SAVE YOUR HAIR

TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S

KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles, of which the following is

A FAIR SPECIMEN

I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.

COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequaled.

1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.

FORTY-FIFTH CONGRESS.

SENATE.

WASHINGTON, 29.—The Senate considered the pension cases. Among the bills passed was one granting a pension of $50 a month to Ann M. Paulding, widow of Hiram Paulding, late senior rear-admiral U. S. N.

A bill increasing the pension of Dr. Mary E. Walker to $20 per month, and the House bill granting a pension of $50 a month to Mrs. Eliza B. Anderson, widow of Gen. Robert Anderson, United States army, passed.

The Senate resumed consideration of unfinished business, being Edmund's resolutions in regard to the 13th, 14th and 15th Amendments to the Constitution.

On motion of Conkling, it was agreed, without division, to go into executive business.

The Vice-President laid before the Senate the bill which passed the House yesterday, to restrict Chinese immigration. Referred to the committee on foreign relations, and the Senate went into executive session.

When the doors reopened, Allison was appointed a member of the judiciary committee, in place of Christiancy. Adjourned.

HOUSE.

WASHINGTON, 29.—Blount moved to go into committee of the whole. Conger and Hooker inquired if the morning hour was not the regular order.

The speaker said no.

The vote on Blount's motion resulted, by tellers—yeas 88, nays 82, and the yeas and nays were demanded by the republicans. The democrats voted in the affirmative though a few southern members voted with the republicans in the negative. The vote resulted—yeas 118, nays 115. There was a good deal of excitement and a number of changes were made. The House then went into committee of the whole on the post office appropriation bill.

Foster submitted an amendment repealing the proviso to the bill making an appropriation for the deficiency in the appropriation for postal transportation by railroads for the fiscal year ending June, 1879, which forbids any increase in the postal car service beyond what existed on December 1, 1878. Adopted.

Baker, Indiana, moved to increase the appropriation for route agents from $1,075,000 to $1,125,000. Adopted—yeas 106, nays 70.

The committee then rose and reported the bill to the House. The first amendment on which a separate vote was demanded was that increasing the appropriation for clerks in post offices from $3,460,000 to $3,600,000. The amendment increasing, from $1,900,000 to $2,000,000, the appropriation for letter carriers was agreed to—yeas 137, nays 92.

The following amendments were agreed to: Increasing the appropriation for transportation on Star routes, from $5,690,000 to 5,900,000—yeas 172, nays 53; for railroad transportation, from $8,715,000 to $9,000,000—yeas 118, nays 87, and for steamboat transportation, from $7,500,000 to $9,000,000—yeas 120, nays 86.

The House then, without final action, took a recess until 7.30 this evening, the session to be for the consideration of reports from the committee on commerce.

EASTERN.

Destitute Americans.

NEW YORK, 29.—The steamship *City of Para*, from Rio Janeiro and Para, brings from the latter place 100 destitute Americans who had come down the Amazon from Stantonce Fort, on the Madeira, where Collins & Co. have been engaged in building a railroad. The men were found in Para in a wretched condition, being without money and sick. There yet remain 120, and they will probably be brought on the next steamer.

The Chinese Bill in the Senate.

WASHINGTON, 29.—The bill restricting Chinese immigration was received from the House, and laid before the Senate this afternoon. On Sargent's motion it was referred to the foreign relations committee. Sargent accompanied the motion with remarks specially inviting attention to it, and expressing the hope that it be reported back promptly, the committee having had a similar bill before them during the whole of the present Congress. If the committee does not report the bill back to the Senate, Sargent will move to discharge the committee from its further consideration, and is confident that it will obtain the vote of the Senate, whether the committee recommends its passage or not. All other Pacific coast senators share this confidence, but all use their utmost endeavors to make its passage absolutely certain.

The N. Y. Custom House Nominations.

In the executive session, to-day, Thurman withdrew his motion that the Senate should consider the New York custom house nominations with open doors. Conkling expressed the desire that the Senate should take them up for consideration to-day, with final action as soon as practicable, but Matthews suggested that Secretary Sherman's rejoinder to General Arthur's reply would probably be ready to-morrow and he therefore moved to postpone the consideration of the nominations until that time, and Conkling moved to amend by postponing the subject until Friday. This was agreed to without debate.

The Potter Investigation—The Ciphers.

When the committee reassembled General Brady resumed the stand and gave to the chairman the telegrams referred to in his testimony of yesterday. Translated they read as follows:

"Tallahasse, December 1st.

