

FIGHT AGAINST STANDARD OIL

Atty. Gen. Hadley of Missouri
Says He Expects to Win it
Without Doubt.

COULD NOT GET ROCKEFELLER

The Subpoena Servers Could Not Find
Him as He Rendered Himself
A Fugitive.

Los Angeles, July 19.—Atty.-Gen. Herbert S. Hadley of Missouri arrived in this city today on his way to Long Beach, where he is to lecture before the Chautauqua assembly tonight on the subject of "Modern Commercialism."

Interviewed at the Alexandria hotel on the subject of his fight with the Standard oil company and kindred subjects Mr. Hadley said:

"We expect to win the fight against the Standard Oil without doubt. In fact our main contention—that the Standard Oil owned the majority stock in supposedly independent companies—has already been established by the decision of the Missouri supreme court. The supreme court of Missouri will decide the case some time this fall, and if it finds in our favor it may do one of two things—either oust the company from doing business in the state or fine it for the offenses of which it may be found guilty. John D. Rockefeller escaped giving testimony in the case by rendering himself a fugitive from the subpoena servers. It was impossible for us to get service on him."

"I am of the opinion that the various investigations of Standard Oil which are being made will result beneficially in that they will result in the establishment of better trade relations. What is needed is to give the independent oil companies a chance to compete, and the situation will rapidly adjust itself as it should."

Regarding the general political situation, Mr. Hadley said that he was of the opinion that President Roosevelt would be re-nominated by the Republicans, and that Bryan would be the choice of the Democrats. He thought there could be no question of the latter's nomination. The main issue, he said, would be that of the trusts.

TO BE NO INVESTIGATION.

Cleveland, O., July 19.—Government officials here today made the unqualified statement that there would be no investigation of the records and personnel of the federal grand jury which recently met in this city to ascertain whether the Standard Oil company and certain railroad and oil companies had violated antitrust and interstate commerce laws. Because of reports circulating the make up of the jury secret service agent McAdams of Chicago came to Cleveland today ready to institute a rigid investigation. He returned to Chicago tonight to report that there was no investigation of taking any action. He was convinced, after a conference with United States Judge Taylor, Dist. Atty Sullivan and others, that there was nothing to investigate.

PAPERS IN THAW CASE GIVEN TO HIS ATTORNEY.

New York, July 19.—Peace has apparently been declared among the lawyers who at various times have represented Harry K. Thaw since the night he shot and killed Stanford White on the Madison Square Garden roof garden. Former Judge Olcott of the firm of Black, Olcott, Gruber and Bonny, today turned over to Clifford W. Hartbridge, Thaw's personal attorney, all the papers he had in the case with the exception of the reports of private detectives which have been made to him since the murder was committed. As a reason for retaining these Judge Olcott said there was a question in his mind as to whether they belonged to Thaw or to the person who paid for them. He did not indicate who the person was who paid for the detectives' services.

The turning over of the papers by Judge Olcott will undoubtedly result in a dismissal of the writ issued against him yesterday at the instance of Mr. Hartbridge to show cause why the papers in the case should not be relinquished to Thaw's present counsel. The writ is returnable tomorrow.

Justice McLean, in the supreme court, today heard arguments on the application of Thaw's counsel for an absolute writ of prohibition directed against the district attorney and the grand jury to stop the taking of testimony against Thaw without the prisoner being represented. Decision was reserved.

PLANNING GREAT STRIKE.

New York, July 19.—Labor committees were abroad yesterday planning a strike of 50,000 workmen in building trades in sympathy with the 1,500 plumbers who are now on strike.

If a vote which is now in progress in various building trades favors local action 100,000 men may become

Heart Weakness

The action of the heart depends upon the heart nerves and muscles. When from any cause they become weak or exhausted, and fail to furnish sufficient power, the heart flutters, palpitates, skips beats; and in its effort to keep up its work, causes pain and distress, such as smothering spells, short breath, fainting, pain around heart, arm and shoulders. The circulation is impeded, and the entire system suffers from lack of nourishment.

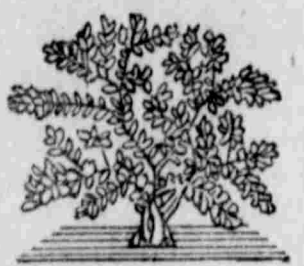

Dr. Miles' Heart Cure makes a heart strong and vigorous by strengthening these nerves and muscles.

"I had palpitation and pain around my heart, and the doctors said it was incurable. I don't believe it now, after taking six bottles of Dr. Miles' Heart Cure, three bottles of the Nervine and three boxes of the Nerve and Liver Pills. I am entirely cured, and feel better than I have for five years, and it is all due to these remedies. I want you to know that your medicine cured me. I believe you from the first dose, and I kept right on till the pain in my chest was gone, and I kept on feeling better, even after I quit taking it." JOHN H. BIERMAN, Belding, Mich.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.

