### THE OCCLUSION OF AN ANCIENT LANDMARK.

# FOOD POISONS.

### 90 Per Cent of All Diseases the Result of Undigested Putrefying Foods.

Men of affairs, women of society and children with active brains are too often sedentary in their habits, giving little time to exercise. To this evil is added that of high and irregular liv-ing—as a result, the stomach cannot stand the demands made upon it. The abused and overtaxed stomach does not properly do the work of digestion, food taken in ferments and the poison nermeates the whole system. The body loses in weight and becomes a prey for the attack of whatever di-sease it may encounter.

body loses in weight and becomes a prey for the attack of whatever di-sease it may encounter. Did it ever occur to you how busy that stomach of yours is? It only holds three plats, but in one year you force it to take in 2,400 pounds of material, digest it and prepare it for assimila-tion into the blood. No wonder it re-bels when overworked. We crowd it with steaks and pastry, irritate its juices with spices and acids, and ex-pect the stomach to do its work. It can't do it. All over the inner layer of the stomach are glands which se-create the juices necessary to diges-tion. The entrance of food into the stor ach is the signal for these glands to do their work. The more the food and the more indigestible, the greater the demand upon them and upon the muscles of the tons of high-seasoned

Think of the tons of high-seasoned game, sweetmeats and appetizers crammed into this little four-ounce mill, and then wonder, if you will, why you are dizzy or nauseated or consti-pated. Don't blame your stomach or curse your fate that you should be born so unfortunate. Blame yourself curse your fate that you should be born so unfortunate. Blame yourself and apply the remedy. First, get a small package of Stuart's Dyspepsia Tablets, taking one after each meal and at bed time. They are not a medicine, but a digestive. Your stomach is worn out and needs help, not medicine. Stuart's Dyspepsia Tab-lets will do the work that the stom-ach fails to do. There's enough pow-er in one grain of Stuart's Dyspepsia Tablets to digest 3,000 grains of or-dinary food, so you needn't fear that anything you eat will remain in your stomach undigested. Stuart's Dyspepsia Tablets will rout the poison because they remove the cause—food fermentation. They are nature's own cure for dyspepsia. The host of troubles dyspepsia is father of cannot be numbered, for a healthy stomach is the source of all health. Seize your opportunity before worse conditions confront you. After reading Webster's definition of "fillbuster," with its varying uses and synonyms, Mr. Carmack said that the remark of Mr. Gallinger had branded him as "a marauder, a pillager, a buc-caneer, a sea robber, a freebooter and a pirate upon the seas." In fact, he said, "I have been accused of about almost everything except appendicitis. So branded, I am to be retired from this body and sent to my home, for I cannot defend myself by attacking the character or the credibility of the sen-ator from New Hampshire. I cannot discredit him truthfully, and therefore cannot discredit him at all."

Tennessee Stands by the Constitution and Webster's Dictionary.

Washington, D. C., March 3 .- Never before has the senate appeared to relish so much an attempt to kill legislanon by filibustering methods. Mr.

Carmack, director of the minority requement against the bill, at no time

tried to hide the fact that his effort was a filibuster pure and simple. He

came into the open by addressing him-self principally to the term "filibus-ters," which Mr. Gallinger only yester-

minutes, with the obvious purpose of killing time, Mr. Carmack looked at his watch and remarked: "Well, I see I must be hurrying along." At this the senators on the floor shouted their amusement. To give Mr. Carmack a rest Mr. Du-bois asked to be permitted to read from a very interesting document on the subject of ship subsidy, and Mr. Spooner protested that as Mr. Carmack was in so great a hurry to conclude it would not be fair to interrupt him. The Tennessee senator, however, said he was sure that any contribution from Mr. Dubois would be valuable and he should be glad to permit it to be read and incorporated in the body of his re-marks. Mr. Dubois then read at length, and when he had concluded a very technical paragraph to which few senators paid any attention, Mr. Car-mack asked that the last paragraph be repeated, as he regarded it of great importance. Laughter followed, and as Mr. Dubois sai down Mr. Gallinger interrupted to reply, he said, to what he though had been an unwarranted attack upon him. At this juncture a colloquy occurred between Mr. Gallinger and Mr. Car-

