

BEET ACREAGE WILL BE DOUBLED

Three Factories Record One
Hundred Per Cent
Increase.

GARLAND, IDAHO, FREMONT.

Farmers in All the Beet Districts
Show Appreciation of the Value
Of that Crop.

Several thousand farmers in the districts which furnish beets to the various factories of Utah and Idaho are getting ready to plant the beet seed for the crop of 1905, which from the indications, will break all records in the beet history of the states. The planting is usually done, commencing the first of April and continuing through the month.

General Manager Cutler of the Utah and Idaho companies was asked this morning for his estimate on the increase of acreage to be planted in the various fields, over last season. His answer was:

"I have received reports from all the counties which furnish beets for the Utah factories, those which grow for the Garland plant, and for the districts around the two Idaho factories. Up to this time the largest increase is recorded for the factory at Garland, where the increase over last year's acreage will not be less than 100 per cent. The Idaho Sugar company and the Fremont County company will both increase very nearly 100 per cent, if not quite, and the country contiguous to the Utah plant will furnish at least ten per cent more beets than last year. Let us know, has already very nearly reached its maximum.

"The increase is due, generally speaking, to the fact, first, that the farmers find in beets a ready cash market at their doors; second, that prices of hay and potatoes are demoralized, and farmers naturally do not wish to put their land into crops which cannot be relied on to bring them a fair return for their labors.

"In Idaho the late frosts last year hurt all crops to a much greater extent than they did the beets, and the farmers, of course, give preference to the crop which is least liable to damage on this account."

"In the Bear River valley, another reason for the large increase is that the farmers around the factory did specially well on their beet crop last year, and have put larger tracts of land in shape for the beet crop this year. The extension of the Malad Valley railroad from Garland to Malad opens up a new beet district where the farmers will grow a large acreage, and the opening of the Hammond canal last year on the east side of Bear river brings the water to valuable lands which have never before been put into beets.

"The O. S. L. people will push the completion of the Malad valley extension rapidly this summer, so that the entrance into Malad, thirty miles from Garland, may be looked for in August or early in September."

BUSINESS NOTES.

The week has been without many distinguishing features, excepting a quietness of trade that always immediately precedes the conference rush, a continued easy money market and a good demand for dividend paying stocks. The

How the Stomach and Kidneys Depend on the Inside Nerves.

Every day medical science becomes more simple and more certain. Simplicity and certainty go hand in hand. For science has learned that while there are many diseases, yet there are but few real causes of disease. That is, there are many names by which we know aches and pains and disorders. But most of these ailments spring from a common cause.

For instance, indigestion, sour stomach, heartburn, dyspepsia, and all stomach troubles—diabetes, Bright's disease and other kidney disorders—heart troubles, liver troubles, bowel troubles, nervousness, restlessness, sleeplessness, irritability—all of these ailments are due to a single cause. Painful, disagreeable and dangerous, though they be, they are not separate diseases—and they are not to be treated as such. They are merely outward signs of inward trouble—nervous trouble.

Understand first that we have two entirely separate nerve systems. When we walk, or talk, or act, we call into play a certain set of nerves—nerves which obey our mental commands. That is why the arm can be raised, or the mouth opened, or the eye shut, at the slightest desire. That is why your fingers can delicately pick up a pin one moment, and hold a heavy hammer the next.

But these are not the nerves we are to consider here.

There is another set of nerves which manages and governs and actuates the heart and the stomach, the kidneys and the liver and all of our vital functions. You cannot control these nerves. By no supreme effort of mind can you make your heart stop or start—or can you even make it vary by a single beat a minute. And so with the stomach and the liver and the kidneys and the bowels—they are automatic—they do their work at a certain set speed whether you are awake or asleep—whether you want them to or not.

It is on these inside nerves that life and health depends. So long as these nerves perform their proper duties we are well and strong. When they fail, we know it by the inevitable symptoms—stomach, heart, liver, kidney troubles. And these troubles have no other origin, ever, than in these same nerves. For the stomach, the heart, the liver, the kidneys, have no power of their own, no self control. They

principal dealings were in Utah Sugar common, Idaho, and Fremont. The two latter of which showed off slightly from last week's quotations. Most of the stocks in the list are at their maximum, as the quarterly dividend period is at hand. During the week, Deseret Savings bank paid 5 per cent to its stockholders, 2 per cent regular and 3 per cent extra. Z. C. M. 1's stock transfer books closed preliminary to the payment of the semi-annual dividend of 4 per cent April 15. Other companies which will make their regular disbursement to stockholders at the end of March or during April are as follows: The Utah Sugar company, preferred, 1 1/2 per cent, and common, 1 1/2 per cent; Amalgamated Sugar company, preferred 1 1/2 per cent, and common 2 per cent; Consolidated Wagon & Machine company, preferred, 1 1/2 per cent; Deseret National bank, 3 per cent; First National bank, Murray, 1 1/2 per cent; Home First Insurance company, 2 per cent; Lehi Commercial & Savings bank, 1 1/2 per cent; H. J. Grant & Co., 2 1/2 per cent; Ogden Savings bank, 2 per cent; Provo Commercial & Savings bank, 2 per cent; Rocky Mountain Bell Telephone company, 1 1/2 per cent; State Bank of Utah, 2 1/2 per cent; Thatcher Bros. Banking company, 2 per cent; Zion's Savings bank, 2 per cent; Utah County Light & Power company bonds, 3 per cent.