To John Wing, Washington:

Florida will go for Hayes.
(Signed) BRADY.
Washington.

To Gen. Brady:

Florida is in trouble. I speak advisedly. Have no other fear.
(Signed) JOS. N. TYNER.
Washington.

To Gen. Brady, Tallahasse:

Reliable information here says the democrats claim two of the Florida returning board. Do you believe it?
(Signed) WING.
Tallahasse.

To John Wing, Washington:

We have no intimation of treachery except on the part of one of our own number. If we come to grief it is through him, the New Yorker. We are advised he recommends contrary to our interests. His many and suspicious interviews arouse suspicion.
(Signed) BRADY.

By the chairman: Who was meant by the New Yorker. Answer—General Barlow.

Several other telegrams were read, but without significance. The last one relates to the conclusion of the count, and states that the State had gone for Hayes, etc.

The cross-examination showed that John Wing was a fictitious name for Judge Tyner, and the cipher used was arranged before General Brady left Washington. The cipher had been destroyed, and he presumed Tyner had destroyed his copy.

Assistant Postmaster General Tyner was sworn. He had recently been informed by General Brady that the committee were about to examine the cipher telegrams, and he feared that as they, or a portion of them, had been once in his possession, it would lead to a misconstruction and probably mix him (Gen. Brady) up in the affair. Tyner then desired to say a word regarding the testimony of the Western Union officials, Green, Carey and Grant. The testimony of Green, to effect that telegrams passed between himself and John N. Foster concerning the sale of certain offices, and between himself and Z. Chandler, regarding the appointment of Indian agents, had no warrant whatever in their contents. The idea of Carey that the telegrams in question related to a dirty piece of political engineering was entirely erroneous. He would verify this by producing all the telegrams sent by him bearing upon the subject under investigation. Tyner then related how he got possession of the telegrams and said he was now ready to produce them in their entirety.

Disastrous Fire.

ST. JOSEPH, Mo., 29.—The furniture establishment of Louis Hax, Fifth Street, and the large wholesale dry goods house of J. W. Bailey, were burned early this morning. Hax's loss on stock is $100,000, and on the building $12,000. Bailey's loss on stock is fully $100,000; building $20,000. Hax's insurance on stock is $36,000; building, $11,000. Balle'ys insurance on stock is $65,000; building, $18,000.

The Investigation of Judge Blodgett.

CHICAGO, 29.—Before the Blodgett investigation committee, today, the defendant claimed that no orders were ever suppressed by him, and showed, by a letter from prominent business men, including the first bankers in the city, that the amount obtained from the sale of the Hessing notes was the largest that they could be sold for. Most of the writers had declined to take the notes except for much smaller sums than were finally obtained. These letters are now on file in the assignee's reports. Wm. H. Bradley, for 20 years clerk in the United States courts here, identified the two decrees of the sale, one for a public and the other for a private sale of the Hessing notes, but could not say why, after the public sale had been advertised, a private sale should be decreed. Witness would not say positively that the entry on the books directing the private sale was made later than the date under which it appeared. He did not think the docket had been tampered with. The law reporters of the various city papers say the date on which this sale was made was April 16, 1874, and testified that they would have made an extended notice of the sale of the Hessing notes had they seen the decree on the record book. As they had not mentioned such record in their law columns, they were constrained to believe the order was not on the book, as it now appeared to be. C. F. Pietsch, secretary of the Illinois *Staats Zeitung* Company, testified that the 170 shares of stock which secured the notes for $20,000, given by Hessing, and which, under the order of court, were sold to Henry Greenbaum for $5,000, were worth 133c. on the dollar, or nearly $36,000. Hessing's financial standing on the date in question was good, so far as judgments against him were concerned.

The Rose Inquiry.

Charles DeRudio, first lieutenant, Seventh Cavalry, testified in the Reno case, to-day, that Reno was the first one to cross the river to attack the Indians. The retreat was like a panic, because the men refused to obey witness' orders to remain and he was cut off in the timber where he heard a heavy volley firing down the river. He believes it was Custer. The Indians passed so close to him that he could hear their children crying. They fired the woods and moved away on the morning of the 28th, some being dressed in the massacred soldiers' clothes, and one were Captain Thomas Custer's garments. He saw nothing indicative of cowardice in Reno; he acted "splendidly." More Indians attacked Reno than Custer. Edward Davern, orderly to Reno, gave his testimony, which was not vital.

WESTERN.

Press and other Comments on the Chinese Bill.

SAN FRANCISCO, 29.—The leading journals comment on the passage by the House of the anti-Chinese bill.

