Elder Charles W. Penrose of the quorum of Apostles, expressed satisfaction n the unity manifest in the sustaining of the Church authorities, and spoke at length on the principle of unity in the Church, that there may be strength. The speaker read from the sixty-eighth section of the Doctrine and Covenants, relating to the same subject. The speaker directed attention to the auhority given by God to His servants in earth to administer in His ordinances, and to teach the plan of life and salvation. Said he, "When God's sersalvation, ants speak by the gift of the Holy thost, the words spoken are as scrip-ture to the Saints. While everybody is entitled to the Spirit of God, some are called to certain positions, for special purposes, and to such are given the spirit of inspiration to direct them a their calling, that they may conduct the Church according to God's plans. It is not true as many would have the world to believe, that the Latter-day Saints are endeavoring to establish an independent government in this part of our nation, we are only endeavoring to establish the Church of Christ in to establish the Church of Christ in the earth; we are teaching truth to the world, and truth is, as God, eternal, un-changeable. Holy men of God have spoken and written as they were in-spired by the Holy Ghost, as the ser-vants of God teach the Saints in the ways they should walk today." The speaker urged upon the Saints the im-portance of honoring the Priesthood of Good and His servants who bear the Good and His servants who hear the same, especially those called to high and responsible positions, that the spirit of unity and the love of God may

RESCUE MISSION WORK

The officers of the local Salvation Army are perfecting arrangements to open a shelter where they will be able to furnish lodgings and beds for those In need at a much cheaper rate than they now have to pay. They propose to rent a building and have in connec-tion therewith a wood yard or some other industry that will furnish work and those who apply for a bed will have to earn it. At present, the army, furnishes beds to quite a number, but they have to procure the money and take the applicants to some of the lodging houses. Under this method, the army has no means of getting the money back in labor. An officer of the army will be placed in charge and will be at the shelter all the time to be meaned to mean the shelter all

He ex-pressed pleasure in being able to give a favorable report of the Brigham Young University. The attendance-was larger than ever before, and an increase in the faculty, additional buildings and new equipments enabled the school to do better work than in the past. He spoke of the foundational work of the school, which was shown by the fact that graduates of the high by the fact that graduates of the high school department were able to go east and enter upon professional studies in colleges there. He had been greatly pleased with the report received from the professors of eastern institutions of learning, which he had recently vis-ited, to the effect that the Utah stu-dents were growing mer with whom dents were genuine men, with whom they had no difficulty, and his visit to educational institutions in the east had made him prouder than ever of the Church schools. After referring to the various studies in the university the various studies in the university intellectual and industrial, he spoke of the great blessing of the spirit of the Gospel, which pervaded the school, and which he and all Latter-day Saints esteemed more highly than any

JESSE KNIGHT TALKS.

Tells of His Transfer of Property to Senator Smoot.

(Special to the "News.")

Provo, Jan. 23.—The "News" repre-sentative called on Jesse Kalght and asked whether he cared to make any statement in regard to an article which appeared in a Salt Lake paper, with the head of "Probing Deals in Gilsonin which it is intimated that there might be something questionable in the transfer of certain glisonite claims from Mr. Knight to Senator Smoot. Mr Knight made the following statement saying that he thought he ought to do to in justice to Senator Smoot and himielf: "So far as any deal between Senato

"So far as any deal between Senator Smoot and myself is concerned, the facts are these: I deeded Senator Smoot three claims and a one-half in-terest in a fourth claim, the under-standing being that he would do the assessment work and take chances on getting a title, as I had been doing the assessment work for a number of years, and neither of us knew whether we would get title from the government at the time the deal was made, which was the time the deal was made, which was in January, 1982. I received the first payment on the property, which had been sold by Senator Smoot, in Novem-ber, 1962, and my last payment April 0, 1903, the two payments amounting to All of this business between Senator

All of this business between Senator Smoot and myself, so far as it relates to the transfer of the property to him, was before he had announced himself as a candidate for the senate, so far as I know. This business was all done before the law was passed in 1902. "From the time of the first payment, in November, 1002, to the last payment, in April, 1903, the purchaser, it seems to me, had time enough to look into the conditions, before and after the law was passed.

"When the property was turned over to Senator Smoot it was with the un-derstanding that he had the right to sell it at any time and at such a price as he might decide to accept, as I expected to be in Canada the greater part of my time and would not have an opof my time and would not have an op-portunity to look after the business. Senator Smool and I have been fre-quently associated in business deals, and before this transfer of the claims to him I had tried to get J. L. McHat-ton of Meeker, Colo, and C. E. Loose of the discussion difference in the ton of Mesker, Colo, and C. E. Loose of this city interested with me in the development of the claims in question, all of these being men of means and men who take chances in mining busi-ness, and that was the sole reason the matter was presented to Senator Smoo or either of them."
