

LOCAL BUSINESS HAS BEEN HEAVY

A Vast Amount of Salt Lake Capital is Going Into Nevada Mines.

A STRONG REALTY MARKET.

Ground is Broken for the Gold Depot—Building Activity—Brick Outlook Good.

The local business situation for the week is more promising than ever, as the spring is opening early, and the general commercial atmosphere seems permeated with the sense of imminent prosperity. The banking situation has not been punctuated with any specially noticeable features, but the amount of business transacted has been steady and encouraging. There has not been much of a demand for money this week, and many people have been investing in mining stocks. Bankers report a sizeable boom in mining, approximating the excitement of six years ago, only that this time the excitement has a more substantial backing, through the permanent development of the great copper properties in eastern and southern Nevada. It is stated that the public does not realize the amount of investing that is now being done in this class of properties.

The substantial character of the present condition of the Salt Lake banks is illustrated in the Zion Savings Bank & Trust company, whose resources and liabilities on the 28th of February amounted to \$5,120,000, with deposits at \$4,734,000. Both of these figures are an increase over the corresponding figures of the month of February last, when the deposits of the same month last year by \$355,000. The clearings for the week are once more considerably in excess of those of the corresponding week of 1906, in fact the entire financial trend of the city appears to be on the upward path, with "Excellior" for its motto.

THE REALTY MARKET.

The real estate market continues in a healthy status. While there have not been transactions of special note, there is a steady inquiry, and quite a number of moderately sized transfers which indicate gratifying conditions. It is pretty well settled that the erection of great buildings south of Fourth Street will require such heavy footings and extensive subsoil work generally as to entail an extra expense out of proportion to the value of the property. Consequently, it is safe to say that in the future large structures will go up between South Temple and Fourth South streets. Real estate dealers report a number of houses, and say that if there were 100 moderate sized dwellings within reach they would be sold immediately, if not sooner. It is currently believed that there will be 10 times that number erected this year, and all occupied without delay.

BUILDING ACTIVITY.

Work on the new Gould depot grounds has already begun, and bids are being opened and considered in Chicago for building the main structure, results from which are expected to be learned in this city daily. Contractor A. Campbell received a message yesterday afternoon stating that his bid was being considered, but no further information was given. The wooden heating over the new concrete structure of the Bell Telephone building in this city has been removed, as the weather now allows of open air work, and the spaces between the supports are being rapidly bricked up. The construction has been resumed on the Utah Savings & Trust company's building on South Main street, so that the seventh story will be completed this month. Nothing has been done of special note this week on the Newhouse buildings proposition beyond serving notices on occupants to vacate by April 1. The Sharp apartment house is well under way, at South Temple and E streets, to be filled right up as soon as ready for occupancy. The Salt Lake Public Service company's great concern.

Simply Swallow

Many Eat as Though They Were Blind And Their Tongues Cut Out.

Dyspepsia is built on confidence—too much confidence in the ability of your stomach to digest anything and everything you put into it. In this age we have developed speed in every line of action, and we have also developed speed in mastication. We don't take time to eat right, and sometimes we don't eat the right kind of food. Sometimes we carry our business to our meals and as a result eat mechanically. We eat as though we were blind and our tongues cut out. We simply swallow.

The result is that the food we eat is half chewed, and lies like a lump of lead on the stomach.

You may deny to yourself that you abuse your stomach, but when you get a bloated feeling, you can't deny you've got it. When you get brash eructations, burning sensations, bloating, aversion to food, loss of appetite, belching, and other kindred ailments, there is not much else asking yourself, for the time being, why you suffer. The fact is you've got these ailments and the question of the hour is how to get rid of them at once, so that at your next meal you may be able to sit down and look at your meal straight in the face with a keen appetite and a smile, and enjoy thoroughly every bite you eat.

Just one of Stuart's Dyspepsia Tablets will digest an ordinary meal without the help of the stomach. One ingredient of Stuart's Dyspepsia Tablets will digest 3,000 grains of food. The strongest stomach could not do the work any better than one of these wonderful little tablets can do it.

Each tablet contains the strongest digestive agents it is possible to obtain. Stuart's Dyspepsia Tablets are not a patent medicine. We come out and say just what is in them—hydrochloric acid, pepsin, and astringent papain. They are recommended by 40,000 licensed physicians in the United States and Canada.

And they are recommended by everyone who uses them—they can't help it, for they immediately invigorate the stomach by letting it take a rest; they strengthen the gastric juice and cause the appetite to become keen and regular.

Stuart's Dyspepsia Tablets will surely destroy dyspepsia, brash, belching, that "lump of lead" feeling, burning sensations, indigestion, loss of appetite, and aversion to food.

