Assignment by a Heavy Stock Firm in Cheyenne.

A BOY BLOWN TO ATOMS AT LEADVILLE.

Further Details of the Mexican Earthquakes.

$25,000,000 IN SILVER COIN FOUND.

THE CATHOLIC UNIVERSITY—O'BRIEN—OTHER NOTES OF INTEREST.

By Telegraph to the NEWS.]

Heavy Assignment.

CHEYENNE, Wyo., May 16.—It became known here early this morning that late last Saturday night Swan Brothers, the well-known firm of live stock dealers, consisting of Alexander H. and Thomas Swan, had made an assignment of all the property of the firm and of the individual members of the firm for the benefit of their creditors without any preferment. The liabilities are not yet determined, but it is learned from the best authority that the assets of the firm will be largely in excess of the liabilities. Swan Brothers have been doing an extensive business throughout the west, and up to this time have met their engagements promptly and enjoyed the highest degree of public confidence and credit. The

DIRECT CAUSE

of this suspension is due to the action of an attachment, brought against A. H. Swan by the German Savings Bank of Davenport, Iowa, on a note which had been signed by Swan as surety, and when no ultimate loss could occur because of the bank being fully protected by property of the principal. This action, however, caused the creditors not advised of the real facts to become alarmed, and many claims were presented against the firm not yet due, and for which payment had not been provided till maturity, but these now demanded an immediate settlement. Alex. Swan was at the time in Europe and had no notice that such an action was contemplated on the part of the bank, and no opportunity was given him to protect himself against it. This caused a

RUN ON THE FIRM

in the absence of its managing member, which was met to the extent of $85,000, when it was decided to suspend in order to protect their property from sacrifice and place all creditors upon an equal basis. The creditors here and some elsewhere heard from, have expressed a desire that every indulgence should be given to the firm in the adjustment of their large business. The assignment is in no way connected with the business of the Swan Land and Cattle Company, and will involve no other interests than those mentioned. Alex. Swan himself stated to your correspondent this evening that the suspension is in no way due to his large cattle interests in Wyoming, which are in the most

FLOURISHING CONDITION.

DENVER, May 16.—Immediately after the news reached here several bank managers were called upon with a view to learn whether the failure would have any effect upon financial circles in this city, but owing to the lateness of the hour it was impossible to learn whether any banks or cattlemen here hold any of Swan's paper or notes.

The Oil Monopoly.

TOLEDO, O., May 16.—A plan is on foot at Lima, it is declared, to organize an oil exchange, to oppose the Standard Company. The plans have not yet been perfected, but many of the leading oilmen in the Lima fields are interested. All are angry at the last cut of oil and the lowering of the price to 27½ cents. The leaders claim that under the inter-state commerce law they could obtain equal rates with the Standard, and that they could compete with the Standard in the sale of oil in the large cities of the north and west. They claim that oil is worth a dollar a barrel for fuel and that the Standard has cleared 20,000,000 on oil already purchased in the Ohio fields. All the producers will be made stockholders in the exchange and if necessary pipe lines will be built and a refinery erected, probably at Toledo.

Terrible Tragedy.

DENVER, May 16.—A Leadville special to the News: The most shocking accident that has been reported from the Midland tunnel for months occurred near the west portal on Sunday last, in which James Manni, a boy 14 years of age was literally blown to pieces through the explosion of giant powder. On the occasion of the accident he was dispatched to the magazine for a box of giant powder, which was to be used by the drill forces, and procuring it he started to return, when the men heard an explosion, mingled with a shriek and rushing out found the dismembered form of the youth lying about the approach to the tunnel. The sight was a sickening one. The flesh and bones were scattered in every direction, while there was scarcely enough left intact to identify the youth. It is probable that having shouldered the box of powder the boy started for the tunnel and stumbling caused the explosion.

The Mexican Shocks.

SAN FRANCISCO, May 16.—The *Call's* Hermosillo, Mexico, special, to-night says: Ther courier sent by the commission now examining into the recent seismic disturbances in the Sierra Madre Mountains, arrived at Ures today, and is the bearer of the following dispatch to Governor Torres:

In the pueblo of Babispe thirty-seven persons were killed and nineteen injured. In Oputo nine were killed. Both pueblos were destroyed. The inhabitants of Babispe, Baceraca, Oputo and Gussabas are living in fields under trees and in dug outs. There have been repeated successions of shocks, although lighter than the first. A panic existed every where and a number of women died from fright. A wide extent of territory is seamed with crevices and immense chasms. The earth has sunk in many places and is flooded with water, making swamps where water never existed before. In many mountains there is to be seen what appears to be an eruption, and the continuous smoke indicates volcanic action, but none have yet been explored, owing to the continuous tremors and the great chasms, making the approach thereto at the present the most difficult and dangerous.

