DESERET EVENING NEWS SATURDAY JULY 20 1907

(Special to the "News.") Eureka, July 20.—David Evans of Los Angeles has bought from R. G. Wilson, B. Christensen and others, the Plutus and other adjoining claims. This ground is situated to the southeast of Eureka between the Tetro and Victoria mines. There are three claims in the group and the consideration for which the ground changed hands is reported to have been \$45,000. It is believed that the purchase if this ground by Mr. Evans is the preliminary step toward the formation of another big company, and that other valuable ground in the same neighborhood will be taken over by the same parties. It is learned from good authority that

OFFICIAL CONCLUSION LIVESTOCK. AS TO GEORGIA EXPLOSION CHICAGO.

Washington, July 19 .- A telegram received at the navy department this af. ternoon from Admiral Thomas, commanding the second division of the Atlantic fleet, gives the conclusions of the board of investigation which inves. tigated the cause of the accident upon the battleship Georgia early in the week, by which 10 men lost their week, by which 10 men lost their lives. The board finds that the charge of powder was ignited by a delayed flare-back which was apparently caus. ed by the shutting off of the air blast too soon with a light wind blowing in-to the muzzle of the gun. The first section of the charge in the second loader's arms was first ignited. The conclusions of the board are sum-marized under five different para-graphs as follows: (a) The charge was not ignited by a

graphs as follows:
(a) The charge was not ignited by a blown electrical fuse or a short circuit, nor by an electric spark from any electrical device in the turret.
(b) The charge was not ignited by a a percussional or frictional spark.
(c) The charge was not ignited by a spark or cinder failing into the turret from the outside.
(d) The charge was not ignited as a result of any condition due to deterior, ation of the powder.
Parapragh E states that the cause of the explosion was a "delayed flareback."
A full report by mail is expected by

SUIT AGAINST NEW HAVEN.

by the same parties. It is learned from good authority that R. G. Wilson of Los Angeles has secur-ed control of the Maple Mining com-pany, which owns a claim just c.st of the Beck Tunnel ground. The Maple company did quite a lot of work upon the claim several years ago, when it was directed by M. Kopp of Sait Lake. Mr. Kopp died a few years ago and the stock fell to his heirs and other parties, from whom it is stated that Mr. Wilson has secured control, and it is thought that the company will be re-organized and development work bagan agai, asthe ground is considered to be very valuable.

AT LOWER MAMMOTH.

New Electric Hoist Has Arrived and Will Be Installed.

It was learned today from President John Dern of the Lower Mammoth Mining company that the big electric hoist ordered some time ago to be installed over the main shaft has ar-rived in camp. It will soon be in place —by the end of next week at the latest —when sinking below the 1,700 will be undertaken. undertaken.

VISITING ALTA MINES.

Wisconsin Capitalists See Con. Flagstaff and Emma Copper.

A party of Wisconsin mining men who are interested in the Consolidated Flagstaff and Emma Copper mines at Alta have arrived from the east and are now making an inspection of those mines.

The party includes G. J. Corscot, F. W. Wootten, J. A. Swenson, Halle Stensland and A. W. Diddle, of Mad-ison, Wis: T. J. Tringle and wife and Mrs. L. J. Bennett, of Milwaukee; D. W. Harper and Lewis G. Gorton, of Detroit. Dr. W. P. Harlow, of Boulder, Colo., a director of the Flagstaff com-pany, is already on the ground, having been taken to the property Thursday by Assistant Manager W. M. Wantland.

SAW COPPER PRINCE.

J. W. Snell and Other Officials Pleased With Existing Conditions.

With Existing Conditions. President J. W. Snell and other of-ficials of the Copper Prince Mining company have returned from a visit to the property of that corporation and report that recent developments have disclosed the presence of molybdenite ore, in addition to a favorable show-ing of copper, gold, silver, lead and li-on. A tunnel, now in 45 feet, shows most encouraging conditions. The property of the Copper Prince com-pany is situated about five miles south and west of Newfourdland station on the Great Salt Lake cut-off of the Southern Pacific.

ing of the shaft is being pushed. It will probably be completed by the last of naxt week. A few weeks ago the directors of the McKinley Mining company decided that new machinery was necessary for the proper development of the ground, but a proposition for consolidation with adjoining ground is now under consid-eration and until this matter has been disposed of the purchase of new ma-chinery has been deferred. The county commissioners have de-cided to make no effort to collect taxes on the net proceeds of ore taken from the Tintic mines by the leasers the past year. This is in accordance with instructions from the attorney general and County Atty. Foote. The commis-sioners will, however, notify the mines where leasing is carried on that in the future the mines must give an account of the ore extracted by the leasers and pay a net proceed on all the ore they ship. It is believed that this plan will prove most satisfactory to both the mining companies and the leasers. SAN FRANCISCO MARKET

TINTIC'S PRESENT CENTER OF ATTRACTION.

INTIC'S PRESENT CENTER OF ATTRACTION. The accompanying map, furnished by courtesy of the Selt Lake Mining Review, gives a very good idea of the lay of that portion of the castern part of the Tintic mining district which is attracting so much attention at the present time. While the drawing is not exactly according to scale, it never-theless serves the purpose of showing how a number of good mining proper-ties are sandwiched in about Jesse Knight's big bonanza-the Colorado. That piece of mining property indicated by the word "Sloux" is the Phoe-be S, claim of the Sloux Consolidated Mining company, of which Senator Reed Smoot is president, and who, with the other officers of that organization, insists, contains an extension of the Colorado vela. Work is being cen-tered on this portion of the Sloux Consolidated's domains, where a shaft is being sunk and in which desired results are anticipated within a very few Weeks' time. The territory controlled by the With Sloux Consolidated Mining & Milling company is located directly to the west of the Sloux Consolidated, but is not indicated on the map. Neither is that of the East Crown Point or other recently organized companies in the opposite direction.
