

WHAT "MORMONISM" HAS ACCOMPLISHED

Elder William H. King Defines it as one of the Most Comprehensive of Religious Systems.

TRIBUTE TO THE PIONEERS

No Quarrel With Its Neighbors But Seeks to Emancipate and Make Men Free.

Those who were present at the Tabernacle yesterday afternoon heard an excellent discourse from Elder William H. King. The speaker paid eloquent tribute to the "Mormon" pioneers, and pointed to their achievements as a direct result of their faith in God and in the work established in the latter days. He defined "Mormonism" as the broadest, most comprehensive religious system upon earth, and said that its mission was to save souls and bring mankind to a knowledge of the truth. The choir sang the hymn: "Great God attend while Zion sings, the joy that from Thy presence springs."

Prayer was offered by Elder David A. Smith. The choir then sang: "Author of faith, Eternal Word, whose spirit breathes the active flame."

Elder William H. King was the speaker. He began by expressing deep appreciation for the position, realizing that he did not hold the position of teacher, but he was thoroughly conversant in his subject, and his daily life and conversation in strict accord with the teachings expressed. The speaker said that the "Mormon" pioneers, who were persecuted and despised, were the true "Mormons" of the world. He said that the "Mormon" religion was a religion of peace, and that it was a religion that was founded by a man who was a true prophet of God. He said that the "Mormon" religion was a religion that was founded by a man who was a true prophet of God. He said that the "Mormon" religion was a religion that was founded by a man who was a true prophet of God.

King said that after all a religion that makes for the spiritual development of men, makes for their material development and tends to the cultivation of the artistic, aesthetic and intellectual qualities within them. In the settlement of these valleys it had been necessary to impart instructions along material lines, to discuss questions pertaining to the reclamation of the desert and to assist the people to solve the great industrial questions before them. But it did not advocate, encourage or lead to tyranny, as had been charged, but rather sought to make men free by making them independent of their fellows. "Mormonism" sought to make men better and to emancipate them from the harassing conditions of this world. "From Atonement" and the benediction was pronounced by Elder Arnold H. Schulthess.

TWENTY YEARS AGO TODAY.

(DO YOU REMEMBER?)

At West Fork, Iowa, James Johnson shot and killed his brother, John, while the latter's wife stood by acquiescing in the crime.

The house and barn of Peter Hengen were burned at Lincoln, Neb. In the ruins of the house were found the remains of Mrs. Hengen and her daughter, and a brother of Mr. Hengen was burned in the barn, where it is supposed he suicided, after killing the two women.

TEN YEARS AGO TODAY.

Maurice Perkins, a well known newspaper man of Indianapolis, Ind., jumped from the upper story of the city hospital and was killed.

A negro was tarred and feathered at Greeley, Colo., for having insulted Gov. McIntyre at the Potato day celebration.

A steamboat exploded near Kin Chow, China, killing 600 soldiers who were on board.

FIVE YEARS AGO TODAY.

William Moyle and William Savage were killed at the Quincy mine in Park City, while searching for a "missed hole."

Marching strikers were forced back at the point of bayonets, at Lansford, Pennsylvania.

Word was received at Washington that Chang Yen Hoon, former Chinese minister to the United States, had been executed, because of his liberality.

A rubber cement factory exploded at Detroit, Mich., killing two men and injuring many.

King said that after all a religion that makes for the spiritual development of men, makes for their material development and tends to the cultivation of the artistic, aesthetic and intellectual qualities within them. In the settlement of these valleys it had been necessary to impart instructions along material lines, to discuss questions pertaining to the reclamation of the desert and to assist the people to solve the great industrial questions before them. But it did not advocate, encourage or lead to tyranny, as had been charged, but rather sought to make men free by making them independent of their fellows. "Mormonism" sought to make men better and to emancipate them from the harassing conditions of this world. "From Atonement" and the benediction was pronounced by Elder Arnold H. Schulthess.

REV. EDDY'S SERMON.

Takes Text From John on Mutual Brotherhood.

