution proposing an amendment to the constitution for the election of United States senators by direct votes of the people.

The House judiciary committee has ordered Oates' bill, fixing the salaries of United States district judges reported to the House. The salary of the judges of the northern district of California remains unchanged. Other western districts are increased from $3500 to $4000.

A sub committee of the House committee on military affairs organized today to begin inquiry into the matters alleged in the Grosvenor resolution in regard to the insertion of unofficial lists in the rebellion records. McCutcheon submitted a memorandum of the facts in the case as revealed by the records. They relate entirely to the conduct of the Fifteenth Pennsylvania Cavalry at the battle of Murfreesboro. It is stated that in the appendix of Volume 20, series 1, part 2, prepared by Colonel Lazelle, is a list of 453 members of this cavalry organization who are represented as having gone to the front and having been engaged in the battle of Murfreesboro, when the body of the same volume shows a list of but about 200. Those engaged in it stated that while the list given in the appendix purports to have formed part of an official report to General Rosecrans, it is an article which appeared in several Philadelphia newspapers. The official reports in the body of the work show a total of 64 names of members of the regiment who took part in the battle which do not appear in this appendix. The committee decided to subpœna Col. Lazelle, in charge of the record's publication, General Grosvenor, the mover of the resolution, and General Rosecrans to appear before it and give their testimony.

The President sent a message to the Senate today in reply to the resolution introduced by Senator Frye on the 16th inst., requesting the President to transmit to the Senate copies of the minutes and daily protocols of the meetings of the commissioners who negotiated the fisheries treaty with Great Britain. He enclosed a copy of the letter received from the Secretary of State, which says, in substance, the President's message of March 5th, and the documents transmitted with it, placed the Senate in full possession of the documentary history of the conference. Every point is covered by those papers, except the question of damages sustained by American fishermen, which being met by a counter claim for damages to British vessels in Behring Sea, was left for future settlement.

The Senate committee on military affairs today ordered a favorable report on the Manderson bill, providing that each State which shall establish State homes for disabled soldiers and sailors and their widows and orphans, shall receive $100 for each person who may be cared for in the home for a year.

Memorial Services.

BERLIN, March 22.—Empress Victoria and the members of the royal family and many people of prominence, attended the services in the Berlin Cathedral today on the occasion of the anniversary of the late Emperor's birth. Court Chaplain Egle preached the sermon. They afterwards attended services in the Castle Chapel at Charlotteburg. Emperor Frederick was present at this service and remained until it was finished.

Emperor Frederick was not fatigued by his attendance at the services and afterwards gave several audiences and received a number of visitors. To each of those present at the service, Empress Augusta gave a portrait of the Kaiser on his deathbed. Underneath the picture were the printed words of St. Paul: "I have fought a good fight. I have finished my course. I have kept the faith."

Emperor Frederick, in a recent letter to Count Von Moltke concerning the latter's attending the funeral of the late Emperor, says: "I heartily beg that you will limit your participation in the painful ceremony tomorrow to being present at the cathedral. Should this not suffice, I command you to do so, which I hope you will not take amiss from a faithful old friend."

Memorial services for Emperor William were held throughout the empire, especially at the universities and academies.

At Munich there was a grand torchlight procession. The paraders marched to the Seigesthor, where an imposing service was held before a catafalque which had been especially erected for the occasion.

Another Blizzard in the Northwest.

MILWAUKEE, Wis., March 22.—Reports from the interior of the state indicate that last night's blizzard was very severe. The thermometer ranged between 10 and 12 degrees below. Not a wheel is moving on the Upper Michigan peninsula roads except those propelling snow plows, which are nearly helpless. It is the most complete blockade of the winter in that section. The storm came so suddenly and fiercely that trains were unable to reach the next station. The wind blew a hurricane, and it was intensely cold.

ST. PAUL, March 22.—The storm which raged Tuesday night and until this morning through portions of Dakota, Minnesota and northern Wisconsin, was one of the severest that has been experienced in the northwest this winter. It consisted of a cold wave of unusual severity, accompanied by a heavy and cutting wind. In many places it was rendered worse by blinding snow storms. In Minnesota, north of Crookston, and northeastern Dakota, most of the roads are badly blockaded. Wherever there was any snow it was badly drifted, and the railroad tracks in numerous instances were covered to the depth of nine feet.

