Wolsey, of the Sixth Ward. The family were awaked. He had obeyed the law of the ened by the sound of footsteps at the gospel in its fulness and he felt it was back of the house, and a noise as of someone moving a window sash. After listening a few moments a light was procured and two men decamped in haste. On examination, it was found all right with him. We had no cause to mourn on account of his departure. He was one of ithose who had been ostracised in this life, because he had mbraced the gospel in its fulness, but that part of the boxing of the window he would now join the higher circles frame had been torn off, allowing the in the other world.
