

Hayes' term, to accept a high judicial position to become vacant by retirement in February next of the present incumbent.

A man named Christern made application for a mandamus to compel the inspector of election to register his name as a voter. Judge Lawrence rendered a decision that the relator has by judgment of the superior court of the city been naturalized as a citizen of the United States; that the judgment cannot be attacked or impeached collaterally, and certainly not by the board of election officers, who are ministerial officers, and not a tribunal vested with the power to sit in a review of the decision of a court of competent jurisdiction upon a question of the right of the relator to citizenship.

The body of another victim of the tunnel disaster was taken from the caisson yesterday. Two more bodies are in sight; 15 have been taken out, five are still in the mine.

DENVER, 21.—Adjutant General Drum telegraphed this evening to Major Fletcher, commanding the military post near Los Pinos, to furnish whatever military escort was deemed necessary to secure the protection of Agent Berry, in case he surrendered to the United States marshal, and ensure his safe delivery into the custody of the civil authorities at Pitkin.

LOUISVILLE, Ky., 21.—A Point Lick special to the *Courier-Journal* says: Saturday night last, about two miles from Big Hill, Jackson County, near the Hill House, owned by James Abrams, a fight occurred between Abrams, his sons and other parties on one side, and J. M. and James Radcliff on the other. Jas. Radcliff was shot in the face and instantly killed; his brother John was shot in the side and mortally wounded. One of Abrams' sons was struck on the head with rocks, and it is said will die from the effects of the wound. The affair was the result of no old grudge.

HOLLAND, Mich., 21.—Late last night a trunk came ashore near Grand Haven containing papers, jewelry, clothing, and an insurance policy in the name of B. F. Sweet, Bradwood, Ills. The wind from the north this a.m. is light. A large number of persons have gone out searching the shore between Naughtucket and Grand Haven. The body of the boy found near Port Shelby yesterday was identified as the oldest boy of John Osborne. A tug supposed to be the government tug *Graham* came down from Grand Haven about 11 o'clock a.m. When about eight miles out from the harbor she was signalled by a passing barge and stopped, and as near as could be ascertained by the aid of a glass, lowered her boat, picked up something and then turned and went back towards Grand Haven. The barge then went on south. Prof. Scott, of Hope College, has just shown a leaf from a dairy, or pass book, found attached to a moulding of the cabin by a small nail. It is badly chafed.

CHICAGO, 21.—The *Inter-Ocean's* Washington special says: Cashier Whelpley, of the Treasury, returned to the city to-day from North Carolina, where he went two weeks ago, in company with one of the officials of the Second Comptroller's office, to look up some lands belonging to the Government. From what he heard and saw in the State, Mr. Whelpley thinks there is a very good chance for the republicans carrying the State in November.

MOUNT VERNON, Ind., 21.—A fire early yesterday morning destroyed a large portion of the place causing damage amounting to \$150,000, on which there is about \$75,000 insurance. Among the principal losers, are Fuhrer, Boyce & Co., dry goods and groceries; Harlan & Co., stoves and trading store; Mrs. Barkis, and Geo. Herricks, dwellings; Mount Vernon Banking Company, Tieberdorf & Williams, Peter Wallace and James Dennis.

SAN FRANCISCO, 21.—Last night, Geo. A. Wheeler went to the police station and confessed he had murdered his sister-in-law, Della J. Tillson, at a lodging house in Kearney Street, and packed her body in a trunk. His statement was at once verified. The circumstance is remarkable. The deceased had been living with her sister and Wheeler. The latter had subjected her to his desires, his wife being cognizant of the fact, but concealing the affair to avoid scandal. Latterly a man by the name of Geo. W. Peckham, who became acquainted with the family some time ago at Cisco, Placer County, sought to marry Della. This created jealousy on the part of Wheeler, who, yesterday, while Della was

sitting in his lap, choked her to death. Wheeler and family formerly lived in New York.

CLEVELAND, 21.—Eliza Studts, a young colored domestic, poisoned, but not fatally, three members of the family of J. J. Crooks, with whom she lives, using druggists' poison paper. Her motive is unknown. She escaped once from custody, but is now in jail.