Miles Medical Co., Elkhart, Ind.

San Francisco, Cal.

Involved in a general building strike against shop conditions.

Members of a special committee of the union who went about the city yesterday said they had induced two building trades employers to discharge members of plumbers local No. 430, formed by the employers to oppose local No. 2.

STATUE OF LIBERTY.

On Bedloe's Island to be Painted Inside and Out.

New York, July 19.—The Statue of Liberty on Bedloe's Island is to be painted. The goddess is to be recolorized with red, white and blue. In the 18 years during which she has borne aloft her torch she has been exposed to the salt winds of the Atlantic and their action has begun to affect her bronze plates. A coating of varnish has been spread over her and it is feared that unless something is done quickly, she will be seriously weakened and the statue endangered. The United States government has appropriated \$5,000 to make the statue safe and in a few days the goddess will be given a coat of varnish which will be sure protection against the action of the weather.

Capt. George C. Burnell, who has charge of the statue, and the signal station on the island said yesterday: "We will increase the torch from five lights to ten but the power of the 10 lights will be three times greater as we intend to overhaul the electric lighting plant which is now incapable of running to its full capacity. We will also put in an electric elevator to carry visitors up from the base of the statue to the torch and otherwise rejuvenate the statue."

WRECKED SAILORS JAILED.

No Place Else to Put Them; Fairly Well Treated.

San Francisco, July 19.—John Abernethy, a sailor on the coast fishing schooner Carline, which arrived today from Alaska, reports that six men, who composed the crew of the wrecked schooner Marion, are in jail at Unalaska, awaiting the arrival of a government vessel from the United States before they can take passage home. These men, says Abernethy, were taken by the captain of the Marion to Unalaska, after the wreck, and placed in charge of the marshal there, who put them in jail for the reason that it was the only available place to keep them. They have been there for months, receiving fair treatment, but unable to get back to this city.

KILLING ZULUS.

Bp. of Zululand Condemns It; Col. Royston Justifies It.

Pietermaritzburg, July 19.—The government of Natal has published a letter from the bishop of Zululand, alleging that Col. Royston's column early in July looted kraals and carried off stock belonging to loyal natives, robbed loyal Africans of their clothes and money and tore the clothes off the women.

The bishop added that certain natives found at a siding were brought into camp, July 5, and shot, and their bodies thrown into the Dunga to rot. The bishop characterizes the conduct of the column as a deep disgrace to Englishmen.

Col. Royston appointed a court of inquiry on the bishop's letter, which found that the charge of robbery was not proven, and that the five native prisoners were shot while they were trying to escape, but the court considered the shooting justifiable.

BOAT ROCKER ARRESTED.

Bert Willard is Charged With Manslaughter.

Tacoma, July 19.—Bert Willard, 19 years old, has been arrested at Puyallup, charged with manslaughter in having killed a boat and causing the death of Lloyd Hadden, 16 years old.

IMPERIAL ORANGE COUNCIL.

Toronto, July 19.—The Imperial Orange council yesterday elected Dr. T. S. Scroule, M.P., Parkdale, Ont., president; W. J. Calvins, New York, vice president; and Col. R. H. Wallace, C.B., Belfast, Ireland, second vice president. A committee was appointed to revise the constitution of the order.

DR. THOS. J. EATON DEAD.

Kansas City, July 19.—Dr. Thomas J. Eaton, one of the first, if not the first, chemist in this part of the country to furnish by analysis proof of murder by strychnine, died here last night, aged 63 years.

BURNING OF SYZAN.

St. Petersburg, July 19.—No doubt is entertained here that the burning of Syzan was a revolutionary demonstration. The members of parliament from Samara and Saratoff have received telegrams on the subject, but they shed no light on the spread of the conflagration.

TO ABOLISH DEATH PENALTY.

St. Petersburg, July 19.—The committee of the house of parliament to which the measure of the lower house providing for the abolition of the death penalty was referred, has reached an agreement on a compromise bill, retaining the death penalty for attempts on the life of the emperor, empress or heirs apparent, and for treason, but prohibiting military courts from imposing capital punishment except where the district is under a state of actual martial law.

LONGWORTH IN FRANCE.

Rheims, July 19.—Mr. and Mrs. Nicholas Longworth came to Rheims today from Paris in an automobile. After visiting points of interest in the city they proceeded on Luxembourg on their way to Baden Baden, accompanied by Mr. and Mrs. Charles Carroll of Paris and New York.

MAY EQUALIZE SENTENCES.