Have Stuart's Dyspepsia Tablets handy where you can take one or two after each meal. Then you will know what a blessing it is to have a good appetite and to get all the good possible out of everything you eat. You'll feel rosy and sweet. Stuart's Dyspepsia Tablets at any drug store on earth.

Send us your name and address today and we will at once send you by mail a sample package, free. Address P. A. Stuart Co., 35 Stuart Bldg., Marshall, Mich.

Bring Good Health.

DR. WILLIAMS' PINK PILLS USED AFTER GRIP'S ATTACK.

Arrest Fatal Decline, Build up the System and Restore Lost Flesh And Failing Strength.

Any bodily weakness caused by a deficiency in the blood can be cured by the use of Dr. Williams' Pink Pills because these pills actually make new blood. After attacks of the grip the blood is generally run down and the patient continues to decline.

"About three years ago," says Mrs. Jennie Cowan, of 718 N. Henry Street, West Hay City, Mich., "I caught a severe cold, which ran into the grip. I was confined to my bed for two weeks. At the end of that time I was able to be about, but was completely run down. I was so weak I could hardly stand. My cheeks had no color and I felt faint. My heart would not beat. It was difficult for me to breathe at times. I could not get the back of my head and stomach and I suffered from rheumatism in my shoulders.

"I had the care of the best doctor in town but became no better until a friend told me one day how she had been cured by Dr. Williams' Pink Pills and I decided to try them. Soon I felt better and continued using them until I was entirely cured. They built me up again in perfect health and I use them whenever I feel at all sick and they always help me.

The after-effects of the grip are generally worse than the disease itself. The health of the body is badly shattered and often seems to be no way to restore it. The blood is poor, the breathing difficult and there is loss of weight. The sufferer becomes nervous and irritable and the system is powerless to resist the attacks of such diseases as bronchitis, pneumonia and consumption.

Dr. Williams' Pink Pills are invaluable in this condition, as well as in other blood diseases, because they not only drive out the germs of the disease but build up the system. The pills have cured anæmia, rheumatism, after-effects of fevers, neuralgia and many other severe disorders.

Dr. Williams' Pink Pills are sold by all druggists, or sent postpaid, on receipt of price, 50 cents per box, six boxes \$2.50, by Dr. Williams Medicine Company, Schenectady, N. Y.

GOOD BRICK OUTLOOK.

The brick men are satisfied with themselves and the world in general, as the combined output of the four local yards will amount when running in full to half a million of brick daily. The yards are now all up on back orders and sending out brick in response to spring orders. The market will need one-half the amount of brick they required last year, and the Newhouse structures are to be of steel, concrete and stone, so that there will be very few bricks used there, so that the demand this year for brick can be filled without difficulty.

HARDWARE TRADE.

The hardware trade anticipates a phenomenal rush of business this spring. The only hindrance at present being the condition of the country roads which are largely impassable on account of the mud. Prominent local hardware men say the only limitation to the spring trade when stated will be the ability to get goods with which to fill orders. In fact the only thing in the hardware line that is now not being called for is snow shovels which are a drug until next fall. The goods called for include mining machinery, harnesses, all kinds of saddlery, road plows, fencing material, structural iron work, roof material, mining camp supplies, farm and garden tools, all kinds of heavy tools, etc. Builders' hardware of all kinds, with a good prospect for a lively call for shelf hardware later. Dealers are handling immense quantities of copper goods, and are much interested in the fact that the Hecla & Calumet have announced September orders for 14,000,000 pounds at 25 cents.

AMONG THE JOBBERS.

In the wholesale dry goods trade, jobbers report duck, warp and filling satens, twills and many staple lines available for the spring trade when special uses, as in steady demand at higher prices. Many of these common goods are being purchased for delivery well through the year. The demand for printed cloths has been noticeable, as the sales since November have been very large, and supplies of gray goods have been shortening quite rapidly. An enormous demand for percales is also reported. Jobbers say that with full lines of fancy cottons for the fall of 1907 before the trade, and many high priced and medium grade families for next spring being already shown, this part of the market is active. Commission houses report that ordering of goods for the spring season is liberal than in 1906; also, that the demand for colored cottons has of late been quite remarkable. Some mills are making more business, this side of November.