HALIFAX, 21.—As Capt. Duncan Adams was fishing off New London, Prince Eddie's Island, his attention was suddenly attracted to a great sea monster alongside the boat. Losing time he got under way and sailed a mile or two but found the monster going as fast as the boat. He had only two boys with him. When the boat luffed the monster dashed for the captain, missed and was caught by the gunwale of the boat and fell back into the sea making no further attempt, and the captain lost no time in putting the boat towards land. He says that the monster was not less than 20 feet long with black stripes and large black spots.

PANAMA, 12.—Dates from Lima are to September 12th. The threatened bombardment by the Chileans of the defenceless towns of Chorillos Ancon and Chancay, in revenge for the destruction of the Chilean steamer *Ovadaonga*, by a torpedo was carried into effect on the 23d of September, but with no serious result to life or property. The Peruvians hastily improvised a battery of some heavy guns on the *Morris* at Chorillos, and when the *Cochrane* rounded to and fired on the town, the Peruvians replied with such good success that she soon withdrew out of their range to a point from which her guns could only reach the town at a great elevation. The *Cochrane* soon retired entirely.

Lima dates are to September 25. United States Minister Christiancy has the following basis for preliminaries of peace: Chili, Peru and Bolivia will each elect three commissioners to discuss the conditions of peace, to meet in Peruvian territory occupied by Chilean troops, the United States Minister taking part in the conference as a friendly mediator.

The cultivation of tobacco is now free in Chili.

Six millions of paper money was authorized to be issued by the Chilean treasury.

The Bolivian Congress has sanctioned the law authorizing the executive to mortgage or sell all the national property, and the municipalities are also authorized to proceed in the same way with the consent of the Government, the proceeds of such sale to be applied to the expenses of war.

General Gaza has been deprived of his rights as a Bolivian citizen, his inaptitude and cowardice having brought upon the country humiliation and dishonor.

NEW YORK, 22.—The *Times* Boston special says: Several of the most prominent manufacturers of Lynn, representing a capital in business of over \$900,000, have signed a card declaring that there is not, and has not been, any organization there called the Employers' Union, and that there is no such man as H. L. Morey. The following is the card: The undersigned shoe manufacturers of this city hereby state that there was never any organization or association called the Employers' Union, and we do not know of any man by the name of H. L. Morey, who was ever employed by us or a resident of this city.

The *Times* says: The Tehantepec Inter-ocean Railroad Company is now engaged in the construction of a railroad across the isthmus of Tehantepec, Mexico, and intends to send in a few days three parties of engineers from this city to the Pacific coast. One of them will survey the harbors on the Pacific side to ascertain the cost of completing the improvements there. Another will lay out the route of road on this side of the isthmus, so that the work of grading can begin early in the winter. A third will make an extensive survey of the line of road in the interior. The isthmus shortens the route between New Orleans and San Francisco about 2,300 miles or seven days as compared with Darien or Panama. The company is authorized to establish a board of directors in the States, having an agent in Mexico duly empowered to transact all the necessary business in that country. The estimated cost of the road is \$6,000,000, which includes the building of harbors at each end. Engineers say the harbor on the Gulf side can be cheaply made the best harbor on the Atlantic side of the Continent south of Norfolk and

north of the equator. The harbor on the Pacific side is not yet examined. The country through which the line of road passes is fertile. It produces the finest tobacco, coffee and corn, and all well known tropical fruits grow in abundance and attain great perfection. Oranges are very juicy and of the finest flavor. Bananas are abundant. There is plenty of game, such as deer and birds of the pheasant family, and the rivers and lakes abound with fish of excellent quality. In the forests grow mahogany, cedar and other valuable woods, with plenty of oak and pine on the mountains. The climate 20 miles from the coast is healthy the year round, and on the mountains is as delightful as anywhere in the world. A case of yellow fever has never been known. In the low lands near the coast, a mild form of malarial attacks unaccustomed persons, but the natives do not suffer from it.

The real purpose of the charge that Garfield wrote the letter to Morey on the Chinese question seems to be shown by the fact that a 100,000 copies of what purports to be a fac simile of the letter are announced to have been sent to California alone. Since Garfield's denunciation of the forgery and since the best known business men of Lynn, Mass., publicly testified that no such man as Morey to whom it was addressed never lived or died there, as was asserted, and the Employers' Union of which he was the reputed president ever had an existence in that city. National Republican Headquarters,

October 22.