A $25,000,000 Find.

LONDON, May 16.—The financial secretary of India has advised the government of the discovery of an immense amount of treasure, estimated at over $25,000,000, which has been secreted in the Palace Gwalior by the late Maharajarah. The treasure has been sunk in pits under vaults beneath the Beenau. The secret was entrusted to a few confidential servants. The secretary was present when the treasure was unearthed. After removing the earth to the depth of six feet, the workmen revealed great flagstones. Beneath these were several pits filled to the brim with silver, chiefly freshly

COINED RUPEES.

In each pit was a plate recording the amount of the treasure and the names of the officials who assisted in secreting it. The Indian government has taken the hoard as a loan from the young Maharajah. The native papers protest against this action. They say that had the Maharajah been an adult instead of under a regency controlled by the government, he would never have invested his whole wealth in Indian securities. The question will be raised in Parliament as to whether the "investment" is not another name for seizure.

Assembly 126 Suspended.

PHILADELPHIA, May 16.—The general executive board of the Knights of Labor held a meeting to-night and suspended District Assembly No. 126 from the order, on the ground of insubordination. The district assembly is a national one, and includes in its membership 10,000 people who are engaged in the carpet weaving trade in one form or another. There has been for over a year past considerable trouble between the district and general executive board, and one of the most notable incidents of the struggle was the refusal to admit John Morrison, master workman of District Assembly No. 126, to the convention recently held at Richmond.

The Catholic University.

NEW YORK, May 16.—The *Times* says: The Pope, in a brief to Cardinal Gibbons, has approved some of the plans for the proposed Catholic National University. He coincides with the American bishops in believing that the administration of the university should remain forever in the hands of the prelates. The question of location, however, he leaves open, and desires the opinion of every bishop in the country as well as of those on the commission, before anything is fixed. The commission made several other recommendations. It suggests that the professorship of

SACRED SCIENCE

be open to secular and regular priests, even if foreigners, to preserve discipline, as well as profound scientific and theological training. Sulpitian priests are considered most fit for the minute government of the institution. To prevent distraction, attention from work and converting of contributions to other channels, it is advised that until the next plenary council the setting up of any similar institution be not allowed. The rector of the university must be able to give his time to it, and yet be of episcopal dignity. The commission therefore urges that the Right Rev. John J. Keane, of Richmond, be retired from the cares of his diocese and made rector of the university. Finally, it is declared that there is no intention to weaken the

AMERICAN COLLEGE

at Rome, but the bishops, on the contrary, will take care that a number of choice subjects will always be sent to be trained at the fountain heads of christianity. The members of the commission are, Cardinal Gibbons, of Baltimore; Archbishop Williams, of Boston; Archbishop Corrigan; Archbishop Ryan, of Philadelphia; Bishop Spaulding, of Peoria; Bishop Oakland, of St. Paul; Bishop Keane, of Richmond; Bishop Marty, of Dakota; Monsignor Farley, of this city; Rev. John Foley, of Baltimore; Rev. Messrs. H. L. Chapell and Slee, of Washington, and Michael Jenkins and Thos. E. Waggaman, laymen.

O'Brien.

MONTREAL, May 16.—To an Associated Press reporter Mr. O'Brien said: "I am sorry to hear I have been elected again to Parliament, but I am inclined to think Lord Lansdowne is still more sorry under the circumstances. I am thankful to my colleagues and countrymen."

Mr. O'Brien and party left for Toronto on the midnight train.

TORONTO, May 16.—In the acknowledgment of the receipt of a letter from Mayor Howland, containing copies of the resolutions passed at Saturday's Hyde Park meeting, Lord Lansdowne, after expressing the great pleasure which the passage of the resolutions gave him, said:

"It has been the source of deepest regret to me that those who have sought for political purposes to stir up strife between me and the tenants on a part of my Irish estates should have been for a time successful. I desire sincerely that the differences which have thus arisen may not prove permanent, and that the kind relations which have until recently existed between these tenants and myself may ere long be completely restored."

Corrigan's Convictions.

