WATCHES JEWELRY

ABOUT three months ago all the watchmakers in this city agreed and subscribed to certain prices for work in their line, for the purpose of obtaining uniform and Cheap Rates. This agreement, however, has already been broken by several watchmakers, who are undersselling their colleagues and thereby proving themselves untrue to their written words. In consequence of which, the undersigned has withdrawn his name from said agreement and established his own prices, **cheaper than any other Watchmaker's in Salt Lake City.**

CAPITAL NOTES.

A Novel Land Case.

WASHINGTON, 30.—A novel case has just been submitted to the Supreme Court of the District of Columbia, involving a question of considerable interest to the Pacific Coast. It is a petition for a *mandamus* upon the Secretary of the Interior to compel him to deliver a patent to one Thomas McBride for 160 acres of land near Grantsville, Utah, which was issued in his name as a pre-emptionist, and sent to Salt Lake land office for delivery, but subsequently recalled and canceled, for the reason that the land was found to be within the incorporated limits of Grantsville, and covered by its town site entry. Counsel for McBride presented an argument in the first place to show that the thirty-seven town site corporations, made by Mormons in Utah, were fraudulently devised and used to prevent Gentiles obtaining pre-emption titles to any productive lands as they generally cover five or six square miles each, and that such territorial incorporation of cities is an interference with the primary disposal of the soil of the United States. The Court, in view of Congressional action concerning the subject of town sites, declined to consider the argument upon this proposition, and the questions at issue are narrowed down practically to one; namely, whether the actual delivery of a patent, which has been fully executed and recorded, is essential to the vesting of title. This question is considered one of great importance, as its decisions will either justify or condemn the practice which the Interior Department has hitherto pursued without serious opposition, cancelling patents for lands or for investments prior to their actual delivery whenever what is believed to be good reason for such action is found. The case will be carried to the United States Supreme Court if decided against the defendant. It will be noticed that its points are very similar to the celebrated McGarrahan case, except that in this case the patent was confessedly perfect, while in the other it was claimed to have been cancelled before it received the signature of the recorder.

No Stock Gambling Wanted.

Concerning the action of the Controller in regard to the loan of New York banks to the legal limit, the Controller says he does not intend to make public the full text of his letter until he has consulted with Secretary Sherman. His attention had not been called to the matter, as has been reported; but that he had been observing the course of affairs for some time past with a view to ending the practice. It is the intention, by a rigid enforcement of the law, to reduce to a minimum the undue facilities for stock gambling which have been growing up under this system of certification. The law empowers the Controller of Currency to enforce its obeyance, and any failure to observe it leaves it discretionary with him to appoint a receiver for the offending bank, and if necessary, to enforce the individual liability of stockholders.

A complete list of postmasters, whose commissions will have expired during the first three months after Congress assembles, has been prepared at the Postoffice Department. It includes only the following Pacific Coast offices visited: Woodland and San Bernardino, California; Pioche, Nevada; Bozeman and Prescott, Arizona Territory.

The excess of exports over imports in merchandise for the month ending September 30, was $20,620,087; for twelve months ending Sept. 30, $256,846,277.

The comptroller of the currency says the increase of the National Bank circulation in October, reached about $3,000,000.

Poetic Justice.

NEW YORK, 30.—Reviewing the San Francisco *Bulletin's* article announcing the forthcoming Chinese steamship line, the *Commercial Advertiser* says: It is especially worth noting it as worthy of poetic justice. The prevailing prejudice against the Mongolian on the Pacific Coast, has a direct tendency to hasten Chinese emigration, one of the reasons for establishing a line from Shanghai to San Francisco being to secure that friendly treatment of Chinese immigrants which is at present denied them *en route* on vessels of other nationalities.

A Chinese Will.

A Chinese will was offered for probate in the Surrogate's office yesterday. The document was written entirely in Chinese characters, and as none of the clerks in the surrogate's court can read the language, its contents or provisions are yet undiscovered. It will be translated as soon as possible.

There are wills on record there in Hebrew, Arabic, Latin, French, German, Russian and many other tongues, but this one is the first Chinese will filed.

Lively Work.