Yesterday Mr. Barnum, chairman of the democratic committee issued an address to the public in which he publishes two telegrams sent by myself to Florida. The following are the exact facts: On the 8th of October verbal information was received at the republican national headquarters that two or three hundred men were going out from this city on one of Mallory's steamers bound for Florida, on the strength of which information the following telegram was sent to F. Wycker, collector of Key West, Florida, warning him that the men in question were believed to be democratic repeaters:

New York, Oct. 8.

F. W. Wycker, Collector, Key West, Florida.—The Mallory steamer of last week, had two or three hundred workmen for some railroads. Looks to us as though they were sent to Key West to vote.

(Signed) MARSHALL JEWELL.

On the 11th of October a letter was received at these headquarters, of which the following is a copy:

Custom House, New York, Collector's Office, Oct. 11. '88: Dear Sir—I have just received the enclosed memorandum, from a perfectly reliable person. You remember my telling you the other night I would try to get at the facts.

Yours in haste,

To Hon. Marshall Jewell, National Committee.

The following is the memorandum enclosed:

Memorandum—City of Dallas, 200; State of Texas, 100; Colorado, 100 men on deck, instructed to say nothing about it. Denied in office and at dock that any had gone.

The substance of the information contained in the letter and memorandum was then telegraphed to Mr. Wicker as follows:

New York, Oct. 12.

To Mr. F. W. Wicker, Collector, Key West, Florida:

City of Dallas took 150, City of Texas 100, Colorado 100 for Key West. Men at dock instructed to say nothing about it.

(Signed) MARSHALL JEWELL.

It was believed at these headquarters that the democrats were sending these men to Florida as repeaters, and action was taken to prevent the democrats from reaping any benefit from the scheme. The item to Mr. Noyes, a copy of which is given below, related solely to the expenses of Messrs. Noyes and Colander, two republican speakers in Florida. The telegram was as follows:

New York, Oct. 12.

To Chas. G. Noyes, Jacksonville, Fla.:

I telegraphed yesterday. I will produce as requested, 200 each for Colander and your self, as compensation.

(Signed) MARSHALL JEWELL.

The telegrams to Florida related solely to the fact that we had the information above given, viz: That the democrats were exporting men to Southern Florida for some purpose, and from the past history of that party it was fair for us to assume that they were sending them there for the purpose of committing election frauds. I submit these facts to the public, and am willing to abide by the decision of all fair minded men.

(Signed) MARSHALL JEWELL, Chairman.

Specials from Richmond say: A telegram received from New York last night says the democratic national committee has decided to recognize the regular democratic Funder ticket in this State. The matter is a great surprise to the readjuster leaders, although they admit that they did not have any idea of being recognized, nor had they sought such a recognition at the hands of the Barnum committee. This will give a great relief to the public and must tend to strengthen the regular organization in Virginia.

CINCINNATI, 22.—J. K. Emmett, the actor, suddenly turned up here last night, with two big trunks and about \$1,500 in money. He walked into a hotel and said he wanted a berth and wanted to see Manager Miles. He was shown to a room and was soon fast asleep, where he has remained ever since. He has seen no one to-day. He will be cared for and his company in St. Louis have been telegraphed to come here.

CHICAGO, 22.—The only additional news regarding the missing propeller *Europe* is a dispatch from her owner, saying that the *Neelon*, her tow had been let loose and is now in port at South Manitou. He believes the *Europe* is wind bound in some place and will turn up safe.

CHICAGO, 22.—A mysterious arrest was made to-day by an officer in the secret service, of a gentleman of florid complexion, age about 48 and appearance prepossessing, but whose name cannot be learned. It is rumored he is wanted for a large defalcation, but particulars are entirely wanting.

NEW YORK, 22.—The following address was to-day issued by the republican national committee, for circulation in the Southern States:

To the Republicans of the Southern States:

The solid south was the shibboleth of the democratic party. At Cincinnati Senator Hampton told the national committee of his party that 138 southern electoral votes could all be counted in advance for the democratic nominees. This was in defiance of the well known republican majorities in half of the southern States and the threat that they should not be recorded. The republicans of the north are fully aroused to the truth that the democratic party conquered these States by violence, and now propose to retain them by fraud. For a time many thousands of our people were unable to realize their situation, and the wrongs complained of seem to them to be too startling for belief. But time has shown that half had not been told. Indignation as profound as the cause of it pervades the patriotic masses of the north. The triumphs achieved this month in Ohio and Indiana, but foreshadow still greater ones to come. They will prove to us the death knell of the solid political south.