NEW YORK, May 16.—Archbishop Corrigan made his canonical visitation to the church of the Sacred Heart this morning. Low mass was celebrated, at the conclusion of which the archbishop spoke on the popular errors prevalent at the present time. First there was the idea that private ownership in land was unjust. This idea the archbishop characterized as a fallacy against both philosphy and common sense and as against the teachings of the Catholic Church. Those who claimed that land, like sunshine and air, was the free gift of God, and equally the property of all, overlooked the great difference that sun and air cannot become

PRIVATE PROPERTY

as can land. He declared that every man had a right to acquire by honest means as much property as he could, and cited the Indians as an example of the disastrous result of the "free land policy." The archbishop also said the idea was in direct opposition to the decrees of the Pope and that those who favored it knew that they were infringing on the ordinances of God. The second error which the archbishop wished to combat was that the Pope had the right to command and be obeyed only in matters of faith and morals, and when speaking as the infallible one. This idea had been

DECREED FALSE

by the Vatican Council, who had ordered that if any one should say that the Pope had the right to command in matters of faith and morals, but not in discipline, let him be anathematized. The Pope, however, does not interfere in matters of politics unless governments interfere in matters of conscience, and he has warned all bishops and archbishops that they must be obedient to the government under which they are.

Bloody Business.

NEW ORLEANS, May 16.—Saturday night Raymond Butsch, overseer of the Woodlawn plantation, Pisquemine Parish, forty miles below this city, was shot through both legs by an insane man named Ed. Williams. Butsch's legs were badly lacerated. This morning the sheriff of Pisquemine Parish, accompanied by George Osmond, editor of the Plaquemine *Protector*, started out to arrest the maniac. When they approached Williams he opened fire upon them, shooting Osmond through the neck, and it is thought fatally injuring him. The sheriff then pursued the maniac, who took refuge in a cabin house. The house was then set on fire in order to dislodge Williams, and when he came out to get water he was shot dead by the sheriff.

The Distress.

MINNEAPOLIS, May 16.—The Northern Pacific Company has given notice to shippers that the quarantine in Dakota and Montana against cattle is not to apply to cattle shipped to Oregon or Washington Territory, provided shippers will agree not to unload en route and will arrange to feed and water their cattle on the cars. If, however, the cattle are bound for Dakota or Montana they must quarantine 90 days before permitted to enter. In all cases cattle must be accompanied by a certificate of health, showing the state or territory where they came from and their destination.

THE CONDUCTORS.

NEW ORLEANS, May 16.—The convention of the order of Railway Conductors adjourned to-night. Early today the order went into executive session, so that the greater part of the business transacted was necessarily of a private nature. The officers were elected and installed for the ensuing term. C. L. Wheaton, of New York, was made grand chief conductor.

NEW YORK, May 16.—The *Tribune* tomorrow will say:

"An adjourned meeting of the first mortgage bondholders of the

DENVER, SOUTH PARK

and Pacific Railroad Company was held at the office of the Farmer's Loan & Trust Company yesterday. The report of the committee was approved, and foreclosure proceedings will be begun immediately to recover possession of the property from the Union Pacific, which owns the stock and operates the road of the company. Default in the payment of interest on the first mortgage bonds was made on the first of the month.

CHICAGO, May 16.—The adjourned meeting of the Transcontinental Railway officials held here to-day was barren of results. The purpose was to continue last week's effort toward the formation of a combination to prevent undue competition. Several roads were not represented, and another meeting will be held to-morrow.

THE CHICAGO ROADS

have agreed among themselves to take a proportion of 15 per cent. of what ever through rate the transcontinental lines make, in order to meet the competition of the Canadian Pacific.

NEW YORK, May 16.—An official of the Canada Southern Railroad states that the negotiations between the Canada Southern and Canada Pacific railroads are nearly completed. The Canadian Pacific will use the Canada Southern as a link from St. Thomas, Ontario, to Toledo, Ohio, where connection will be made with the Wabash Railroad which has already agreed to an arrangement with the Canadian Pacific.

Sympathy for Ireland.

LOWELL, Mass., May 16.—At a large mass meeting here to-night, resolutions were adopted vigorously protesting against the passage of the coercion bill by the British Parliament, sympathizing with the Irish people and praising the labors of Parnell and Gladstone. Speeches were made by Gen. Butler, Lieutenant-Governor Brackett and others.

