JOHN T. LYNCH, Postmaster.
Salt Lake City, Utah, September 17th, 1884.

FRAGMENTS.

High Council to-night at 7 o'clock.

This funeral of William Swift took place at 2 p.m. to-day in the Tenth Ward meeting house.

The new furnace invented by Bishop Holman, of Draper, will be tested shortly.

LATHING is going on in the new Utah Central building, and plastering will begin next week.

A meeting of the stockholders of the Iron Manufacturing Company of Utah will be held in the Social Hall on the 4th prox.

S. H. HILL, supply agent of the Utah Central Railway, returned this morning from inspecting the supply department at Juab.

The Conference of the Y. L. M. I. A. and Primaries of Salt Lake Stake will be held to-morrow in the 14th Ward Assembly Rooms.

Two cases were filed with the clerk of the District Court to-day, but had not been issued on in time for us to obtain them for this issue.

The quarantine of the case of diphtheria in the Tenth Ward has not yet been removed. The child is convalescent but has not recovered its speech.

J. B. MCKEITH has some thoroughbred and high grade Corthorn ducks for sale at his farm, three minutes walk from the railroad station at Kaysville, Davis County.

JOHN H. HARKER, Esq., is erecting a 20 stamp mill near Wasatch, Little Cottonwood Canon. The building and machinery have been removed from Lewiston, Camp Floyd district.

Notice of a motion for the appointment of a receiver for the Utah Eastern, was filed yesterday with the clerk of the Third District Court. The motion is to be made on the 23th, the day court resumes.

HYRUM LEE, charged with horse-stealing in Box Elder County, was before Commissioner Sutherland yesterday for examination, at the close of which he was held to answer in \$1,000 bonds, and not giving bail, went to the Pen.

The Home Company at last have their coal on the Utah market, by permission of the Union Pacific Railway; that is, that company has at length allowed a low enough rate for transportation to justify its being brought here. But how long will this last?

It is said that Judge Twiss, of the Second District, whose term is about to expire, will not seek reappointment, and a petition is being subscribed to by members of the bar, asking the President to appoint E. T. Sprague, U. S. Commissioner and clerk of the Utah Supreme Court, to the office.

MR. JOS. H. FELT whose children have been referred to as having the diphtheria, expresses doubts as to that being the disease. He has noticed none of the disagreeable odors attending that dreadful sickness in its usual form, nor the fungus in the throat which is so much to be dreaded. We are pleased to hear that the little ones are doing well, and heartily approve the strictest precautions, even if there is a doubt.

HARRY C. GOODWIN, brother to the young man who was found dead, testified that the latter had about \$12 on him when they parted the morning of the 11th. Charlie Little, broker, states that the man who bought his Smith & Wesson pistol gave him \$10 for it. On the body of William Goodwin was found \$2.75 in silver. This, with the similarity between the pistol purchased and that found by the identity, is pretty conclusive as to the identity of the buyer and the suicide.

THE Draper canal is almost completed. Water is now running through Sandy to the great joy of the thirsty inhabitants. One or two small jobs to finish and the field will be emptied into Little Cottonwood, the terminus of the ditch. By means of this canal a large tract of valuable farm land will be brought under cultivation, and greatly enhance the wealth of Salt Lake County. The projectors are to be congratulated upon the completion of so good a work.

LOCAL NEWS.

"Contributor."—The concluding number of Vol. V of the Contributor is before us. The year just ended by the prosperous and highly instructive periodical, enables it to start out on Volume Six with a largely increased number of friends and with brighter prospects than ever before for continued success in its chosen sphere. Number 12 is well filled with pleasant reading matter, and one rises after its perusal with the wish that its successor may not delay its coming.

Celebration.—At the residence of Farley L. Williams, Esq. in the 20th Ward, there was last evening in the well lighted parlors, a family gathering to witness the marriage of Miss Lizzie Sharp, daughter of Bishop John Sharp, to Harry G. Naisbitt, the eldest son of H. W. and Mary Ann Luff Naisbitt. The ceremony was performed by Justice Spillers, after which came congratulations for the happiness of the young couple, and the usual accompaniment of supper, then music, singing and social chat, until with good wishes all seemed ready for departure, the bride and bridegroom taking immediate possession of their own home prepared for the occasion.