Manufacturers of working men's shirts fear they cannot secure goods late this year, as the order book now is full. This is true also of denim and tickings, sales of the latter having been decidedly brisk of late. Lines of cotton wash dress fabrics for summer wear seem to be almost endless. Dealers say that practically every weave in wool and silk fabrics is also seen in cotton dress goods. Gray shades are prominent in all printed fabrics, such as gray lawns, organizes, etc. Elaborate showings are also made of imported gingham with border patterns, the ground work being in stripes and plaids. Shirt waist suits for morning wear are seen in Scotch tartans, and all descriptions of novelty plaids. Jobbers report that in spite of the fact that hosiery manufacturers and selling agents have endeavored to force back the call for tan hosiery for spring and summer wear, the demand shows a remarkable increase, and almost all orders now coming to hand are largely for tan color. This growing demand is being forced to accept to Gause effects of even lighter texture than last year are being called for, and manufacturers get around the films texture of these goods, are making them with double soles, heels and toes so that the consumer will be able to get at least one day's wear out of them.

Silk hosiery is also selling heavily for both street and evening wear, with a wide range of shades. Initial hosiery is also being worn, and with the advent of Oxford shoes, it is believed that this style will become quite a fad. Indications point to a scarcity of goods and higher prices when the season opens. The jobbing trade in this city is quiet for the present month, as at this time of year filling in of small orders with retailers is about the only business done except laying in stocks for late summer and fall trade. Dealers report the freight embargo as lifting so that consignments are being received from the manufacturers now within reasonable times as far as the railroads are concerned.

RETAIL BUSINESS.

The local retail trade reports business very good, the popular stores in fabrics being light brown shades in checks and hair line stripes, although there is a call also for the medium and darker shades and toward patterns in silks, ruffles and robes du chambre plain and embroidered. Neck scarves are finding a ready market, and millinery is doing

well. The openings for spring hats will begin about the 20th. Gloves are scarce again, and dealers say that if consumers expect to have their orders filled within any reasonable time, they must file them bright and early.

SHOE BUSINESS.

The shoemen report trade as buoyant as ever, though with stocks in hand the country over unusually small, while the export trade is unusually large and growing. However, Salt Lake is an exception to the rule of small stocks on hand, for one dealer claims there are enough goods in local stores to supply the town for the next two years from the standpoint of mere supply. Sales in leather goods are able to be curtailed considerably this season by the demand for white goods, as white canvas shoes. There is also a demand promised for shoes in different colored leathers. Dealers are smiling at the recent return to this country of a consignment of leather shoes from England for recalcification. It seems that there is a duty on glucose in England, and the customs duties there discovered that American leathers were being heavily treated with this substance to increase their weight. Of course this is a fraud which the Englishmen got around by charging duty on the glucose with which American sides are treated. The result is that American exporters are not sending over any more shoes of this kind, and the duty that owing to the distance of Salt Lake from the eastern markets, it is necessary to order goods three months ahead in order to have the desired stock on hand when wanted.

COAL SITUATION IMPROVED.

The local coal situation has vastly improved, with an abundance of coal in the Salt Lake yards; and when the roadways are sufficiently dried up so that teamsters can deliver with anything like promptness, the long delayed orders will be cleaned up with neatness and dispatch. In general, it may be remarked that the rapidity with which the local coal situation is being developed and increased, is well illustrated in the remarkable increase with the Western Union Telegraph company. Mr. Hayes reports that February business was 50 per cent greater than for the same month of the previous year. He says that traffic at present is almost equal to that obtained here during the San Francisco earthquake. The Salt Lake office has now 48 operatives, and in a short time it will be necessary to occupy the second story of the building where the company is at present operating.

BUSINESS NOTES.

The demoralization in Wall street abroad and the tumble in mining stocks at home, seem to have turned the eyes of investors once more in the direction of the long neglected commercial stocks. The week has seen a large number of transactions, principally among the sugars, which are in good demand. Western Idaho has led the list and large blocks of stock have changed hands; Utah preferred and common and Idaho sugar has also shared in the activity. The prices generally are those named in the quotations below, though there is an upward tendency all along the line. On March 1 the semi-annual payment of interest on the bonds of the Utah Sugar company was made and the bonds are now quoted ex-coupons. Reports from all the best fields show that last year's acreage will be equalled and many indications point to an increase. It is estimated that the Lehi factory will again be submerged, even should the Spanish Fork growers cut down their acreage.

At the end of March and the beginning of April, dividends will be paid on most of the local stocks, including Z. C. M. L. Home Fire, C. W. & M. company preferred and common, and Bank Deseret National, Deseret Savings, Amalgamated Sugar, Utah and Idaho Sugar companies, Zion's Savings Bank, plows, fencing material, structural iron work, roof material, mining camp supplies, farm and garden tools, all kinds of heavy tools, etc. Builders' hardware of all kinds, with a good prospect for a lively call for shelf hardware later. Dealers are handling immense quantities of copper goods, and are much interested in the fact that the Hecla & Calumet have announced September orders for 14,000,000 pounds at 25 cents.

| Seattle | 5,240.00 |
| Portland, Or. | 3,100.00 |

MRS. QUERNHEIM'S MURDER.