St. Louis, July 19.—Gov. Folk arrived from Jefferson City today and made the statement that in all probability he

could equalize the terms of imprisonment in the penitentiary of Julius Lehmann and Emil Hartman, former members of the St. Louis house of delegates, sentenced to seven and six years, respectively, for complicity in the St. Louis blood deals. It is stated to be the governor's intention to reduce the sentence of each to four years in order to conform to the sentence of former Delegate Harry Faulkner, who has already served two years of his term. Faulkner was convicted of bribery.

A KENTUCKY FEUD.

Leaders of Hall Faction Shot From Ambush and Killed.

Lexington, Ky., July 19.—A dispatch received here today from Sergeant, Ky., states that John Thornberry and John Hall, leaders of the Hall faction of mountain feudists, were shot from ambush in Floyd county and killed. Members of both factions are arming themselves, and an outbreak of feud war is feared.

TRADE SCHOOLS.

National Electrical Contractors' Association Endorses Them.

Cleveland, July 19.—At the closing session of the sixth annual convention of the National Electrical Contractors' association this afternoon the delegates endorsed trade schools for the education of boys in the mechanical arts, and a committee was appointed to co-operate with the Winona trade school at Indianapolis. The convention adopted a set of uniform symbols to be used in marking electrical wiring plans, and a committee was appointed to place these symbols before the architects and engineers of the country with a view to having them universally adopted. A committee was appointed to investigate the possibility of preparing uniform specifications and contracts for electrical work and to report at the next annual convention of the association, to be held in New York City. Among the officers elected was F. E. Newbury, St. Louis, third vice president.

THE CALAVERAS GROVE.

Famous Big Trees Are in Danger of Destruction by Fire.

Stockton, Cal., July 19.—Information has been received that a big forest fire is raging near the big trees in Calaveras county. It is supposed to have started from a campfire, but as all of the campers are near the scene of conflagration are down, it is impossible up to a late hour to secure any particulars further than that the fire was sweeping over a large territory, and it is believed that the big trees are in danger unless the wind changes tonight.

STEAMERS COLLIDE.

Causes Panic Among Fifteen Hundred Passengers.

New York, July 19.—A collision took place tonight between the excursion steamers Thomas Patten of the Patten line and Perseus of the Iron Steamboat company, the latter plying from New York to Coney Island. The vessel had about 1,500 passengers on board and a wild panic ensued, but no one was seriously injured. The passengers were taken off by ferry boats.

TONOPAH SITUATION.

Miners and Mineowners Are Very Nearly at Odds.

Goldfield, Nev., July 19.—As the result of the organization of the mine owners of Tonopah a month ago and the adoption of a scale of wages differing somewhat from the scale then in effect between the miners and mine owners, the situation in that camp is somewhat tender, but there is a general belief that nothing serious will result and that all differences will be amicably adjusted. To come to an understanding the mine owners and the miners' union have each appointed a conference committee, of 17, and it is expected that the committee will meet tomorrow and adjust the differences.

MUTUAL LIFE TROUBLES.

Plan to Compel Removal of Four Administration Nominees.

New York, July 19.—The international policyholders' committee of the New York Mutual Life insurance company, it was stated tonight, expects by Tuesday next to announce a plan to compel the removal of the four committee members nominated as trustees on the Mutual Life's administration ticket.

In a statement issued tonight, Samuel Untermyer of counsel to the committee, declared that the company's refusal to remove the names of the committee members from the administration ticket would be placed before the executive committee of the policyholders' organization.

FIRE IN DUNDEE.

Dundee, Scotland, July 19.—A disastrous fire broke out tonight in the bond warehouse of James Watson & Co., the largest concern of its kind in Scotland. Large quantities of blazing whisky ran into the streets. The loss is estimated at \$1,250,000.

FOUR MINERS KILLED.

Bluefield, W. Va., July 19.—As a result of an explosion in the Dixon mines at Finger, in the east end of the Tag river field at 8 o'clock tonight, Wallace Mitchell and four miners, Ernest Jones, Palmer Harris and Robert Harris and John Gilmore, are dead and Bill Crouse and Langdon Whiteside will die from burns and shock.

MONTANA PIONEER DEAD.

Rozeman, Mont., July 19.—Robert Philip Menefee, a well known pioneer, succumbed suddenly to heart disease. Menefee was 73 years of age and has been a resident of this state since 1882, coming across the plains in a "prairie schooner." He was one of Montana's first postmasters.

NO LETUP IN STRIKE.

Cleveland, O., July 19.—Members of the executive council of the International Structural Iron and Bridge Workers in session here, for the first time since last January united today in declaring that there would be no letup in the strike against the American Bridge company.

D. A. Clagney, a delegate from San Francisco, has asked that the board use its influence to include a structural iron clause in the new building code in the western city. "There are strong influences at work for reinforced concrete work there," he declared today. The work is not safe in tall buildings. It would be criminal to allow it to be constructed.
