

# MINING, BUSINESS AND STOCKS

## WEALTH OF UTAH OF FISH SPRINGS.

Recent Inspection of Mine Shows an unanimity of Values Most Remarkable.

SILVER ORES RUN 1281 OZ.

Manager Crismon Reports Physical Conditions at the Mine to be Better Than Ever.

A letter received this morning at the local office of the Utah of Fish Springs states the result of the recent inspection of the mine on all of its levels and all the results of assays taken from all the chutes and drifts now being worked. From these it is easy to see what kind of a proposition the company has, and the reason it still continues to pay dividends, though all of the ore has to be hauled 90 miles to the railroad in order to reach the market. In the same letter Manager Crismon says that the physical conditions at the mine were never better than they are at the present time. The average assays on the various ore bodies in the levels are as follows: On the sixth level, 40 per cent lead and 120 ounces of silver; on the fourth level, 60 per cent lead and 96 ounces silver; on the third level, 61 per cent lead and 1,281 ounces of silver, and on the new ore chute in the sixth level, 55 per cent lead and 291 ounces in silver.

The last carload of ore shipped from the mine and which will reach the market the last of the present week, minor assays show 51 per cent lead and 148 ounces in silver.

### A METALLIC PUZZLE.

Daily Judge People Find One in the New Ore Chute.

Col. Brubaker, who has returned from a visit to the Daily-Judge, brought back with him a mineral curiosity in the form of ore samples taken from the new strike on the 1,400 level of the mine. The samples consist of pure zinc ore together with pure galena, pure copper and pure lead ore. The strange thing about this is that all the samples were taken out of the chute at the same place. In addition to the so-called precious metals, iron ore also appears in a pure state. All of these ores are not mingled together, each appears by itself and never in one mass together as has always been found in other mines. These conditions are something of a puzzle to the mine managers as they do not know what they are up against. The colonel says that the work of exploring the new body is being pushed with a will.

### STRIKE AT TINTIC.

Five Feet of Solid Galena in Eagle and Blue Aft.

Good word is still coming in from the Eagle and Blue Aft of Tintic. Manager MacViehl states that the ore body encountered the other day is broadening with every shot. The walls of the cave incut with galena has been penetrated over five feet reaching the wall. The vein of ore resembles that which sometimes comes from the Centennial-Eureka and Supt. Creighton says it will run high, although no assays have been made. The manager MacViehl will rush a car load to market as quickly as possible to demonstrate its value.

### OPHIR QUEEN DEVELOPMENTS

A Big Ore Strike Made at the Mine Late Last Week.

At the bottom of the shaft in the Ophir Queen mine, Ophir, which is about 260 feet deep, they have just passed through a 14 foot vein of good milling ore and have reached the quartzite formation. The vein was encountered a week ago. The new gasoline hoist has just been put into operation and works to perfection. The Queen has long been a prime favorite with Manager Edmunds. He has always had an abiding faith that the property was to become a bonanza. It was partly through his efforts and suggestions that much of the money has been invested in the development work, and now that it has proved a winner, he feels much elated. There are lots and lots of good mines yet to be found in this district. Mr. Crawford came down from Ophir Friday and says that the quartzite encountered after passing through 14 feet of ore was but a thin stringer and the next shot put them back into the ore. There was, at the time he left camp, 18 feet of solid ore and no signs of a vein to the width of the vein, and it is growing richer with every shot. He is not the sort of man who builds air castles or deceives himself, so this statement may be relied upon as absolutely true—Stockton Sentinel.

### HIGHLAND BOY DIVIDEND.

Nearly a Half Million Dollars to be Passed Around Next Month.

It is reported that another big dividend is forthcoming for the shareholders of the Highland Boy. A meeting of the directors will be held on Monday morning the coming month when a sum but little short of a \$500,000 will be passed around. This last piece of velvet brings the sum total since last January up to the \$1,900,000 mark. All this has been accomplished as well as the setting aside of \$250,000 for smelter enlargement. Manager Channing says that the mines of the company are in splendid condition and are able to double the output of 525 tons of ore which they are now sending to the smelter.

### HOW GOLDFIELD BOOMS.

New Camp Near Tonopah is Growing Most Rapidly.

