DEATH OF JUDGE BARRY.

George A. Barry, city justice of the peace of Park City, died this afternoon, from heart failure, superinduced by inflammation of the bowels, after an illness of two weeks. Judge Barry was born in New Jersey, Aug. 5, 1833. In 1856 he came to Park City and afterward to Idaho, where he built one of the first cabins on what is now the site of Boise City. He came to Park City twenty-seven years ago, and has ever since resided at this place. He was a great prospector and was generally supposed to be the best posted man in this district on its formations. His history of mining is similar to most of the argonauts—many ups and downs, many trials and hardships, varied by occasional periods of good fortune. Judge Barry was elected city justice of the peace in November, 1890. He has held the position with satisfaction to all people. He leaves one daughter, Mrs. J. J. Conroy of Butte, Mont., who was with him at the last. Funeral services will be held Thursday at 2:30 p. m. from the Methodist church.

SYRACUSE.

New Meeting House Dedicated With Impressive Ceremonies.

Syracuse, Davis Co., July 22.—The new meeting house erected by the people of this ward was dedicated yesterday with impressive ceremonies. The house was filled to overflowing. Apostle Anthon H. Lund, the district missionary, presided. There were present Bishops of Bountiful, Kaysville, Roy, Hooper, Layton and their counselors. A grand and enjoyable time was had. The building is of Old French architecture, with a series of raised stands in the Salt Lake City Tabernacle. The structure cost about \$8,000, is fitted up with a heating plant and other improvements, and is a credit to this young community. Much credit is due Bishop David Cook and counselors, who labored zealously as a committee on ways and means to complete the building.

Dark Hair WILL PUSH THE COLORING WORK.

We mean all that rich, dark color your hair used to have. If it's gray now, no matter; for Ayer's Hair Vigor always restores color to gray hair. And often it makes the hair grow very heavy.

LEIGH, IDAHO.

Locating Reservoir Leaks—Sheep Herds May Precipitate Trouble.

Special Correspondence.
Leigh, Fremont Co., Idaho, July 21.—Thirteen leaks have been located in South Leigh canyon, 15 miles from here. Eight of them can be used to advantage as reservoirs. The largest one is one half mile long and 30 rods wide. Several men of the Leigh Creek Canal company with Bishop Mickle have appropriated the water in the name of the company. It is hoped that the whole community will have the privilege of taking stock in this enterprise.

WATER SCARCITY.

The weather continues hot and dry. A great many acres of grain will be a failure for want of water.

TROUBLE PORTENDED.

Sheep are getting very close to Jackson's Hole and trouble is brewing. The people in the Hole say they don't want trouble and they don't want sheep. They say they won't let them in. Sheepmen should be a little more considerate and avoid conflict as the settlers are a determined and united set in the Hole.

Thousands Sent Into Exile.

Every year a large number of poor sufferers whose lungs are sore and racked with coughs are urged to go to another climate. But this is costly and not always sure. NEELEYVILLE, IDAHO.

Opportunities for the Enterprising Homeseeker.
Neeleyville, Oneida Co., Idaho, July 20.—This place is five miles out from American Falls. The Snake River and the station of that name on the O. S. L. Railway. It is situated on Warm Creek, the water of which originates in a warm spring up the canyon a short distance. The most of the land is rolling and fertile when well cultivated. The place is small but would grow if the water was more wisely and judiciously handled. There is good opportunity to reserve water, and a canal could also be brought out at American Falls that would cover 1,500 acres of land at a cost of about two thousand dollars. The creek, which is used from the creek could be put on high lands and thus greatly increase the farming land and the population. There are many improvements being made here that are a credit to the people.

CHARGE OF ATTORNEYS.

Reorganization of Southern Pacific Law Department.

The San Francisco Call says that local railroad men have received private information from New York that a reorganization of the staff of attorneys of the Southern Pacific is to take place. Of course, a full settlement of the grade suit will not be had until September and things will in the meantime be unsettled, but without hindering the prosecution of work by both companies.

ON THE INCREASE.

Dun's Review says that the gross earnings of all roads in the United States, reporting for July to date, are \$10,255,175, a gain of 10.1 per cent over 1900 and 19.4 per cent over 1899. The increase continues well up with preceding months, and is a heavy and profitable tonnage. Earnings on all classes are larger than last year, though St. Paul and some other Grangers report a loss compared with 1899 when the grain movement was very large.

TIED UP THE ROAD.

Poor lone widow Mary Kelly died the Pennsylvania Railroad company, stopped the United States mails and tied up the last. Funeral services will be held at the residence of the widow on the Saturday afternoon at 10 o'clock.

FRENCH METHODS.

In France they manage the habitual criminal question better than in any other country in the world. For instance a pickpocket, a professional burglar, or a habitual drunk and disorderly is brought up to his or her fourth or fifth conviction. It is proved beyond doubt that he or she is incapable of performing the duties, and therefore of exercising the rights, of a free citizen; sentence, is passed for the last time, a term of imprisonment is imposed which is really a preparation for the new life which the hopeless case, the piece of human refuse, is to lead.

At the expiration of your sentence you will be placed in relegation," says the judge.

That means banishment for life. The criminal never sees his old haunts, never mixes with his old comrades, he has got to work, and if he won't do that, he will find his food cut down and himself in prison, which is made just about as uncomfortable for him as he can be.

France possesses two of these dumping grounds for human refuse, as they may be called. One is French Guiana, which is about one of the best places in the world to get out of and stay away from. The other is the Isle of Pines, which is a coral-fringed paradise far away in the South Pacific one of the most beautiful spots ever trodden by human feet, or darkened by the presence of human crime.

Their working day is about seven hours and a half. They are well treated, well fed, and by no means overworked. Of course, very few of them know anything about a trade. Their only idea in life has been to loaf from the cradle to the grave. Those who can never be made into workmen or workmen are put on the fields, farms and coffee plantations. Others are taught trades, and are made into less, shiftless loafers of the slum, blacksmith, wheelwright or stone-mason.

IN AN EFFORT TO SECURE SOME BENEFICIAL RESULTS TO THE SAILING MAN THE FAMILY IS SPENDING A FEW DAYS AT SALT LAKE IN MR. MAXWELL'S SPECIAL CAR.

An increase in passenger rates on the Portland-San Francisco steamer is announced by the Oregon Railway & Navigation company. The new rates go into effect tomorrow, when a cabin passage between these places will cost \$15 and steerage \$10. Both rates include berth and meals.

It is expected that a party of fifty newspaper men from Denver will arrive here tomorrow for now the Union Pacific. Among them are Geo. Carpenter of the "News," Kenneth Kerr of the Tribune and Archie McKay of the Herald city. The travelers are under the special care of J. D. Lomax, general passenger agent of the Union Pacific. Alfred Darlow, advertising agent, is also assisting to play host.

On last Sunday night B. A. Eastman, Fulmer, conductor on the Rio Grande Western, walked or fell off the rear platform of No. 5, while the train was in motion and so badly injured the latter, and without gaining consciousness, he died at the hospital at Grand Junction. His family lives in Denver. Concussion of the brain resulted from the fall and was the immediate cause of death.

The case of the Southern Pacific railroad against the state of Nevada for an adjustment of taxes was argued before Judge Hawley of the United States circuit court at Carson City, Nev., yesterday. The board of assessors raised the taxes from an average of \$11,000 per mile to \$20,000. The company claims the assessor acted without authority and taxed the company beyond the earnings of the road. Judge Hawley took the matter under consideration.
