

THE EVENING NEWS.

GEORGE Q. CANNON,
EDITOR AND PUBLISHER.

Monday, June 13, 1870.

TAKING THE CENSUS.

The time set for commencing the work of taking the census—the 1st instant, having now passed, the officers appointed to perform this work may be looked for any time by the citizens in every part of the territory; and as a fine has been imposed for refusing to answer the questions contained in the various schedules, or for rendering false returns, we propose to post our readers regarding the principal items of information which they will be required to give.

The census takers are the employees of the U. S. Marshals. They will visit every dwelling house, manufactory and public institution, and will require the name of every occupant of such residence, and, on the first of June, 1870. In addition to the names, the age at last birthday, and sex and color will be required, male being indicated by M., female by F.; color, white and black, by the letters W. and B.; for mulatto, C. for Chinese, I for Indian. The profession, trade or occupation of all persons, male or female, must also be stated, and the amount of real estate and personal property they possess. On this point the people are requested to state, not the value as fixed by the assessors of taxes, but, the cash market value as near as it can be ascertained.

The query next in order relates to the nationality of every resident. If natives of the United States, the State or Territory must be given; if of foreign birth the name of the country must be given. The nationality of parents will also be required, and if one be native and the other foreign both the fact must be stated. Under the head of "Constitutional Relations," which includes questions nineteen and twenty, will be required information as to the number of male citizens in the United States, of twenty-one years of age and upwards, whose right to vote is denied or abridged on other grounds than rebellion or crime. The foregoing questions are the principal ones included under schedule No. 1.

Schedule No. 2 is devoted to inquiries as to how many persons, if any, have died in the year ending June 1st, 1870. As in the preceding schedule the number of persons in each family is given, and then the name of any and every person who has died within the year, whose place of abode, at the time of death, was in the family inquired of. In addition to the name and number of such persons, their age, sex, color, nationality, trade or profession and also the cause and date of death must be given.

Schedule No. 3 is full of important inquiries pertaining to the rural districts; and it requires first, the name of agent, owner or manager of property, and the number of acres of improved, unimproved or wood land. Then follow inquiries as to the cash value of the estate or farm, and of the implements and machinery belonging thereto. The amount of wages paid to the hands, the value of their board per year must also be stated; and under appropriate sub-heads, the number of head of every kind of stock.

Next in order must be stated the produce of the farm for the year ending June 1st, 70. This includes the number of bushels of spring and winter wheat, of rye, Indian corn, oats, barley and buckwheat, pounds of rice and of tobacco, bales of cotton, estimating 450 pounds to the bale; pounds of wool, bushels of peas and beans, and of Irish and sweet potatoes. In addition the produce of the orchard must be given in dollars, the number of gallons of wine produced, and the amount in dollars of the produce of market gardens. In the matter of dairy products, butter and cheese must be recorded in pounds, and milk sold in gallons. Hay must be given in tons, and seed clover and grass in bushels. Of the other productions of a like nature, hops must be reported in pounds, hemp in tons, flax in pounds, flaxseed in bushels, and silk cocoons in pounds. Sugar comes under a separate sub-head, and must be reported so as to give that manufactured from maple by pounds, and that from cane by hogsheads of one thousand pounds each. Molasses is to be reported by gallons. The products of bees, comprising wax and honey, must be stated in pounds. Forest products, value of home manufactures, value of animals slaughtered or sold for slaughter, it is necessary to report in dollars. After all these inquiries have been answered, the estimated value of all farm production, including betterments and additions to stock, must be given in dollars.

After the inquiries as to agricultural products come those in relation to manufactures, etc., and under this head will be required the name of every individual, company, or corporation producing the amount of \$500 annually; the name of business; the description of power used, whether hand, wind, horse, water or steam; and, in either of the latter, the number of horse power. The name, number and description of all machines used must also be given; also the number of hands, their age and

sex and the amount of wages paid; the amount of fuel and material used, and other minor inquiries.

Schedule five is devoted to social matters, and includes inquiries as to the amount of pauperism,—the number of paupers, native and foreign, and the cost of maintenance; the number of criminals convicted in the year, and in prison on June 1st; the public debts of counties, towns, parishes and boroughs; and all kinds of taxation, except national.

The remaining inquiries relate to the number of libraries of every kind, in cities or townships; the number of newspapers and how often published; the average rate of wages to artisans and laborers, of both sexes, with and without board; and the number and kind of schools, colleges and educational establishments. The last query relates to religion, and under this head will have to be given the number of churches, the denominations to which they belong, the number of communicants, and other particulars of minor importance.