Rev. Frank Eddy of the Unitarian church preached yesterday morning, from John xiii: 15. "For I have given you an example, that ye should do as I have done to you." "Like most great thought this is an extremely simple one. And fortunately it is an idea about over which practice is just helping and serving the one next to it. It is the mutual service of husband and wife, of parent and child, of brother and sister and friend with friend. On this is based all that is worth preserving in civilization, in home, in church, in the field or street, or in the school. Its motive is love; therefore the assumption is that of brotherhood.

"The true thought of service as exemplified in Jesus places in the foreground the joy in serving another's need, of increasing another's happiness, of bearing another's burden. And wages, the practical gain to ourselves involved in all this, are subordinate and secondary. If we place the wage thought first all the joy disappears and all the glory fades out of an act of service.

SCIENCE AND RELIGION.

Dr. Goshen Declares They Agree, for God Never Wars With Himself.

Rev. E. I. Goshen of the First Congregational church was the speaker at yesterday afternoon's meeting in the Y. M. C. A. where he spoke on Darwinism vs the theology of the Bible. The speaker said in part:

"Some of the greatest theories ever advanced passed through ages of incredulity and the theory of evolution was assailed unmercifully when it was brought out by Darwin. But as truth inevitably overcomes all opposition and eventually stands alone, so this question has become reconciled with even modern ideas of religion.

"There is no conflict between science and religion, for the reason that God never wars with Himself. The power and wisdom of the Creator never appears brighter and more divine than when brought to light through man's scientific efforts, as God is the prime mover in and through everything. The old book does not claim to be a treatise on science or theology, it recounts the deings and sayings of an ancient people.

"Darwin's theory does not mean atheism or agnosticism. The sciences of geology and mineralogy teach us that the world did not simply happen, nor that it was just slung together, but throughout millions of years there have been formations and additions until the earth has become habitable for man and plant. Plant and animal species are improved through the process of natural selection and preserved by the law of the survival of the fittest. The strongest or more perfect plant or animal will not only survive and prosper to the exclusion of the weaker, adjusting power of the environment, but the smallest primary atom of improvement or change necessary is transmitted through years of generation and growth until perfection is attained.

"So life on this earth, springing from

REOPENING OF THE LONGFELLOW

School Opened This Morning With Building Remodeled and in Good Condition.

MRS. FRITZ IS PRINCIPAL.

Will Receive Pupils From the First to the Fourth Grades in the Upper District.

The Longfellow school, which was abandoned last year on account of its unsanitary condition, has been placed in good condition by the board of education and was reopened this morning with Mrs. Elizabeth Fritz as principal. The school will receive pupils from the first to fourth grades residing in the district bounded as follows. On the north by the city limits, on the east by L street, on the south by South Temple street and on the west by H street. The opening of the Longfellow will greatly relieve the crowded condition of the schools in the eastern part of the city.

Miss Grace Frost will succeed Mrs. Fritz as principal of the Utah school and her present position as principal of the Jordan school will be filled by Mary Brown, a seventh grade teacher in the Lafayette school.

TRUANT OFFICER NAMED.

The committee on teachers and school work at its meeting Saturday afternoon decided to appoint Alma D. Clayton as truant officer. The Y. M. C. A. night school will be allowed the use of certain text books for city children who attend the school.

HOLIDAY SCHEDULE.

The schedule for the holidays, as presented by Supt. Christensen, was approved by the committee. The schools will close for the Christmas holidays on Friday, Dec. 22, and will reopen on

WILTON LACKAYE, Who appears in "The Pit" Thursday Night.

TEA

Good tea is dainty.
Poor tea is tolerable.
Most tea is middling.
There's plenty of good.

Your grocer returns your money if you don't like Schilling's tea.

LOS ANGELES BOOMING.

Don Porter, Minus Mustache, Tells an Interesting Story.

Mr. and Mrs. Don H. Porter returned yesterday from their extended trip to southern California. He reports all the cities along the coast as prospering, especially Los Angeles where everybody works in harmony. The streets of that city are crowded all the time, as the system of interurban railways bring country people in town from all around, to spend the day and shop, and Mr. Porter finds that these roads have proved wonderfully beneficial to the country people. Broadway is being made one of the most attractive streets in the country, with clusters of electric lights every 20 feet, and the same improvement is to be made on Main and Spring streets.

At the same time Mr. Porter finds himself as strongly attached to Salt Lake as ever, and is pleased to be back. He had shaved off his sixteenth century mustache, and consequently is less likely to be taken for a returned crusader who has just helped rescue Jerusalem from the hands of the infidel.