The Davis Assignment.—The preferred creditors of George W. Davis have bought the entire stock of goods assigned by him to pay off his indebtedness, and the sale realized \$3,200. The goods will be turned over at the same figure (which is a fair cost valuation) to Z. C. M. I. one of the preferred, and merged into the various lines of stock of that mammoth institution, where they will readily find their place. This preferred creditors will, it is believed, be reimbursed in full, while the unpreferred will realize from twenty to twenty-five per cent., which is believed to be just that much more than they would have received, had the goods been closed out under the hammer.

TERRITORIAL ITEMS.

SUMMARIZED FROM LATEST EXCHANGES.

—The cattle show at the Denver exposition will begin on the 20th.

—A Wyoming sheriff was fined \$5 and costs for assaulting a prisoner recently.

—Blackleg is said to be raging among cattle in Oregon with great virulence. The mortality is great.

—There are no more fresh cases of diphtheria at Pleasant Grove, and the patients are convalescing.

—Foreman Buckley, of the spinning department of the Provo Factory, fell from a ladder a few days ago and dislocated his elbow.

—The jail at Sidney, Nebraska, was burglarized a few days ago, and a horse thief named Smith was carried off. His liberators were his friends.

—A large amount of grain and hay in the fields of Lehi, American Fork and Pleasant Grove is unharmed and has been greatly damaged by the recent storms. The fruit in those places is very meagre.

—William Wadley, of Pleasant Grove, is the possessor of the largest and probably the best bearing grape vineyard in the Territory. He is sending large quantities to Salt Lake and Park City every week.

—The only case of serious sickness among Wyoming cattle is at Atlantic City, where ninety head are affected with what is supposed to be Texas fever. The cattle were sent from Wyoming in perfect health.

—The Mexican, Francisco, who murdered Mrs. Wm. Fine in the Chiricahua Mountains, was captured last Saturday, by a Frenchman, who was going to Camp Bowie. He saw the Mexican hiding by the roadside, and having heard of the murder concluded that he must be the man. He was hanged by the outraged citizens upon being identified as the murderer.

—A thirteen-year-old son of Llewellyn Jones, of Spanish Fork, went shooting with a number of boys last Saturday afternoon. In firing, both barrels, which were heavily charged, went off, causing a recoil which severely injured him and completely crushed in one side of his nose. He was unconscious several days, and his condition is regarded as critical.

New School Desk.—Messrs. Burton & Sandberg, the furniture men, called the attention of the News reporter this morning to a new school desk lately invented by Mr. Sandberg, and now on exhibition and sale at their waterworks on Main street. It is well known already that this firm have the run of the Territory for a school desk made by Mr. Sandberg about seven years ago, which has become very popular wherever used. A remark made as to a feature of their desk which made it a little difficult to sweep under it, set the inventor to thinking, and the result was in due season an entirely new thing in desks, embracing all the good points of the other, including simplicity and cheapness, and improving on it in one or two important particulars.

The new desk can be easily folded, not only the desk proper, which drops down, but also the supports are pushed in, but also the slatted seat attached to it in front, which folds upwards on hinges. The cramped position of the pupil, necessitated by ordinary school desks, when rising from the seat, is thus obviated, as it can be folded up at the same time, thus giving ample room between it and the desk for the pupil to stand in.

Another good point is that when folded, the floor can easily be swept under the desks, there being no cross bar, as in the other, to interfere with the free action of the broom. Besides this hinge, which is much stronger than the pivot used in imported desks, (which were not easily and cannot well be repaired), is not the support of the seat, which is stoutly sustained in another way entirely. The new desk is light, simple, convenient, cheap, and looks to be just the thing wanted in our schools, where it will no doubt find its way in large numbers.

The Dam Difficulty.—Our readers have been kept posted as regards the trouble which has arisen between parties in Salt Lake and Utah Counties, over the dam placed in the Jordan river, for husbanding the Utah Lake waters for the benefit of the Salt Lake county canals. They also are aware that an \$8,000 suit for damages, alleged to have been sustained by the presence of the dam, especially during the recent high water, has been placed in the First District Court, at Provo.

