Over Twelve Million Feet of Lumber In the Salt Lake and Wasatch Districts.

A report on the Salt Lake and Was atch forest reserves has been submitted to the department at Washington, by Supervisor E. H. Carike, The document contains suggestions for next year's grazing, part of which have already been adopted. Following is the report:

"The condition of the range for the past season has been exceptionally good; in fact, better than for the last 15 years. The snow and rainfail has been heavy, while the range has not been heavy, while the range has not nearly all neen taken up and a heavy porce crop has been produced. All stock is fed on the farms during the winter, and the greater portion were in good condition when they entered the forest. All classes came off this fall beef fat.

"I believe that many farmers with have stock next year who have not been on the forest this year. No trou-ble whatever has been experienced with polsons or precatory animals, and there have been no losses of stock. "As the allotment on this forest ex-

"As the allotment on this forest ex-ceeded the applications by over 600 head, no cut was necessary and all ap-plications were approved. As the range is in spiendid condition I do not think any cut should be made. I therefore recommend that 1,500 head of cattle and horses be allowed to graze on the lowest every divided as follows: forest next year, divided as follows: District No. 1, Mill Creek can-yon, São head; district No. 2, Little Cottonwood canyon, 650 head.

"The stock should be allowed to en-ter the forest on May 1 and removed Oct. 31, which is an extension of 15 Oct. 31. which is an extension of 15 days in time over last season; bub, as so much feed is left on the range, no harm will be done by extending the time 15 days. I also recommend that the price charged be 25 cents per head for cattle, 55 cents per head for horses for summer season, and 40 cents per head for cattle and 50 cents per head for horses for the year-long privi-lege."

The grazing report for the year 1907 for the Wasatch national forest and recommendations for the year 1905 are; "The range conditions this fall are

much better than they were last fall, and I do not know of any reason why the allotment should be cut to any great extent,

great extent. "The date ollowed for entering the stock this year was about right, as the feed had a good start before the stock ontered. The stock when entering the forest this spring were in yeary poor shape, but, the sheep were in fairly good condition. All classes of stock left the forest on Oct. 31 in better shape than they have been for many years, according to the sheepmen's and cattlemen's statements. attlemen's statements.

cattlemen's statements. "There has been very little stock or sheep sold during the last summer, as the sclockmen are small farmers as a rule and keep their steers well into the winter to fatten them up, when they sell to the local markets. Sufficient sheep, however, have been sold to about conalize the natural increase. The sheep nowever, have been sold to about equalize the natural increase. The sheep topped the market at Kansas City and Chicago, the lambs weighing as high as 75 pounds per head and net-ting the owners about \$5. Very little trouble has been experienced with redatory animals and none with pol-"The only livestock association or-ganized during the past season is the Alpine Grazing association, which is proving very satisfactory to the people and a great help to me, and I believe that I will be able this wither to or-ganize a grazing association for each day, ganize a grazing association for each settlement interested, "The total allotments recommended for the whole forest are: Cattle and horses, 4.250, or 250 less than hast year: sheep, 16.900 head, or 7.100 head less than last year.

MRS. SIMPSON GONE.

Thanksgiving Day Still Missing. Thanksgiving day, the story goes, Mrs. John Simpson of Kamas, spoke to her daughter, who was married that day, "When you are married and leave home I will go too, and it will do no good to look for me." If this statement was made it was most

Kamas Woman, Who Left Home

this statement was made it was most true because Mrs. Simpson disappear-ed shortly after midnight that day and aithough 159 men, sometimes more, have hunted high and low ever since no trace of the woman has been found. Every garret, cellar, barn and positole place of concealment has been searched and the country for miles around cov-ered over and over again. It may be that Mrs. Simpson made her way into the hills or reached the Provo river. It the hills or reached the Provo river. It is thought she was insane and little hope is now held that she will be found alive.

The "pure food law" is designed by the Government to protect the public from injurious ingredients in both foods and drugs. It is ben-eficial both to the public and to the conscientious manufac-turer. Ely's Cream Balm, a suc-cessful remedy for cold in the head.na-sal catarrh, hay fever, etc., containing no injurious drugs, meets fully the re-quirements of the new law, and that fact is prominently stated on every package. It contains none of the in-jurious drugs which are required by package. It contains none of the in-jurious drugs which are required by the law to be mentioned of the label. Hence you can use it safely.

Hives, eczema, itch or salt rheun sets you crazy. Can't bear the touch of your clothing. Doan's Ointment cures the most obstinate cases. Why suffer. All druggists sell it.

SOMETHING OF A POTATO.

Mammoth Sweet Tuber Weighing 20 Pounds Grown in Arizona.

