KIMBALL PROPERTY SOLD

That on Main and Fourth South Brought \$120,000.

The Kimball property at Main and Fourth South streets was sold yesterday afternoon at \$120,000 for the 226x 165-foot lot, so the grantors report; but who the purchasers are is not given ou and the real estate men say they d not know. This transfer gives rise t all kinds of speculation, and wise guess ers claim that the Commercial club i about to build there its proposed 10-story building. Inquiry, however, at the club fails to elicit anything what-ever. Manager Harris believes the property was bought by unknown partles for speculative purposes, but jus who the grantees are and what they are up to, "deponent sayeth not." Robinson Crusoe's Island.

In 1868 H. M. S. Topaze visited Juan Fernandez, which belongs to the Chilean government, and erected a tablet to the memory of Alexander Selkirk. Today there are some 60 persons living on the island, chlefly whalers. Seen from the sea, it has the appearance of a huge barren rock, but inland there are innumerable valleys with smiling flowers. Naturally, the great curiosities of the island are the places where Alexander Selkirk spent the greater part of his days while there. There is the cave or grotto which he used as a house. Around the walls are to this day a number of rusty nails and rude shelves and cupboards. Then there is Lookout Point, a lofty pinnacle which Selkirk is declared to have climbed every day in the hope of attracting the attention of a passing ship. It was only five years ago that a Chilean survey-ing party discovered here, imbedded in the earth, the remains of the old flag-staff-the very one, it is believed, that Selkirk so often used.-Westminster Caracte

RACE FOR CHAIRMANSHIP

RACE FOR CHAIRMANSHIP.

The death of Congressman Hit, for ten years past chairman of the foreign affairs committee of the house and the previous suicide of "Bertie" Adams of analys committee of the house and the previous suicide of "Bertle" Adams of Pennsylvania, the second man on the committee, leaves the race for the chairmanship of this very important body between Robert G. Cousins of Iowa, Charles B. Landis, of Indiana and James Breck Ferkins, of New York. Mr. Cousins, the ranking mem-ber of the committee has the chair-manship of one of the minor commi-tees at the present time, and is also a member of the committee on navai affairs. Mr. Landis, who ranks sec-ond, is the chairman of the committee on printing, which, of course, he would have to give up should he be chose. Mr. Perkins is a member of the com-mittee on printing, and should Mr. Landis be chosen for the chairmanhip of foreign affairs, it would probably re-sult in the elevation of the New York. er to the chairmanship of the prin-ing committee. No man has shown such a thorough grasp of legislative ing committee. No man has shown such a thorough grasp of legislative subjects affecting our foreign relations during the past year as has Mr. Per-kins, and were he to select a thai-man of this important committee so-lely upon merit, the speaker would un-doubtedly select the New Yorker for this honor. But other considerations have great weight, and it is more han probable that either Mr. Cousins of Mr. Landis will succeed Mr. Hit as chairman with the chances aligneds in favor of Mr. Cousins. The death of eight members it be present Congress and the relignation of four others namely Leaves of Courses.