Now is your opportunity for vindication before the world. In the presence of this second uprising of the great people, Southern democratic leaders should hesitate further to persecute you or attempt to silence your voices. To-day patriotism, free speech and a fair ballot are sectional, because they are not permitted to exist in the South. The National republican committee, speaking for the party which has struggled for 24 years to make freedom national, appeals to you to cast your votes on the 2nd of November for the candidates of your choice.

Have trusted republicans at every polling place during the election to register in books of their own the votes which you deposit. Be prepared in this manner to demonstrate to the people of the Nation just how many votes you cast in each State, and then let the democratic party show the people how many of them they will dare refuse as cast. You will thus vindicate your manhood, dignity and your citizenship and either compel the democracy to count your votes or stand convicted of having openly defrauded you of them.

MARSHALL JEWELL, Chairman.

New York, 22.—The following has

been issued by the Republican National Committee:

Headquarters Republican National Committee, N. Y., Oct. 22.

To the Public:

Our unscrupulous political adversaries have spread broadcast a letter purporting to have been written by our candidate for the presidency, General J. A. Garfield, to one H. L. Morey, of Lynn, Mass., under date of Jan. 23, 1880. We are fully authorized to denounce it as a bold forgery, both in its language and sentiment. Until its publication, Gen. Garfield never heard of such a person as H. L. Morey, and was not aware of the existence of such an institution as the Employers' Union, of Lynn, Mass., with which Morey was said to be connected. The letter is one of the most flagrant lies which has ever been concocted by a desperate party on the eve of defeat.

MARSHALL JEWELL, Chairman.

S. J. DORSEY, Secretary.

WASHINGTON, 22.—The man mysteriously arrested in Chicago is James B. Doyle, of Bradford, Ill., who married a daughter of the noted counterfeiter Brad Foster, and spent much of his time in Colorado. He is a farmer and lumberman and reported very wealthy. The secret service learns that he has been engaged in crooked operations since the war. Government defalcation was given as the cause of his arrest, but this is a mistake. According to advices received, Doyle had on his person a number of \$1,000 United States coupon bonds, sixes of the loan of July 17th and August 5th, 1861. The bonds were originally issued as follows: To J. W. Ogden, cashier 33, etc. The prisoner maintains there is some mistake about his arrest. The aggregate amount of money on his person is estimated at about \$210,000.

CHICAGO, 22.—An *Inter-Ocean's* Washington special says: Secretary Sherman says that perhaps the bonds recovered from James D. Doyle, at Chicago, were part of those stolen from the Manhattan Bank. The object of his arrest was to secure the large amount of counterfeit money which he was said to have taken from New York. Agent Brooks hoped to find a clue through him to the \$100 counterfeit plate that has eluded detection so long. Although there is much mystery about the matter, it is believed the bonds are genuine; but perhaps the numbers have been altered, as it would hardly pay to make a plate of a bond so soon to be called in as those in Doyle's possession are. It is believed the 27 \$100 bills in his possession are counterfeit, but careful comparison alone will reveal that fact. Doyle is known all over the country as an associate of the worst crooks as well as related to one of them.

DENVER, 22.—Gov. Pitkin last night sent an order to the sheriff of Gunnison County, directing him to take a sufficient force and proceed to the reservation and arrest Agent Berry. In the order the Governor says: "If the Ute Indians attempt to resist the process they will be swept away." The order continues: "If sufficient force and ammunition cannot be procured in Gunnison, it will be furnished from Denver, and that the force should be well mounted and supplied with ammunition. In case of Berry's arrest, you will be expected by the people of the State and myself to see that he is protected from violence."

A Pastor Made Happy.

I have been greatly troubled with my kidneys and liver for over twenty years, and during that entire time I was never free from pain. My medical bills were enormous, and I visited both the Hot and White Springs, noted for the curative qualities of the water. I am happy to say I am now a well man, and entirely as the result of Warner's Safe Kidney and Liver Cure. Not only this, but my little daughter has been cured of St. Vitus' Dance by Warner's Safe Nerve, which I always keep in my family. With such glorious results, I am only too glad to testify regarding the remedies which have made me so happy.

REV. P. F. MARKLEE,

Coal Run Crossing, Arkansas.