R. R. Stroud yesterday brought to the board of trade a sweet potato that is entitled to recognition in the exhibition class, says the Arizona Republican. It was grown on the ranch of B. A. Fowler near Glendale, and weighs a little over 29 pounds, not counting a little over 29 pounds, not counting a couple of pounds on one corner that the gophers ate off it while it was yet in the ground. The tuber is 12 inches in diameter east and west, that is, through it on a plane with the ground or table on which it rests and 8½ inches north and south, or from pole to pole, being rather turnly shaped. Mr. Stroud ap-proached Mr. Fowler last spring and asked him if he had any objection to his putting in about a hiaf acre of vegetables on some of his unplanted land. Mr. Fowler told him he might put in a quarter section of them if he

put in a quarter section of them if he wanted to, and would take chances on the Arizona canal. Now he is sorry that he didn't, for he says he expects that he didn't, for he says he expects to make his year's expenses on that half acre, or at least a long way to-ward it. He just began to dig his sweet potatoes yesterday and hard-ly got a good start when he encountered this one, and backed off, thinking it was a formation of the country rock. Next it looked like it was a barren horse

***** EARLY CHRISTMAS SHOPPING.

In the effort to have something of the severe strain on women derks and the boys engaged in the delivery service, an official of the Associated Charities in New York has sent out some useful rules about Christmas shop-ping. Plain humanity is worth practising at holiday time: "First-Do as much of your holiday shopping as possible be-fore Dec. 1.

fore Dec. 1. "Second-Finish it before Christmas week. "Third-Go to the stores as early in the day as possible. "Fourth-Avoid buying during luncheon hours, and thus short-ming this rest time for the clerks. clerks

'Fifth-Carry home whatever "Fifth-Carry home whatever parcels you conveniently can. "Slath-Aliow a day, at least, for the delivery of parcels." The very tired girls who walt behind the counters of our big stores are not fond of Christmas time. Its tax on their strength might be mitigated by the mea and women who crowd the stores.

Those who come early to buy, their Christmas books at the Deseret News book store will get first choice of the rarest assortment ever brought to Salt Lake, they will, too, see the stock be-fore it is "picked over," and can get the attention of clerks now who will later be too rushed to answer questions. Do your Christmas shopping early.

HOLIDAY BOOKS.

There is, perhaps, no casier solution of the question of what to choose for the holiday giving than to decide upon BOOKS.

Books offer a fitting variety of subjects and range of cost not always available in other lines.

Our Immense stock contains a selection of choicely made books which cover a diversity of tastes and requirements for old and young.

Prof. Howard R. Driggs of the State University, an authority on Books will assist our large corps of clerks in serving you in the Book Department during the Holl. day Season.

If you own any valuables worth keep-ing it is the height of folly to keep them in your office desk or at your homes, when the cost of keeping them absolutely safe from fire or thieves is only \$3.50 yearly. You cannot fail to have been impressed with the recent depredations committed here, but it would create a much stronger im-pression upon you if you happened to be a direct aufferer. The cost is leas than a cent a day-if your valuables aren't worth that you probably won't need one of these safety deposit baxes. Sait Lake Security & Trust Company. 22-04 Main Street. apinal meningilia, after ab ilineas of just one work. The body was brought to this city Friday evening. Hey, E. I. Gosthen preached the fa-neral scrimon, and as he knew "Hoy" on account of making numerous trips to Park City, spoke with great feeding. The services at the home were short and simple, and were followed by sim-pler services at the prave-side. The patheerers were all former playmates of "Hay." Enomet Shields, Frank Hurl-burt. Morris Davis and Mike Oliner. The floral offerings came from Fark ity, Ogden, and residents of this city, and also from various organizations with which sither the Itile chap or his parents have been identified. The Ma-trons' Circle of the O. E. S. Womens Athenseum, Freshman class, P. C. high school and seventh grade, were smong

ropping up in the general formation and closer inspection showed him it was blowout in the paystreak and carried 100 per cent sweet potato. He imme-diately knocked off work and brought it to town. He had potate enough for

. FRANCHISE TO HARRIMAN.

Head of Utah Light & Railway Company Considering Grant

E. H. Harriman, owner of the Salt Lake street car lines and electrical energy plants, has in hand the franch's recently granted by the city council to the Utah Light & Railway company. It has passed from the minus of the com-lany's attorneys in this city, and it is understood that the instrument has been forwarded to the head of the Har-riman system with the approved of the been forwarded to the head of the Har-riman system with the approval of his local officers. It is expected that the framehise will be returned to this city by Christmas and that it will soon thereafter be accepted by President W. H. Bancroft. From other quarters it is learned that the local officers of the Harriman system are not satisfied with the fran-chise and have relaxed to make recom-mendations regarding it, merely pass-ing it up to their chief for his consid-eration. From this same source if is

eration. From this same source if is intimated that Harriman will have nothing to do with the instrument in its present shape, but that the same action will be taken in this matter as in the one recently rejected.

A SAD BEREAVEMENT.

Little Marian Buchholz Dies from Quinsy.

Death entered the home of Mr. and Mrs. Will Buchholz on Saturday morning. Dec. 14, taking their lovely little daughter Marian, and leaving a stricken household whose grief seems incon-soluble. The little one was the grand-daughter of the late Septimus W. Sears and his wife Bal. A hitney Sears, at whose residence, 4. Eighth East streef.

whose residence, 4. Eighth East street, the sad event occurred, and where the funeral services will take place tomor-row, Tuesday, at 10 a, m. Quiney was the raise of the doath. Little Marian was an uncommonly bright and affectionate child, and by her sunny disposition and winning ways had endeated herself to all who came to know her. She was precoclous in a 1 igh degree, being especially giftn a ligh degree, being especially gift-d in music. Naturally she was fairly doigad in the household, and in her one they become the recipients of the tender sympathy of a wide circle of friends. The bereaved father was ab-sent in Bingham when the dread summons came, and except for a visiting sister, his relatives are all in the east, as is also the case with some of the

mother's family. May beaven's peace enter the hearts and home of the sor-rowing ones and enable them to bear with fortitude their great loss,