Mr. Carmack referred to the bill as voting a "subvention." and Mr. McLaurin asked the difference between "subsidy" and "subvention." Mr. Car-mack answered: mack answered: Subsidy by any other name smells

as bad." Mr. Carter added to the spirit of levity by interrupting the reading of letters from shipbuilders by Mr. Over-man, who was giving Mr. Carmack a

For many years Trinity church, New York, was the most conspicuous feature of the lower part of Manhaitan Island. Its lofty spire was the first point that attracted the eye of the incoming foreigner and convinced him at once that architecture was not a thing unknown in America. Now, however, the noble old structure lies buried in a group of skyscrapers, above which the pinnacle of its beautiful spire peers regretfully. As shown in the picture, the back of the church occupies the foreground, the elevated railroad close up to the churchyard wall. There is a station of the subway in front of the church property on the Broadway side.

## AGRICULTURAL BANK FOR THE PHILIPPINES. WANT TO CHECK

Washington, D. C., March 3 .- By a vote of 187 to 69 the house today passed the senate bill providing for the establishment of an agricultural bank in the Philippines. The passage developed diametrically

opposite views on the part of the two leaders of the minority, Mr. De Armond of Missouri voting for the measure, while Mr. Williams, the minority leader, stood squarely against it. The following Democrats voted for the bill: Alken (S. C.), Bankhead (Ala.), De Armond (Mo.), Howard (Ga.), Kline (Pa.), Legare (S. C.).

(Ala.), De Armond (Mo.), Howard
(Ga.), Kilne (Pa.), Legare (S. C.),
Ransdell (La.), Ruppert, N. Y.), Sherley (Ky.), Small (N. C.), Taylor
(Ala.), Wiley (Ala.). But two Republicans voted against
it, Darrah (Mich.), and Mann (Ili.). While the bill was under discussion,
Mr. Rucker of Missouri made the direct charge that certain Democrats
in favor of the bill had been the guests of the scretary of war on his
trip to the Philippines last year,
which, he said, might account for the position taken by these genitemen,
who were Messrs. De Armond, Sherley, Wiley and Howard.
In reply Mr. Sherley said that the "slur" cast by Mr. Rucker upon the Democrats who voted for the measure was uncalled for, in view of the fact that the man who had seen the Philippines ituation was better able to legislate than the man who had vague ideas as to conditions.
The Rucker of Missouri was recognized as a member of the committee.
He wanted to know if the bill coll be passed without amendment.
"The house can pass an elephant under suspension if the party in charge of the measure was recognized for that purpose." replied the speaker as in the line of lending much needed as in the line of lending much needed as in the line of lending much needer as in the bill, expressed the opinion that the United States had been guilty much "steal" there was in ship sub-sidy, Senator Frye of Maine rebuked the whole proceeding as undignified. For the senate to hold a session on the Sabbath day, he remarked, for the sole purpose of frivolous debate for the amusement of the galleries was about the most unseemly proceeding he had ever witnessed. While he spoke Mr. Frye turned so as to face Senator Car-mack, who was seated. He at once arose and repiled: "If the senator refers to me, I will say that i am not responsible to him for my conduct, and I shall conduct my-self according to my own notions of propriety. If the senator from Maine does not like my manner, he has my permission to leave the chamber and go where he can attend church, if he would prefer." "I the senator wishes to take a re-cess until tomorrow I shall not inter-fare with it," suggested Mr. Carmack, "The senator knows I cannot," was the reply. "Well." continued Mr. Carmack,