The ship *Challenger* arrived at Sandy Hook from Liverpool at 10 o'clock yesterday morning, and was chartered for a coal firm of Baltimore to go to San Francisco at once. A tug was sent to her at sea and at 4 p.m. the same day she was on her way to Baltimore to load her outward cargo of coal. Should the same dispatch continue, she will probably leave Baltimore by the 10th of November.

Real Estate Rise.

The *Express* reports great activity in the real estate market of this city, and on the authority of one of the largest operators a rise of 75 per cent. in prices since March has taken place.

Indian News.

RAWLINS, 30.—Col. Brackett, of the Third Cavalry, in command of the force at Rawlins, telegraphed to headquarters to-day that on the 28th inst., while two of his men were out hunting, one of them had his horse shot from under him. A careful investigation proved beyond doubt that the shooting was done by Indians. Pony tracks were found in the vicinity and it was discovered that the bullet came from a 50-calibre rifle, none of which are used by the troops.

The remains of Lieutenant Weir, of the ordnance corps, arrived at Rawlins to-day, and were received by the troops encamped here. They were escorted to the Court House by a company of the Ninth Infantry, under the command of Capt. Bowman. At the Court House an impressive address was delivered by Rev. Mr. Hamilton and the burial service of the Episcopal Church read. The body remains at the Court House under a guard of honor until midnight, when it will be shipped East.

Denver, Col., 30.—Mrs. and Miss Meeker, Mrs. Price and the children, late captives among the Utes, arrived at Denver to-night. Mrs. Meeker is very feeble and ill.

A special dispatch to the *Tribune* says: That General Edward Hatch, General Charles Adams, Special Agent, and Chief Ouray have been appointed Commissioners to investigate the Ute outbreak.

Quite a large delegation, consisting of the Governor, Mayor and other officials and prominent citizens will go to Cheyenne from Denver on a special train to-morrow to attend the [illegible]

A dispatch from Leadville says: That Hon. Jas. M. Cavanaugh, first member of Congress from Minnesota after its admission to the Union, and a delegate to Congress from Montana between 1867 and 1870, died there to-day of erysipelas. He had gone there last Thursday from New York, where his family now reside.

He Only Killed a Confederate.

NASHVILLE, Tenn., 30.—A novel case was decided in the United States District Court by Judge Connelly F. Grigg to-day. Miller Hurst, an ex-Federal soldier, was convicted by the Morgan County circuit court, 10 months ago, for the murder of Thomas Staples in 1865, and sentenced to 15 years' imprisonment. He was taken from the penitentiary to-day on a writ of *habeas corpus* by Colonel John P. Murray, an ex-confederate soldier, who proved that when the act alleged to have been done was committed, Hurst was a member of Captain Dave Beatty's company, which was recognized as belonging to the United States army, and it was not known whether he killed Staples or any of the party composing the company, and that Staples was a captain in the confederate army. Hurst was discharged.

Missionary Report.

CHICAGO, 30.—The American Missionary Association this morning heard a report of the committee on church work in the south, showing that the increase since 1864 has been from almost nothing to 4,600 members, all this being accomplished in the face of open opposition, moral apathy, and ignorance of the negro race. A. H. Bross, of Michigan, submitted a report of the committee to which had been referred papers on China. It spoke highly of the Chinese nation, deprecated the spirit of the anti-Chinese bill, and recommended more considerate treatment of the Chinese. It was adopted.

Whiskey Kills Its Man.

HELENA, Mont., 30.—A soldier belonging to the Eighteenth Infantry shot a man named Sawers, at Fort Benton, last Friday night. Sawers died to-day. The soldier was arrested. The cause was too much whisky.

WESTERN.

Chinese Steamship Company.

SAN FRANCISCO, 30.—Col. F. A. Bee, the Chinese Consul, states regarding the reported Chinese steamship line between here, Honolulu and Chinese ports, that the only foundation for the report is the possible sending of a spare steamer from Canton to Honolulu with a number of Chinese awaiting transportation. Col. Bee is supposed to have drawn his information from Chen Shu Tang, Chinese Consul General, who is a stockholder in the Chinese P. S. Co., of which he was formerly manager.

Indian Successes.

A dispatch from Phœnix, Arizona, says: A Tucson special says intelligence was received this morning that the Apaches had captured a station on the Del Mierto, near Fort Craig, and killed 13 persons. The Navajos have broken out and troops at Fort Wingate have been dispatched against them. They stole all the stock, including the mail mules. No murders reported.