The latest news from Goldfield would seem to indicate that the new camp will shortly be recognized as one of the most important mining regions of the west, says the Tonopah Bonanza. Although but a few weeks old, the town has two assay offices, four saloons, two hotels, two corral, two restaurants, two lumber yards, two groceries, one butcher shop, one bakery. The district recorder, M. S. Smith, has built his office there and is now occupying it. It has been necessary for the stage

line between Tonopah and Goldfield to run through the new camp instead of two, in order to accommodate the increased travel. In addition to this, innumerable private conveyances go back and forth between the two places. It is authoritatively stated moreover that a branch of the Tonopah telephone system will be extended to Goldfield, and this will prove an immense convenience as the Tonopah men having interests there will be placed in direct communication with them. Application has also been made for the installment of postoffices at Goldfield, and in all probability this will be an established fact within a few weeks. The new camp now numbers nearly 300 people and there is also a strong belief that when the Rhodes & Tonopah railroad has reached here, it will be extended to Goldfield.

### Continental Ores.

The Continental Mining company of Alta is continuing shipment of ore at Sandy which will be sent to the smelters Saturday or Monday. Manager Crowther said this morning that this shipment could be of very much higher grade than any yet shipped from the mine judging by mine assays at hand. The roads are in fine condition.

### Ore and Bullion.

The ore settlements reported yesterday by McCormick & Co., totaled \$70,900, as follows: Base bullion, \$24,200; gold, silver, copper and lead ores, \$36,699; gold bars, \$10,100.

### FROM SOUTH AMERICA.

Robert Way of Chili Will Investigate Utah Mines.

Robert Way of the well known "Way brothers firm," mining operators, is in the city, coming down from Montevideo, Uruguay. He is here to operate mines and mills all the way from Antiparito, Chile, to Butte. Mr. Way says that the mines of South America are coming to the attention of the United States and that the best things we have lying around.

### STARTING OF THE HUB.

Development Work to Commence Next Week on Beaver Group.

H. W. Horn, who has charge of the Hub Mining company's ground in Beaver county will leave the latter part of the present week to begin operations at the property. The company owns four groups of nine claims directly in the mineral belt, which have a surface showing of gold to any in the district. Both a shaft and a tunnel will be started by Manager Horn and the work of development pushed during the winter.

### CONCENTRATES.

A 50-ton shipment of Columbus ore is at the sampler today.

Cyde Wilson will leave for the Lurey L. mine at Deep Creek Saturday or Monday.

Six carloads of ore were reported from Tintic and two from Alta by the Pioneer sampler today.

Five feet per day is the time now being made by the Holland place, Gold Mountain, since the installation of the new compressor plant.

Consulting Engineer Paul of the Century leaves for the mine this morning. He will bring the maps of the company up to date.

Judge Rives, who has returned from a trip to Ely, Nev., says that mining is very much at a standstill in that part of the sagebrush state.

Final payment has been made on the Toledo group of claims at Alta. Mr. A. H. Boyd, who is at the head of the purchasers, will manage the property.

The Washburn management has determined to go to the ledge from the 800 foot level. To that end drifting will be started today.

E. R. Carpenter, the well known mining engineer, is in the city at present, the guest of Samuel Newhouse.

A great body of iron ore some of which runs as high as 21 per cent of the metal, has been discovered near Durango, Colo.

An assessment of 5 cents per share has been levied on the stock of the Galena at Fish Springs. Manager Jacobs thinks with this he can so develop the mine as to bring it up among the dividend payers.

### Chamberlain's Appeal.

New York, Nov. 26.—There has been a remarkable response to Mr. Chamberlain's appeal for funds to help the tariff reform campaign, says a London dispatch. The London dispatch says that donations ranging from \$1,000 to one shilling have been received. Many working men are contributing small sums and writing letters like this: "I am sending you a shilling to help old Joe along."

Five poor clerks in Wandsworth send a contribution of 10 shillings to the fund.

"Under the guidance of our friend and champion, Mr. Chamberlain, we have no fear of the dear loaf boy."

### Eastern Situation Serious.

New York, Nov. 26.—The well known war correspondent, Mr. Bennett Murleigh, who has been sent out to Japan to watch the progress of events, has cabled from Tokyo that it is untrue that Japan intends stopping Russian war vessels now on their way out to the far east, says a London dispatch to the Herald. No such preparations have been made. The situation, however, remains serious, owing to the tardiness with which the negotiations are being conducted, and the intense feeling that exists among the populace against the persistent aggressions of Russia and her breach of engagements.