Harry Muermeyer Arrested in Connection With Mysterious Crime.

St. Louis, March 8.—Harry Muermeyer, aged 32, was arrested today in connection with the mysterious murder of Mrs. Kate Quernheim, whose body was found in a brick-lined vault in her home last evening. He is being held pending investigation into the case following the discovery of the dead.

IDAHO LEGISLATURE adjourns.

Boise, Ida., March 8.—The Idaho legislature adjourned today, the clock being turned back to noon though it was really later. The session was a busy one. Republican leader of Fremont tore up the governor's anti-pass bill and threw the same into a corner, saying that he did it to show his contempt for the bill and for its author, whom he denominated as a would-be boss.

SPLENDID REMEDY FOR OLD FOLKS.

A Harmless Prescription Which Any One Can Mix at Home.

RELIEVES THE RHEUMATISM.

Acts Promptly on Kidney and Bladder And Should be Given Trial By Sufferers.

Cut this out and put in some safe place, for it is valuable and worth more than anything else in the world if you should have an attack of rheumatism or bladder trouble or any derangement of the kidneys whatever.

The prescription is simple, and can be made up by anyone at home. The ingredients used can be had at every prescription pharmacy and all that is necessary is to shake them well in a bottle.

Here it is: Fluid extract dandelion, one-half ounce; compound Kargon, one ounce; compound syrup of sarsaparilla, three ounces.

Take a teaspoonful after each meal and at bedtime. A few doses is said to relieve almost any case of bladder trouble, frequent urination, pain and swelling, weakness and backache, pain above the kidneys, etc. It is now claimed to be the method of curing chronic rheumatism, because of its direct and positive action upon the eliminative organs of the body. It cleanses these sponge-like organs and gives them life and power to sift and strain the poisonous waste matter and with which the blood is clogged, the worst forms of Rheumatism and kidney and bladder troubles. The extract dandelion acts upon the stomach and liver and acts as an extensifier for relieving constipation and indigestion. Compound sarsaparilla cleans and enriches the blood.

As soon as anyone of your family, especially the old folks, may be attacked at any time it would be wise to cut this out and save it.

A well-known local druggist is authorized that this prescription is safe to use at any time.

Make it yourself.

THE SULTAN EXPRESSES HIMSELF IN AN INTERVIEW.

London, March 8.—The Daily Mail displays conspicuously an interview with the sultan of Turkey. The monarch, on being congratulated on his apparent good health, said that he never felt better. He expressed a wish for a continuance of the long standing friendship between Great Britain and Turkey. He referred to the case of Enver Pasha, chief of the secret police, who was exiled at the behest of the German ambassador, saying that he felt there had been an infringement of his personal dignity, inasmuch as it had been pressed upon him personally, although it was a matter entirely of Turkey's internal concern. He seemed to regard as monstrous the idea that he would shield an offender. He declared that he would see justice done even if the subject were his own son. The interviewer found the sultan keenly interested in world politics, kindly toward the Jews, who he believes, are to play a great part in history, and possessed of a great faith in the future of the Turkish empire, especially if they are true to the Koran.

CASE OF MOYER ET AL.

Atty. Hawley Says That Probably It Will be Tried in April.

Boise, Ida., March 8.—Atty. Hawley, chief prosecutor in the case of the state against Moyer, Hervey and Pettibone, officials of the Western Federation of Miners, said today at Caldwell that the case against the federation officials, who are charged with complicity in the assassination of former Gov. Steiensen, will be held in abeyance for trial about the middle of April.

EMIGRANTS FOR HAWAII.

Honolulu, March 8.—The territorial board of immigration has called to Com. Lester Sargent adding if the Spanish immigrants now en route to Hawaii on the steamer Heliopolis will be exempted from the usual \$200 bond, the sailing against state's aid to immigration.

A STARTLING PRAYER IN CALIFORNIA LEGISLATURE.

Sacramento, March 8.—Something of sensation was caused in the assembly this morning when the Rev. Schlicher, a well known evangelist, in a long and impressive invocation at the opening of the morning session, regretted that the Sunday school children, the light and anti-race track bills and their moral measures had failed to assuage the legislature and deplored that "many were evidently here to draw their corks and draw noses." The Rev. Schlicher was invited to deliver an invocation by Rev. Willis, the regular chaplain in the assembly.

The minister's words aroused the indignation of some of the members, and here is talk of introducing a resolution renouncing the language used by Rev. Schlicher.