Is just two weeks from the time the devouring flames swallowed the Missouri Republican office, at St. Louis—an establishment that has been reckoned among the largest and best appointed in the United States—that paper was issued in a complete dress of new type, and considerably improved in its mechanical appearance. It cites this as evidence of the extensive character of the business, and the ability, on the shortest notice, of the firms of whom its material has been ordered, to meet any demands upon their several establishments. The *Republican* says that it feels stronger, more vigorous, more determined, and with a surer and better footing than ever before. It views the late burning of its office as a blessing in disguise.

[SPECIAL TO THE DESERET NEWS.]

By Telegraph.

AFTERNOON DISPATCHES.

CONGRESSIONAL.

SENATE.

Bill passed for land grant.

The bill making a land grant to the central branch of the Union Pacific Railroad was discussed during the entire session, and passed, 32 against 13.

HOUSE.

Axtell produced an article from the San Joaquin, Cal., *Republican*, charging corruption on the part of Congress in the matter of the Northern Pacific Railroad franchise, and ironically suggested a committee from the reporters of that paper to investigate the matter and watch the members.

Patrick Woods was brought before the bar for an assault on Congressman Porter; the matter was referred to the judiciary committee for investigation. Woods will remain in the custody of the sergeant-at-arms.

The consideration of the legislative appropriation bill was resumed. The substitute of the committee, putting female employees of the departments on the same footing with males was adopted. The appropriation for a new State department was non-concurred in; also that for the extension of the Capitol grounds, and that for the North Pole expedition.

MISSOURI.

Big fire—A hurricane.

ST. LOUIS.—The car shops of the Kansas Pacific Railroad, at Wyandotte, Kas., totally, were destroyed by fire on Thursday night, with several cars and about fifty thousand feet of lumber; loss fifty thousand dollars, insurance small. The mechanics lost their tools.

A hurricane in St. Charles Co., Mo., on Monday, destroyed the crops, gardens and vineyards to the amount of \$25,000.

WASHINGTON.

Red Cloud's final interview.—Internal Revenue receipts.—New commercial scheme.—Senator Morrill and Delegate Hooper interview Red Cloud.—Nearly a calamity for Cragin—\$20,000 stolen.—Parting advice to Red Cloud.

WASHINGTON.—Red Cloud had a final council with the authorities to-day, and leaves for home on Monday. He says he is not angry, but the Indians are evidently not well pleased with the result of their visit.

The internal revenue receipts for the week amounted to \$5,630,085; for the fiscal year \$170,102,027. The balance in the Treasury \$108,284,421; currency \$20,713,994; coin certificates \$34,671,000. The wife and child of Senator Cragin were rescued from suffocation at St. James' Hotel to-day; the fire was caused by a fire in the basement.

Twenty thousand dollars in the new ten dollar tender series of 1869, from numbers H. 3,531,000 to H. 3,532,000 inclusive, were stolen to-day from the Treasury. Red Cloud again interviewed Secretary Cox to-day. The latter advised him and other Indians to adopt the ways of civilization, and assured him that the Government would protect and care for the Indians who kept the peace. It is stated that the President has organized and is about to inaugurate a commercial policy, which will bring to the United States the vast trade of the Spanish American States, now principally going to Europe. It looks to treaties and intimate relations, which were suggested in the President's annual message.

Senator Morrill and Delegate Hooper, of Utah, interviewed Red Cloud last evening. The latter said there would be no war if the whites waited for the Sioux to commence it. Hooper told the chief that the Mormons never lost a life, an animal or a bale of goods, in crossing the Sioux country until the railroad was built, since which they had lost some property on the train. Red Cloud expressed the opinion that

the Mormons always talked straight and dealt fairly with his people. He leaves to-morrow for New York, where he remains a day or two before proceeding home.

Letters from Denmark state that there is much unfriendly feeling among the people at the failure of the Senate to act in some way on the St. Thomas treaty.

The President has ordered the release of the Cuban privateer *Hornet*, to Macias, the original purchaser, upon giving a bond of \$50,000 that she shall not be used in hostility against Spain. Gen. Butler and Hon. B. Chandler gave the securities required.

NEW YORK.

Respect to Dickens.—Survivors of the "Onesida" paid off.—Quarantine war—Boat Race.

BUFFALO.—The Young Men's Christian Association building is a shed in mourning for Dickens.

NEW YORK, 12.—The surviving sailors of the *Onesida* were paid off yesterday, and discharged; they were generally dissatisfied with the amount they received.

A quarantine war has broken out between New York and Brooklyn. The quarantine authorities permitted some vessels to proceed to the Atlantic docks and the Brooklyn health officers allowed them to proceed to docks further up East River. An attempt to row them off by the quarantine authorities, last evening, were defeated by Brooklyn men, who cut the hawsers, and took the vessel back into dock.

The regatta of the West Point cadets, three miles, was won by a second class boat, in nineteen minutes and fifteen seconds.

MASSACHUSETTS.