MARQUETTE, March 22.—One of the worst blizzards of the winter set in last night at an early hour, and lasted until morning. Considerable snow fell, and the railroads were greatly hampered in their operations. The temperature ranged between 7 and 10 degrees below zero during the night at different points on the peninsula.

American and Trans-Atlantic Floods.

EASTON, Pa., March 22.—The Delaware River is 16 feet above low water mark. The flood has stopped all mills in South Easton.

ODESSA, March 22.—The Dnieper and Dniester rivers have overflowed, and the villages along their banks are isolated.

VIENNA, March 22.—Floods are doing great damage in Crotia.

PESTH, March 22.—The situation in the flooded districts of Hungary is appalling. The dykes at Bekes are falling and the town is doomed. Fifty or more houses have already collapsed. Floating ice has destroyed many houses in Danaplin.

Inhuman Treatment of Prisoners.

OAK HILL, Ark., March 22.—Governor Hughes and the penitentiary board arrived this afternoon to further investigate the brutality to convicts in the coal mines. They found that Warded Scott, who preceded fugitive Gafford, was even more brutal. He whipped as many as 75 men in one night until the blood ran in streams from their bodies. The place where the convicts were confined was so filthy that a sickening stench rose from it. The beds and blankets were dirty and covered with vermin, and yesterday a lot of shoes and clothing arrived and the men were provided for who had gone barefooted all winter. The physicians today examined a large number of convicts whom Gafford had whipped and found their bodies almost solid sores. The men feared to complain, while Gafford was here, for fear of being beaten again. Some time ago a convict ran off and hid in the mines and refused to come out, and Warden Scott ordered Tom Gaddes, the pit boss, to go down and shoot him. He did so. Things are much changed now but the details of past acts are sickening and horrible.

Arrested.

DANSVILLE, N. Y., March 23.—Colonel L. B. Foulkner and Leonard Kuhn, director and cashier respectively of the defunct First National Bank at this place, were arrested last night upon a requisition of the United States court, and taken to Buffalo.

NEW YORK, March 22.—Francis E. Trowbridge, a member of the Stock exchange, was arrested to-night on a complaint made by Abram Kling, who says he authorized Trowbridge to sell for him 600 shares of Richmond Terminal stock and 200 shares of Jersey Central. Kling says that Trowbridge on Monday last sold the stock and has since refused to turn over the proceeds of the sale.

Fifteen Thousand Homeless.

LONDON, March 22.—The advices from Kaagoon say the town of Mying-Yan, an important military post in Upper Burmah, has been destroyed by fire. Fifteen thousand persons are left without homes, and an immense quantity of grain, hides and other property was destroyed.

Railway Wrecks.

PORTLAND, Or., March 22.—A northbound mixed freight and passenger train on the Portland & Williamette Valley Railroad was derailed fourteen miles south of this city early this afternoon. The passenger coach rolled down an embankment fifteen feet, smashing into kindling wood. Conductor A. K. Colburn was thrown forward on his head, fracturing his skull. He will probably die. Ten passengers were injured, including three ladies; nothing more serious than broken bones. Two carloads of cattle were killed. Cause—a broken rail.

HUNTINGTON, Pa., March 22.—A freight train on the Pennsylvania road was derailed at Barre this afternoon. A brakeman and a tramp were killed. Three tramps were seriously injured, and two boys who are missing are supposed to be buried under a mass of coal and coke dumped from the train.

Further Details of the Holocaust at Oporto.

OPORTO, March 22.—The bodies of sixty-six victims of the theatre fire were exposed for identification today. Many heartrending scenes were witnessed. Besides the bodies there are also 53 heaps of unrecognizable remains. Several projects have been organized for the relief of the families of the poorer victims. The Chamber of Deputies at Lisbon today decided to send a telegram of condolence to the municipal authorities of Oporto. The chamber then adjourned as a mark of respect to the victims.

It is reported that some Americans and Englishmen were burned. Electric lights have been provided to enable the searchers to work without interruption. The fire originated from the blowing of an unprotected gas jet against the scenery. A scene shifter saw the fire and rushed to lower the curtain, but before he could reach it the burning scenery fell on the stage. There was a panic immediately. In the cheaper parts of the House the attendance was principally of the rougher class, including many sailors and deck porters, who brushed down the weaker people in their rush for the doors, using their fists, shoes and knives, and mercilessly slashing their way to the front. Girls, children and women were literally butchered.