### Does Not Look for War.

San Francisco, Nov. 26.—John Goodnow, United States consul-general at Shanghai, and Dr. Bedloe, for a number of years American consul at Amoy, but now a newspaper correspondent, have arrived here from the orient. Consul Goodnow does not look for war in the orient, but believes that the existing trouble will be satisfactorily settled between the contending nations. He expressed himself highly pleased with the new Chinese treaty, which he declares is of great importance to the United States.

Dr. Bedloe said the Japanese are eager for war with Russia and that the little brown men have no fear of the result. He claims that the Japanese are stronger as a naval force in the east than Russia and are steadily strengthening their fleet by converting a number of mail steamers, recently purchased into armored cruisers.

The alliance between Great Britain, Germany and Japan, he claims, is purely defensive and indicates that England will not permit any nation to make war on Japan.

## CONDITIONS BAD AT CRIPPLE CREEK.

Those Who Blew Up the Vindicator Mine Had Plotted to Destroy Others.

EVIDENCE VERY CONCLUSIVE.

Clue Got From Fragments of a Pistol—Suspect Spirited Away—An Important Arrest.

Denver, Colo., Nov. 25.—Starting discoveries have resulted from the investigation into the blowing up of the Vindicator mine in the Cripple Creek district Saturday, according to Adj. Gen. Bell. He says that those who caused the explosion which killed Supt. McCormack and Melvin Beck also plotted to blow up the Gold Coin, Golden Cycle, Stratton's Independence, Findlay and several other properties.

Gen. Bell learned that the revolver found at the scene of the explosion was one of a number sold by the manufacturers to the San Juan hardware company of Telluride on Oct. 2. A partial description of the man who bought the revolver was secured. Gen. Bell is sure that the man is one of the 16 now being guarded inside the military lines at Camp Goldfield.

It is certain that all of those concerned in the Vindicator affair, with one exception, are in custody. One of the men wanted managed to get out of the district before a cordon of soldiers was thrown around the camp, and is on his way to Seattle, according to information which has been gathered since his departure. It is not believed that he will escape.

Of the 16 men now being held at Camp Goldfield, about a dozen are charged with being principals or accessories in the Vindicator affair. The remainder are held in connection with the attempt to wreck a Florence and Cripple Creek train a few days ago. It is generally believed that Charles McKinney, the alleged train wrecker, who was spirited out of the district to the penitentiary for safe keeping, is the person from whom the authorities have secured much important evidence.

One proof that violence was plotted is the fact that non-union miners at work on the properties said to have been included in the doomed list have been receiving mysterious warnings not to work upon peril of hearing the consequences.

Adj. Gen. Sherman M. Bell received today from the United States arsenal at Rock Island, Ill., 1,000 Krug-Springfield rifles and 100,000 rounds of ammunition for use of the Colorado national guard.

Three companies of the Colorado national guard from Lamar, Rockyford and Pueblo, arrived at Camp Goldfield today and the various points in the district are being strongly guarded. Particular attention being given to outposts.

Col. A. W. Hogle said today that he believed conditions were more serious than at any time since the strike began. A union miner named Virgel, who had been heard to say that he knew some facts about the Vindicator explosion, has been arrested and is held in the "bull pen," but separated from the other prisoners. He has refused to tell what he knows or explain his remarks.

### AN IMPORTANT ARREST.

Virgel recently quit a good position at the Portland mine to accept work at the Vindicator. His arrest, however, is of great importance, Augustus Johnson and J. P. Isbell, two of the men arrested on Sunday, have been liberated.

Col. Verderbeck, in command at Camp Goldfield, this afternoon stated that the most important clue to the blowing up of the Vindicator mine and the murdering of McCormack and Beck was made this morning. He refused to give out any information, but it is reported that the military located the owner of the revolver found in the sixth level, and his arrest was made this morning.

### HOWELL'S DENIAL.

President William Howells of district union No. 15, United Mine Workers of America, has taken exception to the statement published today that he is directly opposing President Mitchell, national president of the Mine Workers, in the settlement of the strike at the Cripple Creek mine.

