The Bering Decision from a Canadian Point of View.

THE QUESTION OF PARAGES.

an Unexpected Signal to the Country.—Losses of the Frithill Islands by Hyd.

VENTURA, Aug. 17.—R. P. BROWN, of San Francisco, has advanced the price of sealkins \$5 each, as a result of the publication of the finding of the Bering arbitration.

Captain John G. Cox, president of the "Sealers' Association," put it thus: "The arbitration was only a farce, covering the desire of England to find an excuse for, and protecting English rights."

Thomas J. Morgan, the Chicago sealkin, who was invited to speak yesterday, and whose remarks about the seals alienating many portions of the Alaskan coast received somewhat of an echo in the person of Rev. W. H. Headland of Detroit, who told the Christian people might well set aside some of the suggestions made by Morgan.

"It is literally true that if Jesus Christ should come into the world again, wearing the girdle of a sacerdot, which he was, he would not be admitted to one of our modern churches, in which his name is enshrined in gold."

The death of his colleague, J. Logan Chapman, and formal resolutions were adopted. The speaker appointed a committee to take action in the interests.

The House here, as a tribute of respect to the memory of the deceased, adjourned.

THE PRESBYTERIANS.

BOSTON. Before the Session of the United States.

CHATTAHOOCHEE, N. Y., Aug. 17.—The principal business of the United Presbyterian Board has been the cause since the division of the Philadelphia Presbytery in the case of Mr. Levy, pastor of that city, who adhered to the movement to a synod without any doctrinal basis.

It is a severe blow to the administration, that a whole section which separated from the church has now separated from the Presbyterians.

Victor, R. C., Aug. 17.—R. P. BROWN, of San Francisco, has advanced the price of sealkins \$5 each, as a result of the publication of the finding of the Bering arbitration.

Captain John G. Cox, president of the "Sealers' Association," put it thus:

"The arbitration was only a farce, covering the desire of England to find an excuse for, and protecting English rights."

The finding shows these rights, but little more away, that England may in the future say: "It's like you tell me, my dear, that this is a case of right."

The finding of the arbitration would protect the seal skins they must need protection on the islands or when trapping in March and April. They will, however, still continue to pay a heavy toll of seal skins and seal skins will be sent out.

Conservative firms, such as Reiter's, decline to express any opinion until all the facts are published, but the general opinion is that Captain Cox and Weyman that Victoria's day has given us leadership of the sealing industry in North America.

THE DAMAGE CLAIMS.

WALSHAM, Aug. 17.—Inferred officially in the Bering sea decision new evidence on the question of the damage to this country will be offered by George C. Dyer, attorney for the seal skins. At the conclusion of the arbitration, the removal of the seals around the British Isles to Great Britain, from the United States, will be the chief consideration of the negotiations between them and such other nation as may enclose in the material welfare and prosperity of the communities involved, leading especially to an arrangement to settle their claims and enter into a new and definite agreement upon the eastern seas of the Union in future.

Take Search and Responsibility.

WASHINGTON, Aug. 17.—Secretary Boutwell today, referring to the fact that the American government did not follow in diplomacy, in case of failure to come to some basis, for a settlement without resort to arbitration (and it is predicted a failure will occur) to leave the question to the judgment of an impartial tribunal.

AN UNPREDICTED REACTION.

An extraordinary and unexpected sound of alarm came yesterday that the leaders of the British legation who directed the litigation of the question decided by arbitration have year by year been restrained by the United States with narrow limits in regard to the number of seals captured, have not been sufficiently strict so that the full amount of their stipulated return will be exacted from them by the United States, and that the action of the previous administration in reducing the rental of the expenses with the British government in the catch was illegal.

Secretary Crittall today made an official demand at the North American Telegraph Company for \$250,000 for rental and losses on the British seal skins, and the amount was paid as follows: 1889, \$4,000; 1890, \$10,000; 1891, \$10,000; 1892, \$10,000. The action of Secretary Crittall is based on an opinion rendered by Attorney General Tracy.

CONGRESS.

The Senators Are in No Hurry With Their Slave Speeches.

WASHINGTON, Aug. 17.—The Senate has not been in a majority of the members apparently yet, and their speeches should be withheld until the issue on the repeal of the Sherman law is squarely presented to the Senate.

The pressure is becoming stronger daily for the passage of the Sherman bill, and the Senate will probably be that the committee will soon report a bill and leave the measure to be fought out in the Senate.

When the Senate met today numerous petitions were presented, some in unconditional regard of the Sherman act, and the rest will probably be that the committee will soon report a bill and leave the measure to be fought out in the Senate.

A resolution was offered by Galveston, Texas, and passed, calling for a report as to whether the secretary of the interior and the committee of pending bills conformed to the provisions of the existing law respecting the making permanent of the public roads.

The Montana senatorial race was taken up, and a speech addressed to the Senate in opposition to the right of filibuster in all under the government's jurisdiction.

Debtors made a short argument on the other side of the question. This was followed by a colloquy between Senator Mitchell of Oregon and Senator, the former advertising and the latter updating the statistics of the debtors.

A message was received from the House concerning the death of Captain of Michigan, whereupon the usual resolutions were offered and accepted. The committee appointed to report the House bill on the Sherman. As a further mark of respect to the memory of the deceased the Senate adjourned.

THE HOUSE.

WASHINGTON, D. C., Aug. 17.—The day was spent in the House on the Sherman bill, and the committee appointed to report the House bill on the Sherman. The proceedings in the House will hardly resume sometime before the beginning of next week.

French and Italian Infectors Engage in Battle—Chinese Friendly to the United States.

VIENNA, Aug. 17.—A gang of men has been arrested in Bisanzio, Austria, for smothering young children. The men for years have made a trade of capturing children and then smothering them out to beg, or selling them to others for the same purpose. The children were often so maimed with pinches to visit the houses kept by the gang on the outskirts of the town.

On the following day the gang left the country, the last being a girl of over 14 years with their leader. Another girl about the same age, was found at last with her right arm broken and both eyes gouged out. Two children having smothered were found an eye in the cellar.