FIFTIETH CONGRESS.

SENATE.

WASHINGTON, March 22.—Senator Dawes from the committee on Indian affairs reported adversely the bill authorizing the Secretary of the Interior to permit miners and corporations organized for mining purposes to prospect, develop, lease and own the mineral portion of any Indian reservation and upon such terms and conditions as may be agreed upon by the Secretary of the Interior and the Indians on the reservation.

The bill was opposed by the Secretary of the Interior and the Commissioner of Indian affairs, and the former in a letter to the committee says that the enactment of such a law would make it extremely difficult for the government to preserve peace and quiet among the Indians.

Hale presented a conference report on the urgent deficiency bill. After the report was read Dawes criticised the action of the conference committee in striking out the item to pay the attorney at Los Angeles, California, compensation for his services in defending successfully the interests of the Mission Indians under appointment of the Attorney General. He did not blame the Senate conferees for he knew they had to submit to pressure on the part of the House conferees. The bill passed.

Sculsbury then addressed the Senate on the subject of the President's annual message. The democratic party, he said, had always maintained and still held that the only proper motive of taxation was to provide the necessary revenue for the wants of the Government and that every man was bound to contribute his just share. Taxation for any other purpose was unjust and indefensible. The democratic party was in favor of a revision and reduction of the tariff, and would carry it out unless thwarted in its purpose by the combination of democrats (actuated by local interests) and republicans who favored higher rates.

At the close of Salisbury's remarks, Riddleberger offered a resolution that the rules providing for executive sessions be suspended during the consideration of the fisheries treaty, and asked unanimous consent for its immediate consideration.

Cockerell objected, and the resolution lies over.

Teller introduced a bill to protect settlers on lands supposed to be within the limits of railroad grants. Referred to the committee on public lands.

The Senate then proceeded to the consideration of the bills on the calendar in the regular order. The following bills were passed:

To prevent the obstruction of navigable waters, and to protect public works against trespass or injury.

Providing in certain cases for the forfeiture of wagon roads grants in Oregon.

To provide for a commission on the subject of the alcoholic liquor traffic.

The House bill appropriating $1000 to reward the Esquimaux nation of the Asiatic coast of the Arctic Ocean for acts of humanity to shipwrecked sailors.

The House bill authorizing the President to arrange a conference between the United States and the republics of Mexico, Central and South America, Hayti, San Domingo and the empire of Brazil. It appropriates $100,000, to be disbursed in the discretion of the Secretary of State, for expenses incidental to the conference.

To aid the State of Colorado to support mines.

To amend section 2805 of the Revised Statutes so as to allow of oaths to be administered by notaries public.

Fixing the status of cadet engineers of the classes of 1881 and 1882.

To create ports of entry at Tacoma and Seattle, Washington Territory.

Altogether there were thirty-one bills taken from the calendar and passed.

Sawyer reported a bill reducing the postage on seeds, cuttings, bulbs, roots, scions, etc., to one cent per four ounces. Passed.

After an executive session, the Senate adjourned.

HOUSE.

WASHINGTON, March 22.—The following bills passed:

Amending the statutes so as to provide that the record of a state court may be certified by the presiding magistrate or any other judge of the court.

Extending the protection of the United States laws over United States officials executing processes in the Indian Territory.

Authorizing United States Marshals to arrest offenders and fugitives from justice in the Indian Territory.

Amending section 988 Revised Statutes so as to read as follows:

SEC. 988. That where by the laws of a state the defendants in the courts thereof are entitled to a stay of execution, the defendants in the courts of the United States held therein shall be entitled to a life stay upon the same conditions, including the giving and enforcement of bond or other security for the performance of the judgment thus stayed.

Amending Section 2117, Revised Statutes, so as to provide that the penalty recovered from persons unlawfully driving horses and cattle over lands belonging to the Indians, shall be paid to such Indians, less costs and ten per cent.

Barnes (Missouri) submitted a conference report to the urgent deficiency bill, and it was agreed to. As the bill passed, it appropriates $6,876,500.

McRea (Arkansas) reported the resolution calling on the commissioner of agriculture for information relative to the condition of the forests of the Rocky Mountains. Adopted.

Stockdale (Mississippi) reported a resolution calling upon the Secretary of the Interior for information as to whether appeals in land contest cases are considered in their regular order, and how soon after the filing of an appeal the case reaches a hearing. Adopted.

The House then adjourned.