The latest development in the case is the filing of an answer to the complaint, in which the defendants make a general denial to the allegations of the plaintiffs, and set forth the following: "That the damage to the lands of the plaintiffs was caused by reason of the general overflow and the prevailing high water everywhere; deny that the damage was caused by the dam, or that the plaintiffs have been injured to the extent claimed; they further claim that the long period the dam has been constructed without ever having been remonstrated against before constitutes an estoppel against the plaintiffs; the defendants also enter a demurrer against the complaint and ask for a change of venue to the Third District."

Wedding Reception.—A select and congenial company assembled last evening in the parlors of President H. S. Eldredge, to witness the wedding of Mr. S. Eldredge, of Provo, to the daughter of the wedding reception of Mr. and Mrs. Reed Smoot, the announcement of whose marriage appeared in our columns yesterday. The young couple returned that morning from Logan, where they were married the day before by President M. W. Merrill.

The company last night consisted simply of relatives and a few immediate friends of the Smoot and Eldredge families. The newly wedded pair were at one of the spacious apartments under a large formal horse-shoe, where they received the compliments and congratulations of their friends.

A splendid banquet, by Ball, was spread in another part of the house, to which the guests did ample justice. The reception was one at which everybody felt at home and enjoyed themselves thoroughly. Mr. and Mrs. Smoot will reside at Provo, whether they go to-morrow, followed by the good wishes of a host of friends.

Returned Missionary.—Elder Edward Stevenson called at our office to-day and gave a brief account of his recent movements. He was called on a mission to Canada, October 6th, 1883, and soon after proceeded thither, where he labored till June, 1884, and then proceeded to England and the Island of Jersey. Here he obtained the names of his relatives to the number of about 400, and returned with the emigrating company of Saints arriving on the 11th inst. While absent he held 34 meetings, wrote 225 letters, traveled 16,100 miles, published 4,000 pamphlets in Canada and England and bore testimony to thousands publicly and privately. His health was much improved by the change and journey to Europe and he returns home improved by his mission. Although in the 60th year of his age, he regards this year of sowing but not of reaping.

POLICE COURT.

Wm. Price for disturbing the peace and drawing a pistol on the barkeeper in the Overland House last evening will answer at 2 p.m.

Arthur, the barkeeper above referred to, who retaliated by drawing his pistol and after following Price out into the street fired the weapon into the air to scare him, was also to have a hearing at 2 p.m.

Charles Dudley for drunk and profane and Jack Williams, drunk, are the only other cases to dispose of.

PERSONAL.

R. C. Kirkwood, the Provo merchant, came up to the city this morning.

President O. A. Smoot and members of his family were up from Provo yesterday.

Mr. and Mrs. A. O. Smoot, Junr., of Provo, came up to the capital last evening and went back to-day.

Sisters E. R. Snow Smith, E. B. Wells and Minerva Snow returned last evening from a week's tour in Sanpete Co. They had a pleasant time and returned in good health.

Arizona Colonists.—The Orion Era, of St. Johns, Arizona, says the following named persons arrived there from Utah, on the 6th of September: William and Alonzo Packer, Lorenzo and Seth Wright, Charles Forsgren and George Davis, from Brigham City; Joseph H. Burn, from Harrisville, and Chauncey Richardson from Plain City, also Hans Jensen, from Logan City.

R. S. Conference.—The Stake Conference of the Relief Society met this morning at 10 o'clock, in the 14th Ward Assembly Rooms, there being a full attendance from all parts of the county. Reports were read this morning from the Wards of the Stake, and remarks were made by Sisters Prescinda Kimball, M. A. Hyde and M. I. Horne.

Arrested for Polygamy.—U. S. Marshals Evans and Donovan started to Prescott, Tuesday afternoon, having in custody Mr. C. F. Kemp, who was arrested on a charge of polygamy. He will give \$2,000 bonds in Prescott, and will be released until the November term of court.

Sanford Jacques was taken to Prescott this week, by Marshals Evans and Donovan. He will be required to show cause why he did not obey the subpoena that was issued for him to appear as a witness at the late session of the U. S. Grand Jury.—Orion Era, Sept. 12.