A HILL TALE

A Blunt Old Colorado Miner on Postum.

A clergyman may be eloquent, may use the choicest language, dressing his earnest desire to help his fellowman in the most elevated, chaste and beautiful language, and yet not touch the hearts of his hearers. Another man, having little education and no grace of speech whatsoever, may tell his message in the common, everyday vernacular he is used to, and the simple faith that glows within him carries quick conviction with it. Such a man writes from the towering peaks of Colorado, preaching of Postum:

"I had drank coffee all my life until I about killed me, when I concluded to try Postum, and in a short time I got relief from the terrible misery I suffered from coffee.

"When I drank coffee I bloated up so that I could not breathe at times; my nerves were so shaky that I could not hold myself still.

"But thanks to Postum I am all well now and can say that I hope to remain so.

"I was very much disgusted with it the first time I tried it, but had it made stronger and boiled longer till it tasted as good as good coffee."

No amount of rhetorical frills and literary polish could add to the convincing power of the old miner's testimony. Name given by the Postum Co., Battle Creek, Mich.

There's a reason.

Look in each package for the famous little book, "The Road to Wellville."

Tuesday, Jan. 2, 1906. The schools also will be closed on the afternoons of Jan. 2 and 4 and all day on Jan. 3, to allow the teachers to attend the sessions of the Utah State Teachers' association which meets in this city on Jan. 2, 3, 4 and 5, 1906.

RESOLUTIONS OF RESPECT.

Horticultural Society Mourns the Death of an Active Member.

At the Salt Lake County Horticultural society's meeting on Saturday afternoon the following resolutions on the death of John E. Cox, secretary of the D. A. & M. society, and also an active member of the Horticultural society, were adopted:

"Whereas, It hath pleased the Almighty Creator and Father of men to permit the removal from his earthly abode of our brother and fellow-member, John E. Cox, and

Whereas, it is fitting and desirable that some appreciation of our loss and the value to us of his association should be expressed and recorded, now be it

Resolved, That we recognize the value of his activity and earnest labor in behalf of our society. He was diligent to further the cause of horticulture in its broadest sense. He was anxious to bring credit on the work of the society and was willing that his personal efforts be merged in the resulting good to all without honor to himself. And we desire particularly to record our appreciation of his efforts to introduce new movements on progressive lines, and to bring to our society the best standards of modern horticulture, and in all to serve the best interests of the state. Especially was he active in promoting the provision for a new state experiment farm. It is to be noted that the first action in the state in this behalf was by this society; and that the first action by this society was by the urgent motion of our departed friend and brother. His work in this was continued in committee of this society and before the legislature until the bill was passed. In public and private he labored for our interests and for the great cause of horticulture.

Resolved, That we extend to the bereaved family our heartfelt sympathy and condolences in their great loss of a husband and father.

Resolved, That these resolutions be inscribed on the permanent records of this society and that a copy thereof be properly prepared and presented to the family of our deceased brother.

W. C. BURGEN,
A. W. CASSEY,
E. N. ELLIOTT,
Special Committee."

According to a report made at the meeting by Mr. Miller of Davis county, apples from Utah are finding an eastern market to good advantage. Mr. Miller stated that he shipped two carloads containing 1,200 bushels of apples to Minnesota and realized \$1,400 for them. He gave the society some valuable information concerning spraying apples. He said that he obtained good results from a solution of four pounds of lead to 100 gallons of water.

Prof. L. Byhove made a pointed talk on the necessity of increasing the membership of the society and publicity in regard to its aims and purposes.

Cures Winter Cough.

J. E. Gover, 31 N. Main St., Ottawa, Kan., writes: "Every fall I have been my wife's trouble to catch a severe cold, and therefore to cough all winter long. Last fall I got for her a bottle of Horchoud Syrup. She used it and has been able to sleep soundly all night long. Whenever she coughs she takes a few drops of the syrup, and she is able to be up and well." See, No. 11. Sold by Z. C. M. I. Drug Dept.

Too late to cure a cold after consumption has fastened its deadly grip on the lungs. Take Dr. Wood's Norway Pine Syrup while yet there is time.
