

the Farmington region and are said to have become very favorably impressed. They went to the Guffey Galey well, but as expected, they obtained little in-formation from Supt. Rumbaugh, yet they saw things which indicated to them that the chances for striking oil are very good indeed.

During the day Ben T, Lloyd was busy and when night came he had se-cured leases and locations to about 40,. 800 acres of territory along the lake between this city and Ogden for an eastern syndicate. It is the intention, at an early day, to organize a new

corporation. The next few weeks will witness considerable activity in the local fields and, it is expected, at least six rigs will be in operation.

The Fountain Oil & Asphalt company has three ordered and contracted for delivery not later than May 1. One of these will be set up near Farmington, another on Antelope Island and the third on the west side of the Great Salt Lake.

## BINGTAM CONSOLIDATION.

## New Company to be Formed-Ground Adjoining the Montezuma.

deal is in progress by which the Hazel claims (Nos. 1 and 2), adjoining the Montezuma mine on the north, and the Star claim-next north-are to be consolidated and operated by a com-pany, says the Bingham Bulletin. The Hazels owned by W. J. Strickley and partners and the Star by Ben But-ler No. 3 company. The latter offers a fine tunnel site for the group. It has tunnel following a vein that has been run about 60 feet and in Hazel ground will have between 350 and 400 feet ver-tical depth on the Montezuma vein.

This movement is important, as sur-face indications tell of a good ore body under Montezuma ridge. The Hazels have their discovery in Markham and extend into Freeman gulch, where all operations will be conducted from the Star tunnel site.

## THE WEEK ON 'CHANGE.

### Business Has Been Light - Trading Confined to a Few Leaders.

The trading of the past week has been confined to a few of the leading stocks, principal among them being Daly and Daly-West. The former has maintained its strength well, while the latter has been subjected to further declines. Considerable interest is being centered in mining circles upon the meeting of the board of directors, next week, as the opinion is widespread that the dividend will be cut, as a consequence of the bearish movement inaugurated sometime ago. The directors are silent as to what their probable action will be, yet there are good reasons to believe the cut will be made in face of the fact that officials of the company insist that physical conditions are not in the least impaired at the mine. A few lots of Grand Central have changed hands dur. Grand Central have changed hands dur. Grand Central have changed hands dur. ## BLUE JAY EXTENSION.

## Encouraging Conditions Reported from That Property.

George Teasdale, manager of the Blue Jay Extension mine, located near In-dian Peak in Beaver county, has ar-rived from camp and brings encouraging news from that property, now undergoing development.

At present, Mr. Teasdale states, all energy is being directed towards reach-ing the ledge snown upon the surface west of the shaft. A fissure has been followed for a distance of 106 feet, and shows strong mineralization. It is expected that the junction with the main ledge will be found in another 25 feet. Mr. Teasdale will return to the mine again early next week.

### HAYWOOD MAKES SERVICE

### On Acting Manager Mays of the Majestic. Who is in the City Today.

It is quite likely that the receivers appointed for the Majestic Copper Min-ing and Smelting company in Colorado and this state will lose their jobs in a few days though an order from Judge Marshall of the Federal court, before whom certain creditors of the company have instituted proceedings in bankruptes

Service was made upon Acting Man-ager M. M. Mays by United States Marshall Ben Heywood this morning, shortly after Mr. May's arrival from Beaver county.
