The following was published recently in the New York Post.

"A rather absorb report has been published that Mrs. Mary G. Coulter, president of the Utah State Federation, and the only woman in the Utah State Legislature, has been debarred from speaking at the coming federation, because of her action in voting for Reed Smoot for United States senator. Mrs. Coulter apparently is not worried over the report. She writes that she has had no official notification of such action, and expects to deliver her speech. Mrs. Coulter speaks well, according to report, using no notes, and is an unusually bright and progressive woman. She says she voted for her party's candidate without regard for her own personal feelings towards the individual, which is something men have always averred that women would not do if they were allowed the franchise."