Howells asserts that his position and his remarks have been misconstrued. He said: "There has been a difference of opinion as to what would bring about the best result, but that is all. These differences of opinion can be readily adjusted whenever Mr. Mitchell, Vice President Lewis, or Gregory Wilson arrives on the scene to judge for themselves. When either of these three gentlemen come, a definite policy will be quickly decided upon."

### A THREATENING LETTER.

Gov. Penabody and Adj. Gen. Bell have received threatening letters within the last few days. One of the communications to Gen. Bell says: "You will be popped off if you ever come to Cripple Creek."

Another letter warns the officials of the existence of a plot to blow up the wing of the capitol where the governor's and adjutant-general's offices are located. All such letters are turned over to the Pinkerton agency as fast as received. No attention has been made to guard the military officers because no fears are entertained that any violence will be attempted in Denver.

### WILL FIGHT IT OUT.

Gen. Bell was in communication with the sheriff of Las Animas county for some time last hour today, and the report was in circulation that the two were being placed in readiness to move to the coal fields. The reserve numbers 300 men, and they will be fully equipped within the next few days. Gen. Bell called his stenographer into his office this afternoon and dictated the following statement for publication:

"We will fight it out in Colorado if it takes every able-bodied man in the state and some who are disabled, in the end that law and order is maintained and Socialism, anarchy and Marxism wiped off the earth, and there is no a grease spot left to assassinate, dynamite, molest, disturb or in any manner interfere with the commercial condition and the peace of illustrious Colorado."

Gen. Bell has given orders to have the national regiment formed in the Colorado National guard and in the course of the week he expects to recruit 600 men.

## FIGHT WITH A WOLF.

### A Long Island Farmer Has a Battle for Life.

New York, Nov. 25.—Wounds that will leave their marks for life bear witness to a desperate fight between Hermann Hunder, a Long Island farmer, and a fierce gray wolf. Hunder, a 40-year-old man, was in the yard of his home near Sunnyside, L. I. The wolf was in Hunder's hen house dressed in a pair of trousers and a shirt, and fired his gun at the wolf but the shot went wild. Then he seized a pitchfork and attempted to fight off the attack of the wolf which bit him severely about the arms and legs. The animal was finally plucked by the pitchfork to the floor of the hen house and later was chained. Hunder's wounds are bad, but he is expected to recover.

### LOCAL MARKETS.

Prices at Which Farm and Other Products Stood Today.

The following price list gives the prices obtaining today in the Salt Lake markets:

### FARM PRODUCTS.

Alfalfa, per cwt. baled ..... \$ .65  
Timothy, per cwt. baled ..... .75  
Wheat, per bushel ..... 1.05  
Corn, per 100 pounds ..... 1.45  
Corn, cracked, per 100 pounds ..... 1.50  
Utah oats, per 100 pounds ..... 1.50  
Montana oats, per 100 pounds ..... 1.60  
Barley, whole, per 100 pounds ..... 1.30  
Barley, rolled, per 100 pounds ..... 1.40  
Flour, family, per 100 pounds ..... 2.10  
Flour, straight grade, per 100 lbs. .... 2.20  
Flour, high patent, per 100 lbs. .... 2.40

### MEATS AND POULTRY.

Dressed beef, per pound ..... 12 1/2 to 20c  
Dressed pork, per pound ..... 15 to 17 1/2 c  
Dressed veal, per pound ..... 12 1/2 to 15c  
Dressed mutton, per pound ..... 8 1/2 to 15c  
Dressed lamb, per pound ..... 17 1/2 to 25c  
Lard ..... 10c  
Dressed chickens, per pound ..... 12c  
Dressed ducks, per pound ..... 25c  
Dressed turkeys, per lb. .... 17 1/2 to 25c  
Turkeys ..... 20 to 22 1/2 c

### DAIRY PRODUCTS.

Butter, per pound ..... 30c  
Cheese, per pound ..... 20c  
Eggs, per case ..... \$8.50 and \$10.00  
Eggs, per dozen ..... 35 and 40c  
Peanut butter, per pound ..... 25 to 30c  
Teal duck, each ..... 15c  
Mallards, per pair ..... 75c