"The senator knows I cannot," was the reply. "Well," continued Mr. Carmack, "the senator is evidently much more concerned about the defeat of this bill than anything else." Mr. Carmack then declined to yield further to Mr. Frye, although the latter attempted to interrupt. Shortly after this the incident was closed by the restoration of amily. Senator Carmack expressed regret that the incident had occurred. He had spoken, he said, on the impulse of the moment and withdrew what had been said. Senator Frye, too, expressed the same sentiment and explained that he had not meant to address the senator from Tennessee personally in his criti-cism. Mr. Grosvenor of Ohio, who advo-catew the bill, expressed the opinion that the United States had been guilty of more wrongs toward the Philippines than Spain had been, and Mr. Long-worth thought the bank bill should be passed as a crumb of comfort due in the face of failure to pass the Phil-ippine tariff bill. It was here that Mr. Rucker made his charge that Seey. Taft had won the support of members while they were his guests on the Philippines trip.

## HIS FRIENDS HARD AT WORK.

Riot Inquiry Tedius and Costly-Canal Expenses May Exceed Limit Set by Congress.

Special Correspondence.

Washington, Feb. 25 .- Certain Republican politicians are working hard to check the boom of Vice President Fairbanks, whose campaign for the nomination in 1908, as has been pointed out in these dispatches heretofore, has long been acknowledged to be making more satisfactory progress than that of any or the other candidates, avowed or receptive. Ex-Governor Durbin of Indiana. Mr. Fairbank's own state, is leading the anti-Fairbank's crusade and numerous conferences have been held in Washington and elsewhere the last few days for the purpose of bringing about some tangible results. In the meantime Mr. Fairbanks' friends are going ahead quietly with the work of building up an organization, and evi-dences of their success are coming from many places. It remains to be seen whether or not the fight on the vice president in his own state will be effective or not. publican politicians who come to Wash-ington these days continue to insist that the party should renominate Presi-dent Roosevelt regardless of Mr. Roosevelt's well known views in the premises. One of these is Cecil A. Ly-on of Texas, the Republican "boss" of that state, who is chairman of the state executive committee and member of the executive committee and member of the national executive committee.

Secy. Taft has caused something of a flurry in congressional circles by an assertion that in the event the en-ma canal exceeds the cost limitation fixed by Congress he, if the matter is left in his hands, will go right ahead with the work on the waterway and look to Congress to provide the addi-tional cash. While the secretary did not say that the estimate might exceed the cost limit, it is regarded as highly probable that such will be the case. He has made it quite clear that he fa-tors the plan of completing the canal by contract. Recently two or three metropolitan papers have published statements that the government has decided to abandon the site for the fatum dam, which is the key of the twole canal scheme as at present con-templated and without which a lork and dam waterway will be impossible sovernment has any such intention and ays, on the other hand, all available information tends to confirm the judg-ment of those responsible for the selec-tion of the Gatum site.

A party of congressmen were direction of the suppression of papers printing all the details of the murder trial which has been agitating New York and the country generally for weeks when Mr. Littlefield improved the opportunity to give his views. "If it were not for the newspapers of the land, with their corps of trained cor-respondents here in Washington," said he. "I believe I would not care to serve in Congress. My experience here has in Congress. My experience here has taught me that the newspapers per-form a service of inestimable value to the country. I sometimes think that Congress would drift into many ex-cesses if the press galleries were not here to keep us within bounds."

## GREAT SCARCITY OF LABOR IN CALIFORNIA.

WOMEN SUFFER

Many women suffer in silence and drift along from bad to worse, know ing well that they ought to have immediate assistance.

How many women do you know who are perfectly well and strong? Thecause may be easily traced to some feminine derangement which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, dragging sensations, flatulency, nervousness, and sleeplessness,

and sitepiessness. These symptoms are but warnings that there is danger ahead, and un-less heeded, a life of suffering or a serious operation is the inevitable result. The best remedy for all these symptoms is

Lydia E. Pinkham's Vegetable Compound made from native roots and herbs. No other medicine in the country has received such widespread and unqualified endorsement. No other medi-