Imprisoned and fined.

BOSTON.—Mellen, who was convicted a year ago of heavy embezzlement, has been sentenced for each to two years imprisonment, and \$100,000 fine.

OHIO.

Business at the National Anti-Secret Society Convention.

CINCINNATI.—The National Anti-Secret Society convention, to day adopted the report of the committee, setting forth that secret societies are essentially immoral and anti-Christian, and therefore are injurious to the whole social fabric. They are of heathen origin, especially the Masons, charging that they ignore the Christian religion, pray to unknown gods, naturally deprecate the holy Sabbath in parading the streets at funerals, and send their dead to Heaven, however they may have lived or died. They are insubordinate to and rivals of the church. They are a snare, and fallacious and deceptive, and that membership among them is destroying the discipline of the church in the case of members who persist in clinging to their fellowship. Speeches were made by Dr. Brown, of New York, and others of small influence.

PENNSYLVANIA.

Coopers acting foolishly.

PHILADELPHIA.—The coopers are on strike; several shops have been burned, including the large barrel factory of William B. Thomas. One man has been arrested for arson.

MAINE.

Block nearly destroyed.

LEWISTON.—The Central Block has been nearly destroyed by fire; loss \$60,000 to \$75,000. The principal sufferers are the First National Bank, Cobb & Scranton, P. McGilly, Caddy, Wallfield and W. G. Gareeillon. Partly insured.

FOREIGN NEWS.

TURKEY.

Philanthropy to the Christians.

CONSTANTINOPLE.—The Turkish inhabitants have opened their houses to Christians, and a large amount of money has been subscribed by all classes for the relief of the sufferers.

GREAT BRITAIN.

News from Paraguay.—"All the Year Round"—Election Riots—Funeral of Dickens.—Dickens pions on the 5th instant—Bright improving—Carlisle coming.

LONDON.—Rio Janeiro advices to May 23, state that Parabaus, the Brazilian commissioner, had returned to Assuncion, where he had signed a treaty of peace with Paraguay. The revolutionary movement in Extra Rios and Uruguay continues.

Dickens leaves *All the Year Round* to his son.

The American Consul Fisk, and Boulton, the masqueraders, have been committed for trial.

In the election riots in the Isle of Wight to-day, many persons were injured and houses sacked; the riot was finally suppressed.

The last letter written by Mr. Dickens, dated the 8th, contains expressions of the deepest religious reverence.

It is intimated that the funeral of Dickens will be private.

The health of John Bright is improving. Carlisle visits America.

ITALY.

Revolutions threatened.

FLORENCE.—The *Economista* reports that the correspondence between the Italian and Swiss governments, on the subject of the threatened invasion of Italy by the adherents of Mazzini, has assumed a milder tone.

A dispatch from Vienna states that a descent of the Italian revolutionists, from Austrian territory, is threatened, and that the Austrian government is taking measures against the movement.

SPAIN.

Freedom looming—Espartero's friends increasing.

MADRID.—A proposition for the complete abolition of slavery in the Spanish colonies, and for indemnity to the owners will be brought forward in the Cortes next week.

MADRID.—The Cortes is discussing the abolition of slavery in the colonies.

The Orleansists in the Cortes have joined the friends of Espartero, uniting in favoring his election for king.

CANADA.

Destruction by fire—Troops en route.

MONTREAL.—A fire yesterday destroyed the building occupied by the Canada glass works; loss thirty thousand, partially insured.

COLLINGWOOD.—The last detachment of troops, composing the Northwest expeditionary forces, arrived to-day.

Special Notices.

The best way to repair the loss caused by the grasshoppers.

Buy your Boots, Shoes and Hats, at Lundford & Sons' Mammoth Boot and Shoe Store.

BUILDING ROCK: One to two hundred cords of good Building Rock, for sale.

For particulars apply to J. J. Thayer, 1st Ward.

"A Word to the Wise is Sufficient."

A prudent housekeeper purchases the best and cheapest article for the kitchen that can be obtained. DOOLEY'S BAKING POWDER is the purest, best, and cheapest Baking Powder known. One pound will go further in the culinary department than any other in market, and is guaranteed to produce more satisfactory results, as the ingredients are harmless, healthy and nutritious. It is for sale by all good Grocers.

BURNETT'S EXTRACT LEMON AND VANILLA are as fresh as the fruits. Housekeepers would do well to test their superiority.

BURNETT'S KALLISTON will impart a clean soft and beautiful hue to the skin.

A PROVERBIAL SAYING: "No hair dressing in the world equals Burnett's Cocoa."

BURNETT'S FLORIMEL is fully established as a perfume of high order.—Chicago Tribune.

WHITCOMB'S ASTHMA REMEDY.—In no case of purely Asthmatic character has it failed to give prompt relief.