### FRUIT AND VEGETABLES.

Cauliflower, per bunch ..... 2 pounds for 25c  
Oranges, per box ..... 4.00  
Lemons, per box ..... 4.50  
Apples, per bushel ..... 1.50  
Bananas, per bunch ..... \$2.00 to \$4.00  
Utah apples, per bushel ..... \$1.75  
White apples, per bushel ..... 1.50  
Pears, per bushel ..... 1.50  
New Early Rose potatoes, per bushel ..... .75  
Fancy red dry onions, per peck ..... .25  
Squash, per bunch ..... 10c  
Carrots, two bunches ..... .65  
Grapes, per basket ..... 60 to 75c  
Utah celery, per bunch ..... .65  
Pail apples, per quart ..... .15  
Pumpkins, each ..... 10 to 15c  
Hubbard squash, each ..... 10 to 15c  
Sweet potatoes, 6 pounds ..... 25c  
Pigs, California, basket ..... 30 and 60c  
Pigs washed, per pig ..... 20c  
Cranberries, per quart ..... 15c

### FISH.

Chinook salmon, per pound ..... 15c  
Halibut, per pound ..... 20c  
Striped bass, per pound ..... 20c  
Shad, per pound ..... 15c  
Sole, two for ..... 25c  
White fish, per pound ..... 15c  
California smelts, per pound ..... 15c  
Rock cod, per pound ..... 2 pounds ..... 25c  
Eastern Cat. fish ..... 15c  
Surgeon ..... 15c  
Fresh cod, per pound ..... 15c  
Sea bass ..... 2 pounds ..... 25c  
Barracuda ..... 15c  
Mackinaw trout ..... 20c  
Squash, per pound ..... 20c  
Fresh Eastern market ..... 25c  
Lobsters ..... 17 1/2 c  
N. Y. Counts Oyster, per can ..... 60c  
Extra select, per can ..... 50c  
Extra select, per quart ..... 60c  
Blue points in shell, per doz. .... 25c  
Standards, per quart ..... 50c  
Mountain trout, per pound ..... 50c  
Bonita ..... 15c  
Little neck clams, per doz. .... 30c  
Red snappers ..... 20c  
Pompano ..... 40c  
Spanish mackerel ..... 20c  
Clams ..... 30c

### WESTERN MARKET LETTER

Special Correspondence.

Kansas City, Mo., Monday, Nov. 23.—Cattle run at Kansas City last week was 54,000 head, including 5,000 calves, as compared with 67,000, including 6,000 calves same week last year. The let up in the run proved of benefit to prices, especially for the bulk of the work, all kinds gained, advances averaging 15 to 25 cents, with business much more healthy than it has been recently. Western fat steers sold from 3.35 to 4.25 mostly, although a few heavy 4-year-olds wintered westerns topped the market at 4.40. Cows ranged from 2.15 to 2.65, for stuff above canners, although one bunch of Colorado cows brought 2.85, and some light New Mexico heifers sold at 3.25 Thursday. Bulls went from 2.00 to 2.15. Stockers and feeders improved notably at the end of the week, and speculators held over very few cattle. Western stockers and feeders ranged from 2.25 to 3.00, with some 1,000 Colorado feeders at 3.25 and some 600 New Mexico feeders at 3.15. Stock prices remained quiet all week but real calves were strong, ranging up to 5.50 for westerns. Today's run is moderate at 12,600 head, but with lower reports from Chicago, it is slow to get going at Kansas City. Cows are steady, and stockers and feeders are moving freely at full steady prices, not many being offered. All real speculators in the market besides a fair country demand.

Sheep run at this point last week dropped off to 18,000 head, against 43,000 previous week, and 24,000 same week last year. Killers were on the jump all week to fill orders, and prices gained 10 to 20 cents in the face of declines at eastern markets. Thursday and Friday prices here were 15 to 25 cents above Chicago, relatively, but packers bore down at the close Friday and Saturday, 5 to 10 cents. Today's run is 6,000, and trade is active and strong to 10 cents higher. Utah yearling wethers sold today at 3.75, western fat wethers at 4.00, yearlings. No choice western lambs are here, but some would bring 5.25. Feeders are in strong demand, at unchanged prices, 2.00 to 3.15 for wethers, 3.50 to 3.85 for lambs. Stock ewes 2.25, fat ewes, 2.90.

### THE KING HARDWARE AND STOVE CO.

Special city agents for JOHN VAN HANSE and Good Luck Stores and Ranges.