The *Call* congratulates the community on the action of the House and claims that the Senate cannot refuse prompt passage without throwing away all chances of a republican victory in California in the next congressional election.

The *Post* approves the measure, and argues that the manner in which the question was managed through the transient democratic success will not affect the relative status of the parties in California in the coming election.

The *Alta* is silent.

The *Chronicle* contents itself with a brief editorial review of the nature of the bill and its management by the democratic members.

The *Bulletin* considers that the bill will solve the troublesome industrial problem, and dwells strongly on the protection it will afford against epidemics, citing the plague now prevailing in the orient and the previous small pox visitations on this coast. It believes the Senate, by promptly passing the bill, can deprive the democracy of any advantage they have gained in the House.

The *Sacramento Record* characterizes the manner of the passage of the bill as a desperate attempt on the part of the democrats to recover their lost prestige in California, and the bill itself as a glittering generality, which should be repudiated, together with the party that offers it.

The *Examiner* approves the bill, giving the democracy mainly credit for it. Local representatives of the democratic party are jubilant over the action of the House and claim the bill is strictly a democratic measure.

The republicans regard it as an attempt to make democratic capital, but are grateful for it as restrictive measure.

Kearney calls it a mere political dodge and says that Congress would never have touched the question but for campaign purposes.

Ex-Minister to China, F. F. Low, believed the bill would be of little practical effect, as the Chinese could be landed in British Columbia and thence make their way to California. He looked upon the measure as an attempt on the part of certain politicians to obtain the support of the sand lots. At the Chinese Consulate the bill is considered antagonistic with the treaty provisions and likely to result in complications with Great Britain.

FOREIGN.

GREAT BRITAIN.

The U. S. Ship "Constitution."

LONDON, 29.—Minister Welch, in his letter of instructions to the solicitors for the *Constitution*, says the *Constitution* is a national ship and her cargo was in charge of the United States government, for public purposes. Under the circumstances, I cannot recognize that the high court of justice has any jurisdiction. The counsel for the crown also opposed the motion and said the granting of the application might even result in war between Great Britain and the United States. Judge Phillimore said that in no case had such application as this been granted, and there were no circumstances in the case to take it out of the ordinary category.

FRANCE.

Ministerial Crisis.

PARIS, 29.—Everything indicates that President MacMahon will resign. It may be considered that he has already morally done so. To-morrow the government will formally announce the situation to the chambers.

Dufoure, this morning, had a conference with President McMahon, the result of which is not yet known. It is generally believed the Marshal persists in his refusal to sign the decree. After the conference, a cabinet council was held alone, and another this afternoon, when the president of the senate and the president of the chamber of deputies were present. Rumors of an immediate resignation of the marshal and the assembling of the chambers in congress obtain general credence. It is believed the chambers would elect Grevy or Dufoure president of the republic, and report the president's refusal to sign the decrees respecting the great military commands. The senate and chamber of deputies will pass votes of confidence in the ministry, who will thus be obliged to press their demands on McMahon for changes in the staff of generals. A joint congress of the Senate and chamber of deputies, will afterwards be summoned to nominate a new president. It is possible the congress will not meet until Friday. In the interval between McMahon's resignation and the election of a new president, the council of ministers will be invested with the executive powers, in accordance with the Constitution. Much excitement prevails in Paris, but there has been no disturbance.

CONSUMPTION

is not an incurable malady. It is only necessary to have the right remedy, and HALL'S BALSAM is that remedy.

DON'T DESPAIR OF RELIEF, for the benign specific may cure you, even though professional aid fails.

READ THE FOLLOWING:

Dr. D. D. Wright, of Cincinnati, sends us the subjoined professional indorsement. "I have prescribed Hall's Balsam in a large number of cases and always with success." He adds that "in one case a patient with every appearance of confirmed consumption was restored to his usual health soon after commencing to take the Balsam."

John Kuhn, of Lafayette, Ind., writes: "One year ago I was to all appearance in the last stages of consumption, and got so low our doctor said I could not live twenty-four hours." Mr. Kuhn further states that "after taking nine bottles of HALL'S BALSAM he is now in perfect health, having used no other medicine."

The above brief extracts are taken from a

MASS OF EVIDENCE

which has been accumulating during a period of TWENTY-NINE YEARS, proving an efficacy of HALL'S BALSAM in all cases where the breathing organs are affected, and showing the estimation in which the remedy is held by the public and medical profession. Sold by all Druggists.

Price $1.00 per bottle.