A GRUESOME FIND.

Father and Son at Work Uncover the Body of a Young Woman.

North Yakima, Wash., March 8.—While Antoni Mayer and his son, Edward, were working for the county on the Zillah road, two miles from this place, they uncovered the body of a young woman buried by the roadside. The woman had been dead for a year, she had brown hair, gold filling in her teeth, and a brown dress of women material. The skull was crushed. The body was lying on its face, some of the hair was left on the bones. The coroner is investigating.

WALKER ALSO A FORGER.

Hartford, Conn., March 8.—That William F. Walker, the defaulting treasurer of the savings bank at New Britain, is a forger to the extent of several hundred thousand dollars, is now asserted, and the board at its session yesterday will consider this charge. The state attorney says he is in possession of evidence tending to show that Walker forged notes payable to himself as treasurer of the Baptist convention, and by so doing had been able to cover up his stealings for several years.

WOMEN WHO ARE SICKLY

and anxious to be made well again should commence taking Hostetter's Stomach Bitters. We guarantee every bottle of the genuine to be pure and in taking it you have the positive assurance that having cured others, it will cure you, too.

HOSTETTER'S STOMACH BITTERS

will strengthen and tone the entire feminine organism and cure Backache, Sick Headache, Cramps, Dizziness, Dyspepsia, Indigestion, Chills, Colds or La Grippe.

TRADE CIRCLES SHOW CAUTION

Due Largely to High Prices and A Tight Money Market.

CURRENT TRADE IS ACTIVE.

Depression in Wall Street Has Had Little Effect on the Country Generally.

New York, March 8.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say:

Depression in the stock market did not extend beyond Wall street, commodity prices ruling high and general business continuing vigorous. A few trade reports tell of conservatism regarding operations for the future due to high prices and tight money, but there is practical unanimity as to the activity of current trade, comparisons with last year's figures being almost always decidedly favorable. Several wage societies are under discussion, but may not be settled without further enhancing the cost of production or operation, but no serious strike is anticipated and higher freight rates have become necessary on some roads because of increased expenses. Many tanners announce the intention of waiting for better terms and business is restricted to descriptions of which the current take-off is light, notably branded hides. The grain markets have moved within narrow limits, aggressive speculation being deferred in anticipation of next week's statement of farm reserves. Some selling was caused by trade estimates that made the holdings of wheat and corn very large, but the movement was not extensive, as big figures had generally been expected.

CHENEY LOSES BIG SUIT.

Los Angeles, March 8.—B. F. Cheney of Boston, today lost his suit against A. Canfield, who recovered \$55,000 worth of stock in the Mexican Petroleum company, bought the 41,000 shares of stock in dispute, owned by Cheney for \$2,083 on a delinquent assessment sale. Cheney sought to show that the assessments and sale were irregular.

NATALIE DOLE LATHAM.

Well Known American Artist in Paris Commits Suicide.

Paris, March 8.—The body of Mrs. Natalie Dole Latham, who shot herself

yesterday, was removed today from her apartment to the vault of the American church, pending the arrival from New York of her father, George Lockwood, who is sailing tomorrow. Mrs. Latham's request that her body be cremated cannot be complied with, as the French law prohibits cremation except in the case of natural death. The friends of the deceased portrait painter ascribe her deed to melancholia.

Baron Rappier, Madame Grun and a marquis, who is an officer in the French army, and who was the caller on Mrs. Latham who heard the fatal shot as he was descending in the elevator, are the friends mentioned in one of the letters left by the suicide. They all extol her character. One letter left by the deceased tried to make it appear that the shooting was accidental, while in another the request was made that her wedding ring be not removed and neither her dress, a ball gown, nor her hair, which was especially beautiful, should be disturbed.

Although Mrs. Latham derived a considerable income from her paintings, it was not sufficient to maintain her in the style in which she lived. She had received no assistance from her father for two months.

No more Alcohol

As now made, Ayer's Sarsaparilla does not contain the least particle of alcohol in any form whatever. You get all the tonic and alterative effects, without stimulation. When a stimulant is needed, your doctor will know it, and will tell you of it. Consult him freely about our remedies.

We have no secret! We publish the formulas of all our preparations. J. C. Ayer & Co., Lowell, Mass.

GARDNER DAILY STORE NEWS

Boys' Day at the Boys' Store

Today is the day to bring the boys to the Gardner Store. Because more time is at your command; because there are many new styles and fabrics on display—not all, but many selected from the hundreds so far received; and because we make a special effort to care for the boys' wants on Saturday.

Suits—\$1.50 to \$12.