Everything in Builders' Hardware and House Furnishing Goods, Oil and Gasoline Stoves, Sewing Machines, Refrigerators, etc.

The New Hardware Store, 11 Main St. Old Scott-Stevens stand.

### THE STATE BANK OF UTAH.

SALT LAKE CITY.

Joseph F. Smith, President; Wm. B. Preston, Vice President; Charles S. Burton, Cashier; Henry T. McKean, Assistant Cashier.

DIRECTORS: Heber J. Grant, Heber M. Wells, Joseph F. Smith, Byron Groo, Chas. S. Burton, James I. Murdoch, Wm. B. Preston, Isaac Barton, A. W. Carlson.

Commercial Banking in all its branches. Accounts Solicited.

### U. S. DEPOSITORY.

DESERET NATIONAL BANK.

Salt Lake City, Utah.

Capital ..... \$200,000.00  
Surplus ..... \$50,000.00  
Safety Deposit Boxes for Rent.

Special Attention Given to Country Trade.

L. S. Hills, President; H. S. Young, Vice President; Edgar S. Hills, Assistant Cashier.

### B. H. SCHETTLER, BANKER.

SALT LAKE CITY, UTAH.

Five Per Cent Interest paid on time deposits.

22 Main Street. Opposite Co-op.

### WELLS FARCO & CO., BANK.

SALT LAKE CITY, UTAH. (Established 1852.)

The oldest and strongest bank in Utah.

Capital ..... \$1,000,000.00  
Surplus ..... \$1,338,813.44  
Transacts a general banking business. Domestic and foreign direct connections with banks in all principal cities of the world.

ISSUES—Drafts, letters of credit, telegraphic transfers on all prominent cities. Deposits received—subject to check.

H. P. CLARK, Asst. Cashier.

### MCCORMICK & CO., BANKERS.

SALT LAKE CITY, UTAH.

Established 1875.

### THE DESERET SAVINGS BANK.

SALT LAKE CITY, UTAH.

DIRECTORS: W. W. Ritter, President; Moses Thatcher, Vice President; Wm. B. Preston, Cashier; James Sharp, John R. Barnes, John W. Cullen, David Eccles, A. W. Carlson, Geo. Donnellan, J. F. Holden, J. E. Eldridge, Reed Smoot, W. F. James.

Four Per Cent Interest Paid on Savings.

### COMMERCIAL NATIONAL BANK.

Capital paid in, \$200,000. General Banking in all its branches.

John J. Daly, O. J. Saltbury, Maylan C. Fox, W. F. Noble, Geo. M. Downey, John J. Donnellan, J. F. Holden, J. E. Eldridge, J. E. Cogswell.

Capital fully paid, \$200,000.00. General Banking in all its branches. Transact a General Banking Business. Safety Deposit Boxes for Rent.

### WALKER BROS., BANKERS.

Established 1850. Salt Lake City, Utah. Incorporated 1903. Transact a General Banking Business. Safety Deposit Boxes for Rent.

### NATIONAL BANK OF THE REPUBLIC.

U. S. DEPOSITORY. FRANK MCKAY, President; W. F. Adams, Vice President; W. F. Adams, Cashier. CAPITAL PAID IN, \$500,000. Banking in all its branches transacted. Exchange drawn on the principal cities of Europe. INTEREST PAID ON TIME DEPOSITS.

### R. C. DUN & CO., The Mercantile Agency.

George Rust, General Manager, Utah, Idaho and Wyoming. Offices in Progress Building, Salt Lake City, Utah.

### The King Hardware and Stove Co.

Special city agents for JOHN VAN HANSE and Good Luck Stores and Ranges. Everything in Builders' Hardware and House Furnishing Goods, Oil and Gasoline Stoves, Sewing Machines, Refrigerators, etc. The New Hardware Store, 11 Main St. Old Scott-Stevens stand.

### Santa Fe.

Atchison, Topeka & Santa Fe. 'Santa Fe Route.' Direct Line from Utah to Kansas City, St. Joseph, Chicago, Galveston, El Paso, and the Mining Camps of New Mexico and Arizona. 3 Trains Daily 3. For particulars about REDUCED RATES EAST this summer, apply to C. F. WARREN, Gen'l Agent, Salt Lake City, Utah.
