> own. The Pennsylvania railroad is about to begin an experiment with ties of Mora wood imported from British Guiana. The timber is exceedingly hard and it is claimed for ties made of this ma-terial that they will last fifty years. The cost of these ties is said to be \$1. and the delivering price about \$1.50. In order to diminish the number of accidents on French railways caused by the excessive hours worked by the employes, M. Baudin, minister of pub-

inc works, has issued a decree forbid-ding those responsible for the traffic on the railway systems of France to work men more than 12 hours out of the twenty-four.

It has for a long while been a favorite way of influencing the ticket busi-ness by some roads, to give passes to ticket agents in order to secure busi-ness. It now appears that this prac-tice is to be ended, as under the agreement between the executive officers of the western roads, agents are to be prohibited from asking for transportation for themselves or members of their families over roads other than on which they are employed .- Review.

To effect a cure of this disease it is considered necesary to have a change of climate, and there is much travel among children so affected. As the disease is conta-gious the public feel that such cases should be isolated by the use of separate coaches.

The Alamogordo Lumber company affiliated with the El Paso & Northeastern railway, is putting in a retort plant for treating ties and tim-ber by the Wellhouse process, says the El Paso Herald. This company has a large quantity of mountain pine and spruce timber in sight in the Sacra-mento mountains, in New Mexico.