Following are the latest quotations: Amalgamated Sugar Co., Pfd. \$100.00 common, 170.00 Barnes Banking Co., Kayville, 125.00 Con. W. & M. Co., Pfd. 100.00 common, 75.00 Deseret National bank, 282.00 Deseret Savings bank, 320.00 Davis Co. bank, Farmington, 110.00 First National bank, Ogden, 245.00 First National bank, Murray, 110.00 Fremont County Sugar Co., 11.75 Home First Insurance Co., 102.00 Idaho Sugar Co., 11.75 Lewiston Sugar Co., 12.50 National Bank of the Republic, 120.00 Ogden Savings bank, 125.00 Provo Com. & Savings bank, 140.00 Rocky Mt. Bell Tel. Co., 90.00 State Bank of Utah, 167.00 Sugar City Townselle, 130.00 The Utah Sugar Co., 10.25 The Utah Sugar Co., common, 4.40 Thatcher Bros. B'kg Co., Logan, 120.00 Utah National bank, 125.00 Zion's Savings Bank & Tr. Co., 151.00 Z. C. M. 1's, 169.00 BONDS—Church, 101.00 Salt Lake City, 102.00 Sumpter Valley railroad, 102.00 Utah County Light & Power Co., 103.00

A copy of the articles of incorporation of the James M. Peterson bank of Richfield was filed in the office of Secy. of State Tingey today. The bank is capitalized at \$50,000, divided into shares of the par value of \$100 each.

R. Hawley is president; H. N. Hayes, vice president; J. M. Peterson, cashier.

The Utah Agricultural Farm company filed articles of incorporation in the secretary of state's office today. Its capital stock is \$30,000, divided into shares of the par value of \$10 each. J. A. Wilder is president; L. A. Merrill, vice president; William Jardine, secretary; L. N. Stohl, treasurer.

Commercial Club Taking Up the Matter
In Interest of Good Morals.

The board of governors of the Commercial club is in receipt of numerous requests from local merchants, tradesmen and manufacturers, asking the club bring influence to bear, if possible, on the employers for the transfer of pay day to Monday, from Saturday night and Sunday on the following week. Then by Monday, these same parties are in poor shape to begin the week's work.

The board of governors has appointed as a special committee to consider this matter, T. G. Webber, chairman; P. J. Moran, R. S. Campbell, J. A. Silver and Leon Sweet. This committee will report later.

Last evening Mrs. P. B. Woodbury

owed their every impulse to the inside nerves. The nerves are the masters. The

These automatic nerves are sometimes called the "sympathetic" nerves. This name is given them because of the bond of sympathy which exists between all branches. This explains why stomach troubles—why indigestion brings on nervousness—why diseases become complicated. It explains, too, why ordinary medical treatments are wrong—why medicine as frequently fails. The nerves of science, the common remedies of the day are designed to treat the organ, not the nervous system instead of the cause.

My Free Dollar Offer

Any sick one who has not tried my remedy—Dr. Shoop's Restorative—may have a Full Dollar's Worth Free. I ask no deposit, no reference, no security. There is nothing to pay, either now or later. I will send you an order on your druggist which he will accept in full payment for a regular, standard size Dollar Bottle. And he will send the bill to me.

C. I. Shoop, M. D.

Don't you, though you may not know medicine at all, see that this is wrong? That it is mere patchwork? That the suffering organ is enjoying its temporary relief, but the work is worse? Does this not explain to you why relapse so frequently follows a supposed cure? Does

SUIT TO STOP SALE OF STOCK

An injunction suit was filed in the district court today by the Brubaker-Campbell Hardware company against Charles E. Brubaker and the National Bank of the Republic to enjoin defendants from selling 73 shares of stock in plaintiff company, which the bank holds as security for a debt of defendant Brubaker of \$2,500, which was assumed by plaintiff.

It is alleged that ever since Feb. 7, 1905, Brubaker has circulated false statements among the business public to the effect that plaintiff was insolvent and that its stock was not worth 50 cents on the dollar. It is claimed that he also advised representatives of companies from which plaintiff purchases goods not to sell merchandise to it, as it was insolvent, and also that he has made threats that he was going to break the company.

Such statements, the complaint alleges, are untrue, but notwithstanding that fact, the bank threatens to sell said stock on March 25, and hence an injunction is asked to prevent the sale. Judge Morse today issued a temporary restraining order, stopping the sale, which was set for noon today.

UTAH MAN HONORED.

Once Clerk, Now Assistant Postmaster
Of Boston With \$3,000 A Year.

