received. The House bill for the relief of the sufferers by the overflow of the Mississippi was passed.

Among the bills introduced and reported in the House of Representatives, were two by Poland, one to secure the recognition of Cuba; the other is relation to the courts of Utab, which provides for the U.S. judges, marshal and attorney discharging the duties pertaining to all the courts, thus dispensing with the duplication of such officers by the Utah legislature, and consequently depriving the probate court of civil and criminal jurisdiction heretofore exercised. The bill also changes the mode of selecting jurors, the authority to do so being vested in the U. S. judge, clerk of the court and the marshal.

A telegram of yesterday's date. from Little Rock, says that a collision occurred between the partizans of the contending governors, during which two hundred shots were fired, and several parties severely injured. The U. S. forces stopped the fighting and restored order.

A broker named Julius P. Mason cut his throat in Boston yesterday.

Captain Thomas, of the steamer Greece, which recently rescued the crew and passengers of the French steamer Europe, has commenced an action for libel against Mr. Lemaire, captain of the French steamer.

The Army and Navy Club, at New York, gave a reception, last

By our dispatches to-day it will be seen that a new trial has been denied on all the points raised by Dr. Kenealy, the Claimant's counsel, so that unless new points of objection for appeal are raised, the over generous can retain the subscriptions called for, as money cannot get persons out of prison in that country.
