HORNE FAMILY REUNION.  
Eighty-five Descendants of Late Patriarch Have Enjoyable Time.

The Horne family association being the posterity of the late Patriarch Joseph Horne, gathered in annual reunion at the country home of Commissioner William J. Horne at Granger yesterday to the number of eighty-five.

Henry Horne, oldest son of the deceased, is the president of the association, but he was undoubtedly detained at his home in Arizona. Mrs. Minnie Horne James is the vice president and she gave an address to the younger members of the family. In the afternoon a banquet was given and speeches were made by President Joseph T. Horne, of Sevier county, Mrs. M. Isabella Horne, Mrs. Mary P. S. Horne and Mrs. James. It was decided to have the biographies written of the late Patriarch Horne, Mrs. M. Isabella Horne and Mrs. Mary P. S. Horne, by Joseph S. Horne, Minnie H. James and Alice Merrill Horne respectively. These biographies will be added to the historical literature of the family.

One of the most entertaining features of the reunion was a base-ball game in which all took a hand. Four generations were represented in the lively pastime.

# RECORD DAY AT THE RESORTS

Unprecedented Opening Day Crowds Throng Places of Amusements.

## EVERY PLACE PATRONIZED.

Over Seven Thousand Assembled at Saitair—Changes Have Been Made—Big Day at Alder's and Lagoon.

Yesterday afternoon furnished the best opportunity yet to judge the magnitude of Salt Lake City's population. A man came in from Saitair last night and said the whole city was out there. A citizen in from the Lagoon said that the city had moved up there for the day, while they both might well have been taken to task by a man who had just come up from Alder's, who knew that everybody in town was down there. This situation gives a faint idea of how many Salt Lake residents are and shows that each of the resorts has a clientele large enough to make it a legitimate business. The Saitair certainly did herself proud yesterday, for she pleased everybody, because she was mindful of everybody. This was certified to in the wilderness of flowers that rendered aromatic the atmosphere of the resort, and the deep-seated look of satisfaction that rested on the faces of the managers of the resorts. Nothing was neglected. The ball players had the stimulus of a crowded grandstand, and every event that was pulled off from the city was witnessed by hundreds of good natured people who seemed to have the capacity to enjoy anything that happened to come along.

## THE SALT AIR CROWD.

Saitair still remains the queen of all resorts. She occupies that proud position because of charms that she possesses that are all her own and can be found nowhere else. She is the best expression of what a resort of her kind should be, on this continent and her enchantments are beginning to work on the people of Salt Lake. The first train that went to Saitair yesterday left the depot at 12:15. It carried thirteen cars that were fairly well filled. Then beginning at 2:15 five trains went to the lake loaded to the guards. The last crowd arrived there at 5 o'clock, and as a result there was very little open space anywhere about the pavilion. It is estimated that 7,000 people were there, a larger crowd by over 3,000 than on any previous Decoration Day since the resort was opened. The heavy wind tried to blow the crowd into an ill-humor, but it could not do it. It succeeded in making the dancing difficult and lowering the mercury, but it failed to lower the good nature of the happy crowd. It was a body of ladies and gentlemen with a few minor exceptions. The word minor is used advisedly for there were a small coterie of callow striplings who had watched some man drink a glass of beer, and the beverage seemed to have entered the cavity under their hats.

Some few changes were noted. The orchestra occupied a new portable stand in the northwest corner of the pavilion. The new position for the band is better adapted to the acoustics of the hall than the old one is. The liquids on sale are confined to beer, claret and lemonade, and the beer booth which formerly occupied the center of the lower floor is now in the northwest corner. During the afternoon about 200 people took a dip into the water, but it was generally deemed to cold for bathing. It took until midnight to get the crowd back to the city.

## LAGOON IS IN LINE.

If the crowd at Lagoon yesterday can be taken as a standard the patronage of the Lagoon will be well provided. Yesterday was a record breaker for the opening day. It is estimated that upwards of 5,000 people repaired to its attractive shades and entertained features. The management, which is noted for its liberal disposition to cater to the public, had added several new features. One is the miniature railway which was a mine of enjoyment for the little folks. Because of its location in the northwest corner of the Lagoon will ever remain a favorite with the mothers and the taste of the mother is always seconded by little children. The resort has been overhauled and given a look of newness which keeps it at the front place that it has always been.

Dancing was the order of the evening until a late hour. Olsen's orchestra is a much more satisfactory accompaniment to advance than the old orchestra which has been serving the resort for the past seasons. The ball game in the afternoon between the Macabees and the Eagles was intensely amusing except that the Eagles ran the Macs nearly to death by hitting them up to a score of 5 to 0 for the former.