Frank E. McMillin, in 1896 chief clerk of the railway mail service with headquarters at Ogden, and later post-office inspector for Idaho and Montana, has been appointed assistant postmaster at Boston, Mr. McMillin, has been acting as inspector at Boston since his removal there from Utah in 1903. The Boston Herald publishes his picture and gives him a very complimentary write-up, and says: "While the selection may not be looked on with favor by some politicians, it is the opinion of those who know the appointee that a wise choice has been made. The salary of the assistant postmaster is \$3,000 per year. Mr. McMillin will assume his new office some time in April.

The announcement of the selection was received with great gratification by employees in the postal service and by government officials. Mr. McMillin is considered one of the cleverest and most energetic postoffice inspectors in the country.

LATE LOCALS.

The Salt Lake Brewery has been getting in 30,000-gallon tanks for storage purposes.

The weather is partly clearing today, but showers are looked for tomorrow, and moderately low temperatures prevail.

The coal dealers report there is plenty of cars now so that the operators are able to clean up back orders in pretty good shape.

Travel is picking up very fast, with the advent of spring, and the local hotels are filled—some of them to overflowing, and parlors are being used for sleeping purposes.

The farmers are washing their hands with invisible soap and smiling in car load lots, on account of the recent price advance. This is in the interest of steady habits and good morals.

There are a good many men who on receiving their pay Saturday evening, spend a large share of it Saturday night and during Sunday on the following week. Then by Monday, these same parties are in poor shape to begin the week's work.

The board of governors has appointed as a special committee to consider this matter, T. G. Webber, chairman; P. J. Moran, R. S. Campbell, J. A. Silver and Leon Sweet. This committee will report later.

Last evening Mrs. P. B. Woodbury

owed their every impulse to the inside nerves. The nerves are the masters. The

These automatic nerves are sometimes called the "sympathetic" nerves. This name is given them because of the bond of sympathy which exists between all branches. This explains why stomach troubles—why indigestion brings on nervousness—why diseases become complicated. It explains, too, why ordinary medical treatments are wrong—why medicine as frequently fails. The nerves of science, the common remedies of the day are designed to treat the organ, not the nervous system instead of the cause.

My remedy—now known by Druggists everywhere, as Dr. Shoop's Restorative—is the result of a quarter century of endeavor along this very line. It does not dose the organ or deplete the pain—but it goes to the cause of the trouble. It is a nerve—power nerve—and builds it up, and strengthens it and makes it well.

There is no mystery—no trickery. I can explain my treatment to you as easily as I can tell you why cold freezes water and why heat melts ice. X-ray did it for discovery. For every detail of my treatment is based on truths so fundamental that none can deny them. And every ingredient of my medicine is as old as the hills it grows on. I simply applied the truth and combined the ingredients in a remedy that is practically certain.

In more than a million homes my remedy is not known. But the grade of it is a remedy that is practically certain. In more than a million homes my remedy is not known. But the grade of it is a remedy that is practically certain. In more than a million homes my remedy is not known. But the grade of it is a remedy that is practically certain.

Spring Humors

Disappear when the
Blood is made Pure by
Hood's Sarsaparilla

Pimples, boils, and other eruptions, are signs that a blood-cleansing, tonic medicine is needed.

So are tired, languid feelings, fits of indigestion and headache, loss of appetite and general debility.

The best blood-cleansing, tonic medicine is Hood's Sarsaparilla—this statement is verified by 40,000 testimonials received in the last two years, in addition to tens of thousands already on file. Truly, Hood's Cures.

Buy a bottle and begin to take it today.

entertained in honor of her brother, Charles D. Lambert, who leaves shortly on a mission to Australia. About 60 of his relatives and friends were present and the evening was spent in games musical numbers, etc., after which refreshments were served. Among those assisting on the program were Mrs. Nellie Druce Pugsley and the Misses Druce.

A couple of deserters from Fort Douglas, left their uniforms in an alley on State street yesterday morning. The clothing was found by Officer Lyon and now the police are looking for the men.

Tonight, at the home of Mrs. Amelia Folsom Young, a family gathering will be held in honor of the 90th birthday anniversary of the late H. W. Folsom, something upwards of fifty of the descendants and relatives being expected to be present. The rooms will be bright with carnations, violets, marigolds and sweet lilacs, and the portraits of the honored absent ones wreathed with flowers. An interesting program will be given, including a talk by Bishop Taylor of the Fourteenth ward, and music interspersed with recitations rendered by members of the family.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. Druggists refund money if it fails to cure. E. W. Grove's signature is on box. 2c.

WEATHER REPORT

Record at the local office of the weather bureau for the 24 hours ending at 6 a. m. today:

Barometer reading at 6 a. m., 29.69 inches. Temperature at 6 a. m., 33 degrees; maximum, 40; minimum, 35; mean, 42, which is 14 degrees below normal.

Excess of the daily mean temperature since the first of the month, 132 degrees. Excess of daily mean temperature since Jan. 1, 2.34 degrees.

Precipitation since the first of the month, 1.11 inch, which is .54 inch below the normal. Deficiency in precipitation since Jan. 1, 1.40 inch.

FORECASTS TILL 6 P. M. SUNDAY.