Let There be (More) Light.—Mayor Sharp and members of the City Council were this morning inspecting with Superintendent Ellerbeck of the Gas Works, the local gas system, with a view to carrying out the recommendations of the committee in relation to a more even distribution of the gas lamps. In places where there are over four lamps to the block, it is intended to reduce them to that number, as to those blocks, and place them elsewhere, thereby diffusing the light with little additional expense. Four lamps, it is thought, are ample illumination for one block.

More Improvements.—Improvements are still going on in the Tithing Yard, under the direction of the Presiding Bishopric. The west gate opposite the hatchway will no longer be used for teams, as a rail has been placed to exclude them; they may, however, pass through the upper west and south gates as usual.

A nice asphaltum walk is being laid along the hatchway, by Elias Morris, and the same material has been put down before the entrances of the cellars in the rear. Painting and renovating are going on in different parts of the building, and everything is taking on a neat and tidy appearance it has not known for years.

Midnight Robbery.—John D. Barr, an old sheep herder from California, who has been in town a few days expecting better returns for his labor here than in the Golden State, was in the company of a few boon companions drinking at various saloons last evening, and was finally enticed by them into a shanty or out-house, he don't know where, knocked down and robbed of his pocketbook containing \$14.75. The men have been arrested for the crime. One has confessed and upon another the stolen pocketbook was found. Their examination is set for to-morrow at 10 o'clock.

Attaching the Fixtures.—Mr. Edmund Kahn, of the firm of Kahn Brothers, merchants, accompanied by Marshal Ireland, to-day entered the store lately occupied by G. W. Davis, (which is fast being denuded of its merchandise by the agents of Z. C. M. I., its purchasers), and asked Mr. Sears, who is superintending the removal of the goods, what there was about the place that was not already secured under the arrangement made by the preferred creditors. Ascertaining that the fixtures were not included, they commenced taking an inventory of them, with a view, it is supposed, to laying on the suit for the debt of the Kahn Brothers, who are on the list of the unpreferred. The amount coming to them is \$318.82.

A Highborn "Haythorn."—The tall and stately form of a "Haythorn" with a large silk umbrella spread over his uncovered head, his "pig-tail" reaching far below his coat, and whose apparel and general air bespoke something more than the ordinary "washee, washee," or vegetable peddler of his race, walked leisurely down the middle of the street passing this office, this morning, and reaching General Wells' corner, took the sidewalk for it in the direction of Z. C. M. I. The only change in his ensemble, as he passed under the shade trees, was to shut up his umbrella and away it automatically from side to side, as he continued his proud tread southward, as though he already owned Main street and was on his way to purchase the rest of the city of the proper authorities.

Home Company's Coal.—The shipment of Weber coal from the Crisman and Wasatch mines to this city commenced yesterday, a mutual understanding having been arrived at with the Union Pacific railroad by which the Home Company gets a low enough freight tariff to enable them to put their coal on the market here and compete with the mammoth corporation for the local trade. It is a matter of congratulation to the Home Company, and is alike creditable to the U. P. Steps have already been taken to supply all wants of customers and considerable means has already been expended in preparing for that portion of the trade which it is hoped will flow into this channel. Mr. F. A. Mitchell, secretary and superintendent, is looking after the interests of the Home Company, and their advertisement will be found in another column.

NOTICE.

There will be a meeting of stockholders of the Iron Manufacturing Company of Utah, held in the Social Hall, Salt Lake City, on the 23rd inst. at 10 o'clock, noon for the election of officers and for the transaction of other business. J. O. CURTIS, Secretary.

Salt Lake City, Sept. 19th, 1884.

BUSINESS NOTICES.

Mr. George Dunford informs us that it is 50 years ago this month that he brought his first stock of merchandise to this city, and that he is better able to supply the people with Boots, Shoes, Hats, Caps and Gents' Furnishings than ever before, and we advise his numerous friends to call and see him.

Auction Sale of Household Goods On Saturday, Sept. 20, at 11 a.m. at No. 74 W. Second South St., four doors west of Walker Opera House, on first and second floors of Ryan Block.