## CALDER'S IS THRONED.

Manager Peters, of Calder's park, was taken all day yesterday and far into the night that he never had time to do anything but smile. He went down to that beautiful spot about three months ago and set to work transforming it into a thorough up-to-date resort calculated to attract the pleasure seeking citizen and all lovers of recreation. The resort is most pleasing. The high board fence has been taken down and a picket fence put up in its place. The walks have been covered with sand. All the walks have been covered with a fresh coat of paint, and a handsome swan boat for small excursion parties plys on the little sylvan lake. The vaudeville theater was one of the attractions last evening and the artists played to a crowded house all the time. There is a dancing hall, steel swings, bowling alley and many other things to beguile the heavy hours from dull inertia.

There must have been over 7,000 people down there yesterday and last evening, and they all seemed to be able to find something to do. Manager Peters is to be commended for the manner in which he is conducting the place, and a most successful season seems to be already warranted.

## No Loss of Time.

I have told Chamberlain's Colic, Cholera and Diarrhoea Remedy for years, and would rather be of coffee and sugar than tea. I sold five bottles of it yesterday to thrashers that could go no farther, and they are at work again this morning. H. R. Phelps, Plymouth, Oklahoma, As will be seen by the above the thrashers were able to keep on with their work without losing a single day's time. You should keep a bottle of this Remedy in your home.

## The Kidneys and the Skin.

In the spring, the kidneys have much to do. If they are weak or torpid, they will not do it well, and the skin will be pimply or blotchy. That is telling the story in a few words.

Hood's Sarsaparilla strengthens and stimulates the kidneys, cures and prevents pimples, blotches and all cutaneous eruptions.

Don't fail to take it.

# FREIGHT RATES TO BE UPHELD.

This New Order Goes Into Effect Tomorrow Morning.

## EASTERN ROADS TO BLAME.

Transgressions Regarding the Tariffs Laid at Doors of Water Lines—City of Wool in Idaho.

Effective tomorrow all the rates to points east of the Mississippi river will be restored. This applies more especially to wool. It has been an open secret that rates have been somewhat demoralized for some time, with indications that they were going from bad to worse. This condition was not brought about by the action of any of the western roads, for they have all stood together on tariffs during the late unpleasantness. Where there has been any rate cutting it has been on the part of the eastern roads and the water lines.

Not all this will be changed—until someone breaks out once more. One thing is certain, however, that at a meeting of the Central Freight association held in Chicago last week it was decided that an effort should be made to keep up the tariff. All the eastern roads have mailed to their representatives instructions, to that effect, accordingly the protocol will be signed tomorrow once more.

In the meantime there is a lively scramble going on in Idaho for the shipments of wool east. Last week there were nine eastern wool buyers from Boston, St. Louis and Philadelphia in Boise bidding on the wool in that section of the country. A number of sales were transacted, and the army of railroad agents that had assembled to scramble for the shipments had a glorious time. From all accounts C. A. Walker of the Chicago & North-western succeeded in capturing a good percentage of the cargo.

This train will be run as a passenger (train daily; heretofore the train to Ogden has not run on Sunday beyond Milford. The changes in the time of arrival will be that the Limited Fast Mail will reach Salt Lake at 3:40 p. m. instead of 3:30; the Cache Valley Express at 5:55 p. m. instead of 5:45; and the Butte and Postland Express will arrive at 8:30 p. m., or fifteen minutes later than the present time.

## OWEN, WYOMING.

RAID MADE BY MOBBERS.

Shocking Crime Averted by Tarring and Feathering the Culprit.

Owen, Wyoming, May 29.—The weather of the past week has been very unfavorable to growing crops; cold winds from the east with light frosts, but no damage reported. The waters in Black's and Smith's Forks are higher than in 1900. But the sudden change in the weather has caused the streams to lower considerably.

There was quite a sensation caused by the tarring and feathering of an old man by the name of South, by a party of masked men last Sunday night. He was aroused from his slumbers about 10 o'clock by a knock at his door. He came to the door and was seized, taken to a vacant house and terribly whipped, and given a coat of tar and feathers. He has left and reports came that he has taken up his abode at the hospital in Rock Springs. If he ever returns he will undoubtedly receive a worse fate. The crime for which he received this punishment was the outraging a 14-year-old daughter of a respectable family of this neighborhood. He is about 60 years of age, and has been a contractor on the railroad, and has lived here in the country for some time. He is indebted to quite a number for work on contracts he had taken.

He was accompanied by Mr. Louis Saroni, manager of the factory at San Francisco. They have been traveling for some time through the west, and report a very profitable business everywhere, especially in the southwest where there has been a large influx of new settlers recently. They are very enthusiastic over the expected new road to the coast and predict a great future for this city if the railroad project is realized. They gentlemen are earnest in their praise of Salt Lake and state that it is their purpose to extend their operations in our State.

The Pacific Coast Biscuit Co. is a manufacturing company, having factories at Spokane, Seattle, Tacoma, Portland, Sacramento and Los Angeles, with headquarters at Portland and San Francisco. Y., says: "I have been afflicted with rheumatism for some time and it has caused me much suffering. I concluded to try Chamberlain's Pain Balm and am pleased to say that it has cured me."