General Butler said that the Irishmen had helped to fight our battles, and that we ought to pay the debt by helping Ireland in case she got into war with England.

The Jockey Club Race.

LOUISVILLE, May 16.—The week's racing of the Louisville Jockey Club opened to-day with one of the largest crowds in attendance that has been present. Col. Clark, Col. Faulkner and Captain Williams occupied the judge's stand. The track was fast and dry. The time on the whole was good. The Louisville cup, 2¼ miles, was the event of the day and proved a pretty race. Lucky B., the winner of the cup for the last two years, was again a competitor. This time he had to face the famous Montana Regent, who sold favorite. The other starter was Solid Silver, also a Baldwin entry. The latter set the pace and held the lead until he wearied, when Lucky B. failed to take it up, allowing

REGENT TO WIN

by three-quarters of a length. Murphy, who rode Lucky B., claimed a foul, but it was not allowed. Between the three-quarter and eighth poles Regent took the inside, running in front of Lucky B., but in no way interfering with his stride. At the finish Murphy was whipping Lucky B., hard, while Montana Regent was not touched. The finish excited a great deal of cheering, Montana Regent being very popular. Baldwin is said to be very angry at the result, and tonight challenged Morrissey to run Regent against Lucky B. or Volante for the cup, a distance of 2¼ miles, for any amount between $5,000 and $50,000.

Going Westward.

Stealing quietly westward from Fort Fetterman, the sixth transcontinental line is attracting little attention, but although there is no little flourish of trumpets, the work of grading is going steadily on. The Chicago & Northwestern Railway Company, which has the enterprise in hand, has recently contracted for 160,000 tons of steel rails, the greater portion of which, according to statements of officials, is to be used for new mileage. Work was abandoned on the line west of Port Fetterman last winter, but was again resumed last month.

There can be little doubt, says the Chicago *Times*, although the company has seen fit to deny it, that the one object in building westward through Wyoming and Idaho is to reach the Pacific coast. The line, as newly surveyed, will cross the Snake River at Eagle Rock, Idaho Territory, there to connect with the Oregon Pacific, in which the Northwestern directors are largely interested. Meanwhile work on the Oregon Pacific eastward is being quietly, but none the less effectively, prosecuted. Contracts have been let for the building of 120 miles of track this year. The extent of completed line will remove the eastern terminus from Corvallis, Oregon, to Camp Polk, in the same state. It is a big undertaking for a company like that of the Oregon Pacific to build a line over 500 miles in length, from the Pacific Ocean to a point so far inland as Boise City, Idaho Territory, but with the New York capital represented by John L. Blair and Perey Pyne, there can be no doubt of its ability to carry the project through. It is the confident prediction of those best posted that the Northwesteen will be running trains to the Pacific Coast before the end of 1889.

It is not yet known what will be done by the Southern Pacific in the way of the railway construction in eastern Oregon. The company has recently had a force of engineers in the field examining the resources of that Territory. The line is to be built up the Klamath river to Klamath lake. It is stated that the work on the first section of 100 miles will be comparatively easy. The road is ultimately to connect with the Oregon Railroad and Navigation company's line near the northern boundary of Oregon. It is believed to be the aim of the Southern Pacific company to wrest the key of the situation in eastern Oregon from the Oregon Pacific, which is hastening to get possession of the vast territory east of the Cascade range of mountains. It will also deal a blow to the Oregon Short line, which is at present the only means of rail communication which northeastern Oregon has with the eastern lines.

In Pesth, Hungary, dynamite has been successfully used for driving piles. An iron plate 15 inches in diameter and three and three-fourths inched thick is placed in a perfectly horizontal position on the pile to be driven. A dynamite cartridge, in the form of a disk, containing seventeen and a half ounces of dynamite is placed on the iron plate and exploded by electricity.

St. Jacobs Oil is my special for cramps.—I. M. Dickson, Hopewell, Pa.

DISEASE IMPOSSIBLE.

County of Salt Lake. } ss.
I, John C. Cutler, Clerk of the Probate Court in and for the County of Salt Lake, in the Territory of Utah, do hereby certify that the foregoing is a full, true and correct copy of an order to show cause why Order of Sale of Real Estate should not be made in the matter of the Estate of Obed Taylor, deceased, as appears of record in my office.
In witness whereof, I have hereunto set my hand and affixed the seal of said Court, this 26th day of April, A. D. 1887.
JOHN C. CUTLER,
(SEAL.) Probate Clerk.