FOREIGN.

GREAT BRITAIN.

Foreign Notes.

LONDON, 30.—A large meeting of the Corporation, of Dublin to-day passed resolutions asking the government to alleviate the distress in Ireland, and praying for the establishment of a peasant proprietory. Copies of the resolutions will be forwarded to Lord Beaconsfield.

William Shaw, a member of the House of Commons for Cork, and a home rule leader, has sent a letter to all the Irish members of Parliament, requesting them to sign a memorial to Lord Beaconsfield regarding the prevailing distress in Ireland.

An official decree has been issued from Paris, annulling the resolution passed by the Council General of Seine in favor of plenary amnesty. Other decrees dismiss 26 mayors for participating in factious manifestations.

Russia, convinced that she is isolated, has been earnestly seeking to be admitted to the Austro-German understanding. It is almost certain there will be a meeting of the three Emperors.

Austria has accepted the resignation of Count Zichy, ambassador to Constantinople.

The German government is narrowly watching events in France. The *Zeitung* insists that Von Hohenlohe, ambassador to France, has been here, and that he visited Bismarck at Varzin on Monday.

Roumania has addressed a circular to the Powers asking their formal recognition of her correspondence in view of her recent action in the direction of emancipating the Jews.

In the Lower House of the German Diet, to-day, Koeller was elected president, receiving 218 votes, against 164 for Von Bennigsen. Bends, National Liberal, and Herrman, Ultramontane, were elected Vice-Presidents. Dr. Friedberg, Imperial, Secretary of State for Justice, has been appointed Prussian Minister of Justice.

There have been heavy rains throughout Spain. At Malaga a water spout uprooted trees and injured many persons. At Vera, in Almeria, the river overflowed and flooded the mines, throwing 1,500 men out of work. Twenty-one persons were drowned, and thirty houses and 500,000 plasters worth of ore was swept away. At Cuevas several lives were lost. The Saragossa and Barcelona railway is submerged for a distance of sixteen kilometers.

A Havana dispatch says: Captain-General Blanco has promulgated the following decree: In consequence of an article of a recent treaty between China and Spain, the governors of provinces are ordered to speedily take the census of Chinamen, the census to be classified as follows: Chinamen under contract and re-contract, runaway Chinamen, imprisoned Chinamen, domiciliatory and naturalized Chinamen. The census must be completed by the 15th of December.

The Spanish Consul at San Domingo has advised the Government that ports Puerto Plata and Monte Christo are [illegible] blockaded on account of the rebellion. The blockade goes into effect for vessels from the United States in thirty days after date, but the date of the declaration of the blockade is not given.

How to Peel Onions.

She came on board as pretty as a daisy and as sweet and fresh as an elegant get-up could make her. There was a chattering aft, on the yacht, what they would have for dinner, and it was agreed, for fun, that, as it was chowder, each one was to do something toward the same. "You have got to peel and chop up them onions," says a dandy kind of fellow to the pretty girl. "Agreed," said she, not wincing a bit; and they all laughed and pitied her. When the time came for fixing up things, kind of urged to it, I brought that pretty girl a peck of the fiercest onions — real red-skin ones — you ever smelled. "There is going to be a lot of crying," think, I; "if that would be the only sorrow in her life!" Says she to me: "Mr. Robert, do you haul me a bucket of water," and I did it. "Now," says she, "just put them onions in that there water," and I did it. Then she took off her white fingers a lot of rings, and put them in her pocket, and asked for a knife and the onions being in the water, she peeled and sliced them under water, and nary a tear came, nor nothing. "Now, says she, holding out the tips of her pretty fingers, "who will be gallant enough to kiss these?" Seeing I was cook I didn't like to be so bold, but there was a half dozen of the men who rushed forward, and of course I had no chance. That's the way I learned how ladies can peel onions and not cry over them.—From *Bob, the Sea Cook.*

The other day we printed an account of a man who has invented an instrument by which the deaf can be made to hear with their teeth and nose. We may add that this genius did not get his idea of a "scientific front ear" from Lord Beaconsfield.—*Phila. Bul.*
